Where payment is made by a person who puts forward a *bona fide* claim to the property in dispute he is entitled to the protection afforded by S. 69 even though it ultimately transpires, as a result of litigation that he had not in fact or in law the interest, for the protection whereof the payment was made. 25 Cal. 305, 26 Cal. 826, Foll. A debt for money paid arises where a person has paid money for another under circumstances and upon occasions which make it just and equitable that it should be repaid ; a debt or promise to pay is then implied in law, without any actual agreement to that effect. The words "interested in the payment of money which another is bound by law to pay" might include the apprehension of any kind of loss or inconvenience or at any rate of any detriment capable of being assessed in money, while that was not enough in the Common Law to found a claim to reimbursement by the person interested if he made the payment himself. 28 All. 563 and 33 Mad. 232 Foll. and 6 All. 67 Dist. ——Ss. 69 and 70—*Scope of—Vendee aware of defect in title—Discharge of incumbrance—Right to amounts paid when title fails—Relief.*

Per *Spencer, J.*:—The vendee of properties who had received specific notice that the sale-deed standing in the name of his vendor was only nominal, unenforceable and had not been given effect to, is not a *bona fide* purchaser without notice. But where after taking the sale deed he pays off incumbrances and tries to preserve the property from the clutches of creditors, his payments are *bona fide* and he is a person "interested" within the meaning of S. 69 of the Contract Act Though it is well established that Ss. 69 and 70 of the Contract Act were not designed for the benefit of persons who are mere volunteers, a person who pays off incumbrances on the property purchased after his title is decreed in one court and before his title is declared bad by the court of appeal is entitled to claim the same in spite of the notice he had. In such a case, the ordinary relief he is entitled to is a personal decree and not a charge on the property.

Per *Devadoss, J.*:—In order to claim payments made to discharge incumbrances on property, plaintiff must show he was a volunteer and did not make the payments officiously. The onus is heavily on him to show he paid the amounts *bona fide*. The equitable doctrine of subrogation can not have any application to volunteers or persons whose conduct is officious. The distinction should always be kept in view of sales which are void, voidable and merely sham. The fact that the incumbrances were discharged after the vendee's title was declared to be good in the court of first instance but before the same was upset in appeal

will not make any difference as courts do not confer rights to property where the person had admittedly none. (*Spencer and Devadoss, JJ.*) GOPALA IYENGAR *v.* MUMMACHI REDDIAR. **17 L. W. 2.4 : 74 I. C. 416 : A. I. R. 1923 Mad. 392.**

Before confirmation of the sale, C asserted that B was the real owner of the property and that she had bequeathed by will to C the property, and mortg ging the property to D (who knew all the circumstances relating thereto) and by paying the money raised, had the sale set aside.

Held : Per *Kumaraswamy Sastry, J.*—Where a person makes a payment in the assertion of a hostile title and for the protection of his own interests, in order to save property which he claims to be his from passing out of his hands, the mere fact that the other party is benefited will not, if it is found that the person making the payment has no title, entitle him to be reimbursed. But in this case the property was sold at a sale binding on both the real owners, A and C, the benamidar and if the sale was not set aside, the title of the real owner would have been extinguished and the purchaser would have got an absolutely good title. As under the C.P. Code title vests in the auction-purchaser from the moment of the sale and as no confirmation is necessary, the setting aside by the benamidar of that sale must be treated as a re-purchase by him and the mortgage to D must be treated as money borrowed to repurchase the properties. As in this case the execution sale was not due to C. the benamidar's default or misconduct, although A was entitled to the benefit of the re-purchase by him (1). It being open to the real owner, where a person in the position of an agent or trustee repudiates his character and re purchases properties in his own name, to treat such repudiation as a nullity and to claim that the properties are held by the benamidar in trust for him and that the benamidar cannot treat the re-purchase as for his own benefit, yet A could not get the properties free from the obligation to pay the money that was the consideration for the re-purchase. Because where the benamidar re purchases the property or raises money for the purpose of setting aside the sale, it is contrary to all equitable principles to hold that the real owner who took no steps to discharge the decree and who allowed the property to be sold could step in and claim the property free from any obligations to repay the money borrowed by the benamidar for the purpose of setting aside the sale. Hence in this case D, the mortgagee had a charge on the property for the amount of the Court sale and this charge was enforceable even against *bona fide* purchasers for value.

Per *Spencer, J.*—C as the reversionary heir was sufficiently interested in the preservation of the property to be entitled under S. 91 of the T. P. Act to redeem the property or under C. P. Code. O. 21, R. 89 to apply to set aside an execution sale thereof and so, he was entitled to an equitable lien on the property for the amount so utilised, by him and D having obtained an assignment of C's rights through the mortgage deed was entitled to recover the amount by way of charge on the redeemed properties. ———S. 70—"*Lawfully*" *meaning of—Existence of an interest is a test but not conclusive in all cases*

The existence of an interest is generally a test as to the lawful character of a payment, but even if an interest were not shown to exist payments on account of another, if lawfully made, would generally be provided for by S. 70 of the Act. Where a person makes a payment to save a property in which he claims *bona fide* a share, notwithstanding that the interest claimed by him is found to be non-existent, he is entitled to reimbursement. "Does" in S. 70 includes payment of money. It is consistent with general principles of equity that those whose funds are used to meet the legitimate demands of others, when the latter have the benefit of such payments, are entitled to ask the latter to pay to the extent of the benefit, that they cannot retain the benefits and plead non-liability, and that where the codified law does not cover the case the Court should apply the general law, legal and equitable. It is necessary to be very circumspect in the application of this general principle of justice, equity and good conscience, but the terms of S. 70 are wide enough to afford ample room for the application of this principle in a fit case. ———S. 70—*Lease taken by Receiver of estate—Prior mortgagee acquiescing in Receiver's management and lease, cannot claim precedence over Receiver's expenses and rent due to landlord.*

When property is placed in *custodia legis*, by the appointment of a Receiver, all the orders passed by the Court for the management of such property will be binding on all persons who, if not actual parties to the suit, have so conducted themselves, either with regard to the litigation, or with regard to the management of the property under the directions of the Court, as to make themselves virtually or constructively parties to the suit, or have otherwise submitted themselves to such management by the Court.

Per *Spencer, Offg. C. J.*—If in pursuance of the order of the Court appointing him, a Receiver mortgages the property for raising a fund to defray the cost of his management, that mortgage would take precedence over an earlier mortgage. A landlord had a decree for arrears of rent against a tenant who carried

on a printing press in the premises. A Receiver was appointed in the course of the execution of the decree and was directed by the Court in presence of all the parties to sell the press for the best price obtainable and meanwhile to keep it running as a going concern and to pay the rent due to the landlord. Another person held a mortgage on the stock-in trade of the press. Though not a party to the landlord's suit, he became aware of the appointment of a Receiver and applied to the Court that the Receiver appointed in the suit for rent should be appointed Receiver in his own mortgage suit and opposed the removal of the press from the landlord's premises and asked that the defendant should be restrained by an injunction from removing it. *Held*: that he acquiesced in the housing of the property in the landlord's premises and in the employment of a Receiver to preserve the property and he took the benefit of its being preserved. He could not afterwards claim to have the properties, without paying any rent and his claim to the proceeds of the mortgaged property could not be given precedence over the landlord's claim for rent for the period during which the property was in the Court's management and over the claims of the Receiver for his remuneration and expenses of management. Where it is proved that defendant co-sharer was asked to join in the suit and pay his quota of the expenses and was warned that he would be responsible for the loss that might accrue by his not joining the plaintiffs in filing a suit on the mortgage ; it cannot be said that he has not had the option. But it is not necessary that he should have had option of joining in the suit when he gladly availed himself of the benefit of the plff's action Where a person does an act which is greatly beneficial to himself and which is sure to benefit another, the former cannot claim contribution from the latter ; in other words where a person is bound to do an act, or would do an act, whether another consents to it or not, the former cannot claim contribution even though the latter derives benefit in consequence of the act. In short, where the benefit to himself is great, a person cannot be said to do the thing for another within the meaning of S. 70 but where defendant applied to be and become co-plaintiff he is liable to contribute. 45 I. The contract was for the sale of immoveable property. Everything in connection with the transaction had been completed except two matters alone, *viz.*, the payment of the price and the engrossment of the draft conveyance for signature. In these circumstances the vendor's agents wrote saying that the matter must be completed without delay. To this the vendee replied that the money was ready and that the title was being engrossed. Thereupon the vendor gave a notice of five days within which the sale was to be completed. *Held*; that there was no abruptness in the conduct of the vendor and there being no abruptness in it, the unreasonableness fell to the ground, because the unreasonableness of the demand consisted not in its method but would have consisted in this that it would have put the purchaser, whose finances might have been allowed to drop owing to the dragging on the negotiations, into a position of much embarrassment on such a short notice being given. *Held*; further that it was not open to the purchaser to set up such a case because the purchaser had given, prior to that notice, the very assurance that no abruptness could be felt by the two statements that he had made, namely that his money was ready and his title was engrossed. *Held*; also that the vendee was estopped from maintaining that the facts were otherwise than his letter represented them to be. *Held*, further that, whether he was estopped or not, the circumstances of a long drawn-out transaction in which all remaining to be done was the engrossment of the deed of sale and the payment of the price, demonstrated that as between purchaser and vendor of immoveable property in a time of financial strain it was not a reasonable position for a purchaser to occupy to be unable to complete within four days. On 11th October 1917 the Respondent Company entered into contract with the appellant Company to supply 200 tons of coal monthly from November to April 1917. The respondent Company failed to supply the coal as agreed upon, and the appellant Company sued for damages for breach of contract assessing the damages at the difference between the agreed price and the market price. There was no contract to supply to the former the identical coal obtained from the collieries. On the contrary, it was expressly provided that that coal purchased, from the respondents was to be supplied from the respondents' stock. Again no contract was entered into between the appellants and respondents or between the appellants and the Ice Factory in whose favour the special indent certified by

the Dy. Controller "Coal supplies", was obtained the supply of coal being regulated on account of war, that the appellants should deliver over to the Ice Factory the coal that should be delivered to them under the contract of the 11th October, 1917. The indent was no doubt manipulated in the way in order to get the use of wagons. The appellant's name did not appear on the indent. The respondents did appear. No evidence was given as to a particular relations between the respondents and the Ice Factory. *Held* whatever those relations may have been and whatever obligations rest upon the respondents, the appellants would not have been bound, had the agreement of the 11th October been performed, to sell or deliver to the Ice Factory the coals which should be delivered to the appellants out of the respondent stock. The Ice Factory was not the appellants' only customer. Had the coals purchased been delivered to the appellants in pursuance of their contract, the latter would have been entitled to sell them in the open market at the market price and that being so, the damages were rightly assessed at the difference between the contract price and that market-price. ——S. 73—*Measure of Damages—Contract for sale of land—Breach—Damages—Measure of—Time if the essence of the contract.*

Plaintiff contracted to buy a building in the city of Bombay for 18 Lakhs of rupees and paid one lakh of rupees as earnest money to the defendant. The contract was entered into in January 1920, and the sale was to be completed within six months. The building was erected on leasehold land which had been taken by the defendant for a term of 50 years from the year 1886. At the date of the sale a tenant was in possession of the building for a term expiring in March 1920. A few days after the contract for sale the plaintiff contracted to resell the building to a person who was desirous of opening a hotel. The tenant claimed that he was entitled to a renewal of a lease from the defendant for a period of six years under an oral contract. The tenant gave notice of his claim to the plaintiff and also sued the defendant in May 1920 for specific performance to grant a further lease. In April 1920 the solicitors of the defendant sent the title deeds of the properties to the plaintiff's solicitors for investigation. In August 1920 the person with whom the plaintiff had contracted to resell the house wrote to the plaintiff stating that if the sale to him was not completed by November 1920, he would cancel the contract. The plaintiff in his turn asked the defendant to complete the sale before November 1920 making time the essence of the contract. As the defendant failed to fulfil the contract within time the person with whom the plaintiff had contracted to resell the building cancelled his contract. In a suit by the plaintiff against the defendant for refund of the earnest money together with damages to the extent of 5 lakhs of rupees the defendant counter-claimed for specific performance. *Held*, that the plaintiff was justified in making time the essence of the contract and that the time he gave was reasonable. The default therefore lay on the part of the defendant who was bound to return the earnest money and also pay to the plaintiff all the costs incurred in the investigation of title. The plaintiff however was not entitled to damages on the footing of the difference between the contract price and the market value of the property on the date of breach. (*Shah, A.C. Plaintiff sued defendant for damages for breach of contract for purchase of yarn and cloth, the defendant having failed to take delivery of the goods within the stipulated period. *Held*, that the measure of damages was the difference between the contract rate and the market rate at the date of breach. The property in the goods did not pass to the purchaser till delivery and the vendor could not resell the goods on the purchaser's account. ——S. 73—*Measure of damages—Sale of goods—Breach—Late shipment—Late arrival.*

Under a contract in writing dated 21—8—1918 defts. agreed to buy from plaintiffs 25 bales of yarn. The contract was in these terms : "This day we have purchased from you the undermentioned goods in accordance with the bazaar rules cotton yarn of Japan shipment for February-March 1918 is to be given whenever the same arrive earlier or later, and on the safe arrival of the same by steamer." On 25—9—1918 defts. wrote to p'ffs. that unless the goods were delivered in 8 days the contract was to be treated as cancelled. On 12—10—1918 the goods arrived in Bombay and the plffs. required the defts. to take delivery. On 15—10—1918 defts. replied that the 8 days' period having already expired the contract was cancelled and that they were not bound to pay for the goods or take delivery of them. In an action for damages, *held* that having regard to the express provisions of the contract with reference to late shipment, the September shipment was contract shipment which the defendants were bound to accept. The date of breach was 15—10—1918 when defendants improperly repudiated the contract. As the property in the goods had not passed to the defendants, plffs. were entitled to recover the difference between the contract price and the market price on the day of the breach. ——S. 73—*Measure of damages—Sale of goods—Date of breach.*

On 13th September 1920, the plffs. sold to the defts. one hundred bales of yarn of which seventy-five were for ready and twenty-five for September delivery. The defts. took delivery of twenty-four bales on 17th September 1920, twelve bales on 4th October 1920, and a further lot of twelve bales on 21st October 1920, but they failed to take delivery of the remaining fifty-two bales. After writing several letters to the defts. the plffs. sold the bales by public auction on 2nd March, 1921, and claimed Rs. 11,035-1-4 as difference in the contract price and the amount realised on sale. The defts. contended that the date of the breach of contract as regards twenty-five bales of September delivery was at the end of September 1920, and that of twenty-seven bales of ready delivery was in September 1920 but that they were not liable to pay damages on the basis of rates prevalling in January or March, 1921. *Held*, (1) that the property in the goods did not pass to the defts. and the plffs. could not, therefore, rely on the auction sale in March, 1921; (2) that there was no understanding betwteen the parties after the due date that if the defts. failed to take delivery of the goods the plffs. were entitled to go into the market and sell at the then market price ; and (3) that the whole of the forty-eight bales of which delivery was taken must be taken to be appropriated to the ready contract, and that the date of the breach as regards ready delivery was eight days from 13th September 1920 and as regards September delivery it was 30th September. 1920. In an ordinary contract for the purchase and sale of land where the vendor contracts to make out a marketable title the Court may find an implied agreement that without any fault on the part of the vendor if he was not able to make out a marketable title the bargain will be off and that the vendor would have only to pay the purchasers' cost of the agreement and the inspection of the title-deeds. However, if the vendor is found to be guilty of default of a deliberate nature in breaking the contract the damages will be calculated on a higher scale the measure of which will be the difference between the contract price and the market price on the breach. When the deft. through whom plff. ordered goods by an indent placed the order with their London agents the plff. who indented practically contracted with the deft.'s London agent and plff. became the purchaser from the agents of the deft. The plff. under the contract was bound to retire the draft on the due date. He having failed to do so the property in the goods did not pass to the plff. and the London agents remained the owner of the goods. The deft. who was the drawee in case of need retired the draft and obtained possession of the shipping documents but he had no right to cancel the contract and retain possession of the goods after he had retired the draft since the original contract of purchase and sale still existed. But on retiring the draft the property in the goods passed on to retiring the deft. But under the contract of purchase and sale it would only dispose of the goods on plff.'s account and until he did so the plff.'s right as purchaser to the goods on payment existed and deft. could not refuse the tender of the cheque made by the plff. after deft. retired the draft. Therefore the plff. was entitled to damages namely the difference between the market-value of the goods on the day of which he sent the cheque and the amount due by him on the draft. ——S. 73—*Measure of damages—Late delivery of goods by carrier—Plaintiff's negligence in not helping defendant to deliver in time—Market value on date on which goods would have reached destination but for plaintiff's negligence determines damages.*

Generally speaking when a carrier fails to deliver article of merchandise in the ordinary course and the goods come to a fallen market, the difference between the marketable value of the goods at the time they would have been sold if they had been carried, according to the contract, and their marketable value at the earliest period at which they could have been brought to the market after the delivery to the consignee, will be measure of damages recoverable. But where the plaintiff was guilty of unjustifiable conduct in not co-operating with the railway in tracing out the lost bale by helping them to identify the same, etc., when requested by the Railway, so to do. *Held*, that the last day of which the market value should be taken into calculation ought to be the day on which the plaintiff would in ordinary course have received the goods if he had complied with the request of the Railway and co operated with them in tracing out the lost bale. The period for delivery of the May shipment was extended to 31—10—1917 but no cloth was delivered before that date. *Held*, that the market rate on the 1st of November 1917 could be taken into consideration in assessing damages for failure to deliver the May shipment. ——S 73—*Measure of damages—Infringement of right—Nominal damages.*

Though every breach of duty arising out of contract gives rise to an action for damages without proof of actual damage the amount of damages recoverable is, as a general rule, governed by the extent of the actual damages sustained in consequence of the defendant's act. In cases admitting proof of such damage the amount must be established with reasonable certainty. But this does not mean that absolute certainty is required; nor in all cases is there a necessity for direct evidence as to the amount. Damages are not uncertain for the reason that the loss sustained is incapable of proof with the certainty of mathematical demonstration or is to some extent contingent and incapable precise measurement. Only such of approximation to certainty is required as would satisfy the mind of a prudent and reasonable person. Cases on the subject reviewed. ——S. 73—*Measure of damages—Carrier—Suit against, for damages—Loss of profit of re-sale.*

Where goods entrusted to a carrier are not delivered according to the contract the measure of damages is the value of the goods at the place of destination, in the condition in which the carrier undertook to deliver them at the time when they should have been delivered, less the proper charges of transportation and delivery, if these have not been paid by the consignee. The consignee is not entitled to the profit of re-sale, where he has procured them, for re-sale. Since S. 73 imposes no exception on the ordinary law as to damages, whatever the subject-matter of the contract, in cases of breach of contract for sale of immoveable property through inability on the vendor's part to make a good title the damages must be assessed in the usual way, unless it can be shown that the parties to the contract expressly or impliedly contracted that this should not render the vendor liable to damages. 32 B. 165, Foll. In a suit for breach of contract to deliver goods on a certain date the market price on that date is the standard for the computation of compensation and not on a later date on which the goods may have been demanded and refused. ——S. 73—*Measure of damages — Contingent contract.*

The defendant entered into a contract with plaintiffs that if any grain should remain in his hands, after he had satisfied the demands of his *asamis* for seed grain he would sell the balance of his stock, the amount of which was named to the plaintiffs at a named rate. It was common ground that the contract was to be completed within a week. The defendant parted with no grain at all to his *asamis* and failed to deliver any grain to the plaintiffs. *Held*, the contract was an ordinary contract which was not to be carried out or only to be partially carried out if certain events occurred, namely, the taking of some of the grain by *asamis*. Those events had not occurred and hence the contract should be enforced. The question of measure of damages is one quite apart from the fact that the contract is a contingent contract. The contingency on which the contract was to be enforced having occurred damages have to be ascertained in the usual manner. (*Batten, J. C.*) SATH KANCHEDILAL *v.* MOTIRAM. **68 I. C. 720 : A. I. ——S. 73—*Measure of damages—Failure by lessor to give possession to lessee is the probable profit to lessee.*

Where a person executed a lease for one year of a rice mill with option of renewal for another year and failed to give possession, *held*, in a suit for damages by the lessee, that the measure of damages was the profit the plaintiff would have made from the mill in the first year, had possession been given to him as stipulated. *Held*, further that no damages for the second year in respect of which he had an option for renewal should be awarded. In such cases there would be a duty cast upon the plaintiff to minimise the damage if he could, but the burden of proving that the plaintiff had the means available and did not take steps to avail himself of the means would lie heavily on the defendant. To this the plaintiffs added that thereafter the rate of interest was to be 12 per cent. per annum. This was denied by the defendants. *Held*, that the date at which damages for breach of contract are to be calculated is the date of the breach and the date on which the rate of exchange is to be taken for the purposes of converting the amount in English currency into rupees is the date on which under the agreement the money was to be paid and on which a breach occurred by its not being paid, and that the rate of interest that should be fixed so as to save plaintiffs from loss is indicated by the rate of interest fixed for the 83 days. A C. I. F. contract is not a sale of documents relating to goods but a sale of the goods by delivery of documents. On the other hand the buyers may, if they think proper, treat the repudiation of the sellers as a wrongful putting an end to the contract and may at once bring their action as on a breach of it and in such action they will be entitled to such damages as would have arisen from non-performance of the contract at the appointed time, subject, however, to abatement in respect of any circumstances which may have afforded them the means of mitigating their damage. *Frost* v. *Knight.* (1872) L. Deft. executed the other document above referred to and paid the third, fourth and fifth instalments duly and defaulted in the payment of the sixth. In a suit by plff. to recover the amount due under the bond, *Held*, that the terms of the bond as regards (1) the defendant's liability for future instalments from the date of default, (2) his deprivation of the dividend and interest and (3) the imposition on him of liability for interest on the amount due from him at 18 per cent from the date of his default did not either, each taken by itself, or altogether, amount to a penal stipulation. In cases like this the Court has to decide whether the terms are unreasonable as a whole and whether they are so unreasonable that the parties never contemplated that they should receive effect. ——S. 74—*Applicability—Retrospective effect.*

S. 74 was enacted in 1899, but under the law as it stood in 1897 a stipulation in a mortgage bond providing for increased interest in the case of a breach was not regarded as penalty if it referred to future interest only and was not retrospective. Compound Interest.

——S. 74—*Compound interest—Relief against penalty.*

The Courts do not lean towards compound interest, they do not award where there is no stipulation but where there is a clear agreement to pay, it is in the absence of disentitling circumstances allowed. Under a mortgage deed, it was agreed that if any of the monthly instalments of interest was not paid on its due date, such unpaid instalment of interest should be capitalised and added to the amount of the principal loan and would henceforth carry interest at the rate of twelve annas per month leviable as simple interest. A provision was further made that all such additions by way of capitalised interest should be chargeable upon the mortgaged property. *Held*, such a provision was not penal so as to bring the case under S. 74 of the Contract Act. CONTRACT ACT (IX OF 1872), S. 74—Enhanced Rate of interest.

——S. 74—*Enhanced rate of interest—Stipulation to take no interest up to a certain date but at 37½ per cent afterwards is penal.*

Under a mortgage deed a sum of Rs. 3,000 had been borrowed without interest and it was agreed that if it was re-paid on a date equivalent to the 22nd June, 1910 in one lump sum, no interest would be charged. If, however, payment was not made on that date, then interest was to run at 6 pies per month per rupee, compoundable with six monthly rests, which amounted to 37½ per cent. per annum. In a suit on the mortgage bond, *held* that the stipulation for enhanced interest, at so exorbitant a rate as that specified in the bond in suit, was a stipulation by way of penalty, and that the plaintiff was entitled to no more than reasonable compensation for the breach of contract committed by the opposite party. Where there had been no repudiation prior to suit, and the claim of the defendant was based merely on plaintiff's abandonment at the hearing of the claim to specific performance. *Held*, he was at liberty to abandon it, and the abandonment cannot properly be treated as a repudiation entitling the defendant to forfeit the deposit. CONTRACT ACT, S. 74—Interest from date of bond.

When the stipulation is restrospective and the increased interest runs from the date of the bond, and not merely from the date of default, it is always to be considered as a penalty and cannot be enforced, but where increased interest is claimed only from the date of default it is allowed. ——S. 74—*Interest from date of bond—Stipulation to pay interest from the date of bond on failure to repay the loan by a certain date is penal.*

The bond in favour of the plaintiffs stipulated that a certain sum was to be paid by the defendant within two months and in default of payment within the time limited, interest was to run at Rs. 3—2—0 percent. per mensem from the date of the execution of the bond. *Held* : that the stipulation regarding interest in the bond was by way of penalty. Interest from default.

——S. 74—*Interest from default.*

A mortgage deed provided for the payment of interest at 5 annas per cent. per mensem payable half yearly and that if a default was made in making such payment, the interest due was to be added to the principal and the whole sum was to bear interest thereon at 12 annas per cent. per mensem. *Held*, that the contract is not penal. An agreement to pay interest at an enhanced rate for the breach of contract may not be extravagant or unconscionable if the original rate of interest is paid regularly at the stipulated time. A covenant to pay compound interest is by itself not penal. S. 74 does not enact that the stipulation for the payment of enhanced interest from the date of default ought always to be considered penal. Interpretation.

——S. 74—*Interpretation—Discretion of Court—Whether penalty can be reduced.*

In spite of the exception to S. 74, the Court has discretion, according to the circumstances of the case, to reduce the amount of penalty entered in the bond executed between the parties. Meaning of Penalty.

——S. 74—*Meaning of penalty—Agreement of—Compromise—Failure to carry out*

An agreement of compromise provided "if such purchase be not completed within the aforesaid period then the interest on part of the principal money secured by the said mortgage and further charges, namely Rs. 2,90,000 should cease to run and the respondent (mortgagee) shall be deemed to be the owner of the above premises subject to the charge and mortgage mentioned in clause (a) as well as all existing encumbrances on the property and the whole of the said consideration money of Rs. 2,90,000 should *ipso facto* be set off against his claims under his mortgage and further charges." The appellant (mortgagor) refused the conveyance tendered by the respondent on the ground of delay. *Held* : that there was a duty imposed on appellant in relation to the conveyance he had to execute in favour of respondent ;that he was bound to make out a marketable title in respect of the property and appellant did not take any steps to do so, and that consequently he was not in a position to ask for the enforcement of the provision on which he took his stand. Further even if the provision might be regarded as one in the nature of a penalty, appellant has not made out any loss and is therefore not entitled to refuse the conveyance tendered. Under a compromise, the defendant agreed to pay Rs. 10 per month to the plaintiff and he would be liable to pay Rs. 15 per month, if he failed to pay Rs. 10 for four consecutive months. *Held*, that the clause to pay Rs. 15 was by way of penalty and was inserted to enforce regular payment of Rs. 10 per month. ——S. 74—*Meaning of penalty—Where reasonable compensation for breach is provided there is no penalty but where it is* in terrorum *it is a penalty.*

The whole principle of the law of penalty is this : If in making provision for breach of contract the promisee stipulates from the promisor on the breach only for such compensation as the Court would deem reasonable in the circumstances then there is no penalty and the stipulation is not penal. But if on the other hand the Court would on a proper consideration come to the conclusion that the stipulation was put in not by way of reasonable compensation to the promisee but in order that by reason of its burdensome or oppressive character it may operate *in terrorum* over the promiser so as to drive him to fulfil the contract then the stipulation is one by way of penalty. The principle underlying illustration (*f*) is that the whole of

the debt being payable immediately the creditor agrees with the debtor to allow him to pay the amount by instalments so long as he pays them regularly. But the principle underlying illustration (*g*) is that debtor by paying consideration gets the right to retain and use the amount of each instalment until the date of its becoming due and payable. If therefore in such a case the debtor commits a breach and fails to pay one instalment no doubt he becomes liable to pay to the creditor damages for such breach but to be called upon to pay the whole of the balance, in spite of the fact that he has given consideration for witholding the amounts of the other instalments till their respective due dates, would undoubtedly be in the nature of a penalty. ——S. 74—*Meaning of penalty—Question as to stipulation being by way of penalty is to be decided from circumstances of each case.*

The question as to a stipulation being penal or not should be decided according to the circumstances of each case. Where on a partition among three Hindu brothers it was agreed that one of them should instead of being given any land, be entitled to receive from each of the others an annuity and on default, should resume that portion of his share which had gone to the defaulter. *Held* : that the last clause was not by way of penalty. Nor can this be regarded as a forfeiture clause as a rerurn to the *status quo* at the time when the agreement was entered into does not vest the property in the defaulter. ——S. 74—*Meaning of penalty.*

The idea is very common that what is called a "penalty clause" in a contract is a mere *brutum fulmen*, an agreement that neither party has any intention of enforcing at all to any extent. Such an agreement would certainly not be mentioned in the Contract Act and in fact would not be agreement at all. A penalty clause merely fixes a maximum for damages which would be difficult to state in terms of money, and anyhow does not deprive the aggrieved party of his right to damages that can be so estimated. 12 N. ——S. 74—*Meaning of penalty—Interest and principal consolidated together and made payable in instalments—Default—Provision for payment of whole—Power of Court to relieve against.*

If in an instrument in which the principal and interest have been consolidated and the total amount is payable by instalments there is a default clause that on failure to pay an instalment, the whole sum will become at once due, such a provision is a penalty. Even where no interest is payable until default but an exorbitant rate is payable on default, it is open to the court to treat the stipulation as a penalty. 42 C. 652 ; 36 M. 229 foll. (*Batten, J. The plaintiffs advanced a sum of Rs. 500—and for this the defendant undertook to repay 172 maunds of paddy in the next year and the same amount in the following year. In default of delivering paddy the price was to be charged at Rs. 3—per maund. There was no suggestion that the defendant acted under any undue influence. It was found that the defendant had to pay under this agreement nearly double the amount advanced *Held*, that there was no ground for holding that the stipulation was a penalty and the Court had no power to reduce the price. It was in the interests of the party that a definite rate should be fixed for the paddy and it might have been to the advantage of the defendant if the paddy at the time of payment was selling at a higher rate to be able to pay cash instead of paddy itself. Plaintiffs sold some shares to the 1st defendant who sold 25 of them to a third party and pledged 104 along with other similar shares to the second defendant. Defendant 2 put forward defendant 3 as a party who was willing to advance money. In fact defendant 3 was a mere nominee of 2nd defendant and defendant 2 got possession of 305 shares fraudulently. The fraud was that he deceived defendant 1 by false pretences that he would use these shares for the purpose of raising a loan for the benefit of defendant which he did not do and which he did not intend to do, his real object being to secure himself from loss as regards the moneys due to him from 1st defendant. The plaintiffs sued to recover the shares and damages from defendants 2 and 3. *Held*, that the plaintiffs suit was unsustainable and the remedy of the plaintiffs was to sue the 1st defendant for the purchase money. The shares were moveables or 'goods' within S. 76 of the Contract Act and the case therefore fell within S. 121 of the same Act. The plaintiffs had delivered all they had and they could not, therefore rescind the contract on the buyer's failing to pay the price unless it was stipulated by the contract that they should be so entitled. The plaintiffs as vendors agreed to sell and deliver transfers and certificates with the interests and rights which they conveyed. Such delivery passed not the property in the shares but a title legal and equitable which would enable the holder to vest himself with the shares. On delivery of the documents there was no interest left in the plaintiffs on which any equity can be founded. As between them and 1st defendant there was no fraud or misrepresentation which could vitiate the transaction. (*Macleod, C. J. and Crump, J.*) VADILAL *v.* MANEKJI.

If S. 78 were construed as laying down an inflexible rule as to the passing of property not only would there be a serious limitation on the freedom of contract but there would also be an inconsistency with other sections of the Indian Contract Act *e.g.*, S. 7. No doubt it is curious that S. 78 should not be expressed as subject to a contrary intention but the Act is a notoriously badly drafted Act and it does not purport to be exhaustive, where the intention of the parties as expressed in the conditions of the contract was that the property in the car in dispute should not pass until full price had been paid *Held*, that intention would prevail in spite of S. 78. ——Ss. 79 and 83—*Suit for damages suffered on re-sale—Whether there was valid appropriation of goods with the express or implied consent of the defendant—Implied assent, meaning of.*

A contract was entered into on 30th Sept. 1917 for sale of 40 bales of calico to be delivered to the purchasers on 16—11—17 on payment of purchase money. The purchasers not having tendered the price, the plaintiff (seller) asked the defendant by letter to take delivery at once and pay the price ; no reply was sent to this. On January, 1918, the plaintiff instructed a firm of auctioneers to sell the goods at the risk of the defendants. On Feb. '18, they in their turn repudiated their liability under the proposed sale, asserting that the goods did not belong to them, and that the goods were not ascertained for the contract with their consent. The plff. thereupon filed a suit claiming damages alleged to be suffered on re-sale ; but there was no mention of plaintiff's appropriation of goods

with the assent of the defendants. The plaintiff was therefore asked to amend his plaint so as to include an alternative claim of damages on the ordinary basis of difference between the contract and the market rate. The plaintiff, however, chose to take his stand on the re-sale and on the action as originally brought. *Held*, that the suit was rightly dismissed for in such cases appropriation and communication thereof to the buyer should both take place before there has been repudiation or breach of the contract by either party; that no assent by the buyer can be implied by his silence after he has actually broken the contract *Held*, further, that on the suit as framed by the plaintiff, he must not be given his remedy of damages on the ordinary basis of difference between the contract rate and the market rate at the date of breach. ——— **Ss. 82 and 83**—*When property in goods passes to buyer.*

The combined effect of those sections is that where goods agreed to be sold are not ascertained at the time of making the agreement but goods answering the description in the agreement are subsequently appropriated by one party for the purposes of the agreement and that appropriation is assented to by the other, the sale is complete, and the property in the goods passes to the buyer. In order that the property may pass to the buyer it is necessary that the goods appropriated to the contract by the seller must answer the description in the agreement. Mere appropriation by the seller does not pass the property in the goods to the buyer. The effect of appropriation is that the seller loses the possibility of withdrawing the goods from the contract and he would break his contract with the buyer if he offered any other goods to him, though the goods still remained his property. The appropriation must be assented to by the buyer to pass the property. (*Mulla, J.*) N. BUCH & CO. *v.* GORDHANDAS. **24 Bom. L. R. 991 : A. I. R. 1923 Bom. 92.**

——— **Ss. 83 and 91**—*Appropriation—What constitutes—Delivery—Bill of lading—Discounting draft.*

The commonest form of appropriating goods, to a contract for the sale of unascertained goods is by delivering them to a carrier. A very common mode of doing business is for one merchant to give an order to another to send him certain goods. Here it becomes the seller's duty to appropriate the goods to the contract. The seller is by the express or implied terms of the contract authorised to select and appropriate the goods, the buyer having given a previous implied assent to the seller's appropriating. The difficulty in such cases is to determine what constitutes the appropriation. The question is one of intention but there are certain well-established rules :—(1) In the case of a contract for the sale of unascertained goods the delivery by the seller to a common carrier or, unless the effect of the shipment is restricted by the terms of the bill of lading shipment on board a ship of, or chartered for, the purchaser is an appropriation sufficient to pass the property. (2) If, however, the vendor when shipping the articles which he intends to deliver under the contract takes the bill of lading to his own order and does so not as agent or on behalf of the purchaser, but on his own behalf, it is held that he thereby reserves to himself a power of disposing of the property and consequently there is no final appropriation and the property does not on shipment pass to the purchaser. (3) If the vendor deals with or claims to retain the bill of lading in order to secure the contract price as when he sends forward the bill of lading with a bill of exchange attached with directions that the bill of lading is not to be delivered to the purchaser till acceptance or payment of the bill of exchange, the appropriation is not absolute, but until acceptance of the draft or payment or tender of the price, is conditional only, and until such acceptance or payment or tender the property in the goods does not pass to the purchaser. (4) If the seller discounts a draft upon the buyer with a bank and authorises the bank to hand to the buyer a bill of lading to the order of the seller and endorsed in blank by him upon his acceptance of the draft, the intention to be inferred according to general mercantile understanding is that the seller intends to transfer the ownership when the draft is accepted but intends also to remain the owner until this has been done. S. 83 of the Contract Act applies to cases where the seller is authorised to make the appropriation and the buyer has given a previous implied assent to the appropriation where in pursuance of the contract the seller delivers the goods to a carrier for the purpose of transmission to the buyers but retains a *jus disponendi* until certain conditions are fulfilled. (5) The property in the goods does not pass to the buyer until the conditions imposed by him are fulfilled. This rule applies not only to delivery of goods to carriers by sea but to delivery to carriers by land. ——— **S. 83**—*Vendor appropriating and communicating to vendee after latter's breach of contract—Latter's silence does not pass title to him.*

Appropriation and communication thereof to the purchaser should both take place before there has been repudiation or breach of the contract by either party. No assent by the purchaser can be implied by his mere silence after he has actually broken the contract. Once a party has by his conduct given an indication of his intention not to abide by his contract his neglect or refusal to reply to the communications of the other party to the contract thereafter, cannot amount to an indication of his desire to keep the contract alive. An express or implied assent to an appropriation is an indication of such an intention. 1 K. B. 459, Foll. (*Harrison and Jai Lal, JJ.*) BIJ RAJ *v.* FIRM GOBIND PERSHAD. **7 L. L. J. 512 : 88 I. ——S. 91—*Scope—English law.*

S. 91 does not provide for cases where the seller delivers the goods to a carrier and reserves the right of disposal. Therefore the Courts of British India resort to the rules of English common law so far as they are not inconsistent with the text of the Contract Act. One of those rules is that where in pursuance of the contract, the seller delivers the goods to a carrier for the purpose of transmission to the buyer, but retains a *jus disponendi* until certain conditions are fulfilled, the property in the goods does not pass to the buyer until the conditions imposed by him are not fulfilled. This rule applies not only to delivery of goods to be carried by sea but to delivery to carriers by land and to canal boat companies. ——S. 91—*Position of commission agent buying goods for principal and sending them to latter is not of vendor to vendee and S. 91 has no application to him. He is liable for loss of goods only on proof of negligence or breach of duty as agent.*

The legal effect of the transaction of a purchase of specified goods by a commission agent has not the effect of turning his contract as between principal and agent wholly or into one as between vendor and purchaser. The agency contract is in some respects analogous to that of a contract of purchase and sale and not identical with it, analogous in the sense that it will attract to the commission agent certain reliefs ordinarily open to a vendor, for example, the right of a stoppage *in tran situ*. On the other hand, property in goods specified would pass to the principal immediately on purchase by the agent. The passing of the property in the goods would not depend on the manner of the delivery. Hence if the commission agent is liable for the loss of the goods it must be on proof of negligence or proof of breach of duty as agent. (*Wallace, J.*) VENKATACHALAM *v* PONNUSWAMI AIYANGAR. **20 L. In a contract for sale goods were to be delivered at the vendor's warehouse or if the vendee so desired, the vendor was to despatch them by rail to the vendee. Under directions from the vendee, the goods so sent, but the Railway receipt sent to a Bank and directed to be handed over to the vendee only on payment of the price. The goods were paid for, but a shortage was discovered, and also much damage. In a suit for return of a proportion of the purchase money, *held*, title to goods passed to the vendee as delivery was to be at the vendor's warehouse and thereafter the vendor was only in law the agent of the vendee. But the effect of sending the railway receipt to the Bank and demanding payment of the price altered the original contract, and the effect of it was that property in the goods passed back to the vendor and hence the vendee was not liable to pay for more than what actually reached him in a good condition. ——S. 95—*Retention of seller's lien does not necessarily imply unconditional appropriation.*

The fact that under S. 95 of the Contract Act a seller retains a lien on undelivered goods even after the title has passed, by no means amounts to saying that wherever the seller retains a lien on undelivered goods it is to be assumed that the title has passed in the sense that there has been full unconditional appropriation. Where *A* contracts to purchase goods from *B* and there is a condition of payment of the price before delivery, and *A* contracts also to sell the same goods to *C*, any appropriation of the goods to the contract before payment of price by *A* will be only conditional appropriation, but on payment of price by *A*, the appropriation becomes final, and if *C* has assented to the payment the property in the goods passes to *C*. If *C* fails to take delivery of the goods *C* is liable for their price and not merely for damages, and the rate of exchange at which *C* is liable to pay the price is the rate prevailing on the date on which *A* owing to *C's* conduct in refusing to pay and take delivery was compelled to pay price himself. ——— **S. 107**—*Scope.*

If a purchaser does not take delivery and pay the balance of the purchase money on the due date, the seller or his representative may sell the goods against him and charge him with the loss. If the property has undoubtedly passed and the real date for paying the balance of the purchase money and for delivery of the goods has not arrived, the re-sale by the vendor is a breach of contract entitling the vendee to repudiate the transaction. If the property in the goods did not pass to vendee the measure of damages would normally be the difference between the contract rate and the market rate at the date of breach. It is undoubted law that a plaintiff who sues for damages owes the duty of taking all reasonable steps to mitigate the loss consequent upon the breach and cannot claim as damages any sum which is due to his own neglect. But the loss to be ascertained is the loss at the date of the breach. [*Halsbury, X* 332 (*g*) *Diss.*] If at that date the plaintiff could do something or did something which mitigated the damage, the defendant is entitled to the benefit of it. If the purchaser refuses to accept the goods, and the property has passed to him, the vendor may at his option consider the contract of sale as still unbroken, and recover their entire price in an action for goods bargained and sold, even though they have

not been delivered. He may, on the other hand, after the time for acceptance has expired, or any other essential condition has been broken, sue for breach of the contract, even after he has re-sold the goods. In the latter case the measure of damages is the difference between the contract price and the market price at the time when the contract ought to have been completed, for the seller may take his goods into the market and obtain the current price for them. ——S. 107—*Ordinarily appropriation notice passes property to vendee but not where property agreed to be sold and property appropriated are not identical.*

If the seller sends notice of appropriation to the buyer and the latter does not reply promptly it must be inferred that he assents to the appropriation and the property in the goods will be deemed to pass on the expiration of a reasonable time after receipt of the notice. This principle does not apply in all cases. Where vendees contracted to purchase a certain number of cases of dyed sateens bearing certain numbers but failed to take delivery of the goods on the ground that the numbers on the cases were fictitious and the contents were not complete and vendors gave notice to vendees and auctioned the goods and sued the vendees for short proceeds, *held*, that in the absence of express or implied assent to the appropriation of the goods the vendors had no right to re-sell them. ——S. 107—*Sale of goods—Rights of vendor—Reasonable time for re-sale of goods.*

Where a right of re-sale is given by the contract between the parties, it is not necessary that the property in the goods should pass to the purchaser to enable the seller to re-sell the goods and claim the difference between the price of the goods as originally contracted for and the price fetched at the re-sale. If the goods have been re-sold by the vendor within a reasonable time after the breach of contract by the purchaser, the measure of the damages will be the difference between the price agreed to be given and the price realised on the re-sale with the costs and expenses of the re-sale, but if the re-sale has been unreasonably delayed until the market has fallen, the price realized on such re sale will not afford a true criterion of the damage. If the seller elects to re sell, he must do so within a reasonable time from the date on which the contract was finally repudiated by the buyer. Any other conclusion might cause undue hardship to the buyer, for it will then be open to the seller with the deliberate intention of causing loss to the buyer, to delay the re-sale until the market has fallen and then re-sell the property, and thereby cause to the buyer a loss which he might not have sustained had the re-sale taken place within a reasonable time from the date of the breach of contract. The question whether goods are "merchantable" in law is a question of mixed fact and law. A bale of a thousand pieces of piecegoods of which nine-tenths are damaged, however slightly, is radically unmerchantable and a

——S. 114—*Implied contract as to warranty exists*—Caveat-emptor.

In England the common law rule depended upon whether the buyer relied on his own judgment or the seller's. (3 Q. B 197 Ref.) But distinction is not made in the Indian Contract Act the construction that the words have been ordered in S. 114 imply that the buyer is relying on the sellers judgment is a strained construction of the section and there is no reason why the sellers should be excused from the performance of his contract because of what may or may not be passing in the buyer's mind. A seller of a motor car impliedly contracts to sell a car that is reasonably fit for use as a motor car. (*Pratt, J.*) HURBUT JOHN AMIES *v.* JAL P. VIRJI. **25 Bom. L. R. 778 : 77 I. C. 150 : A. ——S. 118—*Scope of—Acceptance.*

The question of acceptance does not arise when the property in the goods has passed to the buyer. The provisions of S. 118 do not apply where the property in goods has passed to the buyer ; for where the property in goods passes by appropriation on the part of the seller and assent on the part of the buyer. since the appropriation can only be of goods of the contract description, the conditions of the contract are *ex hypothesi* complied with. The case contemplated by S. 118 is one where there has been a contract with a condition and the condition is broken. In such a case the buyer may waive that right of rejection and accept the goods. The property in the goods then passes by the buyer's acceptance and if the buyer thereafter refuses to pay for and take delivery of the goods, the seller is entitled to sue the buyer for the price. Where the goods are sold and delivered to a buyer, it is open to the buyer to have the goods in his custody for a reasonable time in order that he may examine them and see whether they comply with the warranty. At the same time, the buyer loses his rights to reject the goods by any act amounting to acceptance. Mere receipt of goods is no acceptance but such a receipt will become an acceptance if the goods are not rejected within a reasonable time. 23 C. L. J. 415. What is reasonable time is purely a question of fact and has to be decided on the circumstances of each case. A period of 18 days was held not to be a reasonable time in the case of cotton goods. Plaintiffs sold 129 shares to defendant 1 ; the documents were handed over to defendant No. 1 but were not transferred in his name. Plaintiffs were given a cheque for the price but it was dishonoured. Defendant No. 1 sold 25 of these to a third party and pledged 104 along with 201 similar shares to defendant No. 2. Defendant 2 put forward defendant 3 as party who was willing to advance money. In fact defendant 3 was a mere nominee of defendant No. 2. Defendant 2 got possession of these 305 shares fraudulently. The fraud was that he deceived defendant 1 by false pretences that he would use these shares for the purpose of raising a loan for the benefit of defendant 1 which he did not do and which he did not intend to do. his real object being to secure himself from loss as regards the money due to him by defendant No. 1. In a suit by plaintiffs to recover the shares or in the alternative the price from defendants 1, 2 and 3, *Held* that plaintiffs were entitled to a decree as against defendant 1 for their unpaid purchase money, but they could not recover the documents nor damages as against defendants 2 and 3. ——S. 124—*Order placed with commission merchant—Stipulation to ship at particular port—Term is essence of contract.*

Although the legal effect of the transaction between a commission merchant and the consignee who has given him the order is a contract of sale passing the property from one to the other, there is also a contract of agency between the parties. Under such circumstances, if for example the consignee has undertaken to indemnify the commission merchant and the commission merchant has been expressly instructed to ship at a particular port but ships the goods at a different port the question whether the consignee's liability to indemnify the commission merchant is avoided or not depends upon whether the parties intended that shipment at the particular port should be a condition precedent to the liability to indemnify. But where the contract is a mercantile contract and the parties are mercantile men it must be assumed that they did not insert the stipulation as to shipment at a particular port, unless some value or importance was attached thereto, and the stipulation must be regarded as one which went to the root of contract and which must be performed before the plaintiffs could claim indemnity from the defendants. It is immaterial to enquire into the question as to what damage was actually suffered by the defendants by the plaintiffs' breach of the stipulation.

Per *Rankin, J.*—These contracts have to be looked

at not merely as contracts involving the general principle of indemnity but as contracts with respect to which there is a particular arrangement between the parties as to the time when and the conditions upon which the agent shall get both his indemnity and his commission. Men of business would never employ the services of a commission merchant abroad if they were told that so long as the commission merchant did his best for them, they were obliged to take the goods even if they were contrary to conditions of the contract. ——S. 124—*Guarantee—Principal and Surety—Rights of creditor—Collateral security given by debtor to surety—Liability of surety.*

There is no authority for the unqualified proposition that the principal creditor is entitled to the benefit of every collateral security given by the principal debtor to the surety, or that, all securities given by a principal to his surety are held in trust. This theory of trust is rested on the analogy derivable from the class of cases where the remedies of a creditor against the principal debtor are transferred to a surety who has paid the debt. In the case where the remedies of the creditor are transferred to the surety, who has paid the debt, the payment by the surety extinguishes the creditor's claim, and what he seeks is a substitution to the creditor's remedies against the principal debtor. Where this does not happen, there can be no question of substitution proper, for the receipt of the surety's securities by a creditor does not relieve the surety from liability in case the securities prove insufficient. The relief by substitution is extended on the assumption that the debt has been, or is to be paid in full, so that further detention of the security is against equity. Another objection to the substitution may be found in the fact that the security being for the surety, he has no right to it till he has been damnified by payment; the creditor's remedies against the principal debtor, on the other hand ripen as soon as there has been a refusal to pay. By subrogating the creditor's remedies against the debtor, the burden is finally placed where it belongs, and therein lies the equity of the transaction No such object is attained in doing the converse of this, where the result is to place the creditor in a position of advantage which he cannot claim. The burden in the latter case is not always placed where it belongs; if the securities are sufficient in value, the burden will take care of itself; if they are insufficient, the loss will fall, in part at least on the surety. Consequently a creditor can derive no benefit from the securities given by the principal to the surety unless he can show a direct interest in them by contract or under trust or unless both the principal and surety are insolvent or the debtor has refused to pay. to discharge mortgage by vendee—Default—Damages—Liability.

The plaintiff who owned a house and certain lands mortgaged it to the first defendant. Subsequently the plaintiff sold the lands to the second defendant, the arrangement being that the second defendant should pay the consideration money for the sale to the first defendant and thus discharge the mortgage. The plaintiff also executed a mortgage on the house to the second defendant for the purpose of securing the additional amount required to discharge the mortgage due to the first defendant. The second defendant failed to discharge the mortgage with the result that the first defendant obtained a decree on the mortgage and brought the properties to sale. At this stage the second defendant paid a portion of the mortgage decree and by an arrangement with the mortgagee got the lands alone released. The house was brought to sale and was purchased by the second defendant himself in the name of another person who ejected the plaintiff therefrom. Plaintiff brought a suit for possession of the house and damages. *Held*, that the cause of action for the suit for damages arose on the date when he suffered a loss by being ejected from the house. Second defendant was in a fiduciary position of relationship to the plaintiff and having purchased the house as a result of his own breach of duty, was bound to convey the house to the plaintiff with mesne profits, subject however to the mortgage in his favour for Rs. 1,000. 29 M. Under Ss. 151 and 152 of the Contract Act read with S. 72 of the Railways Act, the liability of the Railway Administration for the loss, destruction, or deterioration of goods delivered to the Administration to be carried on by Railway is that of an ordinary bailee; that is to say if the Railway Administration take as much care of the goods bailed to them as a man of ordinary prudence would under similar circumstances take of his own goods of the same bulk, quality and value as the goods bailed, they will not in the absence of special contract be responsible for the loss, destruction or deterioration of the goods. The Railways Act of 1890 by repealing Ss. 7 and 10 of the Carriers Act and by also enacting in S. 72, Cl. (3) that nothing in the common law of England or in the Carriers Act of 1865 regarding the responsibility of common carriers with respect to the carriage of animals or goods shall affect the responsibility of a Railway Administration, leaves no room for doubt that the liability of the Railway Company must be measured and determined solely by the tests formulated in Ss. 151 and 152 of the Contract Act. The *onus* is therefore upon the bailee to show that he is exonerated from liability for loss to the bailor by means of a special risk note relieving him from such liability. Where the receipt given by a laundry contained the clause "Clothing cannot be claimed in case of any accident by fire or if things get torn," *Held*: that the clause in effect stated that the return of the article could not be claimed if it happened to get torn that, even assuming, however, that it was intended to mean that damages cannot be claimed for tearing, obviously when so construed, it should be taken as meaning that the safeguard only arose in the case of such accidental tearing as might easily happen even if all reasonable care were taken and that on such a construction the clause would not safeguard the laundry against any tearing due to negligent treatment or deliberately improper treatment. A clause intended to safeguard against the negligence of employees must be explicit to that effect. (*Lentaigne, J.*) HALLANDIA PINMEN *v.* H. OPPENHEIMER. **3 Bur. L. J. 203 : 84 I. C. 274 : A. I. ——— **Ss. 160 and 161**—*Bailment—Loss or injury to goods—Liability of bailee—Negligence—Presumption.*

Under S. 160 of the Contract Act it is the duty of the bailee to return or deliver according to the bailor's directions the goods bailed without demand as soon as the time for which they were bailed has expired, or the purpose for which they were bailed has been accomplished. If, by the default of the bailee the goods are not returned, delivered, or tendered at the proper time, he is responsible to the bailor for loss, destruction or deterioration of the goods from the time. An action in trespass lies where the bailee has destroyed the bailed property, or lost it, while where the bailee has been guilty of a conversion of the bailed property either by a user of it in a different manner or for a different purpose from that agreed upon or by failure. to redeliver it or deliver it over in accordance with the terms of the contract the bailor may sue him in trover. Proof of loss or injury to the goods establishes a sufficient *prima facie* case against the bailee to put him upon the defence. Where chattels are delivered to a bailee in good condition and are lost or not returned or are returned in a damaged state, the law presumes negligence to be the cause, and casts upon the bailee the burden to show that the loss is due to causes consistent with due care on his part. The use of the term ' fraud ' in juxtaposition to offence in proviso to S. 178 would seem to indicate that it is confined to the substantive wrong of deceit. If possession of goods obtained under a contract voidable on the ground of fraud, is possession obtained by fraud, a pledge by the possessor could be invalid even before the rescission of the contract although an out and out sale would be valid under S. 108. The obtaining of goods or documents by fraud as contemplated by S. 178 proviso, must mean obtaining possession by such a trick or fraud as excludes real consent and therefore cannot be the foundation of any contract. ———**Ss. 178 and 108**—' *Possession* ' *means juridical possession.*

It has been often held that possession required in S. 178 is similar to the possession required by S. 108 of the Contract Act in regard to sales, that is to say, the possession must be juridical possession of the goods and not mere custody. Where P was given possession of the sewing machines by the owner in order that he might sell them for and on behalf of the owner and he pawned the machines with a pawn broker. *Held* : his possession is not a mere custody for safe keeping, but for the definite purpose of sale. He would have such a possession of them as is contemplated by S. 178. The fact that he disposed of the goods contrary to the instructions of the owner makes no difference to the character of the possession which vested in him. If, therefore, the pawnee acted in good faith and had no ground for doubting the authority of P to pledge the goods he would be entitled to the protection granted by S. 178. (*Robinson, C. ——Ss. 215 and 19—*Principal and agent—Dealing by agent in the business of the agency without the knowledge of the principal—Contract is voidable at the option of principal—English and Indian law.*

Plaintiff entered into a running contract with defendants for the supply, at a fixed price of a large quantity of tiles of a certain manufacture for the sale of which defendants had been appointed sole agents. It was found as a fact that the plff. was acting for and a mere alias of the dubash and local agent of the defendants who had entered into the contract without any knowledge of the fact. The defendants on becoming aware of their own agent's interest in the contract repudiated it and refused to perform it further. In an action for damages by the plaintiff, *Held*, that the defendants were entitled to avoid the contract both under S. 19 and under S. 215 of the Contract Act and that the plaintiff's suit was unsustainable. The concealment by the dubash and local agents of the defendants of the fact that he was dealing with them through the plaintiff was dishonest and his procuring a running contract for the supply of tiles on a large scale with the object of competing with his principals in the market which it was his duty to exploit for their benefit was prejudicial to the defendants. The case therefore satisfied S. 215 of the Contract Act. Even apart from S. 215 the dishonest concealment by the plaintiff of the identity of the contracting party constituted fraud and entitled the defendants to avoid the contract. (*Schwabe, C. ——— S. 217—*Principal and Agent—Agency for sale of sugar—Agent depositing moneys with principal—Insolvency of principal—Right of agent to set-off*

The respondents were the agents of Arbuthnot & Co., which carried on a large business *inter alia*, as sugar manufacturers. The appellant was the Official Trustee of Madras representing a company called Mysore Sugar Refining Company. The relation between the Arbuthnot and the Mysore Sugar Refining Company was this. The Mysore Sugar Refining Company was incorporated by Arbuthnot & Co. in 1905. It consisted entirely of representatives of the Arbuthnot & Co. or persons under their control. The whole of its capital came from Arbuthnot & Co. The responden's were appointed by Arbuthnot & Co in 1901 as agents for sale of sugar in Mysore and they had also made deposits of money with Arbuthnot & Co. The respondents knew nothing whatever of the Mysore Sugar Refining Company, The Arbuthnot & Co became insolvents in 1906. The appellant claimed to recover the proceeds of sugar manufactured by their company and sold by the respondents and claim ed to do this without reference to the deposits which the respondents had made with the Arbuthnot and Company and with respect to which the respondents alleged a case of counter claim or set-off. *Held*, that the Mysore Sugar Refining Company could not claim to recover the proceeds of sugar unless the cross claims or set-off of respondent are settled and that the appellants can claim the benefit of the sums representing the sale proceeds of their sugar only subject to every equity which affects those sums in the hands of Arbuthnot & Co. themselves. The Railway Company made delay and ultimately sent it by goods train and claimed extra freight charges which the consignor refused to pay. The company sold the goods. The consignor then brought a suit for damages, *held*, that in accepting the goods for despatch as 'parcel' the clerk was undoubtedly acting in the course of his employment, though outside the scope of his authority and led the plaintiff into an honest belief of his authority. An agent may sue in his own name on contracts made by him on behalf of his principal in the following case, namely, where, as in the case of factors and auctioneers, he has a special property in, or lien upon, the subject-matter of the contract, or has a beneficial interest in the completion thereof. The proper person to bring the action is the person whose right has been violated. Though there are certain exceptions to the general rule, for instance, in the case of agents auctioneers or factors, these exceptions are in truth more apparent than real. The real proposition of law, which these and other cases establish, is that where an agent enters into a contract as such, if he has interest in the contract, he may sue in his own name. Unless the contract, for the breach of which the action is brought is one made by the agent he has no cause of action because there is no privity between himself and the defendant. 24 Mad. 30 Appr. ———S. 230—*Broker—Liability of, in principal contracts—Calcutta jute market—Custom of.*

There is a difference between a broker and an agent for sale. Under the custom of the

Calcutta Jute Market, brokers are liable to both buyers and sellers in the case of what are called 'principal contracts,' as distinguished from "direct contracts." Under the custom of the market there is a liability for the performance of the contract resting upon the brokers and a right in them to enforce the contract. It makes no difference whether at the time of the making of the contract buyers are informed of the name of the sellers and sellers of the name of the buyers. In the case of such contracts the only person to whom the sellers can really be given credit—the only person mentioned in the contract—is the broker. Either the sellers do not know the name of the other party or if they do and still prefer a "principal contract" they prefer the broker's credit. Consequently in the case of a breach of contract by the seller, the broker is entitled to go to arbitration on an arbitration clause of the contract. ——S. 230—*Contract by agent on behalf of undisclosed principal—Agent signing the contract as "agent and manager"—Agent is not personally liable as principal.*

Where an agent does not disclose the name of his principal, the presumption is that the contracts to be held personally liable as well. Such a presumption, however, is rebutted where the agent signs the contract expressly as "agent and manager." The appending of the word "agent" to the signature of a party to a mercantile contract is, in all cases, the dominating factor in the solution of the problem of principal or agent. A highly improbable and conjectural case (in which this dominating factor might be overcome by other parts of the contract) may by an effort of the imagination be figured, but, apart from that the appending of the word "agent" to the signature is a conclusive assertion of agency, and a conclusive rejection of the responsibility of a principal, and is and must be accepted in that two-fold sense by the other contracting party. Every partner is, in contemplation of law the general and accredited agent of the partnership and may consequently bind all the other partners by the acts in all matters which are within the scope and objects hence if the partnership will be of a general commercial nature he may even pledge or sell the partnership property. The partnership is not liable for the loan incurred by a partner upon his credit by giving his own promissory note where the partner uses the money in the partnership concern of his own free will and without any contract with the lender to do so. The fact that the partnership obtained the benefit of the loan is only a piece of evidence to show that he entered into the transaction by a member of the firm, and not further because it is not the ultimate use by the firm of money borrowed as above that makes the firm liable. Persons who are working together to form a company, although they may intend to become members of the company, after its formation are not partners if this be the only relation between them : they are, it is true, engaged in a common object, and that object is ultimately to acquire profit, but their immediate object is the formation of a company, and even if the company is not to be incorporated they are only in the position of persons who intend to become partners after the company is formed.

Per *Mookerjee, J.* Promoters may become partners in fact, by actually carrying on as incidental to the work of forming a corporation, a business enterprise ; in such an event it is the carrying on of such business not the combination to effect an incorporation that makes them partners. ——Ss. 240 and 242—*Partnership—Use of words 'partners' or 'partnership' in an agreement—One party advancing money to another—Relation of creditor and debtor—Agreement to work as servants—Remuneration by share.*

The use of the word 'partner' or 'partnership' in the agreements does not necessarily show that there was a partnership. The parties may call themselves partners, but if it appears that one party is to do nothing more than advance money to the other, and is to be repaid by a share of the profits, they must be treated as creditor and debtor. The person entering into an agreement could not be a partner, but a mere servant, though paid by a share in the profits, if his liability to pay the losses is clearly in respect of the losses occasioned by his neglect or default. ——S. 242—*Sharing in profits does not make a man a partner—But sharing in profits should be considered in determining if partnership exists.*

An arrangement to share in the profits does not necessarily show that the person who shares in such profits is a partner of the firm ; but this fact will have to be considered along with the evidence relating to other characteristics of a partnership, such as sharing of losses, etc., in arriving at a conclusion whether the parties intended to carry on the business in partnership. ———S. 251—*Trading firm—What is—Liability of partners for money borrowed by another partner.*

Any partner in a trading firm has an implied authority to borrow money for the purposes of the business on the credit of the firm. A firm would be a trading firm if its business consists in buying and selling. In such a case there is no duty cast on the person who advances the money to make any further inquiries and the other partners are responsible though the borrowing partner may misappropriate the money. ——— S. 251—*Partnership — Money borrowed by partner and spent by him for partnership purposes—Liability of the other partners—Dormant partner—Extent of liability.*

Where one member of a partnership borrows money on his own credit by giving his own promissory note for the sum so borrowed and he afterwards uses the proceeds of the note in the partnership business, of his own free will, without being under any obligation to or contract with the lender so to do, the partnership is not liable for the loan. The ultimate use by a firm of money borrowed by a partner individually on his own credit does not make the firm liable for the loan. The circumstance that the firm obtains the benefit of a transaction entered into by one of its members may show that he entered into the contract as agent of the firm. But the fact is no more than evidence that this was the case and the question upon which the liability or nonliability of the firm depends is, not whether the firm obtained the benefit of the contract, but did the firm by one of its partners or otherwise enter into the contract. So far as the question for the authority of a partner to sign and endorse promissory notes on behalf of others is concerned, it is quite unnecessary for the creditor to establish any specific authority in order to succeed. Per *Kincaid, J. C.* and *Aston, A J.C.* (*Kennedy, A. J.C.* dissenting.) One partner may release a cause of action in which all the partners are jointly interested in the absence of fraud.

Per *Aston, A. J. Per *Kennedy, A. J. In the absence of any term agreed upon by the parties any partner may determine the partnership at any time on giving notice of intention to do so. The dissolution takes place as from the date of the communication of the notice. If persons intending to retire from the partnership business continue to take things from the business and to associate otherwise with its work a presumption may be drawn in favour of the continuance of the partnership. The accounts on a dissolution of partnership have to be taken for the benefit of all the partners concerned and there must be a full enquiry into them irrespective of the relief sought for in the plaint. If a partner without the permission of the other partner carries on a competing business with the firm, he must account for and pay over to the firm all profits made by him in such business and also make compensation to the firm for any loss occasioned thereby. By a partnership deed the partnership was to last from 1st January 1915 till 31st December, 1919. The plaintiff's suit for dissolution and accounts was filed on the 20th November, 1919. Various allegations and counter-allegations had been made in the pleadings and in the evidence and from these it was perfectly obvious that there was a state of feeling existing between the partners which rendered it impossible for the partnership to be continued with any advantage.

The plaintiffs-donees under a sanad claimed Rs. 456-1-0 with interest, being the amount rightly recovered by the village authorities as assessment in respect of the lands in suit, but wrongfully retained by the defendants representatives of the donor in respect of the years 1910 11-12. The defendants to the suit included (defendant 14) one of the executants of the sanad. The other defendants were either representatives of the other executants of the document, or purchasers of their shares in the inam. The trial Court decreed plaintiffs' claim for Rs. 456-1-0 and costs to be recovered from defendant 14, personally, and from the estates of the other deceased executants. In the case of a dispute between a society and a member the substitutional remedy provided under the rules in the shape of a reference to the Registrar must be availed of and the common law remedy by an action in a Civil Court must by necessary application be deemed to have been taken away. COPYRIGHT ACT (III OF 1914).

———Selection of passages from work is not an original work and is not protected.

A selection of passages from a non-copyright work is not entitled to protection. Per *Macleod, C. J.*—Where about half of the original non-copyright work was adopted as an abridgment is not an original literary work entitled to copyright. Skill and labour by themselves will not make up for the want of originality when there is nothing original in picking out for publication portions of a work which are not copyright. Selection from classical authors for the use of schools if it connoted originality would certainly be protected. The word 'original' should be so construed as to allow a man the benefit of the use of his brain but adopting word for word a part of non copyright work does not constitute an original work. ———Abridgment —Merely selecting passages and knitting them together does not constitute -- Raw material or the original works are open for consultation for all—Use of another's labour and skill only is prohibited.

An abridgment of an author's work means a statement designed to be complete and accurate exposition of the thoughts, opinions and ideas by him expressed therein, but set forth much more concisely in the compressed language of the abridger. A publication, the text of which consists of a number of detached passages selected from author's work, often not contiguous, but separated from those which precede and follow them by considerable bodies of print, knit together by a few words so as to give these passages, when reprinted, the appearance, as far as possible, of a continuous narrative, is not an abridgment at all. It only expresses, in the original author's own words, some of the ideas, thoughts and opinions set forth in his work. And it is obvious that the learning, judgment, literary taste and skill requisite to compile properly and effectively an abridgment deserving that

COPYRIGHT ACT (III OF 1914).

name would not be at all needed merely to select scraps taken from an author and to print them in a narrative form. To constitute a true and equitable abridgment, the entire work must be preserved in its precise import and exact meaning, and then the act of abridgment is an exertion of the individuality employed in moulding and transfusing a large work into a small compass, thus rendering it less expensive and more convenient both to the time and use of the reader. Independent labour must be apparent, and the reduction of the size and work by copying some of its parts and omitting others confers no title to authorship, and the result will not be an abridgment entitled to protection. To abridge in the legal sense of the word is to preserve the substance, the essence of the work in language suited to such a purpose, language substantially different from that of the original. To make such an abridgment requires the exercise of mind and labour, skill and judgment brought into play, and the result is not merely copying. To constitute a proper abridgment the arrangement of the book abridged must be preserved, the ideas must also be taken and expressed in language not copied but condensed. To copy certain passages and omit others so as to reduce the volume in bulk is not such an abridgment as the Court would recognise as sufficiently original to protect the author. The mere process of selecting passages from works readily accessible to the public is not, but difficulty in obtaining access to the originals or skill manifested in making or arranging the selection is sufficient to give the character of an "original literary work" to the selection. (1893) 1 Ch. 218 Appr. A publication, the text of which consists merely of a reprint of passages selected from the work of an author can be entitled to copyright. For instance, it may very well be that in selecting and combining for the use of schools or universities passages of scientific works in which the lines of reasoning are so closely knit and proceed with such unbroken continuity that each later proposition depends in a great degree for its proof or possible appreciation upon what has been laid down or established much earlier in the book, labour, accurate scientific knowledge, sound judgment touching the purpose for which the selection is made, and literary skill would all be needed to effect the object in view. In such a case copyright might well be acquired for the print of the selected passages. It is the product of the labour, skill and capital of one man which must not be appropriated by another, not the elements, the raw material, if one may use the expression, upon which the labour and skill and capital of the first have been expended. To secure copyright for this product it is necessary that the labour, skill and capital expended should be sufficient to impart to the product some quality or character which the raw material did not possess, and which differentiates the product from the raw material. Any new and original plan, arrangement or combination of material will entitle the author to copyright therein, whether the materials themselves be old or new. Whosoever by his own skill, labour and judgment writes a new work may have a copyright therein unless it be directly copied or evasively imitated from another's work. To constitute piracy of a copyright it must be shown that the original has been either substantially copied or so imitated as to be a mere evasion of the copyright. In the case of works not original in the proper sense of the term, but composed of or compiled or prepared from materials open to all, the fact that one man has produced such a work does not take away from any one else the right to produce another work of the same kind and in doing so to use all the materials open to him. The true

COPYRIGHT ACT (III OF 1914).

principle in all these cases is that the defendant is not at liberty to use or avail himself of the labour which the plaintiff has been at, for the purpose of producing his work ; that is, in fact, merely to take away the result of man's labour, or, in other words, his property. This principle applies to maps, guide books, street directories, dictionaries, to compilation of scientific work and ther subjects, and applies to a selection of poems. What is the precise amount of the knowledge, labour, judgment or literary skill or taste which the author of any book or other compilation must bestow upon its composition in order to acquire copyright in it within the meaning of the Copyright Act of 1911 cannot be defined in precise terms. In every case it must depend largely on the special facts of that case, and must in each case be very much a question of degree It will not create copyright in a new edition of a work of which the copyright has expired merely to make a few emendations of the text or to add a few important notes. To create a copyright by alterations of the text these must be extensive and substantial practically making a new book. With regard to notes, in like manner, they must exhibit an addition to the work which is not superficial or colourable, but imparts to the book a true and real value over and above that belonging to the text. This value may perhaps be rightly expressed by saying that the book will procure purchasers in the market on special account of these notes. When notes to this extent and of this value are added they attach to the edition the privilege of copyright. The principle of the law of copyright directly applies. There is involved in such annotation and often in a very eminent degree, an exercise of intellect and an application of learning which place the annotator in the position and character of author in the most proper sense of the word. ——S. 1 (1)—'*Original*' *does not relate to ideas but to their expression.*

The word " original " does not mean that the work must be the expression of original or inventive thought. Copyright Acts are not concerned with the origin of ideas, but with the expression of thought ; and in the case of "literary work" with the expression of thought in print or writing. The orginality which is required relates to the expression of the thought ; but the Act does not require that the expression must be in an original or novel form but that the work must not be copied from another work—that it should not originate from another. ——S. 3—*Copyright —Infringement— Presumption of Copyright—Expert evidence—Duty to take.*

Where the defendants in an action for damages for infringement of copyright in respect of a work do not put in issue the existence of the copyright in the work, there is an irrebuttable presumption that the alleged work was a work in which copyright existed and that the plaintiff was the owner of the copyright. In this class of cases, the Court should be reluctant to sit as experts and to decide the question of infringement of copyright without the aid of expert evidence. The proper course, in such cases, is to get the opinion of experts who might be appointed Commissioners to investigate and report on the matters in issue. —— *Social Club not registered as a corporate body —Debts incurred by such club—Only members who actually contracted or authorised the contracts are liable—Liability is personal.*

A club is merely a term of convenience. It is a short method of designating a certain body of persons who meet together for social or recreative purpose. But the club is not a corporative body and has no existence in the eye of the law and it is so far incapable of contracting or entering into any legal relations with other persons and bodies. Merchants who deal with such a club which is not registered as a body politic do so at their own risk and the only persons they can hold liable for their debts are such officials of the club as had actually contracted with them and possibly such directing bodies or such members of the club as may be shown to have authorised or approved of the contracts. Creditors cannot by any device make those secretaries or managers who have not entered into contracts with them or ratified such contracts liable under the contracts and they cannot by any device, *e. g.*, by application under Order 1, R. 8 turn what is not a corporate body into a corporate body and so render members of clubs who are not personally liable for such contracts so liable. ——Adverse possession.

——Adverse possession—Ouster, non-payment of profits may amount to.

If a tenant-in-common has not been in participation of the rents and profits for a considerable length of time and other circumstances concur, there may be ouster of the tenant-in-common. *Corea* v. *Appuhamy*, (1912) A. C. 230, Dist.; 43 Mad. 244, Expl. (*Daniels, J.*) BASU *v.* MT. NANHI.
L. R. 5 A. (Civ.) 376 : A. I. R. 1924 All. 920.

——Adverse possession—Mere non-payment of profits by Lambardar is not ouster.

Mere non-payment by a *lambardar* to any co-sharer of the said co-sharer's property *quota* of the annual divisible profits of the *mahal* does not in the absence of evidence to the contrary constitute an ouster of the said co-sharer from possession. 22 A. L. J. 518 : L. R. 5 A. (Rev.) 174 : 79 I. C. 538 : A. I. R. 1924 All. 719.

——Adverse possession.

Where *A*, a co-sharer takes more than his share and *B*, not interfering, consents to *A* remaining in possession of more than his share, the possession of *A* is adverse against *B*. (*Walsh, J.*) MUSTAFA KHAN *v.* MUSAMMAT DULARI. **3 U. P. L. R. (All.) 5 : A. I. R. 1922 All. 433 (2).**

——Adverse possession does not begin until ouster or notice of denial of right—Mahomedans.

Co-heirs under the Mahomedan Law are in the position of tenants-in-common and the entry and possession of one of such co-heirs must be deemed to be on behalf of all the co-heirs. The entry and possession of one tenant-in-common is ordinarily deemed to be the entry and possession of all the tenants-in-common and this presumption will prevail in favour of all, until some notorious act of ouster or adverse possession by the party so entering is brought home to the knowledge or notice of the others. (*Greaves and Chakravarty, JJ.*) ASIRUDDIN *v.* LATIFUNNISA. **85 I. C. 763 : A. I. R. 1925 Cal. 1176.**

——Adverse possession of strangers on behalf of one co-sharer begins only when he asserts his own exclusive right.

Where the plaintiff has been out of actual possession of the land in suit since a few years after the plaintiff's father's death which took place about 40 years ago and the second defendant has been in possession of the land for over 12 years, *held*, that though defendant No. 1, the husband of defendant No. 2, is not a co-sharer with the plaintiff before he could be treated as a stranger it must be shown that he was possessing the land asserting his own right. If this defendant possessed the land without any such assertion of title in himself and the facts were such that the plaintiff could not be expected to know that he was not possessing it on behalf of the plaintiff's sister, then the plaintiff's suit would not be barred. (*Newbould, J.*) JOYTUN BIBI *v.* SOLIMUDDIN CHOUKIDAR. **72 I. C. 33 : A. I. R. 1924 Cal. 356.**

——Adverse possession—Ouster.

The possession of a co-owner is generally possession on behalf of all, but if there is ouster or acts equivalent to it, it will begin to be adverse. (*Walmsley and B. B. Ghose, JJ.*) BHAIRABANDRA NARAIN ROY *v.* RAJINDRA NARAIN ROY. **50 Cal. 487 : A. I. R. 1924 Cal. 45.**

——Adverse possession—Co-mortgagor redeeming.

The rule that ordinarily one co sharer cannot hold adversely against another co-sharer proceeds upon a rebuttable presumption that the co-sharer in exclusive possession is holding on behalf of the other co sharers. This presumption is rebutted when it is shown that the co-sharer in possession denies the right of the other co-sharers to enter into joint possession until they have paid to him their share of a charge upon the property which he has defrayed. (*Campbell, J.*) WAZIR *v.* GIRDHARI. **A. I. R. 1923 Lah. 311.**

——Adverse possession.

Where a sale is made by one co-owner, the purchaser's possession is to be treated as adverse to his co-sharers. (*Broadway, J.*) ANWAR *v.* KISHEN SINGH. **A. I. R. 1922 Lah. 205.**

——Adverse possession.

Where the defts. acted on their own behalf only in suing a trespasser for possession their adverse possession begins from the date of their possession as against their co-sharers. (*Le Rossignol, J.*) ZULPHI *v.* ASGHAR. **3 Lah. L. J. 441.**

——Adverse possession—Joint possession should be presumed where no separation or overt act of ouster is proved.

The ordinary presumption of law is that the joint possession of co-sharers is continued until there is some overt act of ouster or separation. Where the overt act was the assertion made in the written statement in a previous litigation and was evidenced only by a summary in the judgment which recited that the defendants asserted that the plaintiffs were out of possession of the lands and had not received the rent, *held*, that in the absence of the written statement itself it was impossible to say exactly what the assertion made by the defendants in the case was or precisely to what extent they denied the title of the plaintiffs and set up title in themselves and that there was no ouster proved. (*Neave, A. J. C.*) RAM NIDU *v.* JANKI. **85 I. C. 387 : A. I. R. 1925 Oudh 510.**

CO-SHARER—Adverse Possession.

———*Adverse possession by one against others—Ouster is essential.*

Mere possession will not give prescriptive title to one co-sharer as against another. To establish such a title there must be clear evidence of ouster. (*Wazir Hasan, A. J. C.*) JAGDAMBA SINGH *v.* AZMAT ULLAH. **86 I. C. 324 : A. I. R. 1925 Oudh 494.**

———*Adverse possession is wiped off by acceptance of release deed stating existing title.*

The acceptance by some co-sharers of a deed of release executed by another co-sharer setting forth an existing title in the subject-matter of the release takes away the adverseness of possession of the former, if any. (*Wazir Hasan, J.C.*) CHHOTEY LAL *v.* HANUMAN SINGH. **11 O. L. J. 735 : 80 I. C. 619 : A. I. R. 1925 Oudh 208.**

———*Adverse possession—Presumption is that one holds for the other who is not in possession.*

Co tenant out of possession starts with the presumption in his favour that the possession of the other co-tenant is not adverse to him. (*Wazir Hasan, A. J.C.*) INDARPAL *v.* THAKUR DIN. **10 O. L. J. 646 : 27 O. C. 77 : A. I. R. 1924 Oudh 266.**

———*Adverse possession—Rights of each—Principles guiding.*

Every co-sharer has the right to enter upon and occupy the common property and this in itself does not raise any presumption of a denial of rights to the other co-sharers. Nor is possession in such cases adverse. All the more so is this the case where they all agree for the purposes of convenient management that a certain area shall be occupied by certain co-sharers. Mere occupation even for a long period creates no presumption of ouster. There must be open and notorious acts indicating a claim to exclusive ownership in denial of the rights of the other co-sharers before adverse possession can begin to run. (*Miller, C. J. and Foster, J.*) TILAKDHARI LAL *v.* ABDUL WAHAB KHAN. **89 I. C. 913 (Pat.).**

Building on Common Land.

———*—Building on common land—Injunction—Rebuilding by one co-sharer—Effect.*

Whatever the powers of the Court may be in adjudicating on the rights of parties and in passing injunction (or conditional injunctions) in consequence of such adjudications it is a different matter to say that where a party admittedly owns a piece of property the Court has any authority to create and impose conditions as to the enjoyment of the same, neither breach of contract nor the infringement of any right being alleged to have taken place. Consequently a co-sharer who had rebuilt at his expense a common wall belonging to him and the defendant, another co sharer, cannot obtain an injunction restraining the latter from treating the half belonging to him as his property until he had paid his portion of the cost of re-building the wall. (*Harrison, J.*) TALIB HUSSAIN *v.* MAHOMED HUSSAIN. **A. I. R. 1924 Lah. 297 (2).**

———*Building on common land—Injunction.*

A proprietor may be restrained by his co-sharers from appropriating a vacant site to his own exclusive use by erecting a building thereon. CO-SHARER—Exclusive Possession.

———*Building on common land—Ouster is determined by facts of each case—Ouster is not necessarily implied by sole occupation of portion of joint property by one co-sharer, nor by erection of building without consent of other co-sharer.*

The facts that amount to ouster in each particular case may vary so that the question of ouster is one to be determined with reference to the facts and circumstances of each particular case. Where a *tappar* is put up by one co-owner on joint land without the consent of the other co-owner, the demolition of the *tappar* will not be ordered by the Court unless special damage is proved by the plaintiff. 14 C. P. L. R. 76 and 21 W. R. 373, Foll. An ouster of co-owner is not necessarily implied by the sole occupation of a part of the joint estate by one co-owner. Even the erection of a substantial building by one co-owner upon a portion of joint property without the assent of the other co-owner may not necessarily amount to evidence of ouster. 11 C.L.J. 189, Ref. to. (*Kinkhede, A J. C.*) KUVERJEE *v.* RAMA. **82 I. C. 432 : A. I. R. 1925 Nag. 145.**

Exclusive Possession.

———*Exclusive possession—Ejectment—Co-sharers remaining in separate possession of items of common property— Private arrangement — Transferee from co-sharer—Rights of.*

Where a co-sharer has been in separate possession of a piece of joint land for a long time without any let or hindrance by the other co-sharers, the latter have no right to eject him or his transferee or to disturb his possession or enjoyment otherwise than by seeking partition. Where for facility of cultivation the co sharers of a khata had under private arrangement been in long possession of separate lands and one of the sharers transferred his plots under an invalid transfer who took formal possession of the plot and subsequently the other co-sharers dispossessed him under a decree for ejectment for arrears of rent, *held*, that their possession was not that of trespassers but of proprietors. (*Neave, J.*) BABU RAM *v.* YASIN. **L. R. 5 A. 526 : A I. R. 1924 All. 880.**

———*Exclusive possession—Ejectment—Khudkasht—Partition.*

Where a co-sharer suing for the exclusive possession of a plot of land proves that it was his khudkasht and the defendant trespassed upon the property and dispossessed him, the plaintiff is entitled to a decree and he could not be driven to a suit for partition in the Revenue Court. (*Gokul Prasad, J.*) KULDIP CHAUBE *v.* JAGNANDAN CHAUBE. **A. I. R. 1923 All. 363.**

———*Exclusive possession.*

As between co-sharers the rule is that where there is land to be cultivated, each sharer may take into his own cultivation out of the culturable land an amount proportionate to his share. If he takes more he must recompense his other co-sharers, but until he has taken more he need not recompense anybody. (*Stuart, J.*) BHIRUG RAI *v.* HAZARI RAI. **64 I. C. 922 (All.).**

———*Exclusive possession—Position and rights of.*

The position of a co-tenant or a co-partner holding the property in his own name is not that of a trustee for the other co-owners or co-partners ; and if he has certain obligation in respect of the property so held by him towards the co-owners or co-partners, the co-owners or co-partners would have the right to enforce in a proper manner their right of ownership to that property. CO-SHARER—Exclusive Possession.

———*Exclusive possession—Possession of one is not ouster of others save in rare cases.*

The possession of one co-sharer is the possession of other co-sharers also and save in exceptional circumstances it does not amount to ouster of other co-sharers. (*Greaves and Graham, JJ.*) JINNATENNESSA *v.* ABDUL HALIM MUNSHI. **82 I. C. 822 : A. I. R. 1925 Cal. 469.**

———*Exclusive possession— Arrangement as to—Disturbance—Remedy.*

Where joint owners have agreed to a mode of enjoyment of joint property, it is not open to one of them to disturb that arrangement without the consent of the others. 27 C. L. J. 441 Rel. This is not inconsistent with the fundamental principle that in law each joint owner of an estate is regarded as having a proprietary right in the whole estate. That however is merely a right and must not be confounded with the manner of enjoying that right ; it operates in strict law to prevent a co-owner from setting up a claim to any parcel as his exclusive property during the continuance of the joint ownership. But where co-owners, by arrangement, either tacit or express, take up exclusive possession and enjoyment of different parcels of the joint property, without such definition on severance of interest as would amount to partition, the Court will not interfere with the arrangement at the instance of one co-owner during the tenure in common and will do so only on partition so far as may be necessary to make an equitable division of the property. 28 C. 223 11 C. W. N. 143 ; 19 C. W. N. 872 : 27 A. 88 ; 34 A. 113 Rel. (*Mookerjee and Rankin, JJ.*) KAMESWARI DASYA *v.* SISHURAM DEKA. **39 C.L. J. 414 : A. I R. 1921 Cal. 792.**

———*Exclusive possession for enjoyment—Right to eject—Lessee if can sue for ejectment.*

———*Exclusive possession—Shamilat land--Transfer by one co sharer—Until partition other co-sharers cannot prevent transferee from building on land.*

Although a co-sharer in shamilat land not being the sole owner of the land cannot sell the full proprietary rights in the land, a sale by him, nevertheless, holds good to the extent of conveying the rights which he can sell including the right to retain possession till partition. When a co-sharer has been long in possession of a portion of the shamilat land no other co-sharer can oust him therefrom or even get joint possession with him as long as a partition of the shamilat does not take place. A transferee from a co-sharer has the same rights in the land that his transferor had. He is entitled to undisturbed possession of the land as long as the shamilat is not partitioned and the other co-sharers have no right to prevent him from building on the land. (*Martineau, J.*) SAAD ULLAH *v.* IBRAHIM. **85 I. C. 553 (1) : A. I. R. 1925 Lah. 518.**

———*Exclusive possession—Common land—Use by one to the prejudice of others is not justified.*

CO-SHARER—Joint Possession.

It is a well-established custom that no individual proprietor can appropriate to himself a portion of the common land and use it in such a way as to affect the rights of all the co-sharers at the time of the partition, and that plaintiffs who come into the Court to restrain such individual without any delay are not obliged to show material and substantial injury. ———*Exclusive possession—Shamilat land—Land possession—Ejectment.*

Where a co-sharer has been in exclusive possession of a por ion of the common shamilat land, it is not open to the other co-sharers to sue to eject him or to obtain joint possession with him, so long as a partition of the shamilat does not take place. (*Scott-Smith, J.*) MAHOMED AMIN *v* KARIM DAD. **A. I. R. 1924 Lah. 293.**

———*Exclusive possession—Shamilat—User of excess area for private purposes of the proprietor.*

Where the area over which grazing rights extend is larger than that required by the persons with those rights a proprietor may use the excess for his own purposes. ———*Exclusive possession—One cannot recover mesne profits from others in absence of ouster—Ouster cannot be presumed from the fact of one co-sharer exclusively occupying a portion of joint land if he leaves enough to the others.*

A co-sharer is not entitled to get mesne profits from his co-sharers on account of their cultivating lands in excess of their shares when there is no proof of ouster and the mere taking up the exclusive occupancy of a portion of joint property by one co-owner after leaving sufficient margin for the other co-owner to take up similar exclusive occupancy of other plots would not amount to an ouster so as to render the first occupant liable in mesne profits to the claimant or make him accountable for cultivating profits. (*Kinkhede, A. J. C.*) MT. BHAGAI *v.* BHEOSEN. **83 I. C. 86 : A. I. R. 1925 Nag. 240.**

———*Exclusive possession by one can't be ended save on strong grounds.*

Very strong grounds are necessary for depriving a co owner of the exclusive occupation which he has taken up of joint land. (*Kinkhede, A. J. C.*) KUVERJI *v.* RAM. **82 I. C. 432 : A. I. R. 1925 Nag. 145.**

———*Exclusive possession—Easement—Two plots held exclusively by two co-sharers severally—Holder of one plot cannot claim easement over the other plot.*

Although exclusive possession by co-sharers of portions of undivided estates is a common thing, such exclusive possession does not amount to an ouster of the other co sharers. Every joint owner has a right to use any portion of the joint lands so long as he does not exclude the other co-sharers from it. Therefore one co-sharer in exclusive possession of a plot cannot acquire a right of easement over another plot held exclusively by another co-sharer. (*Ross and Kulwant Sahay, JJ.*) KAMESHWAR NARAIN SINGH *v.* JANARDHAN PRASAD NARAIN SINGH. **3 Pat. L. R. 81 : 87 I. C. 736 : A. I. R. 1925 Pat. 492.**

———*Joint possession—Common land.*

No co-sharer who has been in physical or actual possession of any part of joint land is liable to be ejected by any of the other co-sharers except by means of a partition lawfully obtained. Where he has been ousted from the land occupied by him he is entitled to be restored to the actual possession which he had before and not merely to joint possession with the defendant co-sharer. 44 A. 5. ———*Joint possession—Ouster is a question of fact in each case—Ouster can be presumed from non-participation in profits and other circumstances—Ejectment suit, when lies.*

Generally speaking, one tenant in-common cannot maintain an ejectment suit against another tenant-in-common, because the possession of one tenant-in-common is the possession of the other, and to enable the party complaining to maintain an ejectment there must be an ouster of the party complaining. But where the claimant, a tenant in-common, has not been in the participation of the rents and profits for a considerable length of time and other circumstances concur, the Court can presume that there has been an ouster. However, no definite rule of law can be laid down as to what constitutes an ouster, every case must depend upon its own facts and the Court of fact is entitled to find whether certain set of facts presented before it, does or does not amount to ouster. 43 Mad. 244, Foll.; 28 C. L. J. 437 (P. C.) Ref. (*Suhrawardy and Cuming, JJ.*) HANGESWAR KUNDU *v.* SURYA NARAIN. **87 I. C. 336 : A. I. R. 1925 Cal. 1221.**

———*Joint possession—Mere setting up a rival claim in the written statement does not give a right to a decree for joint possession—Exclusive circumstances must be proved to justify exclusive occupation of joint property by one co sharer.*

CO-SHARER—Joint Possession.

Setting up of hostile title or ouster prior to the filing of the written statement must be proved. The plaintiff will not be entitled to allege that there was ouster and on that ground to seek joint possession by merely setting up a rival claim or hostile title in the written statement. If there are more tenants-in-common than one and one of them be in actual occupation of a portion of the estate and cultivating that part in a proper course of cultivation as if it belonged to him separately and another tenant-in common attempts to come upon the said portion for carrying on operations inconsistent with the course of cultivation in which the first tenant-in-common is engaged and the profitable use of the said portion by him and the first tenant resists and prevents such entry by the other tenant not in denial of his title but simply to protect himself in the profitable enjoyment of the land, his conduct would not give the other tenant right to a decree for joint possession. *Prima facie* co-owners have a right to hold joint possession of joint property and therefore if one co-sharer tries to defeat the claims of another co-sharer to such joint possession of the property then special circumstances have to be alleged and established to justify exclusive occupation by one of the co-sharers of the joint property. Where only some of the co-sharers set up an exclusive or adverse right in land jointly held, the above principles apply. (*Walmsley and Mukerji, JJ.*) RAJENDRA NARAYAN ROY *v.* BHAIRABENDRA NARAYAN ROY. **82 I C. 235 : A. I. R. 1925 Cal. 235.**

———*Joint possession—Common way—Obstruction by one—Suit by the other—Limitation.*

———*Joint possession—Right to—Partition suit.*

Where a suit for partition is pending between the co-sharers and the rights of the parties to *khas* possession of different lands would be finally decided, the Court would not disturb the existing possession of the lands by the co-sharers, unless it is compelled by cogent reasons. Lambardar.

———*Lambardar—Liability of Lambardar arises on date of ascertaining the amount due except in case of any legal provision—He is also liable for negligence or wilful mischief.*

For the purpose of collection and distribution, a *lambardar* is undoubtedly the agent of the co-sharer and that legal relationship, when a question arises with regard to the accounting by the lambardar for the rents and profits for which he is responsible on behalf of his principal, sets in motion two recognised principles of contract law. The first is this.—An agent who collects money for his principal subject to a proper deduction for commission, expenses, outgoing and so forth, is a debtor to his principal for the balance in his hands. The liability to pay arises when the amount is ascertained, subject to this, that if there is a customary period or a period fixed by some notification having the force of law, it becomes payable in the eyes of the law on that date. The delay in such a case is neither the fault of the lambardar nor the fault of the co-sharer. It is the fault of the tenant and cannot affect the contractual rights of the parties. The second principle is this:—An agent who neglects his duty, that is to say, who is guilty of a breach of contract, is ordinarily liable to pay compensation or what is called damages, which directly follow from his breach. If a lambardar does not collect from solvent and willing tenants, if he squanders the cash, and generally fritters away profits which might be realised if he were ordinarily diligent, he is, in the eyes of the law, apart from anything in the Tenancy Act, liable for breach of contract. To these two just claims recognised by the Contract Act, there can be only two defences. The first is satisfaction either by cash payment or contra account. The second is limitation, by which the law prohibits the co-sharer from enforcing his claim. (*Walsh, Ag. C. J., Sulaiman, Ryves, Mukerji and Daniels, JJ.*) SHEO GHULAM *v.* SALIK RAM. **22 A L. ———*Lambardar—Land compensation paid to Lambardar is not recoverable as profits.*

The lambardar had received a certain sum from Government as compensation for a small area acquired under the Land Acquisition Act. The amount instead of being paid to all the proprietors was for some reason paid to the Lambardar who apparently had not given the plaintiff, a co-sharer, his share. *Held*, that this could not properly be treated as *sewai* income recoverable in profits in a suit under the Tenancy Act. ———*Lambardar—Dues payable to—Agreement between co-sharers—Effect.*

In a suit by a lambardar against the co sharers for the recovery of lambardari dues, the defence was that the co-sharers made collections themselves and paid revenue of their respective shares and that under the terms of the *wajib ul arz* of 1285 fasli the lambardar of the village was not entitled to any remuneration. At the settlement of 1285 fasli before the Board of Revenue had issued the rules under U. P. Land Rev. Act there was an agreement between the co-sharers that the lambardar should receive no remuneration. At a subsequent settlement in 1312 Fasli the plaintiff lambardar contended that this agreement was abrogated. There was no evidence that it had been abrogated or reaffirmed. *Held*, that if the co-sharers as a body desired to contract themselves out of the rule framed by the Board of Revenue, they ought to have agreed upon some nominal remuneration for the lambardar. The lambardar is placed in a strong position; he can bargain with the co-sharers for some reasonable remuneration, under threat of standing upon his extreme rights and claiming his full 5 per cent. on the land revenue. The agreement relied upon by the defendants co-sharers even if it survived the enactment of the Board of Revenue's Rules came to an end automatically at the close of the settlement for which it was made and could have no effect on the rights of the lambardar thereafter, at any rate, unless it were proved that it was expressly renewed. CO SHARER—Lambardar.

The mere fact that a lambardar gave a lease of land during the pendency of a litigation between him and a co-sharer, does not in the absence of collusion between the lessee and the lambardar, vitiate the lease. The lambardar has no statutory power to settlement. But he is the ostensible agent of the co-sharers and if they appoint him their agent generally with certain reservations, they must be deemed to give him such authority as is not expressly reserved ; the tenants or lessees cannot be expected to know the reservations made unless they are communicated to them and certainly cannot be expected to know that there are other limitations on his authority outside the specified reservations. ———*Lambardar—Lease for a long term—Validity of*—Onus.

A lambardar's authority to grant leases is not a statutory authority ; on the other hand there are no statutory restrictions upon his power in this respect. His authority to arrange for the cultivation rests on the fact that he is the agent of the co-sharers. He is bound to manage the property in their interests and for their benefit exercising the same ordinary prudence as if the property was his own. Whether it was necessary or prudent to grant a lease for a period of 20 years depends on the circumstances of the case. It cannot be presumed that the period was excessive. Where the co-sharers have acquiesced in the lease for 16 years, and then turn round and say that the lease was fraudulent or collusive or unreasonable, the *onus* lies upon them to prove their assertions. Undue delay in the assertion of the claim negatives the right. When there has been an alteration in the revenue record prior to the institution of the suit, but made during the period for which profits are claimed, the duty of the Court trying a suit for profits must be to consider the order by which the alteration was made and to give effect to the intention of the said order. If, for instance, a plaintiff was the recorded proprietor of an eight annas share in a mahal during the first year or the period in respect of which profits were claimed and it was shown that after the close of that year he had been recorded as proprietor of a four annas share from a finding only that he had transferred his interest in the remaining four annas share after the close of the first year in suit, then the duty of the Court would be to give effect to the entries year by

———*Mutual relation—In suit by one co-sharer for ejectment from entire premises he must prove that on date of suit he had authority to sue for ejectment from the entire premises.*

When a lease is granted by one co-owner, the other cannot maintain a suit for the ejectment of the lessee from the whole of the premises. In a suit by one co-owner for ejectment of a trespasser from the whole of the premises the burden of proof lies on him to show that he had unrestricted authority to eject him on the date of the suit. The mere fact that at some point of time in the past he had such authority is not sufficient to show that he continued to be clothed with that authority at the date of the suit so as to be entitled by himself to require the defendant to clear out of the entire premises notwithstanding the fact that the other co-owner has manifested his intention to the contrary by granting him a fresh lease of the entire properties. Partition.

——— *Partition—Disagreement as to management—Co-sharer cannot deal with common land to the detriment of another co sharer.*

Partition is the remedy which a co owner has if he and the other co-owners cannot agree as to how the lands which they hold in common should be managed. 17 I.A. 110 Ref. Where lands in India are held in common by co-sharers, each co-sharer is entitled to cultivate in his own interests in a proper and husband-like manner any part of the lands which is not being cultivated by another of his co-sharers, but he is liable to pay compensation in respect of such exclusive use of the lands. Such an exclusive use of lands held in common by a co-sharer is not an ouster of his co-sharers from their proprietary rights as co-sharers in the lands. No co-sharer can, as against his co-sharer, obtain any jote right, rights of permanent occupancy, in the lands held in common, nor can he create by letting the lands to cultivators as his tenants any right of occupancy in them. 17 I. A. 120, 121 Ref. Where a co sharer alleged that he purchased jote rights in lands held in common by the co-sharer, *held*, such a purchase would in law be

——— *Partition—Co-tenant is entitled to use every part of joint property provided he does not exclude co-tenant or deny his right—Co-tenant can prevent use by the other co-tenant which is repugnant to his feelings—Where differences occur remedy is by partition only.*

Every co-tenant has the right to enter into and occupy the common property and every part thereof, provided that in so doing he does not exclude his fellow-tenants or otherwise deny to them some right to which they are entitled as co-tenants. A co-tenant has a right to insist that his own property should not be put to a use which is repugnant to his feelings except where the plaintiff has lost his undoubted rights to insist upon the continuation of the existing state of the possession of the common lands. In case a co-sharer is unreasonable and obstructs his co tenant in making beneficial use of the joint property, the remedy of the tenant-in-common is to seek partition and not to take forcible possession of the joint property to the exclusion of his co-sharers. 18 Cal. 10 (P. ———**S. 25, cl. 9**—*Wilful obstruction does not require any overt act.*

The Inspector of Cotton Excise wanted access to the godown of the accused's mill for inspection of the goods or account books. The godown was locked. The requisition of the complainant to have it opened was not complied with. It was not suggested in the case that the accused had not the necessary control over the key and that he was not in a position to open the godown if he was minded to do so. *Held*, under these circumstances if the accused refused to open the godown he undoubtedly caused an obstruction to the free access to this godown to which the complainant was entitled. It does not matter as to what the object of the complainant was in asking the accused to open the godown. Obstruction is caused no less because the purpose for which it was wanted is not established as alleged by the complainant. (*Shah, A. C J. and Fawcett, J.*) MUKUNDLAL BANSILAL *v.* EMPEROR.

———*Can be claimed on relief apparently claimed.*

The question of Court-fee has to be decided with

reference to the claim. The Court cannot insist on Court-fee on consequential relief not actually asked on the ground that the plaintiff has cast the reliefs in such a form as to conceal the real nature of the relief, though if consequential relief is not asked when it could have been asked, the suit may be dismissed. ———*Mesne profits—Appeal against decree bearing full court-fee—Dismissal—Subsequent ascertainment of mesne profits—Appeal—Fresh Court-fee if payable.*

Plaintiff brought a suit for possession and mesne profits, the claim for mesne profits being valued at Rs. 4,696-8-3. The suit was decreed for possession and it was directed that the amount of mesne profits should be ascertained. An appeal to the High Court bearing full Court-fee was filed but the appeal was dismissed. Then the mesne profits were ascertained to be Rs. 1,604-10-3. The defendant appealed to the District Court and preferred a second appeal in the High Court. *Held*, that the Court-fee on the mesne profits had in fact been paid already by the Court-fee on the original memorandum of appeal and that it need not be paid again a second time. 16 C. ———*Declaratory suit—Property in the custody of Court—Court-fee payable.*

The property was in the custody of the Court ; all that the plff. had to do was to establish his title to the property. Therefore, it is only necessary for him to file a suit for a declaration of his title to the property, but not for recovery of possession, it is enough if the court-fee is paid as in a declaratory suit. ———*Interest—Future interest—*Ex parte *decree—Appeal—Interest after period of grace.*

A decree-holder is as a matter of right entitled to interest at the rate of 6 per cent. per annum from the date of grace up to the date of realization. If no such interest is allowed and the decree-holder appeals, he is not liable to pay Court-fee on interest due in the interval between the expiry of the period of grace and the date of hearing of the appeal. 17 B. 41, Ref. ———*Determination of—Evidence.*

To decide if a suit has been valued properly for purposes of Court-fees evidence should be recorded on the point. An application for the appointment of a curator under Act XIX of 1841, which contains a description of the value of the property does not impose a corresponding obligation as to the stamp duties leviable on it, and hence is not a safe criterion as to the value of the property. A decision as to valuation based on it cannot be sustained. (*Fawcett, J C. and Raymond, A. J. C.*) RAMDAS *v.* AJUDHIADAS. **63 I. C. 685: 14 S. L. R. 137.**

COURT FEES ACT, (VII of 1870)

———*New Act coming into force—Effect—Plaint returned for presentation to proper court—New Court Fees Act before actual presentation—Court fee payable.*

Where a plaint filed while the old Court Fees Act was in force was returned for presentation to proper court and before the actual presentation in the proper court the New Court Fees Act came into force, the Court Fee payable is under the new Act and the amount payable is the amount due under the new Act minus the amount that had been already paid. ———*Alternative relief—Stamp on large relief.*

Where a plaintiff sues in the alternative for one of two reliefs, the larger of the two reliefs sought determines the amount of the stamp. (*Abdul Raoof, J.*) KUNDAN LAL *v.* ANUND SARUP. **A. I. R. 1923 Lah. 456.**

———*Drafting is unscientific.*

The drafting of the Act is unscientific and its interpretation gives rise to considerable difficulty. (*Dawson Miller, C. ———*Basis of taxation.*

Under the Act, it is the value of the property, in respect of which the grant of Probate or Letters of Administration is made that is taxed. The Court cannot consider what the value of the property would be, if it passes into the hands of an efficient manager well equipped with capital and energy. ———*Fiscal enactment—Strict construction.*

The Court Fees Act is an Act dealing with purely fiscal matters, and the rule of construction adopted by the courts that statutes imposing pecuniary burden on the subject, must, in cases of doubt, be interpreted in favour of the subject, applies to the Act. ———S. 4—*Letters Patent Appeal—Court fee if payable on.*

S. 4 of the Court Fees Act is not applicable to a Letters Patent Appeal from the judgment of a single Judge of the High Court and no Court fee is leviable thereon except Rs. 2 prescribed for an application to the High Court. 44 A. 13 ; 65 I. ———S. 4—*Suit transferred to High Court under Cl. 13 of the Letters Patent (Mad.)—Deficiency must be paid by plaintiff according to Court-fees Act.*

Suits below Rs. 1,000 in value do not come within Ss. 39 and 40 of the Presidency Small Cause Courts Act. The transfer of such suits to the High Court will be under powers vested in it under S. 13 of the Letters Patent, and the jurisdiction of the High Court to try such suits would be Extraordinary Original Jurisdiction conferred by the Letters Patent. (22 M. L. J. 187, Foll.) The High Court (Mad.) has framed no rules in respect of suits transferred under the Extraordinary Original Jurisdiction of the Court conferred either by S. 13 of the Letters Patent or S. 24 of the C. P. Code. In such cases the Court-fees Act would apply. The fees payable are the fees prescribed in the First and Second Schedules to the Act. Any deficiency, if payable, must be paid by the plaintiff. (*Kumaraswami Sastri, J.*) VARADARAJA MUDALIAR *v.* ARUMUGAM PILLAI. **22 L. W. 15 : A. I. R. 1925 Mad. 1216.**

———S. 4—*Applicability—Letters Patent appeal—Decision of single Judge.*

Where an appeal is filed under S. 10 of the Letters Patent (Patna) against a decision of a single Judge, S. 4 of the Court-fees Act cannot apply as it refers only to appeals against the judgment of two or more Judges or of a Division Court and as there is no provision under which court-fee is leviable, the appeal must be accepted without any court-fee. ———S. 5—*No reference made under S. 5—Court hearing appeal must decide question of insufficiency of Court-fee paid on memo. of appeal.*

Where there has been a reference to the Taxing Officer or the Taxing Judge, the question of insufficiency of the Court-fees as paid on the memorandum of appeal cannot be raised again at the time of the hearing of the appeal; for S. 5 of the Court-fees Act would clearly be a bar to any such re-consideration. But where no reference under S. 5 has been made at all the Court hearing the appeal must decide it. 37 Cal. 914, and 39 Mad. 725, Foll. (*Sulaiman and Boys, JJ.*) CHUNNI LAL *v.* SHEO CHARAN LAL.

——S. 5—*Taxing Officer can decide as to deficiency of Court-fee on plaint or memo. of appeal in lower Courts.*

By S. 5 the power of the Court to decide disputed questions of Court-fee is vested in the Taxing Officer subject to his power to refer the matter to the Taxing Judge when a question of general importance arises. This authority extends to all such questions arising in the High Court, whether the deficiency alleged is on the memorandum of appeal in the High Court or on a plaint or memorandum of appeal filed in the Court below. ——S. 5—*Jurisdiction of Taxing Officer—When arises—Difference of opinion between suitor and Court clerk not necessary—Object of section.*

The jurisdiction of the Taxing Officer does not arise like the jurisdiction of an arbitrator, upon a difference of opinion between a Court clerk and a suitor and upon some sort of formal reference to decide that dispute. The intention of S. 5 is merely to ensure that the question should be raised before the Taxing Officer, that he should bring his mind to bear on the question and that he should decide it. ——Ss. 5 and 19-I—*Letters of Administration to the estate of deceased Hindu governed by Mitakshara—Duty payable—Taxing Officer's decision is final—Rules and orders of Calcutta High Court, Ch.* 35, *R.* 4.

A Hindu governed by the Mitakshara School of Hindu Law died intestate. His younger brother and his two sons applied for Letters of Administration. The deceased, at the time of his death, was a member and the karta of a joint Hindu family consisting of himself and the applicants. The deceased left certain amount in a bank. The applicants based their claim on the view that the deceased was a sole trustee, and they maintained that no sum was payable under Art. 11 of the First Schedule of the Court-fees Act. The applicants obtained a certificate from Taxing Officer within the meaning of S. 5 of the Court Fees Act, 1870, to the effect that "the fee prescribed by Art. 11 of Sch. I is not payable in this case, it appearing from the affidavit that the property mentioned therein was held by the deceased in his life-time not beneficially or with general power to confer a beneficial interest." The learned Judge before whom the application was laid for grant of Letters dismissed the application being of opinion that a fee under Art. 11 of Sch. I was chargeable. *Held* : the Taxing Officer's decision is a final decision under S. 5 and the Court had no authority to review it under S. 19-1. (*Sanderson, C. ——S. 5—*Appeal from Original Side of High Court—Dispute as to court-fee payable—Power of Judge to decide dispute—Madras High Court Rules, Original Side, Art.* 36.

It is competent to the Chief Justice of the High Court to refer a dispute between a suitor or his attorney and the Officer of the court as regards the court-fee payable on an appeal from an order of a single Judge on the Original Side, to the decision of a particular Judge of the High Court under S. 5 of the Court-fees Act. The Court fee payable on an appeal against a final order on a guardianship petition presented on the Original Side of the High Court is Rs. 100 under Art. 36 of App. II to the Madras High Court Original Side Rules. COURT FEES ACT (VII OF 1870), S. 7.

——S. 5—*Wrong assessment by Taxing officer—Remedy.*

The Court has no power or jurisdiction to interfere with the order passed by the Taxing officer which is final and against which there is no power of appeal, review or revision, even in a case where a Division Bench of the High Court decided that the order of the Taxing officer as to the court fee payable was wrong. The remedy of the party is to move the Board of Revenue to grant a refund. (*Adami and Sen, JJ.*) HITENDRA SINGH *v.* MAHARAJADHIRAJ OF DARBHANGA. **(1925) P. H.C. C. 359.**

——S. 5—*Valuation of subject-matter— Taxing officer has jurisdiction—He should take evidence.*

Per *Curiem*, (*Das, J. dissenting*) :—The Taxing Officer or Taxing Judge, as the case may be, is under S. 5, the proper person to determine the fee payable on a memorandum of appeal presented to the High Court and for this purpose, he may investigate the question of the proper valuation of the subject-matter of the appeal. It is essentially desirable that the Taxing Officer in determining questions of valuation should not as a rule base his decision merely upon allegations in the plaint as to the annual profits of the property to be valued. In order to arrive at a proper decision on such a question, the parties should be called upon to produce in such manner as may be convenient such documentary or other evidence as they may be prepared to tender to enable the Taxing Officer to decide the question. Per *Jwala Prasad, J.*, (*Semble.*)—The non-observance by the Taxing Officer of such precautions will detract from the finality of his decision. (*Dawson Miller, C. J. ——S. 5—*Decision of Taxing Officer-Finality of.*

Under S. 5 of the Court Fees Act, the Taxing Officer has jurisdiction to fix the amount of fee payable, and if he decides that the valuation put by the appellants upon the relief was incorrect, he can correct it. Even if he has done anything not expressly allowed by law, the Court Fees Act gives the High Court no power to interfere with his decision as to the amount of fee. (*Miller, C. appeal—Suits Valuation Act, S. 8.

In order to determine the proper appellate Court what has to be looked at is the value of the original suit, *i.e.*, the amount or value of the subject matter of the suit. The word "value" must be taken to be the value assigned by the plaintiff in his plaint and not the value as found by the Court unless it appears that, either purposely or through gross negligence, the true value has been altogether misrepresented by the plaintiff. 32 All. 22. ; 34 al. 954 Dissented from. ——Ss. 7 (1), 4 (e) and 11 (b)—*Suit for declaration of plaintiffs' liability to make a smaller periodical payment than that claimed by deft.—Valuation for purposes of court-fees and jurisdiction.*

COURT FEES ACT (VII OF 1870), S. 7.

A suit for a declaration that the plaintiff is liable to pay *achu palasha* (a kind of royalty payable to a hill owner) only at the rate of 150 seers of paddy per annum and not at the rate of 459 and odd seers as claimed by the defendant, does not fall under S. 7, cl. (1) or S. 4, cl. (*e*). or S. 11, cl. (*b*) of the Court Fees Act. The suit is one for a declaratory decree without any consequential relief, and its jurisdictional value cannot be higher than the value of the subject-matter in dispute between the parties. The subject-matter in dispute is the difference between what the plaintiff admits to be the proper rate and the rate alleged to be claimed by the defendant. The declaration which the plaintiff seeks, if allowed, would relieve him from the liability to pay the difference between these two sums for all time, and therefore in estimating the value of the subject-matter in dispute the Court must take the capitalised value of that right. The Court is empowered under the law to revise the valuation put by the plaintiff and if on such revision, it is of opinion that the valuation is insufficient or arbitrarily low, it has jurisdiction to fix the proper value. But where a Court determines the valuation according to its judgment or holds that plaintiff's valuation is correct, it does not commit such an error of law as to entitle the High Court to interfere under S. 115, C. ——S. 7 (iv)—*Partition suits—Jurisdiction and Court Fees.*

There is a distinction between suits for partition pure and simple, where the plaintiff is in joint possession of his share and there is no dispute as to his title of share, and suits where the plaintiff seeks for an adjudication of his title or extent of share and for partition after such adjudication. In the latter case it is the value of the plaintiff's share which will determine jurisdiction of the Court and not the value of the entire property. Where there is no question as regards the title of the plaintiffs and the only question before the Court is as regards partition, the value of the whole of the properties sought to be partitioned must be the value for the purpose of jurisdiction. 1 P. In pursuance of a contract for sale of a shop defendant executed a sale-deed and gave it to the Sub-Registrar for registration. The document was returned to the defendant and in the absence of the plaintiff (the vendee) the defendant sold the shop to a third person. Subsequently plaintiff brought a suit for return of the original sale-deed or in the alternative for the execution of a fresh sale-deed and for its registration. Plff. valued the suit under S. 7 (iv) (*a*) of the Court Fees Act and on the relief for registration paid a court-fee of Rs. 10 under Sch. II, Art. 17 (vi) of the Act. *Held*, that the suit was one for specific performance of a contract of sale and court-fee was payable under S. 7 (*a*) (*b*) of the Court Fees Act according to the amount of consideration. The absence of a prayer for possession was immaterial. (*Scott-Smith and Fforde, JJ.*) FAKIR CHAND *v.* RAM DATT. **5 Lah. 75 : 80 I. C. 953 : A. I. R. 1924 Lah. 439.**

——S. 7 (iv) (a)—*Sale deed—Suit by vendee to set aside and to recover portion of purchase money—Damages—Court-fee on plaint.*

The appellant purchased some property for Rs. 2,000 under a sale deed executed by the defendant and paid him Rs. 1,000 in cash and executed in favour of the defendant and his minor sons a mortgage deed for the balance of consideration for the sale. In a suit brought by her (appellant) alleging that the defendant had played a fraud on her by suppressing important facts and praying for declaration that the sale deed and the mortgage deed were invalid and for the return of the Rs. 1,000 paid by her and for Rs. 300 as damages, *held*, that the substantial relief asked for by the plaintiff was the cancellation of the sale deed, the claim for money being only ancillary to it, and that Court-fee on Rs 2300 should be paid by her. The property having actually passed by the sale deed from the defendant to the plaintiff, she could not claim the amount paid by her without setting aside the sale. The father of a joint Hindu family made certain alienations as guardian of his minor sons. The sons brought a suit for a declaration that the alienations were not binding on them and for partition and possession of their share in all the properties. *Held* that as the alienations were made by the father not only as the manager of a joint Hindu family but also as their guardian, the minors appear as parties to the alienations which are *prima facie* binding on them, and consequently the plaint must be construed as one for cancellation or avoidance of the alienations to which the minors are parties and court fee is payable under S. 7 (4) (a) on the amount or value of the property for which the documents of alienation were executed. ——S. 7, iv (b)—*Suit not on basis of plaintiff's ouster—Clause applies.*

Where there is no ouster by the defendants of the plaintiff from the joint possession of the joint family property, S. 7, cl. 4 (b) applies to the case. The proper test to be applied to the case to see whether S. 7 cl. 4 (b) applies will be whether, if the plaint state of affairs continued for 12 years, the plaintiff would be barred from suing. Where the suit is on the footing that the right to share exists admittedly and has never been denied, and the plaintiff is merely suing to enforce that right to share, he could not be barred from suing if the plaint state of affairs continued for 12 years. A mere statement by the plaintiff in an affidavit filed more than a year after the plaint to the effect that he was out of the enjoyment of the profits of the property does not affect the question. (*Wallace, J.*) P. M. RAMAKRISHNA AIYAR *v.* MUTHUSWAMY IYER. **86 I. C. 627 : 21 L. W. 207 : A. I. R. 1925 Mad. 468.**

——S. 7 (iv) (b)—*Suit for partition—Right to share disputed right—Court-fee payable on.*

The valuation for the computation of court-fees in a suit for partition depends upon whether the relief sought is merely a change in the mode of enjoyment of the property or the enforcement of a disputed right. In the present case the plaintiffs alleged a partial partition and they claimed partition of that part of the family property, including certain moveables, which was kept joint at the partition. The defendants' case is that the plaintiffs have already separated and have been given their full shares and have no rights whatever in the property in suit, which is not available for partition. *Held*, this is a clear denial of the plaintiffs' right to share, and the present suit is a suit to enforce the right to share in the property on the ground that it is joint family property falling under

A consequential relief can be insisted upon only when the plaintiff will not get any redress by having merely a declaratory decree. For instance, when the property is in possession of the defendant, the Plaintiff will not be allowed to seek merely a declaration of his title but must pray for recovery of possession as consequential relief. But where a mere declaration is sufficient to give the plaintiff full relief, a further declaration will be deemed to be redundant and the act that the plaintiff asked for a redundant relief will not alter the nature and scope of the suit and make the suit one for a declaration with consequential relief. Where the suit is for declaration that certain transactions diminishing defendant's share in joint family property so as to save it from attachment and sale in execution of plaintiff's decree were void, and for declaration of plaintiffs' right to realize their decree from the property, the latter relief is unnecessary and the suit is only a suit for declaration and not for declaration with consequential relief. The value of an appeal is not in all cases the value of the suit as originally filed but the value of the relief granted which a party wants to get rid of. Where in a suit for recovery of possession of immoveable properties, the plaintiff is given a decree, conditional on his paying a sum to the defendant, an appeal by him, against the condition must be valued *ad valorem* on the amount he was asked to pay. Where a challenge is directly thrown on the title of the plaintiff, and the plaintiff comes to Court in order to meet that challenge, it is a suit clearly under S. 42 of the Specific Relief Act and if the plaintiff asks for possession also in that suit, his suit comes under S. 7 cl. (iv), Sub-cl. (c) of the Court Fees Act and not within S. 7, cl. (v) of the Act. A suit for declaration of title as adopted son and for possession is a suit that comes within S. 7, cl. (iv). Sub-cl. In a suit by the reversioners of a deceased Hindu for recovery of possession of properties, gifted away by the widow after her death, the plaintiffs prayed *inter alia* (1) that on consideration of the above facts the Court may be pleased to hold that the properties in dispute constitute the estate of B (the last male owner), that the plaintiffs as reversionary heirs of the said B are entitled to get possession of the properties in dispute since the death of K (the widow), that it is illegal on the part of the defendant not to give up possession of the properties and that the defendant's possession is quite wrongful and illegal. (2) That on adjudication of the above points a decree may be passed in favour of the plaintiffs in respect of properties in dispute by dispossessing the defendant or such person as may be found in possession at the time of delivery of possession. *Held*, that the suit was not one to obtain a declaratory decree where consequential relief was prayed for but one for possession under S. 7 (v) of the Court Fees Act. 6 P.L.J. 101 ; 5 P. ———S. 7 (v) (a) and (d)—*Suit for possession of specific plot of land in permanently settled estate—Court fee—Deficiency—Procedure.*

A suit for the recovery of a specific plot of land situated within a permanently settled estate but not constituting a definite share thereof or separately assessed to revenue, falls within cl. (v) (*d*) and not under cl. (v) (*a*) or (*b*) of S. 7 of the Court Fees Act. Court-fee should therefore be paid on the market-value of the property in suit.

The plaintiff in the above suit having valued his plaint at ten times the share of the Government revenue due on the land, the Court directed him to pay court-fees on its market value. The plaintiff did not pay and the Court holding that the subject-matter of the suit exceeded its jurisdiction directed the return of the plaint for presentation to a superior Court. *Held*, that the procedure of the Court below was illegal. The Court should have first called upon the plaintiff to state the market value and then directed him to pay the proper court-fee on his plaint and on his failure to do so rejected the plaint. If the plaintiff paid the requisite court-fee and it was then found that the valuation of the suit went beyond the jurisdiction of the Court, the plaint should have been returned for presentation to the proper Court. In a redemption suit, the Court below passed a preliminary decree in which the amount payable by the plaintiffs was fixed at Rs. 39,240-11-7 on the 24th June 1919. The plaintiffs having paid the amount fixed, into the Court together with an additional sum of Rs. 409.6-0 interest accruing up to the date of payment, a final decree was passed on 29th April, 1920. The plaintiffs filed appeals from both these decrees asking for reduction of the amount fixed in the preliminary decree by Rs. 32,225-11-7. On the appeal from the preliminary decree the plaintiffs paid Court-fees *ad valorem* on the sum by which they wished the amount fixed therein to be reduced. On the appeal from the final decree they paid a Court-fee of Rs. 2 only, *Held*, the preliminary decree decided what the amount payable was and in the appeal from it the appellants contested the amount and paid full Court-fee on the relief claimed by them. The final decree is a mere corollary to the preliminary decree and followed it as a matter of course : the plaintiffs having paid into Court, the amount fixed, there was nothing fresh for the Court to decide before it passed that decree, and the appeal from that decree is really of a formal nature, and does not contest anything beyond what is contested in the appeal from the preliminary decree. ——S. 7 (ix) and Sch. I, Art. 1—*Provisions if applicable to appeals—' Suit ', meaning of—Mortgage suits—Court-fee payable in appeal.*

The provisions of S. 7 are applicable equally to appeals as to original suits and the word ' suit ' is not there used in contradistinction to ' appeal '. Court-fees are payable not on suits or on appeals but on documents which are filed, exhibited or recorded in Courts in accordance with S. 6 of the Act. The court-fee payable in appeal need not be the same as in the suit, as the nature of litigation may be changed in appeal. (1) If a suit for redemption or foreclosure has been dismissed the court-fee payable by the plaintiff-appellant on his memorandum of appeal will be computed in accordance with the provisions of cl. (ix.) of section 7 of the Court-fees Act, that is according to the principal money expressed to be secured by the instrument of mortgage. In such a case clearly the suit has not changed its nature in appeal. (2) If a suit to redeem has been decreed and the defendant-appellant merely challenges the right to redeem, the court-fee payable on the memorandum of appeal will be computed in accordance with the provisious of cl. ix of section 7 of the Court Fees Act. Here again there is no change in the nature of the suit. (3) If a suit to redeem or foreclose has been decreed and the plaintiff or the defendant in appeal merely challenges the amount to be paid or received without questioning the right to redeem on foreclose the court-fee payable on the memorandum of appeal will be on the subject-matter in dispute that is on the additional amount claimed or the amount in respect of which the appellant seeks to avoid liability. In this case the suit has clearly changed its nature in appeal and is no longer a suit falling within the provisions of cl. (ix) of section 7 of the Act (4) Where in a foreclosure suit a decree has been passed for a cer ain sum in default of payment of which within a fixed time the property shall be foreclosed and the defendant in appeal denies the plaintiff's right to foreclose on the ground that he is not liable to pay any portion of the sum decreed, the court-fee payable on the memorandum of appeal will be calculated *ad valorem* on the subject-matter in dispute according to Article 1 of Schedule 1, that is, on the amount of the decree the payment of which the defendant by his appeal seeks to avoid. In this case the suit has clearly changed its nature in appeal and has become a suit to avoid the payment of a specific sum. (5) Where a decree has been passed for redemption on payment of a certain sum and in appeal the defendant not only denies the plaintiff's right to redeem but in the alternative claims that if he be entitled to redeem he can do so only on payment of a larger sum than that fixed by the Court of first instance, the court-fee will be paid on the relief which is liable to pay the higher fee; on the former the fee would be computed in accordance with the provisions of cl. (ix) of section 7 read with Article 1 of Schedule I and on the latter the court-fees would be *ad valorem* on the difference between the amount found due by the lower Court and that claimed by the appellant. ——S. 7 (ix)—*Mortgage suit—Appeal—Valuation—Interest* pendente lite.

Where a mortgage suit is dismissed, the plaintiff is entitled to value his appeal at the sum claimed in the plaint in respect of the principal and interest up to the date of filing the plaint and is not bound to value the future interest which he may claim from the date of the suit up to the date of realisation or to pay court fee thereon. But if any future interest is determined by the trial court and is entered in the decree, additional court-fee on such interest has to be paid. If the appellate court grants him a decree for an amount larger than that claimed in the court below, court-fee must be paid on the difference and unless this is done the decree cannot be executed. ——S. 12—*Appeal is not barred when the category of the suit is disputed.*

Section 12 applies only to a decision as to the valuation of a suit, which falls within a particular class and not to a decision as to the particular class in which a suit falls, that is to say, if there is no doubt as to the class, in which the suit falls, and the section of the Court-Fees Act, which applies to it, the decision of the first Court as to the valuation, which depends on the value of the property in suit, is final, but if there is a dispute as to the class in which the suit falls, that is to say the section of the Court-Fees Act which applies to it an appeal will lie. 23 Bom. 486, Foll. ——S. 12—*Finality—Valuation.*

The valuation made by a trial court for the purpose of computing court-fee is final as between parties, but the class within which a suit falls can be agitated in appeal. The court itself can act under the 2nd part of S. 12 for protecting the Revenue.

——S. 12—*Decision about amount is final but as to category of suit or applicability of a section is not final.*

The question whether an order directing additional Court-fee to be paid is an interlocutory order which will be revised depends on the circumstances of each case. If it is an order merely assessing valuation of the property and the only question involved is as to the amount upon which the Court-fee has to be paid, the decision of the Court of first instance would appear to be final under S. 12 of the Courts Fees Act. That section has been enacted in the interests of revenue and is final so far as that Court is concerned. There will be no appeal or revision from that order. But the question may under certain circumstances be raised on appeal from the final decree made in the suit. Where, however, the question is under what provision of the Court Fees Act the relief sought for in the plaint comes or under which category the suit falls, the decision of the first Court is not final. Where it involves the jurisdiction of the Court to try the suit the decision is liable to be revised. 23 Bom. 486 ; 28 Cal. 334 ; 14 Mad. 169 ; 1 All. 360 Foll. A plaint, which was insufficiently stamped was filed in the City Civil Court, and was accepted without objection by the Sheristadar of that Court, the Chief Ministerial Officer of that Court entrusted with the duty of checking the pleading filed in that Court and of seeing whether the proper Court-fee had been paid thereon. The suit was dismissed by the City Civil Judge, and, on appeal, by the plaintiff, the Taxing Officer of the High Court demanded from the plaintiff the difference between the court-fee paid by her in the City Civil Court and the Court-fee payable by her according to law. The plaintiff contended that as there was no decision by the City Civil Judge under S. 12 of the Court Fees Act as to the proper Court-fee payable on the plaint, the Appellate Court had no power under S. 12 (2) of that Act to require her to pay the additional Court-fee. *Held*, overruling the contention, that the act of the Sheristadar in accepting the plaint amounted to a decision by the City Civil Judge as to the Court-fee payable on the plaint under S. 12 (1) of the Court Fees Act, and that the Taxing Officer was therefore entitled, under S. 12 (2) of the Act, to insist upon the payment of the difference. The words "shall be decided by the Court" in S. 12 (1) do not mean that an issue shall be raised and decided by the Court. All that they mean is that the Court, either the presiding officer, or the ministerial officer who is charged with that duty, has to determine what the Court Fee is. The application for review was presented to the Stamp Reporter on the 6th Sep. 1922. The court-fee paid on the application was one half of the Court-fee paid on the Memorandum of Appeal. The application was returned by the Stamp Reporter on the day it was presented, when the High Court had been closed for the vacation. Thereupon the application was presented to the Senior Judge on the 13th of Nov. 1922, when the Court re-opened after the long vacation. *Held*, that the presentation to the Stamp Reporter was proper presentation within the meaning of Arts. 4 and 5 of Sch. I to the Court Fees Act. As the decree in the appeal was not in existence till the 21st of July 1922 the delay in presentation could not be a ground for penalising the applicant. ——Ss. 17 and 19-I (1)—*Bengal Amendment Act (IV of 1922)—Application for probate—Court fee payable on—Introduction of new Act—Effect of.*

An application for probate was made on the 19th March 1922, the estate was valued and court-fees to the extent of Rs. 18,000 were paid. Thereafter, the will was proved on the 8th April 1922, and an order for probate was made. On the 8th April, 1922, it was brought to the notice of the Court that in the interval between the payment of court-fees on the application for probate and the order for Probate, the Bengal Court Fees (Amendment) Act, 1922, came into force on the 1st April 1922, and that the court-fees if calculated on the basis of the amended statute, would exceed the amount already paid by Rs. 10,370. *Held*, that the petitioner was not bound to pay the excess amount and that the Court-fee already paid under the old Act was sufficient. S. 19-I (1) of the Court Fees Act provides that no order entitling the petitioner to the grant of probate or letters of administration shall be made upon an application for such grant, until the petitioner has filed in Court a valuation of the property in the form set forth in the first Schedule and the Court is satisfied that the fees mentioned in paragraph II of the Schedule have been paid on such valuation. The third Schedule shows that the petitioner for probate or letters of administration is required to set out in detail the valuation of the moveable and immoveable properties left by the deceased. The law consequently, requires that such valuation should be made and the Court-fees paid on the basis thereof before an order entitling the petitioner to the grant of probate or letters of administration is made upon the application. As soon as he complied with requirements of the statute, his application was presented, and he became entitled to an order for the grant of probate or letters of administration if he could establish the genuineness of the testamentary instrument propounded by him. The subsequent amendment of the Act did not affect the petitioner. (*Mookerjee and Chotzner, JJ.*) THADDEUS NAHAPIET *v.* SECRETARY OF STATE FOR INDIA. **39 C. L. J. 209 : 81 I. C. 751 : A. I. Plaintiff claimed a right of pre-emption alleging that the property had been sold ostensibly for Rs. 10,000 while its real price was Rs. 5,100. The vendor

and vendee denied his right to pre-emption on the grounds of dominance and contiguity. The trial Court granted a decree for possession to plaintiff on payment of the market value which was fixed at Rs. 6,800. The vendee valued his ap eal at Rs. 6,800 and asked for a decree restoring that property to him or else requiring the successful pre-emptor to pay him an additional sum of Rs. 3,200. *Held* that they were two alternative relief based on exactly the same cause of action and only one of them could be granted. They were not two distinct subjects within the meaning of S. 17 of the Court Fees Act, and the correct Court fee is one calculated not on the aggregate of the two values but on the higher of the two. The fact that the appellant himself asserts the value of the property to be Rs. 10,000 does not affect the question. (*Abdul Raoof and Campbell, JJ.*) TEK CHAND *v.* TARA CHAND. **5 Lah. 114 : 85 I. ——S. 17—*Suit on mortgage—Same person holding two mortgages—Valuation—Subject—Meaning of*

A person holding two mortgages from the same mortgagor hypothecating the same properties and even when the due date in both is the same can bring suits separately on both bonds. In other words, there is nothing to prevent a mortgagee from suing on the first mortgage without joining the second and *vice versa*. If that is so, there can be no question that the mortgages were separate subjects and one under S. 17 of the Court Fees Act. The ordinary meaning of the word "subject" when used in law is a thing or matter, over which a right is exercised and the two mortgages were certainly two distinct matters. They could be deemed to be one either by a covenant in the mortgage consolidating the two together, or by some provision in law. Hence the suit to enforce the two mortgages is covered by S. 17 of the Court Fees Act. (*Jwala Prasad and Ross, JJ.*) NAWABA WAZIRI BEGAM *v.* BABU SHASHI BHUSHAN ROY. **2 Pat. 874 : 4 Pat. L. ——Sch. I, Art. 5—*Court-fee payable on review application—Appeal filed before the new Court Fees Act—Receiver application filed afterwards—Proper Court-fee—Bengal Court Fees Act, Amendment Act.*

The subject matter of an appeal was valued at Rs. 7,750 and on the 20th December 1919, a Court fee of Rs. 385 was paid on the memorandum in accordance with the table rates of *ad valorem* fees embodied in Sch. I of the Court Fees Act, 1870. The appeal was thereupon registered and was heard in due course.

COURT FEES ACT, Sch. I, Art. 11.

Judgment was pronounced on the 29th August 1922, when the appeal was dismissed with costs. On the 21st November 1922, the appellant presented the application for review of judgment. The application bore a court-fee of Rs. 192-8 0 that is, one-half of Rs. 385, the amount payable and paid on the memorandum of appeal when it was lodged in this Court. After the 20th December 1919 when the memorandum of appeal was filed and before the 21st November 1922. When the application for review was lodged, the Bengal Court Fees Amendment Act, 1922 (Act IV of 1922, B C.) had come into force on the 1st April 1922. Sec. 5 of this amending statute modified Art. 1 of Sch. I of the Court Fees Act, 1870, by enhancement of rate of fee payable on plaints, written statements and memorandum of appeal. Sec. 9 as a corollary altered the table of rates of *ad valorem* fees appended to the same Schedule. The consequence was that from the 1st April 1922, the amount of Court-fee payable on a memorandum of appeal valued at Rs. 7,750 was raised from Rs. 385 to Rs. 615. *Held*, that neither under the Court Fees Act as originally framed in 1870 nor under the Court Fees Act amended in 1922, can a petitioner for review of judgment be called upon to pay Court-fees on the basis of the fee which would be payable on the plaint or memorandum of appeal if it were to be filed on the date of the application for review. The amount must be calculated on the basis of the fee leviable (which in the normal course of events, is the fee actually levied,) on the plaint or memorandum of appeal according to the law in force when the plaint or memorandum is filed in Court. Tested in the light of this principle the application in the present case must be deemed to bear the correct Court-fee and must accordingly be heard on the merits. ——Sch. I, Art. 5—*Application for review—Court-fee payable on—Whether the same as on appeal.*

An application for review of the decision of a Court on an appeal must pay full court-fee on the valuation of the appeal and not merely on the subject of the review application. Had the legislature intended that an *ad valorem* fee should be levied only on the value of the subject-matter in respect of which relief was sought by the application for review, it could have said so in clear and definite terms. The words "Plaint" or "Memorandum of appeal" mean the plaint or memorandum of appeal in which the judgment review of which is asked for was passed, 31 All. 294; 3 C. W. N. 292, Foll. On 16-8-19 he applied to the High Court of another district in which lay some property of the testator for Letters of Administration. The High Court granted letters and proceeded to determine the value of the property for purposes of Court-fees. *Held*, that the value of the property must be assessed to the date, on which the first affidavit on 11-4-16 was filed and that on deducting the duty already paid under Art. 11, Court Fees should be paid on the value of the entire estate situate in both districts. ——Sch. II, Art. 17, S. 7 (4) (c)—*Applicability—Execution of mortgage decree against joint family—Resistance by some members—Declaratory suit that the mortgagee be entitled to attach and sell the joint family estate—Whether consequential relief.*

In a suit for enforcement of the mortgage against a joint family of defendants 1—6, and a personal decree was passed against defendant 1 only, as no necessity was proved, and the decree-holder applied for execution against 1st defendant, defendants 3, 7 and 8 resisted the application on the strength of a prior partition, and deft. 10, on a prior sale to him by the judgment-debtor for consideration and the 1st deft.'s share was diminished. The decree-holder filed a declaratory suit for holding that the sale to the 10th defendant was nominal, and that the prior partition suit filed on behalf of defendant 3, did not take place, with a specific relief, that it may be declared that the plaintiffs are entitled to realise their decree from the joint properties by attachment and sale. It was contended that the Court-fee paid was insufficient, for, besides the declaration claimed, consequential relief is claimed for, in the last prayer, and *ad valorem* fee under S. 7, cl. 4 (*c*) should be paid. *Held*, that the last mentioned relief is a mere surplusage and the relief sought is merely declaratory and the Court-fee charged should be under Sch. II, Art. 17 of the Court Fees Act. (*Jwala Prasad, J.*) MAHABIR PRASAD *v.* SHYAM BEHARI SINGH. **3 Pat. 795 : 80 I. C. 655 : 6 P. L. T. 82 : A. I. R. 1925 P. 44.**

——Sch. II, Art. 17 (iii)—*Appeal— Declaratory decree that mortgages did not affect plaintiff's reversionary rights—Condition of payment of a certain sum.*

The suit was one for a declaration that a certain alienation made by the plaintiff's father should not be binding upon their reversionary interest. The plaint was rightly stamped with a court-fee of Rs. 10. The suit was decreed subject to a reservation that a sum of Rs. 2,365 had been borrowed for necessary purposes. On appeal by the plaintiffs for the same relief *held* that the memorandum of appeal need not be stamped with more than 10 rupees. From the mere fact that the suit had been decreed on payment of a certain sum to the defendant—mortgagee, its nature was not in any way altered. It was not contemplated by the legislature that the court-fee payable on a part of a whole claim in appeal is, in the absence of express direction to the contrary, to exceed the court-fee payable on the whole claim. 92 P. A suit was filed by the plaintiffs for a declaration that a deed of adoption executed by A should not after she died or re-marriage affect their reversionary right. They valued their suit for purposes of jurisdiction at Rs. 6,895-15-0 being 30 times the land revenue on certain land together with the value of certain house and attached a court-fee of Rs. 10 to their plaint. The trial Court dismissed the suit. The Dt. Judge was appealed to and he granted the appellants the declaration sought in respect of a portion of the estate of the adoptive mother. In the second appeal preferred to the High Court by the defendant one of the pleas was that the appeal from the first Court's decree lay not to the Dt. Judge but to the High Court. *Held*, that as the suit was not one for annulling an adoption but for declaring that the adoption must not affect the plaintiff's reversionary rights was correctly valued for purposes of jurisdiction at Rs. 6,895-15-0 and therefore, the appeal from the trial Court decree must be made to the High Court and not to the Dt. ——Sch. II, Art. 17 (v)—*Suit for partition—Declaration of right to partition and possession—Ejectment suit—Court-fee payable on.*

Ordinarily, where the plaintiff in the case, as laid

by him in the plaint, affirms that he is in possession of a portion of the joint estate and claims a change in the mode of enjoyment of the property and prays for separate possession of his share as the result of redistribution of the property under the separate management of the parties, his suit is one for partition and separate possession of his share in the entire property, and as such the claim falls under Article 17 clause (c) of Schedule II of the Court Fees Act, and a fixed fee of Rs. 10 only is payable thereon. Where, however, the plaintiff admits that his title is disputed and that he is out of possession and enjoyment of the property sought to be partitioned, and he does not hold or possess or occupy any portion or item of the divisible property, and asks for partition, his suit must be treated practically as an ejectment suit, and an *ad valorem* Court-fee is leviable on a plaint in such suit. The Court will have to see whether the plaintiff claims anything more than a change in the mode of enjoyment of the property by partition or, in other words, whether it is a part of his cause of action as disclosed in the plaint that the defendants have denied his right for partition, or his right to joint possession in the property, or the nature of the property in the suit involved either in whole or in part. If he seeks a declaration of his right to partition on the ground that it is disputed it may safely be said that he claims something more than a change in the mode of enjoyment. This must be determined with reference to the tenor of plaintiff's claim as laid in the plaint, *i. e.*, on the cause of action as disclosed in the plaint. If the plaintiff alleges that each party is in possession of what he says is joint family property, then, on the principle that possession of one co-owner is possession of another the plaint cannot be treated as one instituted by person who is admittedly out of possession or whose right to partition is admittedly disputed, or the quantum of whose interest in the joint property is admittedly a matter on which he himself seeks an adjudication of the Court. Such a suit is one for partition of joint family property and must be distinguishable from a suit for declaration of his right to partition and possession, or for possession of his share on partition or for ejectment by a person who admits that he is wrongfully excluded from enjoyment of joint family property. In the latter class of suits what the plaintiff himself seeks is an establishment of his own title or right to partition of the property which is already in dispute (*Kinkhede A, J. ——**Ss. 15 and 17**—*Instigating formation of unlawful assembly—Contribution of funds—Abetment of offence—I. P. C., Ss.* 107, 108 *and* 117.

A man who instigates the formation of an association, the purposes of which are such as to render that association unlawful and contributes to and solicits contributions for that association may, broadly speaking, be considered to have contributed to and solicited contributions for the purpose of such association. But a penal statute has to be construed strictly and before an assocition can have a purpose it must be in existence and any contribution to or solicitation for such an association prior to its formation cannot render a person amenable to S. 17 (1) of the Cr. Law Amendment Act. The intention of the legislature was to render punishable only such contributors, etc. who contributed or solicited contributions for the purpose of an *existing* association. But such acts amount to "instigation" of the formation of an association which is unlawful under S. 15 (2) (b) of the Criminal Law Amendment Act. The conduct of the accused amounting to abetment of the commission of an offence by a class of persons exceeding 10 is liable to the penalty provided by S. 117, I. P. C. A person is said to "instigate" another to an act when he actively suggests or stimulates him to the act, by any means or language direct or indirect whether it takes the form of express solicitation or of hints, insinuation or encouragement. 22 M. Upon this, the Deputy Commissioner ordered "Issue warrant with bail under S. 17 (2) of the Act." *Held*: This report failed to make out a *prima facie* case in respect of the offence described in this section with the result that the proceedings based on the report must be quashed. ——**S. 17 (2)**—*Association must be in existence for its meeting to be promoted—Authority to convene meeting, must be proved.*

The offence of promoting or assisting in promoting a meeting of an unlawful association implies that the association is already in existence. No doubt a thing not already existing may be promoted, but the offence under the Act consists in promoting, or assisting in promoting, not an unlawful association but a meeting of such an association and therefore the association must exist before a meeting of it can be promoted. It cannot therefore be said that a person by urging his hearers to form 'themselves into "Jathas" promotes or assists in promoting meetings of the "Jathas" when the "Jathas" themselves had not come into existence. The person alleged to have promoted such meetings on behalf of an unlawful association must be proved to have authority from that association to convene the meetings. ——**S. 17 (2)**—*Scope.*

Where a High Court Vakil defied the order of constituted authority and took the law in his own hands as a result of which he was convicted under S. 17 (2) of the Criminal Law Amendment Act, he renders himself liable to the disciplinary jurisdiction of the High Court. Where the vakil without expressing regret for his conduct maintained the correctness of his position he was suspended for 6 months. Advocates and pleaders are a privileged class enrolled not only for the purpose of rendering assistance to the courts in the administration of justice but also for giving professional advice for which they are entitled to be paid by those members of the public who require their services. Their position, training and practice give them an immense influence with the public and their example must necessarily have a much greater effect whether for good or for evil than the example of those who do not occupy this privileged position. It is not necessary for the High Court in order to be able to exercise its disciplinary jurisdiction that any offence should have been committed by a pleader nor is it necessary that what the pleader has done should have subjected him to anything like general infamy or imputation of bad character. CRIMINAL PROCEDURE CODE, (V OF 1898).

———*Three accused charged of criminal conspiracy —Two acquitted—Effect on the third.*

Where three persons were charged of criminal conspiracy and two are acquitted, the third also must be acquitted. (*Cuming and Mukerjee, JJ.*) PRAFULLA KUMAR ROY CHOWDHURY *v.* EMPEROR.

30 C. W. N. 94.

———*Exhaustive only so far as it deals.*

So far as it deals with any point specifically the Code must be deemed to be exhaustive and the law must be ascertained by reference to its provisions, but where a case arises which obviously demands interference and it is not within those for which the Code specifically provides, it would not be reasonable to say that the Court had not the power to make such order as the ends of justice require. (*Buckland and Cuming, JJ.*) RAHIM SHEIKH *v.* EMPEROR.

50 Cal. 872 : 37 Cal. L. J. 595 : 73 I C. 773 (2) : 24 Cr. L. J. 677 (2) : A. I. R. 1923 Cal. 724.

CRIMINAL PROCEDURE CODE.

———*Surety bond.*

A surety bond for the production of any person before the police taken by the Police Officer is void *ab initio.* (*Martineau, J.*) HAMID ALI *v.* EMPEROR. **25 Cr. L. J. 712 : 81 I. C. 200 : A. I. R. 1925 Lah. 152 (1).**

——— *Abrogation of—Martial Law.*

The introduction of Martial Law does not abrogate or suspend the operation of the Cr. Pro. Code in any particular area. (*Spencer and Kumaraswami Sastri, JJ.*) KOCHUNNI ELAYA NAIR, *In re.* **45 Mad. 14 : 68 I. C. 26 : 23 Cr. L. J. 490 : 14 L. W. 465 : (1921) M. W. N. 708 : A. I. R. 1922 Mad. 215 : 41 M. L. J. 441.**

———*Compoundable offence—Offence under S.* 494, *Indian Penal Code.*

Under the new Criminal Procedure Code the offence under S. 494, I. P. C., is one which is compoundable with the permission of the Court. (*Findlay, O. J. C.*) MT. RITHA *v.* EMPEROR. **8 N. L. J. 178.**

——— *Local inspection—Keeping note.*

Though there is no provision in the Code for making local inspection or for keeping a note of the inspection if made, it has been settled by authorities that a Magistrate must invariably put on record a note of his inspection. 37 Cal. 340 ; 14 C. W. N. 422 (1910) Foll. (*Jwala Prasad, J.*) ATHAR HUSSAIN *v.* EMPEROR. **1922 P. H. C. C. 27 : 24 Cr. L. J. 234 : 71 I. C. 698 : A.I.R. 1922 Pat. 51.**

———*Magistrate need not arrest person whom he may think he can convict, in the middle of trial and start it* de novo.

A Magistrate is not bound under the Code at any stage of the trial to stop the proceedings and to arrest any person against whom he thinks there exists a chance of getting a conviction and to start *de novo* the original trial. 16 N.L.R. 9 and 25 Mad. 61 (P. C.) Explained. (*Bagnley, J.*) A. V. JOSEPH *v.* EMPEROR. **3 Bur. L. J. 265 : 3 Rang. 11 : 26 Cr. L. J. 492 : A. I. R. 1925 Rang. 122.**

———S. 1—*Village Magistrates—Applicability of the Code.*

S. 1 of the Code should not be read as meaning that Village Magistrate could not complain or be tried under the Code but only that in his official capacity as Village Magistrate that is in the proceedings he takes as Village Magistrate, he is not governed by the Code. ——S. 54 (1)—*Arrest without warrant by constable—Cognizable offence—Reasonable complaint.*

Where a Magistrate after taking down the statement of the complaint acts upon it on a complaint of a non-cognizable offence and issues a warrant, there is a reasonable complaint of the accused being concerned in a cognizable offence, and a constable is justified in arresting the accused person without warrant. ——S. 54 (7)—*Bare assertions can't form material for person ordering arrests, to form judgment—A present liability for apprehension is necessary—Lawfully arrested person must be immediately produced before Magistrate.*

Per *Walmsley, J.*—The expressions "credible and reasonable" in cl. 7 of S. 54 must refer to the mind of the person by whom the information is received and mere assertions cannot form the material for the exercise of an independent judgment by such person.

Per *Mukerji, J.*—There are two conditions necessary to satisfy the requirements of S. 54, cl. 7. The first is one which contemplates either the proof of a fact, viz., the fact of the person having been involved in the act or a reasonable complaint or credible information or a reasonable suspicion of his being concerned therein. The second is that the person is liable for such act to be apprehended or detained in custody in British India under any law relating to extradition or under the Fugitive Offenders' Act, 1881 or otherwise. Under the first requisite, the arresting police officer has to exercise his own judgment and form his own opinion as to whether he should or should not act and to enable him to do so he must have the necessary facts before him. The circumstances of each particular case must determine the question as to what is reasonable complaint or suspicion ; but at least this much is clear that not mere vague surmise or information must be the basis thereof but some definite fact at least tending to throw suspicion on the arrested person. Under the second requisite, what is necessary is the existence of the present liability for apprehension or detention and not a future contingent liability. Such liability would be created by the issue of some sort of process under the law, though the process may not arrive and may not be available for execution. It is the duty of the police when all the conditions necessary to fulfil the requirments of S. 54, cl. 7 are present and an arrest is validly and lawfully made, to forthwith produce the arrested person before a Magistrate.

——S. 59—*Powers of a private person to arrest—When can be exercised.*

S. 59 of the Criminal Procedure Code gives the powers to a private person to arrest any person, who, in his view, commits a non-bailable and cognizable offence. Arrest of the offender by a person in whose presence the offence is not committed, is not justified. Unless it is proved by the evidence on record that the intention of the accused was to prevent the arrest, or that the pursuers where lawfully empowered to arrest him ; persons stopping them from doing so are not liable under S. 225, Penal Code. ——S. 59—"*In his view*"—*Meaning of—Private arrest—Not handing over accused to policeman on the way—Effect.*

The words "in his view" in S. 59, Cr. P. Code, should not be construed too strictly. S. 106 of the Cr. P. Code can only be applied when the person concerned has been convicted of an offence involving a breach of the peace. The offence must be one of which a breach of the peace is in law a necessary ingredient. It cannot be said that a breach of the peace is necessarily involved in the commission of the offence of wrongful confinement. (*Broadway, J.*) MAHOMMAD AFZAL *v.* EMPEROR. **71 I. C. 879 : 24 Cr. L. The words "offence....peace" in S. 106 mean an offence in which breach of the peace is an ingredient and not merely an offence provoking or likely to lead to a breach of the peace. To justify an order under S. 106 the person must have been *convicted* of the offence of criminal intimidation. An order under . 106 cannot be passed on a conviction for an offence under S. 143 or 297 of the Penal Code as those offences do not necessarily involve the use of force. The expression "other offence" in S. 106, Cr. P. Code, refers to offence *ejusdem generis* with the offences against public tranquillity and of assault mentioned in the section. To attract the operation of S. 106, Cr. P. Code, it is enough if the offence brought home to the accused necessarily includes or implies a breach of the peace. It is not necessary that apart from the offence, there must have ensued a breach of the peace. The facts constituting an offence must be looked at, for determining whether the case comes within S. 106 or not Wrongful confinement *per se* is not an offence involving a breach of the peace but if the accused is found to have violently seized another person, tied his hands and wrongfully confined in an open garden, security can be ordered under S. 106, Cr. ———S. 106—*Finding as to breach not necessary.*

The expression "Other offences involving a breach of the peace' would embrace offences *ejusdem generis* with the offences of assault and rioting which are specified in the section. It is not necessary that the lower Court should record a finding that a breach of the peace was involved in order to invest itself with power to make an order under S. 106 (1). Delegation of enquiry.

———S. 107—*Delegation of enquiry—Direction by District Magistrate.*

If a District Magistrate thinks it necessary, in order to prevent a breach of the peace, to take proceedings under S. 107, Criminal Procedure Code, against the petitioners, he should himself draw up such proceedings and he might then transfer the case to a Subordinate Magistrate for hearing. But he should not direct proceedings to be drawn up by a Subordinate Magistrate nor should the Subordinate Magistrate draw up proceedings merely because the District Magistrate has ordered him to do so. He has full power under S. 107, Criminal Procedure Code, to take action under that section when he thinks it is necessary to do so to prevent a breach of the peace. But in deciding as to the necessity for action he must come to a conclusion of his own accord on the materials before him and act accordingly. A dispute about land which would justify proceedings under section 145 does not bar proceedings under section 107, but if the complainant is out of possession of the land in dispute and there is no danger of a breach of the peace unless he attempts to resume possession, he should be referred to his remedies under S. 145 or in the Civil Courts, and the fact that his attempting to resume possession may cause a breach of the peace and that his dispossession was *prima facie* illegal are not sufficient grounds for binding over the opposite party to keep the peace. Vague Information.

——S. 107—*Vague information.*

The mere fact, that a dispute exists between two rival Zemindars would not justify proceedings being taken against all their officers and servants unless there are materials to show that they are likely to commit any breach of the peace. Information of the kind mentioned in section 107 must be of a clear and definite kind directly affecting the person against whom process is issued, and it should disclose tangible facts and details ; so that it may afford notice to such person, of what he is to come prepared to meet.' It may be that some of the persons mentioned in the Police report are likely to commit a breach of the peace, while others are not likely to do so, but all of

them must not be lumped up together because they are all interested in the dispute. In one sense all the members of a Zemindar's family are interested in a dispute relating to a property comprised in the Zemindary but that, by itself, would be no ground for taking proceedings against them all. 6 All. 26 Foll. It is regrettable that the salutary provisions of S. 109, Cr. P. Code, are often turned into a sort of an engine of oppression upon old convicts who are thrown helpless upon the world with none to take them in their employ or help them to turn out an honest penny for their living. The fact that a man does not work or that he was convicted previously for bad livelihood does not justify a Magistrate, without being satisfied from the evidence that since his release he has no ostensible means of livelihood, to order him to furnish securities for good behaviour. ——— **S. 109 (a)**—*Continuous act with view for offence is essential.*

Cl. (a) of S. 109 refers to a continuous act and does not apply to a case where there is a momentary effort at concealment, to avoid detection or arrest. Passing under a false name or taking precautions to conceal one's presence or identity at a place amounting to a continuous course of conduct is what is meant by the clause. Moreover, such precautions for the purpose of concealment must be taken with a view to commit offence. Accused was loitering on a certain road at 3 A. M. and caught by a constable as he attempted to conceal himself. Accused was an old offender. *Held*, that a mere attempt at concealment on the approach of a constable was nothing and an old offender could not be expected to face a constable if found at that hour of the night. The attempt to conceal himself to avoid observation did not bring the accused within the mischief of the section 39 Cal. 456 Foll. (*Cuming and Mukerji, JJ.*) PIRU *v.* EMPEROR. **41 C. L. ——— **S. 109 (b)**—*Accused saying that he works as cooly in a big city and has no abode does not amount to failure to give "satisfactory account".*

The whole object of the latter part of Cl. (*b*) is to enable Magistrate to take action against suspicious strangers lurking within their jurisdiction. The expression "give a satisfactory account of himself" does not mean that the person should satisfy the Magistrate how he spends his time, but it means that he has to satisfactorily account for his presence within the limits of the Magistrate's jurisdiction. It means that if a person is present within such limits or is present at a place within such limits, to which place he does not belong, and there are circumstances justifying a suspicion that he is there not for an innocent purpose, he has got to explain his presence. Where the accused's explanation was that he came to the city in question about a month and a half before and that he worked as a cooly but had no fixed abode, *Held*, that if true, it was a satisfactory explanation as to his presence and the accused must be taken to have given a satisfactory account of himself. A finding that the accused has no work and no place to live in did not mean that the accused had not come to the city as he stated to work as a cooly or that he did not work as such at any time within the period, but was in city for some ulterior object. The accused could not be said to have failed to give a satisfactory account of himself. (*Cuming and Mukerji, JJ.*) PIRU *v.* EMPEROR. **41 C. L. J. 142 : 86 I. C. 666 : 26 Cr. L. Every High Court always looks with grave suspicion on cases in which proceedings are started against an accused, because the Police have failed to procure evidence against him on a charge of substantive offence. ——S. 110—*Evidence—Evidence insufficient.*

Evidence showing that the applicant took part in a dacoity, that he was actually arrested in connection with the dacoity but the police considered the evidence against him of so little value, that he was released under S. 169 of Cr. ——S. 110—*Evidence—Private enquiry by the Magistrate—Effect.*

Where the evidence for the prosecution is partly inadmissible, partly inconclusive and hearsay, vague and unsubstantial and there is nothing definite proved against them and no evidence called against them from their own village, but there are a number of persons of good character and position from their village itself and from the neighbouring villages who speak well of these men, while nobody has been able to suggest that they have got resources for living as they do live, without support from theft or bad means of livelihood. *Held*, that it would be unfair to brand these men as bad characters upon this evidence. No doubt a Magistrate is compelled in the performance of his duties to make private enquiries as to the character of his neighbourhood and as to the persons reputed to be of bad character and be likely to cause trouble. These enquiries are necessary to an executive officer having to inform himself of the nature of the population committed to his charge but where it is shown, that the Magistrate has allowed actual information *ad hominem* to influence his judgment in a judicial decision against particular individuals brought before him by process of law, his order would be quashed as being vitiated by the admission of such information. ——S. 110—*Evidence—Evidence of suspicion is not sufficient for passing order.*

Evidence as to the accused having been suspected in particular cases is clearly not evidence on the basis of which any person could be bound over, yet when evidence of general repute has been given, the fact that the accused have been suspected in a large number of cases may be admissible as corroboration.

CR. P. CODE (V OF 1898), S. 110—Evidence.

Conversely the fact that the accused had never been suspected in any case might tend to weaken the evidence of general repute. (*Daniels, J.*) GUDRI KHATIK *v.* EMPEROR. A. I. R. 1923 All. 595.

——Ss. 110 and 439—*Evidence—Proceedings under—Several accused—Legality of—Evidence of friends and relations—Value of—Evidence—Duty of High Court to consider.*

The proceedings under S. 110, Cr. P. Code, against a particular individual, evidence should be confined to his case alone unless the case is that he has a confederate or partner to whom all the evidence is equally applicable. Where witnesses voluntarily come forward as friends or associates of the accused and give evidence it ought not to be brushed aside unless the witnesses are discredited as regards their good faith and honesty. Evidence of general repute by persons having no personal knowledge of the accused is insufficient. It is open to a District Magistrate to lay down rules for the guidance of his subordinates so as not to allow an unnecessarily large number of witnesses to be examined. In revision the High Court would weigh the evidence and see whether the case has been considered from the point of view of the accused and if the evidence for the defence is equally good as that of the prosecution, the High Court would quash the conviction. Mere repetitions unaccompanied by direct evidence personally affecting each accused or accompanied by direct evidence which is worthless and incredible, is insufficient in a case under S. 110, Cr. P. Code. (*Walsh, J.*) ANGNOO SINGH *v.* EMPEROR. L. R. 3 A. (Cr.) 149 : 20 A. L. J. 881 : 71 I. C. 865 : 45 A. 109 : 24 Cr. L. J. 287 : A. I. R. 1923 All. 35.

——S. 110—*Evidence—Defence evidence, when should not be discredited.*

The fact that a large number of defence witnesses are caste fellows of the accused, that they come voluntarily without summons from villages several miles from the village of the accused and that they admit that they have come forward because they regard the accused as head of their brotherhood, is not sufficient to discredit their evidence. and as to his having been suspected of having committed an offence under S. 437, the petitioner was never criminally prosecuted and no written complaints were ever made to the police against him. Fazal was admittedly not on good terms with the petitioner. The petitioner had produced 17 witneses of respectable position who testified to the petitioner's good character and deposed to the fact that he was not a habitual thief by reputation. *Held*, that the evidence on the record is not sufficient to justify action being taken against him under S. 110. ——S. 110—*Evidence—What people say generally of the man is evidence of general repute.*

"Evidence of general repute" means, with reference to a man's character, evidence as to his general character founded on the general opinion of the neighbourhood in which he lives. Such evidence need not show that such general opinion is based on the personal knowledge of the man by his neighbours generally nor that such general opinion has been publicly expressed by the neighbours. If a witness is asked what the man's character is, and he were to say that in the general opinion of the man's neighbours the man is an habitual thief, that statement is 'evidence of general repute,' and if he were to say that he did not know what the neighbours in general thought of the man, but his opinion was that the man was an habitual thief, that also would be admissible as evidence of the man's character. Evidence of what is generally said of a man by his neighbours is a direct evidence of the fact in issue. 5 O. C. 203 and 10 O. C. 132, Foll. Admissibility of a witness's answer depends upon the substance of it, not upon its form. The real test is whether the answer shows what is the general reputation of the man in question, and the opinion given by the witness need not be the opinion of the entire community but it must at least give the opinion of a considerable number of persons and not be merely a repetition of what one or two persons have said to the witness. The prosecution evidence in a case under S. 110, Cr. P. Code, consisted of witnesses who said that according to the opinion of the neighbourhood, the accused was a thief and dacoit. ——Ss. 110 (a) and (f), 117 and 118—*Evidence Nature of—Evidence of repute—Evidence of good character adduced by accused—Duty of Court.*

To prove a charge under S. 110, clause (*a*) of the Code of Criminal Procedure, with which the petitioners were charged in the present case, it is necessary to keep in mind that such evidence must be specific and must relate to particular instances within the knowledge of the witnesses. Mere belief and information without reference to acts and instances which have induced the witnesses to form the opinion can hardly be regarded as evidence of repute within the meaning of S. 117 (3) of the Code. The evidence must be of persons who are acquainted with the accused and live in the neighbourhood and are themselves aware of the accused's reputation. It must be an opinion formed by the witnesses from specific cases coming to their knowledge and not merely from reports or rumours received from others. For instance, where a witness says that to his knowledge a certain person is a thief or a housebreaker by habit and on being pressed to give the source of his knowledge, he merely says that there is a rumour to such effect or that he heard it from the villagers generally without being able to name any one of them, such evidence is not admissible in law. Where in a proceeding under S. 110, Cr.P. Code, the accused person is able to produce witnesses on his behalf to speak of his good character, the Court ought to pay particular attention to such evidence and to give substantial reason for not believing such evidence before it makes an order under S. 118. ——S. 110—*Evidence—Suspicion—If sufficient—Evidence as to good character—Powers under to be exercised cautiously.*

Mere suspicion is not sufficient to bind a man down to be of good behaviour under S. 110, Cr. P. Code. The evidence ought to be of such a nature as to lead to a reasonable and definite ground for concluding that the petitioner is a habitual offender. Where the person is able to produce witnesses on his behalf to speak of his good character, the Court should not disbelieve the same unless there are substantial reasons for doing so. The powers under the section should be exercised with extreme caution and with very great discretion. (*Kulwant Sahay, J.*) AMJAD ALI *v.* EMPEROR.

——S. 110—*Evidence—General reputation among inhabitants of accused's place of residence is not conclusive.*

A man's general reputation is the reputation which he bears in the place in which he lives among the inhabitants of that place. Though this definition may be accepted as correct in the great majority of cases it can hardly be recognised as conclusive. It is quite possible for a cunning rogue to conceal his real character from his immediate neighbours. (*Carr and Godfrey, JJ.*) EMPEROR *v.* PO YIN.

——S. 110—*Evidence—No consideration as to accused's being restrained by more rigorous police vigilance should enter.*

Though the Magistrate should take all precautions possible before ordering security to be furnished, if the evidence actually taken is sufficient to prove that the accused is a fit person to be placed on security, that is all that the law requires. The Magistrate should not consider whether the police and village authorities could not ensure good behaviour on the part of the accused if they exerted themselves more in executing their duties. ——S. 110—*Evidence—"Place" meaning of—Witnesses not immediate neighbours—Evidence is not necessarily unreliable.*

It is not possible to set any definite bounds to the meaning of the term 'place'. The meaning must necessarily vary with the circumstances of the case. It cannot rightly be restricted to the group of houses in which the accused happens to reside however small that may be. Nor is it right to discard the evidence of witnesses who speak to the reputation of the accused merely because they are not his immediate neighbours. What the Court has to do is to satisfy itself that the evidence of the witnesses is true, and if it is satisfied on this point, then it is entitled to accept the evidence. Where a witness lives at a considerable distance from the person of whose reputation he speaks, the Court should, of course, require how he came by that knowledge and should take his answer into consideration in framing its estimate of the value of the evidence. ——Ss. 110 and 117—*Joint trial—Legality.*

The legality of a joint trial does not depend upon what is alleged for the prosecution but on the facts subsequently found to be true. The Magistrate, of course, will bear in mind that a joint trial is not permissible unless there is evidence of something in the nature of conspiracy or of concert in respect of the various acts of habitual mischief to which the witnesses depose. Ordinarily, under S. 110, Cr. P. Code, every person has to be tried separately for the offences enumerated therein. In other words, a joint trial is only permissible when two or more persons have been associated for the purpose of committing the offences mentioned in S. 110, clauses (*a*) to (*f*). But for clause (4) of S. 117, Cr. P. Code, a joint trial would not have been in any case permitted. The circumstances mentioned therein, namely, the association of several persons in the commission of the offence mentioned in S. 110 of the Cr. P. Code must be established in order to entitle the Magistrate to try several persons jointly. In a case under S. 110, Cr. P. Code, in which the evidence of bad character of the accused persons and of the individual nefarious acts committed by them form the integral parts of the offence, it is impossible to conceive that the evidence led against one will not at all prejudice the case of the other accused persons assembled together in the same dock. Magistrates ought to do their best to see that the first order does actually contain the substance of the information received by them, no less and no more. The next thing is that the finding on enquiry should conform to the first order which in its turn should conform to the information received by the Magistrate. There is no legal bar to a prosecution for bad livelihood of men acquitted of the substantive offence of dacoity, but in weighing evidence such a matter is to be taken into consideration as indicating the desire of the Police to get rid of the presence of such men from villages whether satisfactory evidence of their bad character be available or not. Where a man has been arrested on a substantive charge but released for the reason that that charge could not be sustained, a prosecution under S. 110 on the same evidence on which the charge for the substantive offence was founded or on evidence which arose as a natural sequel to the charge of the substantive offence is not desirable. But if the evidence in support of the charge under S. 110 is antecedent to charge for the substantive offence and is wholly independent of it; the proceedings under S. 110 are not illegal. Where a substantive charge is made but not proved, the Court is not right in binding the accused under S. 110. Mere suspicion does not justify such an order; but evidence that a person had been suspected and named in a large number of years extending over a long interval, may serve as evidence of general bad reputation and conversely the fact that a person has never been suspected of any offence may weaken the evidence of bad reputation given against him. Once the accused are before the Court the case must be decided on the evidence alone. ——**S. 110**—*Revision—High Court's powers.*

The High Court is not in criminal cases a court of appeal, but it is its duty to endeavour to weigh the evidence and to see whether the case has been fairly considered from the point of view of the defendant. Secondly, if the evidence for the defence is equally good as that for the prosecution, the High Court may quash the order in revision. Thirdly, witnesses, who voluntarily come forward whether as friends or associates of the accused to give them a good character, must not be brushed aside, unless they are discredited as regards their good faith and honesty, just as witnesses in any other proceeding must be discredited before they are rejected by the tribunal. Fourthly, evidence of general repute by persons who have no personal knowledge of the accused and know nothing of his business and circumstances is not sufficient to justify an order, and lastly vague repetition unaccompanied by direct evidence personally affecting each accused person or accompanied by direct evidence which breaks down, is not sufficient in itself to justify an order. ——S. 110—*Revision—High Court is only to see whether the lower Court has fairly considered the case —Weight of evidence and not the number of witnesses is to be looked to.*

The High Court is not a Court of appeal in cases under S. 110 and the duty of the High Court is not to weigh the evidence given on behalf of one side or the other, but only to see whether the Court below had approached the consideration of the case in a fair way, having regard to the interest not only of the prosecution but also of the accused. The accused is not entitled to an acquittal in such cases because the defence witnesses were as numerous as or more numerous than the prosecution witnesses but it is the weight of the evidence and not the number of the witnesses which the Court has to consider. 13 A. A notice served under S. 112, which is very meagre and does not contain sufficient details regarding the charges brought against the persons must be held not to comply with the provisions of the Code. Any explanation given by the Prosecuting Inspector at the commencement of the trial cannot have the effect of remedying the defect in the notice because the object of S. 112 is to enable the accused person to prepare for his defence and to summon witnesses on his side before actual commencement of trial. The issue of a preliminary notice under S.112 of the Cr. P C. is not a formal matter ; but it is a judicial act which must be exercised by the Magistrate after due consideration of the materials before him. ——S. 112—*Notice—Failure to incorporate substance of information—Effect.*

The mere failure to incorporate the substance of the information in the notice under S. 112 does not render the subsequent proceedings null and void. The object is to give the suspect a reasonable opportunity to come prepared with what he has to meet, but the omission does not deprive the magistrate of jurisdiction. It however,amounts to a grave and substantial irregularity which renders it necessary for Courts of Appeal and Revision to scrutinise the proceedings carefully and if it is shown the accused has been prejudiced in the slightest degree the order must be set aside,but, in the absence of such prejudice, the subsequent proceedings cannot be treated as *ab initio* void. ——Ss. 112 and 118—*Sureties—Rejection—Subsequent imposition of conditions—Control—Test of.*

It is not the object of Chapter 8 of the Criminal Procedure Code to punish a suspect for past unproved crimes but to prevent him from committing offences and to give him an opportunity to reform himself. When a Magistrate has under S. 112 passed an order as to the nature and amount of liability of sureties, S. 118 bars the right of the Magistrate to impose fresh conditions at the time of making the order absolute. It is therefore not open to the Magistrate to reject sureties as unfit because they do not comply with certain arbitrary conditions which were not included in the order under S. 112. The fact that the sureties cannot control the suspect does not make them unfit as sureties. Similarly it cannot be made a condition precedent for acceptance of sureties, that they should show their good faith and influence over suspect by doing a particular act. ——S. 114—*Orders under—Temporary injunction of Civil Court—Effect of.*

Successive extensions of an order under S. 144, Cr. P. Code, are invalid but they can be supported as fresh orders. Such successive orders may amount to an abuse of the process of Court especially when the Civil Court has passed an order of temporary injunction

against one party. It is the duty of the Criminal Courts to respect the opinions of Civil Courts and in taking steps to preserve peace, to take action only against those who are infringing the rights of others and protect those who wish to exercise their right and not prohibit the latter's lawful enjoyment of rights. 27 M. ——S. 114—*Arrest when justified—Order—What to contain.*

S. 114, Cr. P. Code, contains two stringent elements obviously directed against any ill-considered precipitancy on the part of the magistrate. After one trial of three of the thieves had taken place in the year 1921 and after a second trial of the fourth thief had taken place in the midsummer 1922 on the 17th of February 1923 a first class magistrate issued an order attaching other property of the applicants as security or by way of satisfaction, for an assumed liability of the value of the grain which they had purchased two years before in the ordinary course of their business. *Held*, that proceeding was absolutely unintelligible and had no reasonable basis. The mere solvency of a surety may not invariably be sufficient to ensure the good conduct of the accused any more than the mere fact of his residing at a distant place may be a sufficient ground for rejecting him as such. The sureties to be tendered should not be sureties from such a distance as would make it unlikely that they could exercise any control over the man for whom they are willing to stand sureties. If the sureties undertake to keep the accused within the area of their observation or adopt other suitable measures for securing the supervision and control needed to keep him in good behaviour, there can be no inherent objection to their being accepted as sufficient. The District Magistrate can cancel a bond for keeping the peace and to be of good behaviour under S. 125 on the only ground that something has supervened since the date of the first court's order which satisfies him that there is no longer any necessity for keeping the accused person under bond. The District Magistrate has no authority to use S. 125 as if he were sitting as a Court of appeal. CRIMINAL PROCEDURE CODE (V OF 1898), S. 133

The jurisdiction of a Dt. Magistrate under S. 125, Cr. P. Code, is neither appellate nor revisional and its power is merely confined to examining the record to satisfy himself whether it was any longer necessary to keep the parties under the bond. The act is not a judicial act which he is called upon to exercise ; even before proceedings are submitted to him, a reference can be made to the High Court as to the propriety of the proceedings. ——S. 125—*District Magistrate—No jurisdiction to quash proceedings.*

Under S. 125, Cr. P. Code, the District Magistrate or the Deputy Commissioner has jurisdiction to cancel the bond ordered to be executed by a Sub-Divisional Magistrate under S. 107 of the Code. But as his jurisdiction is executive and neither appellate nor revisional he cannot vacate the order passed by the latter as *ultra vires* and quash the proceedings. In such a case he ought to refer it to the High Court. The High Court has power to set aside his order as being without jurisdiction, when the District Magistrate set aside the order under S. 107 as *ultra vires* and does not merely order the cancellation of the bond. ——— S. 133—*Unlawful obstruction—Over-hanging branch of a tree—Branch likely to fall at some future time—Danger to public.*

S. 133 of Cr. P. Code deals with the condition of things at the time when the enquiry is held. If at such a time a house or branch of a tree is likely to fall and thereby endanger the life of passersby, no doubt action might be taken under the section. But it is not meant to apply to what may happen at some indefinite time in the future or under quite abnormal circumstances. Where a solid and vigorous branch of a tamarind tree is 15 ft. above the level of a country-road, it cannot be said that an obstruction at the height, having regard to the normal traffic, is an unlawful obstruction within the meaning of S. 133, Cr. P. Code. Even if it could be held that the branch was likely, at some time or other and under abnormal circumstances, to prove an obstruction it is not necessary for the magistrate to go to the extreme length of ordering it to be cut down. A tamarind tree is an object of veneration to many Hindus and the safety of the public, which after all is what is contemplated by the section, would have been adequately secured if the magistrate had ordered proper support to be given so as to prevent the branch from falling. S 133 is quite plain. The Magistrate must deal with an alleged "public" way even though it is disputed. These summary powers were primarily intended to be exercised in cases where there was no question that the way was one vested in the public, and when that question is seriously disputed, and its decision becomes a difficult matter of mixed fact and law, a Magistrate clearly has jurisdiction to exercise his discretion by declining to decide it, and sending the parties to a Civil Court. 28 All 98, Diss. Per *Teunon J*, :—When in proceedings under S. 133 of the Cr. P. Code, arising out of an alleged obstruction of a way used by the public, the defendant sets up a claim of right, which is found by the Magistrate to be made in good faith, the Magistrate's jurisdiction is not ousted thereby.

Per *Sanderson, C. J* :—If the Magistrate does not think the claim well founded, though he considers it to have been made in good faith, he may in his discretion allow the defendant a reasonable time to assert the claim made by him by a Civil Suit, and if he does not go to the Civil Court within such time or fails there, the Magistrate, has power to continue the proceedings under S. 133 of the Cr. P. Code.

Per *Sanderson, C. J. Teunon and Ghose, JJ.* With regard to case of *Betat Ali* v. *Abdur Rahim* (8 C. W. N. 143) (1903), it could not be said, having regard to the facts of that case, that it was wrongly decided.

Per *Richardson and Newbould, JJ.*—An order giving a defendant, whose claim the Magistrate considers ill-founded, a limited opportunity to go to the Civil Court, is within the Magistrate's jurisdiction, but he also has jurisdiction, and in some cases, it may be his duty, to act himself on his own finding that the claim is ill-founded. It is a matter for his discretion. It would in some sense be within the Magistrate's

CRIMINAL PROCEDURE CODE, S. 133.

discretion in such cases to terminate his proceedings leaving it to either party desiring to do so, to seek a remedy in the Civil Court in the usual way.

- Per *Ghose, J.*—If the Magistrate finds that there is a real or substantial question to be tried out between the parties he ought, in exercise of his discretion, to stay his hands and not to proceed any further after making the conditional order under S. 133. It is not a case of ouster of jurisdiction and there is no ouster of jurisdiction.

The Magistrate is entitled to continue the proceedings where the objector shows nothing more than a mere belief in the claim of right put forward. The Magistrate is not entitled to direct the objector to go to the Civil Court because in his opinion the claim of right cannot be ultimately maintained. So far as the case of *Belat Ali* v. *Abdur Rahim* 8 C. W. N. 143 (1903) is not inconsistent with the above view, it was rightly decided. (*Sanderson, C. J. Teunon, Richardson, Newbould, and C. C. There is a clear distinction between interfering with the rights of private proprietors with whatever ulterior motive they may do acts which they have a right to do and the perpetration of wrongful acts by such proprietors. The law as regards preservation of public peace is based upon an apprehension that either certain person or persons are likely to commit breach of the peace by their own acts or that they are likely to do wrongful acts which may occasion other people to commit breach of the peace. The Criminal Court assumes jurisdiction to interfere with this lawful exercise of a person's right of ownership when such exercise in its ulterior consequences being directed primarily against the lawful exercise of another person's right of ownership is likely to cause a breach of the peace. ——**S. 144**—*Scope.*

Where the Civil Court has passed an order of temporary injunction against one party, implying that, in its opinion, the petitioner has a *prima facie* right, it is the duty of Criminal Courts to repeat the opinions of Civil Courts and in taking steps to preserve peace, to take action only against those who are infringing the rights of others and protect those who wish to exercise their rights and not prohibit the latter's lawful enjoyment of rights. The High Court views with disapproval the use of S. 144 for anything of the nature of a permanent expedient. The word 'alter' in S. 144 (4), Cr P. Code, does not justify the substitution for or addition to the party against whom the original order is directed. ——**Ss. 144 and 145**—*Scope—Dt. Magistrate can revise order on any ground—Government of India Act, S. 107.*

There is no reason why the power given in the 4th clause of the section should be confined to cases where there has been a change of circumstances since the original order was made. There is nothing in the wording of the 4th clause which limits the powers of the Magistrate in the sense indicated, and I can see no valid reason why words of limitation should be read into the section which would have the effect suggested. The words "alter or rescind" clearly empower the District Magistrate to modify or cancel the order upon any ground whatsoever.

Per *Mullick, J.*—Where S. 107 or S. 145 will meet the requirements of the case, S. 144 is not an appropriate remedy, and if it is found that the danger was

not so imminent that it could not be otherwise averted, an order under S. 144 will generally be held to have been made without jurisdiction. Where it is clear upon the materials before the Magistrate that one party is in possession and that another, whose claim to possession is a mere pretence, is threatening to interfere with that possession, the Magistrate is clearly entitled to resort to the special summary procedure of S. 144, if immediate prevention or speedy remedy is desirable. Sometimes it may even be necessary to take action against the party who is actually in possession, but in every case it must be shown that the conditions required by the section exist. What is deprecated is the habitual and unjustifiable use of S. 144 as a substitute for Ss. 107 and 145.

Per *Jwala Prasad, J.*—S. 144 is a larger and more general section than S. 145. An order under that section can be made under various circumstances including a danger of a breach of the peace. S. 145 is of limited scope and applies only when there is a danger of a breach of the peace. The former is discretionary, the latter is mandatory. The latter provides for a thorough enquiry into the dispute as to possession of the parties which tends to a breach of the peace. Therefore when the special condition of S. 145 is fulfilled, S. 144 then yields to S. 145 in the sense that when he finds that there is a real dispute tending to a breach of the peace the Magistrate is bound to institute a proceeding under S. 145 and enquire into the possession of the parties irrespective of any order that he might have originally passed under S. 144. When one party is clearly in the wrong and threatens to usurp the rights of another, who is in actual possession of the land in dispute, the proper remedy is an order under S. 144 or S. 107, Criminal Procedure Code. ——**S. 144**—*Scope of—Jurisdiction.*

Under S. 144, Cr. P. Code, a magistrate has no jurisdiction to make any order unless he is satisfied there is an apprehension of a breach of the peace and that immediate prevention or speedy remedy is desirable. If he had made up his mind to that effect he must state the material facts in the order. The section should be applied only to temporary orders in urgent cases of nuisance or apprehended danger and not to cases where there is a dispute as to land for the settlement of which S. 145 provides the proper remedy. ——**S. 144**—*Revision—Order wholly without jurisdiction—High Court will interfere.*

Although under clause (4) of S. 144, Cr. P. Code, it is incumbent on the petitioners to go in the first instance before the District Magistrate before coming up in revision to the High Court and ordinarily that is the practice in the High Court, still the High Court will

interfere where the order of the Sub-divisional Magistrate is wholly without jurisdiction. A. I. R. 1922 Pat 435 (F. B.) Foll. (*Kulwant Sahay, J.*) AKAL MAHTON *v.* MAHABIR MAHTON. **5 P. L. T. 90 : 1 Pat. L. R. 223 (Cr.) : 75 I. C. 531 : 24 Cr. L. J. 947 : A. I. R. 1924 Pat. 145.**

The rent decree is to some extent evidence under section 13 of the Evidence Act as to the landlord having recognised the holding as being in possession of the first party (deft.)but that evidence is not conclusive as against the second party in proceedings under S. 144 (who was not a party to rent proceeding). The order of the Magistrate under S. 144 based on the rent decree is good inasmuch as it was passed with a view to prevent a breach of the peace which is then imminent. The more appropriate action however would be for the Magistrate after hearing the parties to convert his order under S. 144 into a proceeding under S. 145 of the Code so as to, once for all, determine the right of the contending parties to the possession of the land in question, unless it has been already determined by a Civil Court. 1 P. ——— **S. 144**—*Scope of—No sufficient material—Order not valid.*

Petition of the petitioners whose goods were detained on the petition of the lessee of a certain ghat for action against certain persons for refusal to pay tolls did not disclose any ground for an order against them. The report of the police who were ordered to report as there was likelihood of breach of peace, according to which report the order complained against was drawn up gave the Magistrate no material for proceeding against three petitioners. There was in the body of the report a general remark about Marwaris in Murliganj : but certain persons were specially named at the end of the report and the Police Sub-Inspector prayed for proceedings against them. *Held*, the effect of the report must be understood as limiting its purpose to these named persons. The only other document is the petition of the lessee and this admittedly makes no reference to the petitioners at all. The Magistrate had no materials before him upon which he could make an order against petitioners. (*Ross, J.*) PANCHI RAM *v.* SHEIKH MD. ABDULLA. **A. I. R. 1922 Pat. 239.**

——— **Ss. 144, 107 and 145**—*Scope.*

It is well to indicate the relative value of the preventive Ss. 107, 144 and 145 of the Code in a dispute relating to property, where the first party claims to be in exclusive possession and the second party claims to be in joint possession. If the property is found to be in joint possession of both the parties, then no order under S. 145 can be passed and the danger to a breach of the peace by the contending parties with a view to exclude the other from the possession of the property in dispute can only be averted or avoided by binding both the parties or by binding both of them under S.107, for none of them has a right to exclude the other from joint possession. If, on the other hand, one of them is found to be in exclusive possession of the property then the other side can be restrained under S. 144 from interfering with the exclusive possession of the other party, and if possible by binding him down Unless the exclusive possession of one of the parties is undisputed or is admitted or is concluded by some decision of a competent Court, an enquiry into the claims of the parties as to exclusive or joint possession must be held. It is only when after an enquiry a decision is arrived at as to the possession of the contending parties, separate or joint, an order under S. 144 or 107 against one of the parties will not be justifiable. Such an order will prejudice the other party and will exclude him from the possession of the property whether exclusive or joint. No Court by its proceeding or order can allow such an advantage to one of the parties. Therefore in a dispute of this kind the danger to a breach of the peace can be averted by issuing a temporary order upon both the parties under S. 144 if the case is of urgency and holding an enquiry into the possession of the parties before confirming the order. The danger to a breach of the peace can also be averted by at once instituting a proceeding under S. 145 by attaching the property in dispute pending the enquiry. ——— **Ss. 144 and 145**—*Scope—Distinction between.*

Under S. 144 no order can be passed where a question as to the *factum* of the delivery of possession is raised between the parties. The judgment-debtor and the members of his family, his Tahsildar and other servants and in fact those claiming under him have no right to dispute the delivery of possession if they were parties to the certificate and the sale proceedings ; but under-raiyats or intermediate holders of the land, not parties to the proceedings, in the property and the survey department which resulted in the sale of the property on the *dakhaldehani* had a right to dispute the actual service of the *dakhaldehani* on the spot. Where possession is publicly delivered with full notice, to all the persons in possession of the property, none of them are entitled to dispute the delivery of possession though they may be living some miles off. Though ordinarily a dispute of land should be enquired into in a proceeding under S. 145 of the Code of Criminal Procedure yet when the possession in the law is vested in the 1st party, as against any person claiming to be in possession of the property by reason of the writ of delivery of possession, section 145 is not at all necessary. There is no *bona fide* claim of possession of the 2nd party. In other words there is no dispute in law as to the possession of the property, S. 145 summarily determines the right to possession. Order 21, Rule 95 as well as the similar provision in the Bihar and Orissa Public Demands Recovery Act, actually puts the purchaser into possession of the property and a person claiming a right to the present possession of the property has either to move the Court delivering the possession or to go to the Civil Court. ——— **Ss. 144 and 145**—*Scope of—Possession doubtful—Order by Magistrate* ultra vires—*If Magistrate can set aside.*

S. 145 and not S. 144 applies where the possession is disputed. A Magistrate has no jurisdiction to pass under S. 144 an order which amounts to an ejectment decree of a Civil Court. Where the order passed is *ultra vires* it cannot be set aside under sub-section (4) of that section but can be set aside in revision only by the High Court. ——**S. 144 (1) and (2)**—*Object of—Statement of material facts—Restriction on liberty of individual—Vague order improper.*

Under S. 144, Cr. P. Code, something more is necessary to be done than a mere recital of the fact that in the opinion of the District Magistrate there was sufficient ground for proceeding under S. 144. When a Magistrate is of opinion that there is a sufficient ground for proceeding under this section and immediate prevention or speedy remedy is desirable, such Magistrate may, by a written order stating the material facts of the case and served in the manner provided by S. 134 direct any person to abstain from a certain act. An order as it stands which does not state any facts relating to the case in order to show that there was any justification for making the order under S. 144 is bad in law. S. 144, Cr. P. Code, is not intended to restrict the liberty of an individual if there is no apprehension of a breach of the peace on account of any act to be done by him. Nor does it relieve the Magistrate of the duty of making a proper enquiry into the circumstances which show a likelihood of breach of the peace. If it is found that a man is doing that which he is legally entitled to do and his neighbour chooses to take offence thereat and to create disturbance in consequence the duty of the Magistrate is not to continue to deprive the first of the exercise of his legal right but to restrain the second from illegally interfering with that exercise of legal right. 5 Cal. 132, Ref. ——S. 145—*Applicability — Working of mines and minerals.*

If a party under a mining lease is in actual possession of the mines and minerals as profit *a prendre* they can enforce their possession not only by a civil suit but can claim to be maintained in their possession by an order under Sec. 145 of the Code of Criminal Procedure. Whatever difficulty might have been felt in the construction of the corresponding section in the Code of 1878 as to whether Sec. 145 can comprise a dispute relating to mines and minerals it is clear that the present section provides an explanation so as to remove any doubt whatsoever upon the point. No doubt is entertained upon the point that mines and minerals and the right to take mines and minerals can well be dealt with by an order under Sec. 145. But behind all this rests the fundamental idea in connection with Sec. 145 of positive physical possession. The question as to whether Sec. 145 is appropriate must be determined in the circumstances of each case. The proceeding drawn up under cl. (1) of Sec. 145 must be considered to be conclusive of the existence of a breach of the peace unless it were shown that the information upon which the proceeding is based does not in fact disclose any danger to a breach of the peace. ——S. 145—*Applicability--Order declaring possession.*

Where a Magistrate in passing an order under S. 145 makes a general remark that the evidence is not reliable without referring it or giving reasons it is not a disposal of the evidence upon record but amounts to refusal to exercise jurisdiction, liable to revision by High Court. An order declaring certain person to be in possession of property in dispute on the happening of a contingency is not one under S. 146, but under S. 145. S. 145 does not apply where one party is clearly in possession and the other party wants to take forcible possession of it, as there is no dispute as to possession of the property within S. 145. Arbitration.

——S. 145—*Arbitration—When can be had.*

If the parties to a proceeding under S. 145 privately refer the dispute to arbitration, and accept the

award by the arbitrator, the Magistrate would have ground for proceeding under S. 145 (5). Otherwise the Magistrate must himself take the evidence and decide the case himself. ——S. 145—*Arbitration—Reference to—Award—Scope of enquiry—Order of Magistrate embodying award—Legality of—Inclusion of larger area in final order—Legality of.*

The scheme of S. 145, Cr P. Code, is against the view that a reference to arbitration and the award thereon can be made the basis of an order of the Magistrate under S. 145, Cr. P. Code. It is for the Court to consider who was in possession at the date of the proceedings. The scheme of the enquiry is retrospective and not prospective. There might conceivably be certain instances in which the parties have agreed that the Court should refer the matter in dispute to arbitration for the purpose of deciding the question as to who is in actual possession at the time of the proceedings. A compromise can only be taken by the Magistrate as evidence for an order to be passed under S. 145 (5), Cr.P. Code, and cannot possibly be made the basis of an order passed under cl. (6). A magistrate has no jurisdiction to pass an order under S. 145 (6) in respect of land which was not referred to in the initiatory proceedings. 3 Pat. L. J. 248 : 32 C. 552 : 2 Pat. L. J. 86 : 15 C. ——Ss. 145 (5) and 146—*Attachment—Order of, when justified.*

It should be held as a very important principle in cases under S. 145 Cr. P. Code, that a Magistrate should be extremely reluctant to attach the property in dispute. Breach of peace.

——Ss. 145 and 435—*Breach of peace—Likelihood of—No finding as to—Revision.*

Even though there is no express finding as to the likelihood of a breach of the peace in the order made by a Magistrate under S. 145 of the Cr. P. Code, yet where the notice shows that the Magistrate was satisfied that there was a serious dispute between the parties and in consequence he issued the notice and in the judgment it appeared that there was a quarrel between the parties with reference to the possession of several plots of lands, it could not be said that the proceedings were not proceedings contemplated by S. 145 of the Cr. ——S. 145 (1)—*Breach of peace—Evidence of—Police report—Statement of parties.*

Where there is no police report the statement of interested parties as regards the existence of a breach of the peace must be received with great caution, but if a Magistrate has reason to believe such a statement it cannot be said that he acts without jurisdiction in taking proceedings under the section. ——S. 145—*Breach of peace—Finding need not be recorded in final order.*

The finding of breach of peace is necessary for the purpose of the preliminary order, when a Magistrate assumes jurisdiction, but once he is satisfied that there is an apprehension that peace will be broken, it is unnecessary that he should record a finding to that effect again when passing his final order. ——S. 145—*Breach of peace—Scope of section.*

S. 145 contemplates the existence of disputes regarding property likely to lead to a breach of the peace, and where all likelihood of a breach of the peace has disappeared all necessity ceases for maintaining any orders passed on account of the dispute. ——S. 145—*Breach of peace—Magistrate can drop proceedings once started if he finds no likelihood of breach of peace—S.* 145 (5) *does not take away this jurisdiction—After proceedings are dropped no further order can be passed by the Magistrate.*

Proceedings under S. 145 are not taken in the interests of private parties but for the preservation of the public peace and if the Magistrate is satisfied that the likelihood of the breach of the peace either did not exist or that it has ceased to exist, it is the proper duty of the Magistrate to drop proceedings under S. 145 and withdraw from interfering with the rights of parties in the property. 30 Cal. 112, Rel. on ; 20 L. W. 58, Foll. Clause (5) of S. 145 provides for a special case where as the Magistrate is proceeding with the trial of the question of possession, the parties to the proceedings or even other persons who are interested are given the right to show that no dispute likely to cause a breach of the peace exists or has existed. The

existence of this clause does not take away the power of the Magistrate himself to drop proceedings if he is satisfied that there is no further likelihood of the breach of the peace. But after he drops the proceedings under S. 145 he is *functus officio* and has no jurisdiction to pass any further orders in the case, *e. g.*, with regard to the delivery of possession of the attached property to either party. He must leave the parties to settle their rights in the manner they think best to do, in the meanwhile holding his hands. 1 L. W. 1032 and A. I. R. 1925 Mad. 327, Foll ; A. I. ——S. 145—*Breach of peace likely—Magistrate not making the fact clear in his order—Interference by High Court in revision is not necessary.*

Where there was evidence that both parties were attempting to cultivate the land, the sowings of one party having been ploughed up by the other, *held* : that this was likely to cause a breach of peace, and the mere fact that the Magistrate had not made this clear in his order did not justify the High Court in interfering in revision. 12 C. ——S, 145—*Breach of peace— Enquiry—Evidence—Police report.*

Under S. 145, Cr. P. Code. a Magistrate has no jurisdiction to make an enquiry as to possession, still less any final order, unless and until he is satisfied of the likelihood of a breach of the peace and it is absolutely essential that the fact and grounds of his being so satisfied should appear in his first order directing the issue of a notice, and the grounds stated must be such as to satisfy a Court of revision before which the case may be brought by any of the parties concerned. 12 C. P. L. R. 2 (Cr.) Foll. The Police report and the personal talk to parties and personal inspection of the land in dispute are not grounds justifying an order under S 145, Cr. P. Code. (*Kotval, A. J. ——S. 145—*Breach of peace—Finding as to, is not necessary in final order.*

The law does not require the Magistrate to record an express finding in his judgment that a breach of the peace was imminent. ——S. 145—*Breach of peace—Likelihood of a—Jurisdiction of Magistrate to draw up proceedings.*

The Magistrate in order to assume jurisdiction under S. 145, Cr. P. Code, has to satisfy himself about the likelihood of a breach of the peace. He is to exercise his own judgment upon the materials placed before him, and to arrive at a conclusion as to whether upon the material placed before him there was a likelihood of a breach of the peace. He would not be justified in acting merely upon the expression on an opinion by the police, and if by exercising his own independent judgment he came to the conclusion that there was a likelihood of a breach of the peace he in entitled to act under the section. If in the proceedings so drawn up in the office a reference is made to the police report and to the petition of the second party which documents stated that there was no likelihood of a breach of the peace that will not by itself take away the jurisdiction of the Magistrate to initiate proceedings under S. 145, if he was satisfied that there was a likelihood of a breach of the peace. In a proceeding under section 145, Cr. P. Code, the Magistrate cannot go behind the decision of the Civil Court in the matter. It is not for the Magistrate to question the validity of a decree that has not been set aside by a competent Court. ——S. 145—*Defect in procedure—Judgment of Magistrate—Reasons for decision not given—Fresh enquiry.*

When a Magistrate makes an order under S. 145, Cr. P. Code, declaring possession to be with one party and there is nothing to show how the Magistrate had approached the question or how he had considered the evidence which was before him the High Court will direct the case to be reopened and a fresh enquiry to be made. The High Court is entitled in proceedings under S. 146 to require from the Trying Magistrate a statement of the reasons for his decision sufficient to enable it to determine whether he has or has not complied with S. 145, sub-S. 4, Cr P. Code, and whether he has directed his mind to the consideration of the effect of the evidence adduced. (*Greaves and Panton, JJ.*) MOTHAHER ALI JAMADAR *v.* ESHAQUE SIKDAR. **39 C. L. J. 366 : 25 Cr. ——**Ss. 145 and 435**—*Defects in procedure—Proceedings without jurisdiction—Can be interfered with in revision.*

The omission to pass an order under S. 145 (1) of the Cr. P. Code stating that the Magistrate is satisfied of the existence of a dispute likely to cause a breach of the peace is not a mere technical defect. Where the Magistrate has not made the initial order prescribed by that sub-section and has also not made at any subsequent stage of the proceedings an order which essentially complies with the requirements of that sub-section, the proceedings are without jurisdiction and cannot be regarded as proceedings under S. 145 of the Cr. P. Code. Accordingly S. 435 (3) of the Cr. P. Code, does not preclude the High Court from entertaining an application for revision in such a case. (*Martineau, J.*) HAKAM *v.* RALIA RAM. **4 Lah. 66 : 74 I. C. 79 : 24 Cr L. J. 751 : A. I. R. 1924 Lah. 91.**

CR. P. CODE (V OF 1898), S. 145—Defects in Procedure.

——S. 145—*Defects in procedure—Dispute as to several items of property—Lumping items together—Legality.*

A decision under S. 145 should not be arbitrary but should be arrived at after giving each of the disputants an opportunity of being heard. A decision arrived at in the absence of parties or either of them is illegal. Where a dispute embraces several items of property, they may be lumped together in a single enquiry provided the disputants are the same for each item. In other cases the Magistrate would have no jurisdiction to decide the question of possession of a number of items after only hearing the parties claiming possession of one or two of them. The Magistrate's failure to record his reasons for thinking that there is a danger of the breach of the peace though a serious irregularity, does not affect his jurisdiction. (*Ayling and Coutts-Trotter, JJ.*) VELU MALAVARAYAN *v.* KUPPUSAWMY PILLAY. **12 L.W. 315 : 59 I. C. 378 : 22 Cr. L. J. 90.**

——S. 145—*Defects in procedure—Proceedings are not* ultra vires *because some parties in possession are unlikely to cause breach of peace—Some parties filing compromise can be put into possession—Not every error vitiates proceedings—Mutation order does not affect order under S.* 145.

In S. 145 the words "parties concerned in such disputes" include all persons claiming to be in possession and merely because some of those parties are unlikely to cause a breach of the peace, the proceedings under the section are not without jurisdiction. For questioning the validity of proceedings under the section there must be proof of want of jurisdiction in the strictest sense of the term. The result of the proceedings will not be invalidated by any and every error and a radical defect must be established corrupting the whole proceedings before their jurisdiction can be questioned. The mere fact that some of the parties file a compromise does not prevent the Magistrate from putting such parties into possession although, had the compromise been filed by all the parties and had there been no longer any dispute. It might be held that the Magistrate's jurisdiction had ceased and that he was only empowered to cancel the proceedings under cl. 5 of S. 145. In so far as a Magistrate's order in proceedings under S. 145 limits the period within which a Civil Suit may be brought by any of the parties, an order in mutation proceedings does not affect the Magistrate's order under S. 145 because an order in mutation proceedings is not a final decision as to ownership. A complaint was lodged as to the possession of certain property and the Sub-Divisional Magistrate made an enquiry, heard evidence and made an order purporting to be under S. 145. He found that the proceedings under S. 145 were no longer necessary as there had been no breach of the peace during the four months previous to the proceedings. He found actual possession in favour of the first party and ordered the crops to be delivered to them. On the second party applying for review to District Magistrate, he set aside the order of the Sub-Divisional Magistrate and ordered the crops to be delivered to the second party. *Held*, although the procedure followed by the Sub-Divisional Magistrate was irregular and was not according to the procedure as laid down by S. 145, Cr. P. Code, he must be considered to have contemplated the proceedings to be under S. 145, Under the circumstances, it was not open to the Deputy Commissioner to review the Sub-Divisional Magistrate's decision, in any case to do so *ex parte*, and the order of the Deputy Commissioner should be set aside. The case was allowed to hang on from August 1922 up to June 1923. Witnesses were examined on certain dates and then the case was postponed from time to time to examine further witnesses. The witnesses were examined at long intervals and although arguments were heard no order was passed for about 10 months. The Magistrate apparently forgot all about the case until he

was reminded of it when he was going away on transfer. He then hurriedly disposed of the case by an order of the 27th March 1924, striking off the proceedings on the ground that there would be no likelihood of a breach of the peace after such a long interval. *Held*, that the order of the Magistrate was not justified, by any provision of law. It is highly desirable that once the hearing is commenced and witnesses are examined, the hearing should go on from day to day until all the evidence is taken and argument is heard and then the order should be passed as soon as possible. ——S. 145—*Duty of Magistrate.*

It was incumbent on the Magistrate to make the enquiry and to take such evidence as the parties offered irrespective of the fact that one or other of the parties failed to put in a written statement. The Magistrate would not be justified in refusing to proceed with the case because the parties neglected to file a written statement on the date fixed ; he has to take evidence if offered by any of the parties and to decide the case upon such evidence. The basis of a proceedings under S. 145, Cr. P. Code is not the written statement but the police report or other information from which the Magistrate is satisfied about the fact of the likelihood of a breach of the peace.

If no written statement is put in, the Magistrate is bound nevertheless to hear the parties and take the evidence produced by them. —— S. 145—*Duty of Magistrate—Discussion of oral and documentary evidence necessary.*

The judgment in a case under S. 145 should form the basis for a discussion of the entire evidence in the case both oral and documentary. Documents relating to possession cannot be ignored altogether. ——S. 145—*Duty of Magistrate—Cancellation of order—Procedure.*

When an order under S. 145 is to be cancelled on the ground that no dispute likely to cause breach of peace exists, the Magistrate cannot revive the proceedings. He can start fresh proceeding only on fresh material. An enquiry into question of possession should be as full as that in a summons case, entitling each party to adduce evidence. The final order in such a proceeding ought to declare the party in whose favour possession is declared. An order under S. 145 (6) declares the party found to have beenin possession of the property at the date of the notice to be entitled to possession thereof until evicted therefrom in due course of law. This does not mean that the successful party is thereby entitled as of right, to the property in defeasance of whatever legal title there may be existing in favour of the rightful owner. ——— Ss. 145 and 360—*Evidence of witness must be read over to him—Presence of parties to proceeding is unnecessary.*

Per *majority of the F.B.*—The provisions of S. 360, Cr. P. Code, apply to proceedings under S. 145, Cr. P. Code, to this extent at least, that as the evidence of each witness is completed it must be read over to him. But the parties to the proceedings are not "Accused" and their attendance at the reading over is not necessary.

Per *Cuming, J.*—The expression "accused" in S. 360 cannot and does not include the parties referred to in Chapter XII, neither does the section contemplate that in cases coming under Ch. XII, so much of the section must be complied with as relates to the reading over of the evidence to the witnesses.

Per *Mukerji and Chakravarthi, JJ.*—The word "accused" has been used in S. 360, Cr. P. Code, in its wider significance as including not merely persons accused of offences before a Criminal Court but also persons against whom proceedings are instituted under the Cr. P. Code, in any such Court. The provisions of the section are therefore applicable to a proceeding held under S. 145, Cr. P. Code, and the said provisions should, if practicable, be applied in their entirety to such proceedings. If, however, a party or the parties to the proceedings do not care to attend or appear by pleader at the reading over of the deposition, so much of the provisions as it is possible to apply should be complied with. Where an order under S. 145 is based on evidence recorded at a time when one of the parties was not on the record at all, it is wholly illegal. An order passed by a magistrate dropping certain persons as unnecessarily made parties cannot be reviewed by him. It is the initial duty of a magistrate in a proceeding under S. 145, Cr. P. Code, to find out what parties are concerned in the dispute and he should also determine who is in actual possession. The proceedings are not without jurisdiction merely because some of the parties are concerned only with possession of a portion of the lands in dispute. (*Findlay, O. J. each of the ryots would be to require him to undertake what would be almost impossible from the intricate character of such proceedings. The jurisdiction of the Magistrate would depend on the nature of the information, on which he has acted. If the dispute so brought to his notice is one likely to cause the breach of the peace, it would be impossible to characterise his proceedings as without jurisdiction, because in the course of the judicial enquiry subsequently held the claim of some of the parties related only to particular plots of land out of the entire area in question. ——S. 145—*Foundation of jurisdiction—Apprehension of breach of the peace.*

The apprehension of a breach of the peace is the first condition necessary to give a Magistrate jurisdiction under S. 145, Cr. P. Code, and if it is found there is no longer any such apprehension, the jurisdiction ceases, and he is bound to cancel the initial order and stay all further proceedings under clause (5). (*Newbould and Suhrawardy, JJ.*) MAHOMED KHANDU SARKAR *v.* SADAKALI SHEIKH. **38 C. L. J. 284 : 76 I. C. 963 (1) : 25 Cr. L. J. 291 (1) : A. I. R. 1923 Cal. 577.**

——S. 145—*Foundation of jurisdiction—Provisions not complied with—Order passed is one without jurisdiction.*

S. 145 (1) requires that a Magistrate has to satisfy himself "that a dispute likely to cause a breach of peace exists concerning any land" and has then to "make an order in writing, stating the grounds of his being so satisfied." Failure to comply with the provision makes the Magistrate's order without jurisdiction. (*Broadway, J.*) SHERKHAN *v.* DR. FAZAL ILLAHI. **7 Lah. L. J. 173 : 88 I. C. 601 : 26 Cr. L. ——S. 145 (1)—*Foundation of Jurisdiction—Failure to make initial order vitiates proceedings.*

Under S. 145 (1) it is first of all essential that the Magistrate should be satisfied that a dispute likely to cause a breach of the peace exists and that he should make an order in writing stating the grounds of his being satisfied. Omission to pass an order under sub-S. (1) is not a mere technical defect. Where the Magistrate has not made the initial order prescribed by that sub-section, and has also not made at any subsequent stage of the proceedings an order which essentially complies with the requirements of that sub-section the proceedings are without jurisdiction and cannot be regarded as proceedings under S. 145. ——S. 145—*Foundation of jurisdiction—Essentials necessary.*

The essential requisite to give a Magistrate jurisdiction under S. 145 Cr. P. Code is that he must be satisfied of the existence of a dispute. Once he is so satisfied, his jurisdiction is complete and his subsequent action must be considered in relation to procedure and not jurisdiction. The Magistrate need not give a finding in his final order as to the likelihood of a breach of the peace after making an order under S. 145 (1). The only matter he has to determine is the question of the possession of the disputed property. Revisional powers of the High Court in proceedings under Ch. XII considered. ——S. 145—*Foundation of jurisdiction—Likelihood of a breach of the peace—Jurisdiction of Magistrate to draw up proceedings.*

The Magistrate in order to assume jurisdiction under S. 145, Cr. P. Code, has to satisfy himself about the likelihood of a breach of the peace. He is to exercise his own judgment upon the materials placed before him, and to arrive at a conclusion as to whether upon the material placed before him there was a likelihood of a breach of the peace. He would not be justified in acting merely upon the expression of an opinion by the police, and if by exercising his own independent judgment he came to the conclusion that there was a likelihood of a breach of the peace he is entitled to act under the section. If in the proceedings so drawn up in the office a reference is made to the police report and to the petition of the second party which documents stated that there was no likelihood of a breach of the peace that will not by itself take a way the jurisdiction of the Magistrate to initiate proceedings under S. 145, if he was satisfied that there was a likelihood of a breach of the peace. Joint possession.

——S. 145—*Joint possession—Dispute concerning land—Magistrate—Duty of—Co-sharers.*

In case of an application under S. 145, Cr. P. Code, if the person alleges that he is in possession of the land in question the object of the proceeding ought to be to ascertain how far his allegation is correct, *i.e*, to decide whether or not he is or has been recently in actual possession. The mere fact that the Revenue Records show that the holding is joint is not sufficient to stop the enquiry contemplated by S.145, Cr.P.Code. It is incumbent on the Magistrate to examine the parties and to take evidence. S. 145, Cr.P. Code, applies to a case where the dispute is between co-sharers each claiming to be in possession of the disputed land to the exclusion of the others and sub-section (*b*) to S. 145 does not render that section inapplicable to a case in which the parties are jointly entitled to the land in question. ——S. 145—*Joint possession.*

S. 145 of the Code contemplates a case where one party is in actual possession and the other not and therefore it does not apply to a case of two co-owners. (*Wazir Hasan, A.J.C.*) ARJUN SINGH *v.* CHANDAN KUAR, **22 Cr. L. J. 625 : 63 I. C. 321 : 24 O. C. 167.**

CR. P. CODE (V OF 1898), S. 145—Large area.

——S. 145—*Jurisdiction—Errors and omissions in procedure—Effect on.*

Two essential conditions are necessary to confer jurisdiction on a magistrate to proceed under S. 145, *i. e.*, there should be a dispute over land or water and also it must be likely to cause a breach of the peace. Where once the magistrate is seized of jurisdiction he cannot be divested of it by errors and omissions relating to procedure such as the preliminary order not specifying the lands or the grounds for being satisfied of the likelihood of a breach of the peace, or an interested party not being impleaded or failure to affix notice at or near the subject-matter of dispute. Large area.

——S. 145—*Large areas—Right to carry on boring operations—Complicated question of title—Constructive possession—Duty of Magistrate.*

Per *Newbould, J.*—S. 145 is applicable where the report shows that there is a likelihood of a breach of peace and the dispute concerns land. If the Magistrate is unable to find possession, he will act under S. 146, if necessary. Per *Chaudhury, J.*—When a party claims under a document or agreement the right of doing certain things over a large extent of territory, the performance of acts under such alleged right in one portion of the ground over which the right extends although it may be good and sufficient for the purpose of keeping alive that right so as to be an answer to the plea of limitation raised in a civil suit is not of itself a sufficient possession on which the Magistrate's order under S. 145 may be based for the purpose of forbidding in a distant locality acts not necessarily in conflict with such possession though at variance with the right. The Magistrate is not the proper forum for determining such question. In such a case the Magistrate is to proceed under S. 107, Cr.P Code. Proceedings under S. 146 of the Code with regard to a large mouza will cause great injustice to the persons in actual occupation. It is not the function of a Criminal Court to go into complicated questions of title and possession including that of adverse possession and of constructive possession of wide areas inferred from actual possession of limited areas. ——S. 145—*Large area—Numerous claims tried together—Not illegal.*

Proceedings were initiated between two sets of persons both of whom claimed a large area of somewhat over 300 bighas situated in the domain of the Maharaja of Darbhanga. The first party claimed to he in possession as tenants of the Raj from long past, he second party claimed to have recently been settled on the land by the Raj and to be in possession thereof. The lands were not co-terminus, but they were divided into some 23 different plots. They were not claimed jointly or as a whole by all of the eight parties of the first party, but each party claimed to be in possession of certain of these plots. *Held*, there is nothing to prevent a Magistrate from joining numerous claims of this description together and in dealing with the matter at one hearing. The only objection which can really be taken to such a course is, if it can be shown, that the objector is adversely prejudiced by such proceeding, and the fact that the Magistrate does not in his judgment state which of the first party is actually, according to his finding, in possession of which part of the property in dispute, does not concern the second party at all. Where it is urged that the Magistrate twice made local inspections and that without making any record of the rssult of his observations, he used his conversations at the time of his local inspections in the course of his judgment in substitution of and in order to supplement the evidence which has been recorded by him, *held*, if the Magistrate has used his observations made at the time of local inspection both in substitution of and to supplement the evidence recorded by him, he had, in fact, turned himself into a witness in the case and, further, if he has failed to record the result of his local inspections which would have given both parties a chance of challenging the correctness of his observations, the decision is vitiated. ——**Ss. 145 and 360**—*Nature of proceedings—Possession, proceedings under Ch. XII—Depositions as basis for valid order—Evidence Act, S. 80.*

During the absence of the opposite party, a stealthy act of possession in the most haphazard manner more than two months before the date of the order under S. 145 (1) cannot be regarded to be an act of possession. *De facto* possession means effective occupation or control. If the word "accused" in S. 360 does not include persons against whom an order under section 145 (1) has been drawn up, then there is a plain inconsistency in the section itself; the section must at least mean that in the case of proceedings under Chapter XII the evidence must be read over to the witnesses. The omission only exempts the witnesses from prosecution for perjury, but Magistrate's order based upon the depositions is not *ultra vires.*

The omission to implead a tenant in possession of a portion of the disputed land does not make the proceedings defective. (*Ross, J.*) RAMNARAIN SINGH *v.* DHONRAI GOPE. **3 Pat. L. T. 291 : 65 I. C. 557 : 23 Cr. L. J. 125 : A. I. R. 1922 Pat. 371.**

Object of.

——**S. 145**—*Object of—Religious disputes—Question of title—If relevant.*

The object of S. 145, Cr. P. Code, is to bring to an end by a summary process disputes relating to land, etc., which are in their nature likely if not suppressed to end in breaches of the peace. The mere circumstance that the dispute is of a religious nature is not sufficient to justify action being taken under the section, unless there is positive evidence on the record that breach of the peace is likely to occur, if proceedings are not instituted.

Questions as to rights of parties cannot legitimately be the subject of inquiry in such proceedings. (*Moti Sagar, J.*) BHAGWAN DAS *v.* MAULA DAD KHAN. **25 Cr. L. J. 78 : 75 I. C. 990 : A. I. R. 1924 Lah. 678.**

——**S. 145**—*Object of—Decision must be arrived at at once whether right or wrong.*

It is not one of the objects of S. 145 of the Cr. P. Code to protect or maintain anybody's possession. The sole object of the proceeding is to prevent an imminent breach of the peace and the decision in regard to it must be made at once (*Hallifax, A. J. C.*) EMPEROR *v.* MT. FHUTANJA. **25 Cr. L. CR. P. CODE (V OF 1898), S. 145—Order without notice.

The object of S. 145 is to take speedy measures to prevent a breach of the peace and even the question of possession is subsidiary; failure to affix notice on the property in dispute or to serve notices on the persons interested are at best only irregularities cured by S. 537, cl. (5) of the section provides for interested parties coming in even if they have not been served with notice. (*Hallifax, A. J. C.*) BHURE KHAN *v.* FAKIRA. **25 Cr. L. J. 159 : 76 I. C. 303 : A. I. ——**S. 145**—*Object of.*

The object of S. 145 is to prevent a breach of the peace by a summary decision as to the possession of the contending parties leaving them to decide their title and right to possession in a competent Civil Court where naturally the proceeding has to be a protracted one. ——**S. 145**—*Object of—Is to stop breach of the peace.*

The object of S. 145 is to finally terminate the dispute between the parties so far as the Criminal Court is concerned so as to effectively put a stop to any breach of the peace. It is with this object that the decision of the Magistrate under S. 145 is declared to be final and conclusive until it is set aside by a competent Civil Court and the rights of the parties are determined by a competent Court. ——**S. 145**—*Object of—Refusing to admit written statement filed by claimants—If revisable.*

The very object of the proceeding under S. 145 of the Code is to put an end to disputes as to possession of immoveable properiies so as to prevent a breach of the peace. This object cannot be gained until all the contending parties are on the record and an opportunity is given to them to put forward their respective claims. The effect of an order rejecting the written statement of certain parties is that his decision under S. 145 will not be binding upon them. ——Ss. 145 and 350—*Power of Magistrate—Decision of officer under the Survey and Settlement Act—Value of decision on evidence given before another Magistrate—Propriety of.*

It is open to a Magistrate in deciding a case under S. 145 of the Cr. P. Code to go behind the orders passed in favour of a party under the Survey and Settlement Act and the Bengal Tenancy Act. It is also open to the Magistrate to hold that on the evidence the presumption arising from an entry in the Record-of-rights has been rebutted. S. 350, proviso (*a*) of the Cr. P. Code, is limited to criminal trials and does not extend to enquiries under S. 145. Consequently a magistrate has jurisdiction to proceed with the further trial of a case under S. 145, Cr. P. In proceedings under S. 145, Cr. P. Code, a Magistrate has no jurisdiction to order restoration of possession. The section itself contains no provisions to the effect that party in whose favour the order is made is to be put into possession nor does this section provide any machinery by which the successful party can have his possession restored by the Court. All that the Magistrate is empowered to do is to declare that he is entitled to possession.

At the same time, if a party is declared to be entitled to possession, and the world at large is forbidden to disturb his possession, he would be entitled to take possession and no one would have any right to interfere with his doing so. After proceedings under S. 145 were initiated and a preliminary order was passed, the magistrate becoming satisfied that there was no likelihood of a breach of the peace dropped the proceedings. *Held* that the magistrate was entitled to drop the proceedings without giving an opportunity to the parties to show by evidence that there was a likelihood of the breach of the peace. The existence of clause (5) to S. 145 does not take away the power of the magistrate himself to drop proceedings if he is satisfied that there is no further likelihood of the breach of the peace, for it only provides for a special case where, as the magistrate is proceeding with the trial of the question of possession, the parties to the proceedings or even other persons who are interested are given the right to show that no dispute likely to cause a breach of the peace exists or has existed. *Held also*, that the magistrate having dropped the proceedings becomes *functus officio* and has no jurisdiction to pass any orders as regards the deposit in Court of the sale proceeds of the crops from the lands in favour of any of the parties and the proper order for him to pass is to direct the money to be kept in Court deposit till one or other of the parties gets a decree of the civil court to prove his right to the money. Where the Magistrate refused an application of the petitioner for adjournment based on the ground that witnesses were not present and that copies of papers were required, but he decided the case on the arguments of the pleaders and on such evidence as was adduced: *held*, the legislature could hardly have contemplated an elaborate and protracted investigation, the result of which might in many instances be to defeat the very object in view, namely, an effective prevention of a breach of the peace. It appears clear from the provisions of the Code that it is not obligatory upon the Magistrate to assist the parties to a proceeding under S. 145 to produce their witnesses and they cannot claim as a matter of right that processes should be issued by the Court to enable them to bring forward their evidence. Similarly whether the delivery of possession by the Civil Court is symbolical or actual or whether there was a recognition by the second party of the sub-tenancy claimed by first party petitioner or whether there was a resumption of tenure under S. 14 of Chota Nagpur Tenancy Act, these are plain questions which are not for the Magistrate to decide. When the Magistrate has the evidence before him that the judgment-debtor was ejected and possession delivered by the Civil Court he must act on it. Proceedings under S. 145, Cr P. Code, were initiated in May, 1922. The proceedings were amended upon a report from the police and fresh proceedings were drawn up in 7th August 1922. The case was allowed to hang on from August 1922 up to June 1923. Witnesses were examined on certain dates and then the case was postponed from time to time to examine further witnesses. The witnesses were examined at long intervals and although arguments were heard, no order was passed for about 10 months. The Magistrate apparently forgot all about the case until he was reminded of it when he was going away on transfer. He then hurriedly disposed of the case by an order of the 27th March 1924, striking off the proceedings on the ground that there would be no likelihood of a breach of the peace after such a long interval. *Held*, that the order of the Magistrate was not justified by any provision of law. ——**Ss. 145 and 435** — *Revision — Proceedings without jurisdiction—Breach of the peace — Preliminary order—Interference by High Court.*

The omission to pass an order under S. 145 (1) of the Criminal Procedure Code stating that the Magistrate is satisfied of the existence of a dispute likely to cause breach of the peace is not a mere technical defect. Where the Magistrate has not made the initial order prescribed by that sub-section and has also not made at any subsequent stage of the proceedings an order which essentially complies with the requirements of that sub-section, the proceedings are without jurisdiction and cannot be regarded as proceedings under S. 145 of the Criminal Procedure Code. The Magistrate then ordered that " till the decision of the civil case the respondent shall not keep his possession over the property in dispute." *Held*, that the proceedings after the date of the *razinama* were in continuation of the order made on that day, and that the second complaint was not treated by the Magistrate as a fresh complaint under S. 145. ——**S. 145** —*Revision—Irregularity of procedure is no ground.*

The essential requisite to give a Magistrate jurisdiction under section 145 is that he must be satisfied from information of some sort that a dispute likely to cause a breach of the peace exists concerning land or water or the boundaries thereof in his jurisdiction and that once he is so satisfied, his jurisdiction is complete and his subsequent action must be considered in relation to procedure, not jurisdiction. It being so, High Court will not interfere in revision with an order under section 145 even when the order is passed without giving an opportunity to the aggrieved party to produce evidence, that being only an irregularity in procedure. A property was sold in execution of a decree. While an appeal was pending from an order refusing to set aside the sale, the auction-purchaser applied for mutation which proceeding was also stayed. In S. 145 proceedings the magistrate relying on the evidence in the mutation proceedings came to the conclusion that the possession of the auction-purchaser had been satisfactorily established and that existence of the conflicting claims rendered a breach of the peace at any time probable. *Held*, the magistrate was not justified in importing his knowledge of the evidence recorded in the mutation proceeding still undecided into this case and assuming that a breach of the peace was likely, the finding is thus virtually a finding based on no legal evidence and is open to revision. 34 Cal. 840, Foll. Where the property was recorded in the Collector's register in the name of the widow after the death of her husband in the absence of an objection by the agnates under Bengal Land Registration Act, and where there was a dispute as to the possession of the property, proceedings under S. 107 against the agnates who claimed the properties on the ground of survivorship were proper especially where there was overwhelming evidence of the widow's possession. An order under S. 107 can be passed only when the wrongful acts can be proved by overt actions against each of the several individuals sought to be bound down. Where, however, the wrongful acts are committed or threatened to be committed jointly by a number of individuals and not only by some of them, the act is the act of all and therefore all of them are liable under S. 107. The distinction is between forcible entries which are rightful and forcible entries which are wrongful and this depends on whether the person entering is entitled to use force and not merely on whether he has a legal right to possession. The words "forcibly and wrongfully" have the same meaning as forcible entry without due warrant of law under the English statute. On the 29th of March 1922 a Magistrate before whom proceedings under S. 145 of the Cr. P. Code had been instituted ordered attachment of the property in dispute consisting of an underground colliery and certain huts on the surface. In a suit relating to a money claim laid by a third person against some members of the second party the Subordinate Judge on 24-3-1923 decided adversely to rights of the members of the second party with regard to the ownership of the colliery. Thereupon the first party applied to the Magistrate for withdrawal of the attachment that had been effected on 29-3-1922 and for a declaration of possession. The Magistrate withdrew the attachment and gave possession to the first party. *Held*, that Magistrate had jurisdiction to pass the order in question, even though the first party had not been impleaded as party to the civil litigation and all the members

Where in a proceeding under S. 145, Cr. P. The Magistrate is, however, not bound to make over the possession to anybody. Provisions of S. 146 differ from those of S. 145 (6). S. 146 (6) provide that the Magistrate shall issue an order declaring a party to be entitled to possession of the subject-matter in dispute until evicted therefrom in due course of law in case he decides that the party was in possession or should, under the first proviso to sub-section 4, be treated as being in possession, of the subject-matter in dispute. Although it is true that an attachment under S. 146 will as effectually prevent a breach of the peace as a decision in favour of a party under S. 145 a reasonable effort, varying of course with the circumstance of each particular case, must be made to decide as to possession before there is jurisdiction to attach the subject-matter under S. 146. 10 C. 105, Ref. Where the contention on behalf of the petitioners is that the order in favour of the opposite party in respect of a right to fish in water lying over the occupancy holdings of the petitioners is without jurisdiction inasmuch as an order can only be made under S. 147 if it appears to the Magistrate that the right to the use of land or water exists, but the Magistrate himself gave a finding of fact to that effect himself, relying on the written statement. Where there is an allegation that the right is the sole right of the Pipra concern, who have been exercising and enjoying it ever since the grant of the mokarari right to them by the Bettiah Raj:—*Held*, although this is not an explicit pleading of an acquisition of the right by adverse possession it is sufficient to let in the evidence on which that finding has been arrived at. ——**Ss. 148 and 145**—*Direction to survey and report respecting land in dispute under S.* 145—*Is not a local inquiry but a ministerial act.*

The direction was merely " to survey the disputed lands and report within 15 days." All that the person had to do was to ascertain from the parties what lands were in dispute and then to survey the lands pointed out and to draw up a map and report what he had done. This was a ministerial act, whether the duty of survey was entrusted to a pleader commissioner or to an amin makes no difference ; stress cannot be laid on the fact that the person selected to do the work bore the title of pleader commissioner. It cannot be held that the survey of the lands, after enquiry from all the parties as to what land was in dispute amounted to a " local inquiry " within the meaning of S. 148. It was a mere ministerial act. (*Adami and Ross, JJ.*) CHULAI MAHTO *v.* SURENDRA NATH. **1 Pat. 75 : 3 Pat. L. T. 17 : 65 I. C. 616 : 23 Cr. L. J. 152 : A. I. R. 1922 Pat. 224 (2).**

——**Ss. 148 and 147**—*Local inspections—Court must make a note for what he saw and place it on record.*

Section 148 clearly provides for local inspection whenever such enquiry is deemed necessary for the purposes of Chapter XII of the Code. Such enquiry can be made either by any Magistrate subordinate to the Magistrate before whom the case is pending or by that Magistrate himself. Although as a rule it is better to have such an investigation made by some other person, there is nothing in law to prevent the presiding Magistrate from making the investigation himself provided he records what he saw and does not set upon hearsay evidence. It is a salutary principle of law that the finding of a Court must be based upon evidence duly recorded by it and not upon the impression formed by the Judge on a local inspection of the locality. He can in order to elucidate the evidence make a local inspection and the object of a local enquiry would be only with a view to understand the evidence actually adduced in the case. Moreover it is absolutely necessary that if a Magistrate makes a local enquiry he must make a note of what he saw and must place it on the record so that the parties may be in a position to know what impression the Magistrate had got by the local enquiry. 15 C. Where a Magistrate or his predecessor has ordered the costs to be recovered, he has afterwards no discretion to refuse to recover costs on the ground of long delay, limitation being six years or any other ground. The Magistrate having excused one of the persons from payment of costs it will be open to the opponent in applying for distress warrants to exempt him from the list of persons from whom the costs are to be recovered. The use of the word "may in his discretion" in section 386 cannot be used for the purpose of interpreting the words "may be recovered" in section 148. ——S. 149—*Section does not empower police officer to pass any order he likes.*

Per *Sulaiman, J.*—To hold that under S. 149 a police officer can pass any oral order he thinks desirable, would be to hold that his word is law. If his powers were to be so wide, it would be unnecessary for the Magistrate or the police to take any precautionary measures in advance, it would be quite sufficient to send down a Sub-Inspector to the scene and let him pass all sorts of sweeping orders, disobedience of which will entail covinction. Such a method, if sanctioned, would deprive the persons concerned of all opportunity to appeal to higher authorities, and they would have to submit to such orders at the peril of a prosecution. Such wide powers vested in a police-officer would interfere unreasonably with the ordinary liberty of private citizens and could not have been contemplated to be within the scope of S. 149. A list of stolen property handed to a Police-officer in the course of investigation is not admissible in evidence and should not be placed before the Jury. The admission of such a list however would not of itself vitiate the trial unless it is shown that the accused have been prejudiced by such admission. Where the names of certain persons are sent to the Police as being the names of those who are suspected of being concerned in the commission of an offence and the evidence of the person who supplied these names to the Police is challenged in Court, the list of names supplied by him is admissible in evidence to corroborate his statement. A map which contains upon it certain things which must have been supplied to the Police Officer by some person should not be admitted unless there had been the evidence of the person as to what he said to the officer and the evidence of the Police Officer as to what the person told him. Circumstances may arise in which information given to the police is of such a vague and indefinite character that it cannot be treated as coming under S. 154 so as to make it incumbent upon the officer in charge of the Police station to start an investigation, and he may reasonably require more direct information before doing so and such further information given to him in such circumstances might not come under the provisions of S. 162. The information referred to in S. 154 appears to be something in the nature of a complaint or accusation, or at least information of a crime given with the object of putting the police in motion in order to investigate, as distinguished from information obtained by the police when actively investigating a crime. The information referred to in S. 154 may come from more than one source and more than one such information may be recorded at or about the same time, but once the police have taken active steps to investigate, any written statements taken by them cannot be admissible as evidence as they would come within S. 162. ——S. 162—*Stage at which an accused is entitled to copies of statements made by prosecution witnesses to the Police in the course of investigation.*

Under Sec. 162 of the Cr. P. Code the stage at which an accused person is entitled to ask for copies of statements made by the prosecution witness to the Police in the course of the investigation, is the stage when the witness had made a statement which lays him open to contradiction by his former statement to the Police. Consequently, the accused is not entitled to copies before cross-examination is opened at all. (*Krishnan and Wallace, JJ.*) *In re* PERAMASAMI RAYUDU.

——S. 162—*Oral statements in Police investigation are admissible subject to Evidence Act.*

The application of the new S. 162 is confined as that of the old one was, to the written record ; the new section was designed to confer on an accused person legal right, which the old section did not give, of having a copy of such written statement for the purpose of using it to contradict the witness and as regards proof and use of oral statements, the law is unaltered and is as it was before. All oral statements which were previously admissible, under the Evidence Act, the use of which was not prohibited by the Criminal Procedure Code, are still admissible and may be used. ——S. 162—*Section does not repeal Evidence Act, S. 27.*

The amended S. 162 does not exclude from evidence the fact that the accused made a statement to the Police that the weapon with which the crime had been committed was concealed in a prickly pear bush. The section both before and after amendment, is directed against the admission, at the instance of the prosecution, of Police diaries and other records prepared or copied from the diaries of investigating officers. The provisions of the Evidence Act are quite independent of the sections in the Cr. P. Code and cannot be treated as impliedly repealed in consequence of the amendment of the Code of Criminal Procedure. (*Spencer, Offg. C. J. and Reilly, J.*) SEMALAI GOUNDAN, *In re.* **21 L. A statement made by any person to a police-officer in the course of an investigation cannot be used as evidence except for the purpose of contradicting him, in certain limited circumstances under S. 162 of Cr. ——S. 162—*Statement made to the Police—Proof of—Duly proved—Meaning of.*

Under S. 162, Cr. P. Code as substituted by the Amendment Act of 1923 it is not now permissible for statements made to the police whether oral or written, to be put in evidence, in order to corroborate a prosecution witness or to contradict a defence witness. Under the terms of the Section a police statement can be used only for one purpose and that is by the accused to contradict a prosecution witness in the manner provided by S. 145 of the Evidence Act. The expression " it duly proved " in S. 162 of the Cr. P. Code clearly shows that the record of the statements cannot be admitted in evidence straightway but that the officer before whom the statements were made should ordinarily be examined as to any alleged statement or omitted statement that is relied upon by the accused for the purpose of contradicting the witness ; and the provisions of S. 67 of the Evidence Act apply to this case as well as to any other similar case. The charge against the petitioners was that they formed an unlawful assembly and had entered the field of occurrence where the complainant's party were getting their paddy seedlings uprooted. There was no allegation of any assault at all against the petitioners. The story was that the defence party had assembled some Pathans from Kothi to help them in their attempt to take possession of the land and two of the petitioners were alleged to have been two of these Pathans. As a matter of fact one of them was not a Pathan. In the first information given in the case the names of the two petitioners were not mentioned. The witnesses examined gave ambiguous or evasive answers when questioned whether they had named these two petitioners to the police as having been present. The police Sub-Inspector was asked whether the witnesses had named the two petitioners to him and said that he could not remember. When asked to refresh his memory from the diaries he refused to do so, and the Magistrate did not compel him to look into those diaries for the purpose of answering the question as he ought to have done. *Held*, that the evidence of identification of the two petitioners was absolutely unsatisfactory and the case should be sent back for rehearing. It would be going too far to say that a magistrate recording a statement or a confession under S. 164 cannot and should not ask a single question of the deponent. But it is equally certain that his position when recording such statement or confession is merely that of a Recording Magistrate and that he is in no sense an Investigating Officer. He would be justified in, and ought in the ordinary performance of his duties, to clear up any matter which is ambiguous in the face of the statement, but he would be wholly unjustified in extracting by questions from the deponent facts which he had not spoken to of his own accord. The accused, in a murder case, made a confession which was duly recorded under S. 164 The accused had admitted their guilt in the Court of the committing magistrate and they pleaded 'not guilty' before the Court of Session. The Sessions Judge proceeded to take in evidence, before a single witness had been examined, the previous statements made by the accused not only before the committing magistrate, but prior to the commencement of the proceedings in the Magistrate's Court when they were examined under S. 164 of the Code. *Held*, that the trial Court was certainly contravening the provisions of S. 286 of the Cr. P. Code. Although under S. 342 of the same Code the power given to the Court to examine an accused person is one which may be exercised at any stage of the trial in the discretion of the Court, the provision must not be regarded as in any way superseding the clear directions contained in S. 286 as to the manner in which a trial at Sessions should be commenced. The omission to question the appellant before recording his confession under S. 164 as to whether he is making it voluntarily is a material omission which prejudices him, and the defect is a fatal one, not curable by S. 533 and the confession must, therefore, be excluded from evidence. ——S. 164—*Admissions before trial need not be recorded—Oral evidence of such statements is admissible—Distinction between Ss.* 164 *and* 364.

S. 364, Cr. P. C., makes it obligatory upon the Magistrate who examines a person as an accused, to record the whole of the questions put to him and answers given by him. But statements whether in the nature of information given by witnesses about a crime or admissions by persons who have taken part in a crime, if made during the course of an investigation but before the commencement of trial or inquiry are governed by S. 164, which permits but does not compel the Magistrate to record the same. Oral evidence of a Magistrate who watches investigation conducted by the police under instructions given to him under S. 159, Cr. P. Code and who did not himself make any independent inquiry or record any statements from the available witnesses are admissible to prove that the accused confessed the crime to him though the statement was not recorded under S. 164. ——S. 164—*Confession duly recorded but against orders of District Magistrate is nevertheless admissible in evidence.*

A confession duly recorded by a Magistrate in accordance with S. 164 of the Cr. P. ——S. 164—*Confession which is uncontradicted and corroborated must be held to be true.*

Per Kanhaiya Lal, J. C. and Lyle, A. J. C. :— Where there is a reasonable doubt whether the accused gave the information which led to a discovery, it would be unsafe to rely on his confession. If the dead body in a murder case was discovered in consequence of the confession, the corroboration would be material, but if the evidence produced about the time when the dead body was discovered is discrepant it is difficult to say whether the discovery was made before the confession or afterwards.

Per Lyle, A. J. C.—Although criminals do at times confess for no apparent reason, they generally do so in some vague hope of escaping from the penalty of their crime when they know or believe that there is evidence against them.

Per Kanhaiya Lal, J.C.—The failure of the prosecution in many cases is due to the inveterate desire of the investigating officer not to work up to the confession but to get hold of a confession first and then work from it downwards.

Per Ashworth, A. J. C.— Where an accused person has pointed out the whereabouts of the body of a man who has undoubtedly been murdered and has made a confession which not only is uncontradicted by any of the facts proved in the case but indeed has received corroboration in respect of many points, then the confession should be held to be true as implicating the person making it unless he can make out a strong case to the contrary. It is not necessary that the confession of an accused should receive direct corroboration as to the fact that the accused was concerned in the offence. It is sufficient that there was such corroboration of the confession as to indicate that the accused had such knowledge of the circumstances of the offence as would suggest his taking part in it. Where an accused person makes a statement before a Magistrate under S. 164 of the Cr. P. C. and the

——Ss. 164 (3) and 533—*Evidence Act, S. 80—Confession containing memorandum under S. 164 (3)—Presumption under S. 80, Evidence Act, arises that all formalities have been performed—Court must be satisfied that confession was voluntarily made.*

If, when a document is tendered in evidence at a trial purporting to be a confession of the accused, it is found to contain the memorandum required by S. 164 (3), a presumption arises under S. 80 of the Evidence Act that all the necessary formalities purporting to have been performed have in fact been performed and the document is admissible in evidence without further proof. If however, the said memorandum does not appear or is defective the document is inadmissible unless the defects can be cured by the examination of the Magistrate who recorded it, under S. 533. The provisions of S. 164 (3) render it incumbent on a Magistrate who is called on to record a confession to explain to the person who is to make it that he is not bound to make a confession at all, and that if he does so it may be used as evidence against him. Further the Magistrate should only record the confession if upon examination of the person making it he has reason to believe that it will be made voluntarily. Where the memorandum at the foot of confession recorded does not conform with the form as laid down, the defect is curable if it is of form and not of substance. If as a matter of fact the statement was duly recorded, that is to say, after the required explanation had been given but the Magistrate had failed to embody that fact in the certificate, such a defect would be curable. If the explanation had not in fact been made the statement could not be held to have been "duly made" and S. 533 cannot be appealed to. ——S. 164 (3)—*Magistrate must satisfy himself that confession is voluntary.*

Where an accused person was actually produced before the Magistrate as soon as he was arrested and was produced before him the next day for recording the confession, *Held*, that the confession should not be ignored on the ground that the Magistrate did not ask him how long he was in Police custody. It is highly irregular for the Magistrate to peruse the alleged statements of the accused made to and recorded by the Police Officer before proceeding to question the prisoner. A Magistrate should generally question the accused closely as to his motives in making a confession. It is desirable that a Magistrate in recording the confession should put various questions to an accused to enable him to decide whether the confession is a voluntary one or not, but there is nothing in law which lays down that a Magistrate cannot satisfy himself as to the voluntariness of the confession by putting a single question to the accused person. The law as laid down in Ss. 61, 167 and 169, Criminal Procedure Code, is that at the expiration of the maximum period of 15 days' detention of an accused person and the additional time necessary to bring him before a Magistrate allowed under Secs. 61 and 167, an accused must either be released by the Police under Sec. 169 security for his appearance if and when required being taken or the Magistrate, empowered in that behalf must either take cognizance if he has before him a police report which ordinarily would be a report in the form laid down in S. 173 which he thinks, makes out a *prima facie* case or he must release him. The provisions of Sec. 190 extend to any offence and notwithstanding the use of the words "Police Report" in Sec. 175, that Sec. 190 (1) (*b*) cannot be restricted merely to non-cognizable offences and a Magistrate is empowered by Sec. 190 (1) (*b*) to take cognizance both of cognizable and non-cognizable offences upon a report such as is mentioned in Sec. 190 (1) (*b*). ——— S. 179—*Offence under S. 409, I. P. C.—Place of trial—Consequence of wrongful act.*

A person is not accused of the offence of criminal breach of trust by reason of his having actually caused wrongful loss to anybody ; it is enough that he intended to do so, even if no wrongful loss was ever caused in fact. Such loss is certainly the usual consequence of the offence but it is not one of the consequences by reason of which the person is accused of the commission of the offence. It is therefore not one of the consequences contemplated by S. 179, Cr. P. Code. The offence of criminal breach of trust is complete with the act of conversion and the intention to cause wrongful gain or wrongful loss. That intention can only be formed or at least can only be proved to have been formed at the place where the conversion takes place and that place is the forum for trial of the accused. 38 M. 630, Foll. ; 46 B. 641, Diss. The jurisdiction of a Court to try an offence of criminal misappropriation or criminal breach of trust is governed by S. 181 (2) and not by S. 179, Cr. P. Code. The resulting loss though a normal result in such cases, is not an ingredient of those offences and cannot therefore be described as a consequence within the meaning of S. 179. ——**Ss. 181 (2) and 179**—*Criminal breach of trust—Offence triable where conversion takes place.*

For the application of S. 179 it is essential that the offence should depend on an act done and on a consequence which has ensued. Loss to one person though a normal result of an act of misappropriation by another, is not an essential ingredient of the offence of criminal misappropriation. The offence is complete if the conversion is done with the intention of causing wrongful gain to the offender irrespective of any loss which may ensue to any other person. The offence does not depend on the consequence which has ensued but on the act which has been done, and therefore the offence is triable where the conversion takes place and the accused intends wrongful gain to himself and falls under S. 181 (1). 44 C 912, Foll. The Sub-Magistrate to whom the papers were sent accepted the referred charge-sheet and struck the case off his file. The police put in a charge-sheet before the Sub-Divisional Magistrate against the petitioner for an offence under S. 211, I. P. C. The Sub-Divisional Magistrate transferred the case to the Second Class Magistrate who had acted on the referred charge-sheet in the alleged dacoity case. *Held*, that this was not a case in which the police could start proceedings of their own accord. The offence under S. 211 is a non-cognizable one and the Police were not empowered to investigate into a non-cognizable offence and charge the petitioner. It was open either to the accused in the alleged dacoity case or to the Village Munsif, or any Police Officer to prefer complaint under S. 190, Cr. P. A Magistrate has cognizance of a criminal case before he examines the complainant under S. 200, Cr. P. Code. The omission to examine a complainant under S. 200, Cr. P. Code, is a mere irregularity and not an illegality. The person prejudiced by such an irregularity is the complainant and when the case ends in a conviction, he has no grievance. The accused cannot in general complain of the irregularity as the omission to take a sworn statement from the complainant cannot prejudice the accused. ——Ss. 190, 202 and 476—*Inquiry. can be made only on complaint—Jurisdiction of Magistrate.*

A Magistrate has no power to make a judicial or preliminary enquiry unless a complaint is lodged before him under S. 190 (1) (*a*). S. 202, under which alone an inquiry can be made, relates exclusively to complaints. No such inquiry can be made when cognizance is taken under cls. (*b*) and (*c*) of S. 190. Where a report was made to the Police of an offence but it was found that the act complained of was a mere accident, and the Magistrate thereupon called on the person to show cause why he should not be prosecuted under S. 211 of the Penal Code and eventually passed an order under S. 476 directing his prosecution, *held*, that there was never a judicial proceeding before the Magistrate within S. 476 of the Code and that the order was bad. ——Ss. 190 and 351—*Subsequent addition of new accused does not require fresh proceedings in initiation.*

The addition of a new accused does not necessitate fresh proceedings in initiation. The evidence, it is true, must be recorded *de novo*, but that is merely in order that the witnesses, whose evidence has already been recorded, may be used against the new accused. The Magistrate having taken cognizance of the offence, it is right and proper, that he should bring to justice all those persons whether originally mentioned or not who, the evidence shows, were guilty of that offence. In such cases the Magistrate should be regarded as taking cognizance under the same clause of section 190 as he did against the original accused. Section 351 applies to such cases, and is intended to apply to them. There is also authority for the view that S. 351

If a person is charged by another person with an offence and on enquiry by the police the police consider that the whole case is false, it is open to the complainant on petitioning against the police enquiry to place the matter within the scope of the operation of S. 190, sub-S. 1 (*a*), Cr. P. Code. But where a Magistrate has already taken cognizance of an offence in which certain persons are accused, there is no authority for the suggestion that if when the charge sheet is placed before the Magistrate the police-officer as the prosecution medium omits the name of certain persons whose participation in the offence has up to that time been before the Magistrate he is compelled in any way to follow what is after all no more than advice tendered by the prosecuting authority. But the Magistrate need not, without giving any reason differ from that advice. Once the Magistrate has taken cognizance of an offence he is strictly entirety independent of any opinion which the police-officer offers to him and it is within his power to order that any person who have been, since he has taken cognizance of the matter, accused as being participants in the offence should be produced before him to undergo the preliminary enquiry before committal or for trial in cases which do not go to a higher tribunal for trial. ———Ss. 195, 476—*Amendment — Sanction given under old Code—Trial commenced but not completed before amending Act came into force—Fresh complaint —Necessity for.*

A Criminal Court took cognizance of an offence for perjury on a sanction granted to a person before the Cr. P. Code Amendment Act came into force, but the trial was not completed till after that date. A charge was then framed against the accused and he sought to revise the order framing the charge and to quash all proceedings in connection therewith on the ground that no written complaint by the Court was filed as required under the amended provisions of the Code. *Held*, the proceedings were perfectly valid and no complaint by the Court was necessary. 19 L. W. 392 and Cr. M. P. No. 606 of 1924 followed.

Per *Wallace, J*:—In such cases it is essential not to confuse " cognizance " with " jurisdiction " Once a Court is properly seized of a oase, no amendment of the law except an amendment which took away the jurisdiction of the Court to try the offence can affect the Court's authority to proceed with the trial.

Per *Madhavan Nair, J* :—An alteration in the law of procedure relating to the grant of sanction cannot invalidate proceedings validly begun under the old procedure. ——**S. 195**—*Grant of sanction—Judicial discretion of—* Prima facie *case—Powers of Appellate Court.*

Under S. 195 (1) (*b*) the exercise of the Court's discretion will be judicial only if it considers whether with reference to the evidence available and the other circumstances, a prosecution is desirable in the public interest, and not, if it merely satisfies itself that "a *prima facie* case" has been made out.

Per *Oldfield, J.*—Firstly, the duty of the Court granting sanction is discharged if it exercises a judicial discretion; and similarly the duty of the Appellate Court, if it satisfies itself whether such a discretion has been exercised. The former Court must therefore be required, whatever the extent to which the investigation undertaken for its own satisfaction has been carried to put on record sufficient to demonstrate to the latter that its exercise of discretion has been judicial. In the next place it may be said at least that the Court cannot be regarded as having exercised a judicial discretion in granting sanction, when it has satisfied itself only that a *prima facie* case has been made out, if by that is meant only that formal evidence of the ingredients of the offence is available, without reference to defects which may deprive that evidence wholly or to a material extent of value.

Per *Coutts-Trotter, J.*—It is to my mind, vital that it should be recognised that a Court, in sanctioning a prosecution arising out of facts which have come before it during the trial of a civil case should not be supposed to be discharging that which is the task of the Committing Magistrate at a later stage and usurping his functions by explicitly or tacitly pronouncing that there is a *prima facie* case. Where it is shown that the learned Judge exercised his discretion on a mistaken view of the facts, he may be treated as not having exercised a judicial discretion at all, and the appellate tribunal may be considered as thereby invested with an unfettered discretion to act on the true facts. ——**S. 195**—*Grant of sanction—Principles governing grant.*

In ordering a sanction for perjury under Ss. 191 and 193, I.P. Code the Court must clearly show by its order that the person against whom a sanction is granted intentionally made false statements which should be set forth in the order. Although in certain circumstances the omission to set forth the statements may be cured by a reference to the application for sanction but the grounds upon which the sanction is based must be recorded in the order granting the sanction. Under S. 195 the Court must find that the statements were intentionally false and the opposite party need not show that he did not testify falsely. Though there is no bar of limitation, delay of a month is very material and whether it is prejudicial or not depends upon circumstances. The Court must find whether the object of the application is to wreak vengeance. The Appellate Court must discuss points raised by the appellant and assign reasons for sustaining the order. The opposite party should be given sufficient opportunity to substantiate the pleas taken in the petition showing cause. (*Jwala Prasad, J.*) DAROGA JHA *v.* BABUJAN MANDAL.

——Ss. 195 and 476—*Procedure—High Court having to make complaint to be enquired into by a Magistrate is inconsistent with the Judge's dignity and unfair to the accused—But no escape exists under the present Code.*

Under the new law the Court has no alternative but to prefer a complaint in writing and to forward it to a Magistrate of the first class having jurisdiction to entertain it. This procedure in its application to the High Court is open to serious objection. It is hardly consistent with the dignity of a Judge of the High Court that he should have to make and sign a complaint which is to be inquired into by one of his subordinates and that he should be treated and recorded as complainant throughout the proceedings, the only exception being that his examination in support of the allegations in the complaint has been dispensed with by proviso (aa) to S. 200, Cr. P. Code. Nor is it fair to the accused that he should be arraigned in a case which has been instituted on a complaint made by a Judge of the highest tribunal and is to be tried by a judicial officer who is subordinate to the complainant. Though no Magistrate taking cognizance of a case of this description ought to be influenced by the circumsance that the complaint has been preferrd by a Judge of the High Court yet there can be little doubt that the accused person is likely to entertain an apprehension, not altogether without justification, that his conviction is a foregone conclusion. Against an order of the Subordinate Judge refusing sanction to prosecute the petitioners for perjury there was an appeal to the District Judge. When the appeal was pending, the new Cr. P. Code came into force. It was contended that the District Judge had no power to grant sanction afterwards as he did. *Held*, that the petitioners had incurred a liability to have their prosecution for false evidence sanctioned and the complainant on his application being dismissed by the Sub-Judge acquired a right to apply to appellate Court under S. 195, Cr. P. Code, (as it was unamended) for the grant of sanction which the lower Court had refused. Under these circumstances the repeal of S. 195 as it then stood could not affect any pending investigation in respect of the right which had accrued to the complainant or the liability which had been incurred by the applicants. The Dt. Judge had therefore power to grant the sanction. Where the particular passages complained of as being perjured evidence were not set out in the order of the District Judge but were set out in the application for sanction the order of sanction must be deemed to have been passed with respect to the statements alleged in the application. ——Ss. **195 and 476**—*Scope of the sections—Amendment of the Code—Effect of.*

Prior to the amendment of the Cr. P. Code by the amending act of 1923, Ss. 195 and 476 of the Code referred to two different things. S. 195 required a sanction or complaint by the Court for the prosecution of certain offences. S. 476 gave the Court a quite independent power to direct a prosecution of its own authority and send the case for trial on the merits to a first class Magistrate. As the Code now stands both the sanction by a Court and the direct order by a Court directing a prosecution are done away with and the procedure in all cases is one of complaint by the Court: S. 195 describes the offences in respect of which a complaint is necessary and S. 476 describes the procedure under which a complaint is to be made. The intention of the legislature seems to be to make S 476 co extensive in its scope with clauses (b) and (c) of S. 195 (1). Cl. (a) of S. 195 is not concerned with Courts and S. 476 does not refer to it. (*Daniels, J.*) DWARKA PRASAD *v.* MAKUND SARUP. **L. R. 6 A. 630 : 90 I.C. 290 : 26 Cr. L J. 1506 : L. By Notification No. 4848 VI-353 of the 3rd December 1921, the City Magistrate of Lucknow had been invested with the power to hear appeals from orders and convictions by Magistrate of the 2nd and 3rd classes under S. 407 (2) read with S. 37 of the Cr. P. Code. *Held* that for the purpose of S. 195, clause (7) of the Code an appeal from the decision of a Bench of Honorary Magistrates, exercising second or third class powers, was to be deemed "ordinarily" to lie to the District Magistrate and not to the City Magistrate. 30 Cal. 394 and 26 Mad. 656 Ref. The words of S. 195 (b) should be given as wide an application as possible. Some of the offences enumerated in the clause are capable of being committed in relation to a judicial proceeding which did not exist. False evidence for instance may be fabricated for a contemplated suit or property may be fraudulently concealed in contemplation of an execution proceeding. The clause applies if the judicial proceeding is in existence at the time when it is sought to prosecute the offender for the offence in question. If two offences are even remotely connected by the relationship of cause and effect, then the first may be said to have been committed in relation to the second. It may be that the commission of the latter offence may never

——**Ss. 195 and 200 (aa)**—*Scope of—Offence under S. 182, I. P. Code—Complaint not in writing—Conviction—Liability of.*

Where an objection as to the absence of a complaint in writing was not taken at the trial or in the appellate court but only in revision, it is not sufficient to upset a conviction under S. 182, I. P. Code. Assuming there was no complaint in writing, it would not make the conviction illegal. The object of introducing the words "in writing" after the word complaint in S. 195 and adding cl. (aa) to S. 200, Cr. P. Code, was to remove the inconvenience which might be felt if it was made incumbent on the Magistrate to examine the complainant when taking cognizance of an offence. As the provision as regards sanction was removed from S. 195, Cr. P. Code and as it was made obligatory for the public servant concerned to make a complaint instead of giving a sanction in order to prosecute a person for offences referred to in S. 195, Cr. P. Code, it was thought that it would cause a good deal of inconvenience if such public servant had to attend the court and to appear before the Magistrate in order to lodge the complaint. When the Code provides that the Court shall not take cognizance of certain offences without complaint from a public servant it is not open to a Magistrate to ignore this provision by the device of instituting the case under another section of the Penal Code. Hence the Magistrate cannot say that he took cognizance of an offence under S. 225 (*b*) of the Penal Code and that having done so he was entitled under S. 238 of the Cr. P. Against an order of the Subordinate Judge refusing sanction to prosecute the petitioners for perjury there was an appeal to the District Judge. When the appeal was pending the new Cr. P. Code came into force. It was contended that the District Judge had no power to grant sanction afterwards as he did. *Held*, that the petitioners had incurred a liability to have their prosecution for false evidence sanctioned and the complainant on his application being dismissed by the Sub-Judge acquired a right to apply to appellate Court under S. 195, Cr. P. Code (as it was unamended) for

the grant of sanction which the lower Court had refused. Under these circumstances the repeal of S. 195 as it then stood could not affect any pending investigation in respect of the right which had accrued to the complainant or the liability which had been incurred by the applicants. The Dt. Judge had therefore power to grant the sanction. Where the particular passages complained of as being perjured evidence were not set out in the order of the District Judge but were set out in the application for sanction the order of sanction must be deemed to have been passed with respect to the statements alleged in the application. Per *Sulaiman, J.*—The word " means" in S. 195, sub-clause (2), of the old Code has been substituted by the word "includes," which suggests that the term "Court" is intended to be a wider expression than a " civil, revenue or criminal Court." If it had not a wider meaning, it was wholly unnecessary to say "but does not include a registrar or sub-registrar etc."

Per *Daniels, J.*—It seems doubtful whether the Legislature, in substituting the word " includes " for " means " in S. 195 (2), really intended to widen the definition. They may have thought that to say that the term "Court" means "a Civil, Revenue or Criminal Court but does not ' include ' a Registrar or Sub-Registrar, implies that Registrar or Sub-Registrar, " would be a Court unless specially excepted from the definition. The word " includes " in an enactment is not always of a wider significance than the word means 1899 App. Cases 99, Rel. on. (*Sulaiman and Daniels, JJ.*) BILAS SINGH *v.* EMPEROR.

——S. 195 (6) and (7)—*Revision—Interpretation of section.*

It is doubtful if the words in sub-S. 6 of S. 195 Cr. P. C., "any sanction given or refused under the section," could have been intended to mean anything else but the sanction given or refused in the first instance. If that is so, then only one appeal or rather one application in revision would appear to have been contemplated by this sub-section. Sub-S. 7 provides that for the purposes of the section every Court shall be deemed subordinate only to the Court to which appeals from such Court ordinarily lie. It is very much doubtful if the Legislature intended in cases not covered by S. 439, Cr. P. C. to allow a succession of appeals or applications in revision. A sanction given under S. 195 is not a mere formal matter and before sanction can be granted it is necessary for the Court to see if there is a *prima facie* case against the opposite party. Further the Court will be astute to see that no abuse of the administration of criminal justice takes place 10 C. W. N. 1026 Foll. (*Ghose and Cuming, JJ.*) SARAT CHANDRA *v.* RAMSASHI ROY. **36 Cal. ——**S. 195 (6) and (7)**—*Appeal—Judge sitting alone on Original Side.*

Appeals ordinarily lie to a Division Bench of the Appellate Side of the High Court from a judge sitting alone on the Original Side, and therefore the power of the High Court to revoke sanction given under S. 195 is given by Sub-S. (7). The additional words of the Sub-S. 7, "that is to say etc.", are merely illustrating and to some extent limiting the words that go before, and the true way of reading that section is that the power to revoke is granted to the Court which ordinarily hears appeals from the Court sanctioning, but, as there may be difficulty in applying that rule, where two Courts have ordinarily the function of hearing appeals or where no Court has that function, provision is made by the rest of the section for those cases.

Per *Schwabe, C. ——**S. 195 (6)**—*Jurisdiction under—Nature of appellate revisional or special—Sanction to prosecute—Order revoking—Application to High Court under S. 195 (6) to set aside—Maintainability after new Code.*

The petition was under S. 195 (6) of the old Code of Criminal Procedure to set aside an order of a District Magistrate revoking the sanction granted by a Sub-divisional Magistrate, for the prosecution of the respondent for an offence under S. 188, I.P. Code. Objection was taken to the maintainability of the petition on the ground that the new Code of Criminal Procedure (Act XVIII of 1923) had abolished such sanction and that was the law applicable to the case. Petitioner contended that the right to move the High Court under S. 195 (6) for sanction was of the nature of a substantive right, such as a right of appeal, which could not be taken away by any alteration of the processual law. *Held*, that the right conferred by S. 195 (6) of the old Code was not a right in the nature of a right of appeal, that the amendments made by the new Code did not take away any substantive right and merely affected procedure, and that the petition was therefore unsustainable. of which the sanction of the Govt. is required, he should not be charged with and tried for offences in respect of which no sanction is required. Where the accused is charged with an offence of conspiracy and acts of cheating in pursuance of conspiracy it is open to the prosecution to prove such acts in order that from them the existence of the conspiracy may be proved and the charge is not bad. Once a charge of conspiracy is framed, anything done in pursuance of the conspiracy, can be tried at the trial for conspiracy. It is not an irregularity or an improper exercise of discretion in putting in the form of charges specific acts specially relied on as against each individual accused to show that they joined in the conspiracy. The granting of sanction under S. 197, Cr. P. Where the husband has elected not to empower the Magistrate to punish the accused for adultery and the accused was found to have committed house-trespass with intent to commit adultery, a charge of an attempt to commit adultery comes under Sec. 199. An intent to commit an offence punishable with imprisonment is not the same thing as an attempt to commit such offence. Intent exists before the attempt is begun. A mere intent is not by itself an offence ; therefore where it is used as essential to bring a particular act within the category of criminal offences, and proof has been given that such an act, accompanied by such an intent, has been committed, the offence is complete, even though the further act intended may not have been committed or even attempted. The principle underlying S. 360 (i) of the Cr. P. ——S. 202—*Main changes.*

(1) Third class Magistrates can now inquire into the case personally.

(2) "Inquiry or investigation" have been substituted for "previous local investigation" and evidence can be taken in such inquiry.

(3) Presidency Magistrates can now act under this section without special authorisation.

(4) The enquiry can now be made if the Magistrate thinks fit.

——S. 202—*Inquiry and local investigation—Magistrate cannot have both.*

Under S. 202 the Magistrate had the option of only one out of two alternatives, namely, either to enquire into the case himself, or direct a previous local investigation. There is nothing in S. 202, which empowered the learned Magistrate to have recourse to both the alternatives. His order, therefore, directing local investigation is irregular. And if it be found that any material obtained through this irregular course acted on the mind of the Magistrate in arriving at a conclusion, prejudicial to the accused persons, it must be *held*, that the accused persons must be prejudiced in consequence of that irregularity. It would, therefore, vitiate the proceedings. (*Lindsay, J.*) EMPEROR *v.* DURGA PRASAD. **44 All. 550 : 20 A. L. J. 355 : 66 I. C. 423 : L. R. 3 A. 76 (Cr.): 23 Cr. L. J. 279 : A. I. The provisions of S. 192 or S. 202 do not entitle a Magistrate after he has proceeded under the latter section to make an order under the provisions of the former section transferring the case for the purpose of being dealt with under S. 203 or S. 204 without a fresh investigation as contemplated by S. 203, Cr. ——S. 202—*Preliminary enquiry—Hearing of arguments—Of accused—If proper—In ordering further inquiry Sessions Judge cannot direct that accused be summoned.*

Holding an enquiry under S. 202, Cr. P. Code while the accused were before the Magistrate by pleader, though they had not been summoned, and their arguments were heard is a procedure highly condemnable. The Sessions Judge cannot when ordering a further enquiry in respect of a complaint which has been dealt with by the Magistrate, under S.202, Cr.P. Code direct that the accused be summoned. The revising officer may direct that by way of further inquiry he shall cause an investigation to be made, or if one has been made which he considers insufficient or unsatisfactory or if he considers that the complainant has not been sufficiently examined, may order that the complainant be recalled and his examination continued. But a further inquiry cannot be ordered in any but one of these three cases The inquiry is preliminary to the issue of process and the next step to take, if the inquiry as far as collection of materials is complete, is the issue of process, 15 Cal. 608 Foll. ——S. 202—*Order directing enquiry—Reasons to be given—Cross-examination—Notice to accused—Irregularity.*

Ordering an enquiry under S. 202, Cr. P. Code, and deferring the issue of process should only be done after recording reasons. It is also as a rule undesirable that the enquiry should be prolonged by cross-examination and arguments *inter partes*. But there is no reason why the accused should not be called to the enquiry. Departure from the strict letter of the law in the matter of allowing cross-examination and hearing arguments is only a mere irregularity. (*Foster, J.*) RAM SARAN SINGH *v.* MOHAMMAD JAN KHAN. **26 Cr. L. J. 1394 : 89 I. C. 706.**

——Ss. 202 and 203—*Notice to accused before issuing process is not proper.*

On hearing the complainant the Magistrate directed notice to be served upon the accused and to show cause why process should not issue against him. A petition was put in by the accused and a learned pleader appeared for him and showed cause why process should not issue, with the result that the Magistrate dismissed the complaint.

Held, that the procedure adopted by the Magistrate, in calling upon the accused to show cause why he should not be proceeded against, was improper and irregular. This procedure is quite inconsistent with the scheme of this legislation. It is inconceivable how the accused person ever goes before the Magistrate until the Magistrate has made up his mind to issue process. (*Sanderson, C. J. and Chotzner, J.*) CHANDI CHARAN *v.* MANINDRA CHANDRA. **36 Cal. L. J. 414 : 27 C. W. N. 196 : 72 I. C. 173 : 24 Cr. L. J 333 : A. I. R. 1923 Cal. 198.**

——Ss. 202 and 54—*Trial by Magistrate and investigation by Police-The former does not bar latter.*

The Cr. P. Code draws a clear difference between jurisdiction to try and jurisdiction to investigate and it is possible to conceive of cases when, although the Magistrate may distrust a complaint or delay in passing orders the police would be failing in their duty, if they did not arrest an offender against whom a cognizable offence has been made out. Much more so would this be the case where the Magistrate, after recording the complaint, finds that a regular police investigation would be more suitable and intentionally keeps the complaint pending in order that the police may exercise their powers of investigation and arrest independently of the Magistrate. In practice of course, the police would not ordinarily take independent action in respect of a complaint which had already been distrusted by the Magistrate: but to lay down the general proposition that a Magistrate's order under S. 202 debars the police from exercising their powers of arrest and investigation, would be neither expedient nor correct. (*Mullick and Bucknill, JJ.*) EMPEROR *v.* BHOLE BHAGAT. **2 Pat. 379 : 4 P. L. T. 521 : 1 Pat. L. R. 248 (Cr.) : 72 I. C. 375 : 24 Cr. L. J. 375 : A. I. R. 1923 Pat. 547.**

——S. 202—*Issue of process without recording reasons is not correct—Cross examination and arguments should not, as a rule, be allowed in a case of inquiry under S. 202.*

It is certainly not a correct procedure to defer the

issue of process and order an enquiry without recording reasons. It is also as a rule undesirable that the enquiry should be prolonged by cross-examination and arguments *inter partes*, the reason being that if this is necessary it is obviously advisable to follow the procedure of a trial and for that purpose to issue process at once. At the same time if a Magistrate having the duty of making an enquiry under S. 202 can make his enquiry more complete and can inform himself of the facts more fully by having the accused in Court, there is no reason either in common sense or in law why the accused should not be called to the enquiry. (*Foster, J.*) RAM SARAN SINGH *v.* MAHOMED JAN KHAN. **26 Cr. L. J. 1394 : 89 I. C. 706 : A. I. R. 1926 Pat. 34.**

——S. 202—*Dismissal of complaint—No record of the evidence of witnesses—Irregularity.*

Where the Magistrate, in an enquiry under S. 202 did not record the statements of witnesses but he had before him the final report of the police a detailed account of the statements of the witwesses before the police and the witnesses repeated the same statements before him.

Held : that it cannot be asserted that there has been an error of law since the Code makes no provision with regard to the manner in which the evidence in an inquiry under S. 202 should be recorded. The case would be different had the deposition of any witness deviated from the record of the previous statements. (*Macpherson, J.*) TILAKDHARI SINGH *v.* MISRI SINGH. **3 Pat. L. R. 77 (Cr.) : A. I. R. 1925 Pat. 584.**

——Ss. 202 and 203—*Dismissal of complaint—Enquiry—Scope of.*

The enquiry contemplated by S. 202, Cr. P. Code, does not necessarily mean an inquiry by the Magistrate himself examining witnesses or by holding investigation into the case. It is open to the Magistrate to investigate into the matter in order to ascertain the truth or falsity of the complaint in any way he thinks proper. Where an investigation had been made by the police and witnesses had been examined by the investigating police-officer, there is nothing in law to prevent the Magistrate from looking into the police papers for the purpose of ascertaining the truth or falsehood of the complaint. The enquiry contemplated by S. 202, Cr. P. Code is not limited to any particular form of enquiry and if upon looking into the police papers the Magistrate was satisfied that it was not a fit case in which process ought to be issued against the accused person, there is nothing in law to prevent the Magistrate from doing so. Where two counter-petitions were filed before a Sub-Divisional Magistrate which he referred to a Sub-Magistrate for report and enquiry under S. 202, and on receipt of the report issued process in one case and directed in the other case that it be put up after the disposal of the first. *Held*, that at that stage in revision High Court could not interfere with the discretion exercised by the Magistrate as the Magistrate had not contravened any rule of procedure. ——S. 205 (2)—*Personal appearance dispensed with—Concession when can be revoked.*

The petitioner was served with a notice on the 12th December 1922, by a Sub-Divisional Officer in his capacity as an Income-Tax Officer, requiring the petitioner to submit a return of his income within seven days. The petitioner thereupon raised a question as to whether separate income should or should not be included in the income of the family of which he was a member. On the 11th February 1923, the Sub-Divisional Officer applied to the District Magistrate in the latter's capacity as an Assistant Commissioner of Income-Tax for sanction to prosecute the petitioner under S. 51 (c) of the Income-Tax Act, for having failed without reasonable cause or excuse to furnish in due time a return which had been called for from him under S. 22 of the Act. The District Magistrate granted sanction for prosecution on the 15th February 1923. On the 16th February 1923 the Sub-Divisional Officer in his capacity as an Income-Tax Officer purported to make a report to himself as the Sub-Divisional Magistrate, with a request for issue of a process against the petitioner and on the same date the Sub-Divisional Officer took cognizance of the case and summoned the petitioner to appear before him on the 26th February 1923. On the 27th February 1923, the petitioner appeared before the Sub-Divisional Officer through a Pleader and prayed for exemption from personal attendance and for permission to appear through a Pleader. This prayer was granted by the Sub-Divisional Officer, and on the case being put up before him on the 28th February, 1923, the Sub-Divisional Officer took the statement of the Pleader, wherein it was stated that the petitioner was not legally bound to submit a return and that the learned Sub-Divisional Officer had no jurisdiction to try the petitioner. Thereupon the Sub-Divisional Officer recorded the following order in the Order Sheet :—" He (the petitioner) further objects to trial by me. I have no objection to give the accused option to have the case tried elsewhere but, I am afraid his attitude shows that he is bent on delaying the ends of justice anyhow. I cannot quash the proceedings at this stage on the objection taken by the accused without entering into the merits of the case. Before, however writing up to the District Magistrate for transfer of the case from my file, I must enforce the attendance of the accused, so I revoke the concession granted under S. 205 (2) of the Code of Criminal Procedure and order the issue of warrant against him with bail of Rs. 200 ; fixed 6th March, 1923." *Held*, that having regard to the circumstances of the case the Sub-Divisional Officer should not have revoked the concession which he had previously extended to the petitioner of allowing him to appear by pleader. ——Ss. 207, 254 and 347—*Procedure—Where Magistrate is justified in committing a case to the Sessions which could have been adequately dealt with by him—Stage at which he may commit.*

If before the commencement of an enquiry or trial, the Magistrate is of opinion that the case is one which for any reason ought to be tried by a Court of Session then he has ample power to inquire into the case with a view to commitment and subsequently to commit if the evidence justifies the course. Nor does there seem to be any reason for holding that if nevertheless the Magistrate has once started proceedings under Ch. XXI, he no longer has the power to commit unless he is of opinion that the sentence which he could pass would be inadequate. It would be an undue extension of the scope of S. 254 to hold that it was meant to fetter the scope of a Magistrate in all circumstances. S.347 is a general section and applies to all inquiries and trials. There is no suggestion that the only possible reason for a competent Magistrate to commit a case to Sessions is that he will not be able to pass a sufficiently severe sentence. The discretion vested in him cannot clearly be limited by the provisions of S. 254 of the Code. (*Brown, J.*) EMPEROR *v.* ISHAHAT. **3 Rang. 42 : 89 I. C. 525 : 26 Cr. L. J. 1389 : A. I. The words " for all purposes subject to the provisions of the Evidence Act" merely mean that the law of evidence as embodied in the Act must be complied with, *e.g.*, evidence wrongly admitted by the committing court cannot be transferred. The petitioners were prosecuted for forgery and the Deputy Magistrate who inquired into the case disbelieved the evidence and discharged the accused. The District Magistrate relied on two Judgments of a civil court and committed the accused for trial to the Sessions. *Held*, that the District Magistrate was influenced by the decisions of the civil court and that he had no right to rely on them. It is open to a Deputy Magistrate to form his opinion with regard to the credibility of the witnesses callled before him. If a *prima facie* case is made out he should clearly leave it to the jury at the Sessions to form their own view as to their credibility of the evidence. But if after hearing the evidence he is satisfied that it is not trustworthy and that a conviction will not result, he is entitled to record a finding that the witnesses who spoke in support of the charge cannot be believed and

——S. 209—*Duty of Magistrate — Sufficient ground for committing.*

A committing Magistrate is entitled, at any rate to some extent, to weigh the evidence of direct witnesses and to pronounce as to their credibility and where there is no credible evidence on which a Court could convict, it is the duty of the Magistrate to discharge the accused and he should not commit to the court of Session. But a Magistrate holding a preliminary enquiry ought to commit the accused to the Court of Session when the evidence is enough to put the party on his trail and such a case obviously rises when credible witnesses made statements which if believed would sustain a conviction. It is the duty of the Magistrate to commit when the evidence for the prosecution is sufficient to make out a *prima facie* case against the accused. (*Scott-Smith, J.*) MAULU *v.* EMPEROR.

In arriving at this decision the committing Magistrate has discretion and power to weigh the evidence. To hold that where there is some evidence, however untrustworthy in the Magistrate's opinion, he is bound to commit a person for trial, will be to make the preliminary enquiry directed by the code, a mere matter of form while it is intended to be a safeguard against false or frivolous cases being sent up for trial and innocent men from being put to the trouble and expense of undergoing a trial in the Court of Sessions. The Magistrate recorded the applications but declined to entertain them. Upon this the District Magistrate was moved by the complainant and acting under S. 437 of the Cr. P. It was contended in revision that the District Magistrate's order was illegal because the accused had been acquitted and not discharged: *Held*, that the First Class Magistrate's order was substantially one discharging the accused in respect of an alleged offence under S. 395 of the Penal Code and that the District Magistrate had jurisdiction to pass the order in question. S. 213 uses the expression "not sufficient grounds for committing the accused." This expression is quite different from such expressions as "the case not proved" or "the accused are innocent." If a Magistrate hearing a charge triable by the Court of Sessions comes to the conclusion that the evidence before him

is totally untrustworthy and that there is no reasonable possibility of the case resulting in a conviction, he is entitled and it is his duty to discharge the accused under S. 209, Criminal Procedure Code. The same result follows if he comes to a similar conclusion after framing a charge and hearing witnesses for the defence under S. 213 (2). This discretion is to be carefully exercised, and wherever there is a possibility that different Courts might take different views of the evidence, the Magistrate even though he may himself not think the evidence sufficient for a conviction, should leave it to the Sessions Court to decide. 40 All 625 Not Foll. After a charge under S. 409, I. P. C. is framed against an accused under Chapter XXI of the Code of Criminal Procedure, the Magistrate cannot discharge the accused but can only acquit him unless he convicts or decides to commit him to the Sessions under S. 347, Cr. P. Code.

When, however, a case is taken up from the first under Ch. XVIII as an enquiry preliminary to commitment, a Magistrate can, under S. 213 (2) cancel the charge and discharge the accused even after hearing witnesses for the defence if he is satisfied that there are no sufficient grounds for committing the case. A charge framed by the Magistrate when trying a warrant case cannot be cancelled under the above section. It is open to a Magistrate to pass an order of acquittal in respect to one part of the offence, *e. g.*, criminal breach of trust in respect to one item and to commit the accused under S. 347, Cr. P Code, to the Sessions in respect to another part of the offence if he finds that a *prima facie* case is made out.

S. 347, Cr. P. Code, does not empower a Magistrate to discharge an accused against whom a charge has been framed It is only in respect of the offence for which the accused is to be committed to the Court of Session that the proceedings are taken out of Chapter XXI and the other proceedings of the Magistrate must remain governed by the provisions of that Chapter. During the commitment proceedings the provisions of S. 360 Cr. P. Code, were not at all observed. During the trial the said provisions were not complied with in the case of the majority of the witnesses. Public Prosecutor applied to the Sessions Judge for a *de novo* trial. This was about a month after the ruling of the Calcutta High Court in 1924 Cal. 889 regarding Cr. P. Code, S. 360 was published. On the basis of the application by the Public Prosecutor the Sessions Judge recommended to the High Court that the commitments themselves should be quashed. The accused opposed this. Most, if not all, of the accused persons were in *hajat*, and some of them had been in *hajat*, for about a year and a half or so.

——S. 231—*Criminal trial—Charge—Alteration of, after commencement of trial—Right of accused to re-examine prosecution witnesses, and adduce further evidence in defence—Legality of procedure.*

The accused was originally tried under S. 324 of the Penal Code. After the evidence for the prosecution closed, the accused was charged under S. 324 of the Penal Code and the trying Magistrate recorded his plea and proceeded to hear the evidence for the defence. The charge aforesaid was framed on the 16th November, 1923. The evidence for the defence was concluded on the 12th of December 1923. On the 15th of December, 1923, the trying Magistrate altered the charge into one under S. 307 of the Penal Code and without giving the accused an opportunity to re-examine the witnesses for the prosecution in regard to the altered charge or to produce such further defence evidence as he may have in his defence on that charge, committed him to the Court of Sessions, for trial on the charge so altered. S. 231, Cr. P. Code, requires that when a charge is altered by the Court after commencement of the trial, the prosecutor and the accused shall be allowed to re-call or re-summon and examine with reference to such alteration or addition any witness who may have been examined and also to call any such further witness whom the Court may think material. The alteration was made at a very late stage of the case and no commitment ought to have been made on the altered charge without giving the accused an opportunity of re-examining the witnesses for the prosecution and producing his defence in regard thereto. *Held*, that the procedure of the Magistrate was entirely illegal and likely to prejudice the accused in his trial before the Court of Session. Whether a transaction is the same or not is a question of fact depending on the facts and circumstances of the particular case. It is not necessary for the purposes of Ss. 235 and 239 that the acts should have been committed all on the same occasion, but it is sufficient that, though separated by a distinct interval of time, they are closely connected by continuity of purpose or as progressive acts towards a single object. Under the decree of a Civil Court certain lands had been given to the complainant. The accused went on these lands and cut and took away paddy from some of the plots. On the next day they went on the other plots and cut and took away other paddy. *Held*: that the events of the two days really formed one transaction, for in each case the object of the accused was to assert their rights or alleged rights over the lands which had been awarded by the decree of the Civil Court to the complainant and the accused were rightly tried together in respect of the offences on both the days. Though all the accused were present, there was only evidence against some of them as regards these the latter offences. The accused was the Sub-Inspector in charge of the Netrokana Police Station. On the 7th February last a prostitute named Kamini died in Netrokana town at 2 P.M. in the afternoon. She had executed a registered deed of gift covering most of the properties to one Purna. On her death the Sub-Inspector took charge of the properties left by Kamini and removed them to the Thana shortly after her death. A telegram was sent to Purna who was 17 miles away and he came to the Thana on the morning of 8th between 10 and 11. In the evening he took away the properties claimed by him except three specific ornaments gold Gophar, a pair of gold ananta, and silver rates, which were retained by the Sub-Inspector. Entries had been made in the Police General Diary recording that this property of Kamini had been taken charge of, but the pages containing those entries were torn out and fresh pages were written from which it will appear that the property was never taken to the Thana and that it was made over to Purna at 10 P.M. on the 7th February. On these allegations, the accused was charged firstly, with having committed criminal misappropriation of three ornaments belonging to Kamini which had not been delivered to Purna. He was, secondly, charged with having framed the record in a manner which he knew to be incorrect, namely, the entry No. 173 which related to the delivery of Kamini's property to Purna. He was, thirdly, charged under S. 477-A with having destroyed the original entries in the General Diary and with having altered the entry No. 173 already referred to. Further there were three charges of criminal breach of trust by a public servant punishable under S. 409, the first relating to the properties left by Kamini and not covered by the deed of gift in favour of Purna, the second relating to the three specific ornaments already mentioned and the third relating to the properties mentioned in the deed of gift. *Held*: that as regards these charges, *i.e.*, under Ss. 218 and 477-A they fall under two separate definitions of the law and the accused can be jointly charged and tried at one trial for these offences under S. 235, and that the joinder of the other charges is covered by the provisions of that section, as all the charges relate to acts which are so connected together as to form one transaction. ——— **S. 235**—*Same transaction—Acts done in pursuance af a common object are parts of the same transaction.*

The word "transaction" in S. 235, Cr. P. Code, has a very wide connotation and covers a series of acts connected together, *e.g.*, when a proposal for a boycott is made by the President of an Association and shortly afterwards the Secretary and a member take joint action to boycott the person against whom the resolution is directed, the inference is that they are acting in furtherance of a common purpose or, in other words, that they are taking part in a conspiracy. Acts done in pursuance of such a conspiracy must be deemed to be part of the same transaction. 37 Cal. 467, Foll. Though to establish a charge of conspiracy there must be agreement, there need not be proof of direct meeting or combination, nor need the parties be brought into each other's presence ; the agreement may be inferred from circumstances raising a presumption of a common concerted plan to carry out the unlawful design. To attract the applicability of S. 236, Cr. P. As there is a common relation between a police investigation, an inquiry by the Magistrate preliminary to commitment and a final trial in the Sessions Court, to the statements made at these different stages the words " series of acts " would be applicable. ——S. 237—*Change.*

[Sub. cl. (2) has been omitted here and has been

re-enacted as sub-S. (2-A) in S. 238 for appropriateness.

——S. 237—*Charge under S. 302—Conviction under S. 201 is proper.*

Where the accused were charged under S. 302, and on evidence they were found to be guilty of an offence under S. 201 (causing the evidence of crime to disappear) and so were convicted under the latter section. *Held*, that the conviction was proper. ——S. 237—*Alteration of charge.*

A person was convicted under S. 325, I. P. C., for a charge that he caused such bodily injury which resulted in the man's death. The appellate court disbelieved the evidence, but was asked to amend the charge by changing it into one under Ss. 34 and 325, I. P. C., as there was a common intention to beat. *Held*, the charge could not be amended in appeal as it would in effect deprive the accused of an opportunity to meet the new case. Nor could a re-trial be ordered in the case on the amended charge. (*Boys, J.*) CHHIDDA SINGH *v.* EMPEROR. **82 I. C. 364 : 25 Cr. L. J. 1292 : L. R. 5 A. (Cr.) 133 : A. I. R. 1924 All. 766.**

——S. 237—*With charge under S. 304 conviction can be under S. 304-A.*

As it is open to the prosecution to bring the accused to trial on charges under S. 304 and S. 304-A, it follows under S. 237, Cr.P.C., that although the charge under S. 304-A is not formally made it is open to the Court to convict under that section. ——Ss. 237 and 238—*Sections give exceptions to rule that none can be convicted of an offence of which he was not charged.*

Ordinarily a person cannot be convicted at a Sessions trial, of an offence with which he has not been charged. ——S. 237—*Conviction for different offence from that charged, must be quashed if accused has been prejudiced.*

Where the accused were not charged under the sections under which they are convicted and sentenced and if from the perusal of the charge as a whole the Court is of the opinion that the accused have been prejudiced by the fact that they have been convicted on charges which had not been framed against them, the conviction must be set aside and a re-trial must be directed. ——S. 237—*Attempt to commit not charged, conviction for it is legal.*

Where the accused presented the bills to the Government of India knowing that they contained false representations as regards the number of gallons of linseed oil supplied :

Held, the presentation of each of the bills was an application for the payment of money under false pretences. It was done dishonestly and with the object of deceiving the officials of the Government of India and inducing the Government of India to issue cheque

or cheques for the amounts of the bills. As soon as each of the bills was presented the offence of the attempt was committed. The accused may be convicted of the attempt although it is not charged. ——S. 237—*Charge for one offence—Conviction for another—Legality—Test of.*

The petitioner was convicted of an offence punishable under S. 54-A of Act VI of 1866 Calcutta Police Act. At the trial the only charge framed against her was that she committed theft in respect of gold and silver ornaments, cloths and cash Rs. 13,410 in G. C. notes, sovereigns and coins valued in all about Rs. 18,000 from the room of one Khelwan Ahir and thereby committed an offence punishable under S. 380, I. P. Code. *Held*, that the conviction was valid under the provisions of S. 237, Cr. P. Code. The legality of a conviction for an offence not charged depends on whether reliance is placed on S. 237 or whether the different offence of which the accused has been convicted is one for which he might have been charged under the provisions of S. 236, Cr.P. Code. (*Newbould and Suhrawardy, JJ.*) TULSI TLINI *v.* EMPEROR. **50 Cal. 564 : 72 I. C. 372 : 24 Cr. L. J. 372 : A. I. R. 1923 Cal. 596.**

——S. 237—*Charge of murder—Abetment—Conviction for, is legal.*

A committed a murder at the bidding of B. B's actual presence at the scene of the murder was not established. The Sessions Judge convicted A under S. 302, Penal Code and B of abetment. *Held*, on facts that B could have been charged not only with the commission of the principal offence but also with the abetment, and therefore by virtue of S. 237, Cr.P.Code, he could be convicted of the offence of abetment though not separately charged with it. (2) Persons accused of an offence which includes theft or extortion, criminal misappropriation and another of receiving, retaining or disposing of the stolen property.

(3) Persons accused of counterfeiting coin and another of possessing or altering it.

(4) Persons accused under Ss. 411 and 414, I.P.C.

——S. 239—*Same transaction—Numerous accused—Murder—Unlawful assembly.*

In determining whether S. 239 of the Cr. P. Code does or does not authorize a Sessions Judge not only to try a large number of the accused at one and the same trial but to try them in each and all of the charges set forth against them under the orders of the committing Magistrate, the Sessions Judge has to look to the case or the prosecution as set forth on the charges themselves. **If according to that**

case the offences were such as could be regarded as parts of the same transaction he would be justified in entering upon the trial of all the accused on the charges framed. It would not be necessary for him to consider what the position would be if he finally comes to the conclusion that no offence had been committed or that the offence committed was one which was excluded from his cognizance by S. 196-A of the Cr. ——S. 247—*Trial as a warrant case but charge with summons case offence—Right to acquittal under section does not depend upon procedure.*

S. 247 seems to be intended to lay down a general principle that a person charged with a summons case offence is entitled in law to an acquittal if the complainant is absent; and this right should not be denied to him simply because the Magistrate has adopted a warrant case procedure in the trial of the case. The general principle must be that the right of the accused to benefit under S. 247 of the Code of Criminal Procedure does not depend on the procedure

which the magistrate chose to adopt and was constrained to adopt the complaint as laid, but on the nature and class of the offence for which he is being tried at the time of the complainant's failure to appear in Court. The plea that the date of hearing was a holiday is not a sound excuse for complainant not appearing to prosecute his case and a legal treason for the Magistrate refusing to act under the peremptory provisions of S. 247. Under S. 345 (6), Cr. P. The complainant charged five persons with an offence under S. 326, I. P. Code, and subsequently put in a petition whereby he withdrew his complaint against one of the accused who had apologised and wished the case to proceed against the others. *Held*, that there was in effect a composition of the offence with one of the accused and that expression "withdrew the complaint" was loosely used. Per *Le Rossignol, J.* (*Harrison, J. Contra*) There is nothing in S. 248, Cr. P. posite party applied to the High Court on the 25th February 1921 for an order that the criminal trial should be stayed for a period of two months pending the determination of a Civil suit in which the question of the shares referred to in the complaint in the Criminal Court was involved. The Court made an order to that effect on the 20th April 1921. On the expiration of the said two months the criminal case was proceeded with on the 8th March, 1922 on which date an adjournment was granted by the Magistrate who had succeeded the previous Magistrate till the 20th March 1922, for moving the High Court for a further stay of the criminal case pending the determination of the said Civil suit. On the 20th March 1922, a rule for a further stay of the criminal case was issued by this Court. Meanwhile it appears that the petitioner had been summoned to appear as witness in a cause on the Original Side of this Court on 20th March 1922 and he could not be personally present in the Court of the Magistrate on the 20th March 1922 though he was represented by his pleader. An application for adjournment was made on behalf of the petitioner before the Magistrate but this was refused and the accused was thereupon discharged by the Magistrate under S. 253, Cr. P. Where the Magistrate who held the enquiry for committing a person to Sessions, under the orders of the Superior Court, after recording the prosecution evidence, discharged the person and where such person had originally formed one of those against whom the report in connection with the offence had been made and where he was subsequently dropped out of the proceedings by the senior investigating officer, *Held* that the Magistrate had not acted properly in refusing in spite of the Superior Court's order to commit the accused to Sessions and that it was a case in which the Court empowered to try the offence charged against the accused should give a definite pronouncement. There is no necessity compelling a Magistrate to convict an accused to Sessions notwithstanding that he may consider conviction to be impossible. But the Magistrate must be satisfied fully that the prosecution will fail in the Sessions Court. The law will not be satisfied if the Magistrate merely doubts portions of the prosecution evidence. ——**S. 254** — *Warrant case—Charge framed—Defence evidence unsatisfactory—Judgment need not necessarily be one of conviction.*

Although in a warrant case a Magistrate has in the first instance thought fit to frame a charge against an accused person, it is not incumbent on him to convict the accused merely because the latter has failed to adduce satisfactory rebutting evidence. It is his duty when he proceeds to judgment to carefully consider all the evidence adduced in the case and the probabilities and surrounding circumstances and if at the time of giving judgment, he comes to the conclusion that the guilt of the accused has not been satisfactorily established, he is bound to acquit him although he may have framed a charge against him in the first instance. Where an accused seeks to exercise the right of cross-examination conferred by S. 256, Criminal Procedure Code, he cannot be legally required to deposit the expenses. The question who should pay whether the Government or the complainant is one to be decided by the Magistrate. S. 544 of the Code of Criminal Procedure is subject to rules made by the Local Government. The rules in force in the Central Provinces will be found in the Judicial Commissioner's Circular, No. 1—37. If the complaint is a private one brought for using false trade-mark and the prosecution is not one carried on by, or under the orders or with the sanction of the Government and is bailable, the only provision under which the Government could be made to pay the expenses is if it appears to the presiding officer that the prosecution is directly in the interests of public justice, a point which is one obviously for the Magistrate to decide. But in no case can the accused be compelled to pay the expenses of the witnesses for the prosecution whom he wishes to cross-examine under S. 256, Criminal Procedure Code. Under that section the right of the accused to cross-examine is absolute. (*Baker, O. J. C.*) RADHAKISAN *v.* RAMKRISHNA. **7 N. L. J. 57 : 25 Cr. L. J. 912 : 81 I. C. 448 : A. I. A Magistrate held an enquiry and committed the accused to the Sessions on a charge of bigamy. Owing to the amendment of the Cr. P. The prosecution witnesses, who had been examined and cross-examined were then re-called and cross examined again. The complainant then asked that the evidence of seven prosecution witnesses might be taken. The witnesses were not present, but some of the witnesses had, as a matter of fact, been summoned but had not attended. With regard to others an application for witness summonses had ben granted. *Held*, that the witnesses were remaining witnesses. The accused are entitled to cross-examine prosecution witnesses called to the Court under S. 257. The section itself however gives the Magistrate certain powers to refuse an application for the summoning of witnesses under S. 257 whether it is the case of a witness who desired to be called for the defence or whether it is one whom it is desired only to cross-examine. The mere fact that an accused's lawyers declined to cross-examine such witnesses or the mere fact that such witnesses were not cross-examined does not compel Court to summon them. ——S. 257—*Prosecution witness summoned again for defence—Summons ordered—Subsequent change of order—Prejudice.*

As a general proposition it can be laid down that once a Magistrate has given orders that a certain witness should be called he should take steps to enforce his attendance. But if he later comes to the conclusion that his presence is not really necessary, as in the case of a prosecution who had already been cross-examined at great length, it cannot be said he has no jurisdiction to dispense with his attendance. In the absence of prejudice, it will be no good ground for interference with the conviction. (*Bucknill, J.*) RAMSAKAL RAI *v.* EMPEROR. **90 I. C. 923: 26 Cr. L.J. 1627.**

——S. 257—*Right of accused to apply for the attendance of a prosecution witness as a witness for the defence and cross-examine him.*

Under the provisions of S. 257 of the Criminal Procedure Code, the accused has a right to make an application to the Magistrate that certain prosecution witnesses should be ordered to attend for the purpose of cross examination and if the magistrate orders the application the accused are entitled to a cross-examine such witnesses. The section however gives the Magistrate certain powers to refuse such an application. Thus where an accused cross-examined or had the opportunity of cross-examining a witness after a charge has been framed, the Magistrate may refuse unless he is satisfied that it is necessary for the purposes of justice. If it is shown that the refusal of the Magistrate to order the attendance of the witness was outside, the limits of reasonable discretion of the High Court would interfere in revision. ——S. 257 (2)—*Scope.*

Section 257 (2) of the Cr. P. C. fully empowers a Magistrate trying a case to order that reasonable expenses of a witness shall be deposited by the applicant in Court before he is summoned. The language of section 257, Cr. P. C., is imperative and the Magistrate has no discretion to refuse to issue process to compel the attendance of any witness merely because he thinks that no useful purpose will be served by summoning him as a witness to attend the Court. The only grounds upon which an application can be refused are those enumerated in clause (1) of section 257 of the Cr. P. C and the Magistrate is not entitled to refuse the application on any other grounds. It is not for the Magistrate to say which witnesses shall and which shall not be of any use to the accused. ——Ss 263, 370 and 441—*Absence of reasons may vitiate judgment.*

It is one thing to hold that, in a case where all the record before the original trying Court is also available before the High Court in revision, no substantial failure of justice has occurred by the omission of the trying Court to record reasons. It is a very different case when the conviction was passed without reasons therefor on evidence of which no record is taken and which therefore is not available to the High Court. In such a case the omission to record reasons is a grave irregularity which in most cases would be sufficient ground for interference. In the case of convictions by Presidency Magistrates there is the saving S. 441 and when the record submitted under that section discloses sufficient grounds for the decision, it may be taken into consideration. ——S. 271 (2)—*Murder case—Sentence on a plea of guilty is not improper.*

Although as a matter of practice in Sessions trials many Judges very properly prefer not to act on a plea of guilty but proceeded to take the evidence as if the plea had been one of not guilty, in order to ascertain the accused's state of mind and whether or not he acted under provocation, sufficient to reduce the offence to one of culpable homicide or only sufficient to affect the sentence, yet in sub-section (2) of S. 271 it is enacted "If the accused pleads guilty the plea shall be recorded, and he may be convicted thereon." It has certainly never been laid down that it is illegal to convict in a murder case on a plea of guilty, and in each case the circumstances must be examined to see whether the plea of guilty is one which would have been acted on. 11 Cal. 410 Ref. ——Ss. 275 and 528-A—*Procedure in mofussal and in Presidency Towns discussed.*

An Indian British subject to be dealt with as such must put in his claim before the Magistrate before whom he is brought for the purpose of enquiry or trial. This applies to Presidency Magistrates as well as Magistrates in the mofussal.

If the Magistrate rejects the claim and tries him, the decision shall form a ground of appeal from the sentence or order passed in such appeal. This applies to Presidency Magistrates as well as to Magistrates in the mofussal.

If the Magistrate rejects the claim and commits him to the Court of Session, he may repeat the claim before the said Court. Such repetition may only be made in a Court of Session and not the High Court exercising Original Criminal Jurisdiction,

If the Court of Session rejects the claim and tries him, the decision shall form a ground of appeal from the sentence or order passed in such trial.

It necessarily follows that if a claim is made before a Presidency Magistrate and rejected by him and the accused is committed to the High Court, there is no provision for repetition of the claim before the High Court, and the accused will not be entitled to put in, under S. 275 of the Cr. P. Code, before the High Court, a further claim for being tried by a jury the majority of whom should be Indians.

Where no such claim is put forward before a Magistrate, there being no provision for repetition of the claim before the High Court, S. 528-B. is a bar to the assertion of the same in any subsequent stage of the case. ——Ss. 279 and 278—*Scope.*

Whether the evidence has been adequately criticised by the Court must depend upon the special circumstances of each case such as the constitution of the jury, their intelligence and education, the elaboration with which the case has been conducted on both sides, the skill of the defence and a variety of other circumstances. It is open to the Judge to express his own opinion of the evidence, provided he cautions the Jury that they are not bound by that opinion. Although a motion for revision does lie against the Sessions Judge's order, it is not the intention of the law that the motion shall be heard by High Court as an appeal; for if that were the case, then there would be no object in giving a right of appeal to the Sessions Judge at all. All that the petitioners can claim in a revision petition is a right to show that the Sessions Judge has decided wrongly. (*Mullick and Kulwant Sahay, JJ.*) GAJO SINGH *v.* EMPEROR. **4 Pat. L. Where the question of misconduct on the part of the jury or other similar sufficient cause arises, the Sessions Judge has inherent power to discharge the jury and empanel another. Assessors should be selected judicially and with great caution. If the assessors are the admitted tenants of the other party this in itself is a sufficient ground for the accused to mistrust the impartiality of the assessors and the relationship of landlord and tenant, or of master and servant creates an incapacity in a person to sit as a Judge or as an assessor in a case, under S. 284. There is no express provision for objecting to the selection of an assessor as is in the case of jurors under section 278. ——S. 286—*Evidence—Uncorroborated confession—Retraction—Evidentiary value.*

The two accused had admitted their guilt in the Court of Committing Magistrate, and they pleaded "not guilty" in the Sessions Court. The Sessions Judge proceeded at once to take in evidence before a single witness had been examined the previous statements made by the accused not only before the Committing Magistrate, but prior to the commencement of the proceedings in the Magistrate's Court when they were examined under Section 164 of the Code of the Criminal Procedure. He then examined and almost cross-examined the two accused upon these confessions and having done this began to record the prosecution evidence. *Held*, the trial Court certainly contravened the provisions of Section 286 of the Code of Criminal Procedure as to the manner in which a trial at Sessions should be commenced. It seems quite beyond question that the retracted confessions, practically uncorroborated by anything in the prosecution evidence do not afford anything like a satisfactory basis for the conviction of the accused. ——S. 288—"*Provisions*" *are not limited to Ss.* 155 *and* 157 *of Evidence Act.*

Under S. 288 the evidence of a witness taken before the committing Magistrate can, in the discretion of the Judge, be treated as substantive evidence in the case "for all purposes subject to the provisions of the Indian Evidence Act." "Provisions" in the section cannot be limited to particular provisions in the Evidence Act, so that statements made by witnesses before the committing Magistrate are admissible not only to contradict or corroborate a witness but also for the purpose of determining the guilt or innocence of the accused. But if the witness changes the verson before the Sessions Judge such evidence must be accepted with more caution than the evidence of a witness who adheres in the Sessions Court to what he deposed before the committing Magistrate. Under the amended S 288 the evidence recorded by the committing Magistrate, if admitted under S. 288, must be treated as evidence for all purposes even as the basis of finding or verdict and on a par with any other evidence before the Sessions Court or as substantive evidence on which the verdict of the jury or judgment of the Judge can be based. 51 P. The amendment of S. 288 by substituting the words 'duly recorded in the presence of the accused under Chapter XVIII' for the words 'duly taken in the presence of the accused before the committing Magistrate' is intended to cover cases where evidence may be recorded by the committing Magistrate but not for the purposes of commitment, as under S. 219, Cr.P. Code. There is no special procedure laid down in Ch. XVIII for recording evidence and any evidence recorded by a Magistrate before commitment whether recorded with a view to commitment or in the ordinary course of trial, is evidence recorded in the presence of the accused under Chapter XVIII. The evidence of a witness which has been recorded under the provisions of S. 288, Cr. P. Code, may be acted upon by the Court precisely as if that evidence had been deposed to before the Sessions Judge. The amending words " for all purposes subject to the provisions of the Indian Evidence Act, 1872" merely mean that the law of evidence enacted in that Act must be complied with. For instance, evidence, which had been wrongly admitted by the Committing Magistrate, in violation of the provisions of the Evidence Act, could not be transferred to the Sessions' file. Evidence duly taken before a Magistrate can be used for all purposes in a trial Court so long as the evidence is evidence within the meaning of the Indian Evidence Act. The view that S. 288 can only be utilised in such cases as the Evidence Act specifically provides is wrong as that Act has no such special provisions. On the other hand, to hold that S. 288 can be utilised in all cases except those in which the Evidence Act directly prohibits such use, would render the amendment of 1923 quite useless. Where the Sessions Judge directed the jury that the retracted confession of a co-accused is practically of no value against anybody but the confessor, but asked the jury to take into consideration the confession while considering the cases of the other two co-accused individually:

——S. 297—*Penal Code, S. 368—Charge to jury should not tend to make the jury forget distinction between knowledge and mere suspicion on accused's part.*

The proper way to charge the jury in a case under S. 368, I. P. C. would be to place before the jury the evidence, the direct evidence of knowledge as given of the abduction of the girl, to point out the strength and weakness of that evidence, to tell them that it was the only evidence relating to the knowledge, and then to place before them the circumstances, if any, which might raise an inference of knowledge on the part of the accused that the girl was an abducted girl; and lastly to ask the jury to draw their own conclusion on that question. To place before the jury the suspicion in the mind of the accused and the reasonable cause for such suspicion and also direct evidence as to knowledge on his part will have the effect of obliterating from the mind of the jury any distinction they may entertain between knowledge and suspicion. A defect of this nature on a crucial point is likely to vitiate the verdict. (*Suhrawardy and M. N. Mukerji, JJ.*) GADADHAR SARKAR *v.* EMPEROR. 26 Cr. L. J. 1021 : A. I. R. 1926 Cal. 226.

Held: that the direction was a serious misdirection. 31. C. L. J. 310 Ref.

In making the charge to the Jury with respect to accused in an unlawful assembly case the judge must be careful to see whether there has been any change in the common object of the assembly in the course of the occurrence. For the common object of an unlawful assembly can change as the occurrence progresses. So it may be that there are various common objects in the course of an occurrence and it is the business of the Judge in his charge to the Jury to place all these common objects that there may have been, before the jury to enable the Jury to decide if any of them has been proved against the accused and if so which of them. The Asst. Sessions Judge who charged the jury expounded the law only with reference to the right of private defence of the body and omitted all reference to the right of private defence of property. *Held*, that the Judge should have charged the jury that if they believed that the accused had reasonable ground for supposing that the thief had with him articles taken from the house, the accused was entitled to exercise his right of private defence of property under S. 103, I. ——S. 297—*Charge to Jury—Common intention and act by any of the confederates in furtherance thereof makes all equally liable—Hence such a charge is not a misdirection.*

The material portions of the Judge's charge to the jury were as follows :—

"Therefore in this case if these persons went to that place with a common intention to rob the Post Master and if necessary to kill him, and if death resulted, each of them is liable, whichever of the three fired the fatal shot.

"If you come to the conclusion that these three or four persons came into the Post Office with that intention to rob, and if necessary, to kill, and if death resulted from their act, if that be so, you are bound to find a verdict of guilty.

"I say if you doubt that it was the pistol of the accused which fired the fatal shot, that does not matter, if you are satisfied on the other hand that the shot was fired by one of those persons in furtherance of this common intention, if that be so, then it is your duty to find a verdict of guilty."

——S. 297—*Charge to the jury—Misdirection—Private defence—Offence under S. 326—Statement o accused—Admissibility of.*

Where the only issue in the case of a trial for causing grievous hurt is whether the right of private defence exists or not, it is a misdirection for the Judge to refer to S. 300, Exception 2 of the I. Where a judge in explaining S. 100 of the Penal Code to the jury omits mention of the apprehension of grievous hurt there is misdirection even though the whole section is read out to the jury. On a charge under S. 326, I. P. C. the omission to refer to the provisions of S. 101, I. P. C. is a misdirection. Similarly where the statement of the accused before the Magistrate is put in at the trial, his deposition in a cross case should also be put in if he considers it as part of his defence. ——**S. 297**—*Misdirection alone is not sufficient to vitiate the trial—High Court, in case of misdirection vitiating the verdict, may direct re-trial or dispose of the case by entering into the merits of the case—Judge may in the charge state his opinion on the facts but not too dogmatically—He must fairly leave the facts to be decided by the jury—If summing up is calculated to leave misleading impressions on the mind of the jury, there is misdirection.*

High Court, in the case of misdirection vitiating the verdict can direct re-trial or enter into the merits and dispose of the case.

In a charge to the jury in a conspiracy case not only is it necessary that there should be a consideration of the conspiracy and the determination as to what was its nature and by what evidence it is proved ; but unless it is quite clear that if there was a conspiracy all the accused were the members of it, there should be somewhere a separate statement and criticism of the proved actions of each of the members of the conspiracy. If this is not done the jury may take it for granted that all the accused were knowingly members of the conspiracy and that the only question before them was whether the conspiracy was criminal.

It is permissible for a Judge and especially in India, it is often necessary for a Judge, to express an opinion

clearly to the jury, and it is also permissible, though not always or indeed often advisable, to admonish the Jury as to their duty, but it is unfair to the Jury if the Judge says to them "I am thoroughly convinced of the guilt of the accused. Return a just verdict. If you do not, both you and I will be disgraced for ever."

A Judge in his charge to the jury must not make an appeal or exhortation to the jury. Where the summing up is calculated to leave a misleading impression on the mind of the Jury ; that amounts to a misdirection.

A Judge may express his opinion in the charge to the Jury but he should be careful to add that it is for the Jury to form their opinion on the evidence. A Judge should not in his charge to the Jury express his opinion in terms too dogmatic and unqualified and state his own view on important matters of fact so positively as to leave the jury no loophole for taking any other view ; his doing so vitiates the verdict of the Jury.

The Judge is not expected to comment on every point that could possibly be urged in favour of the accused. It is sufficient if he deals with the more important points and does not unduly press on the jury his own view on the questions of fact. 49 Cal. 573 at 599, Foll.

The Judge should not ridicule the defence at the very outset of the charge before the discussion of the evidence ; for that may have a pernicious influence on the mind of the Jury and the Jury may thereby reject the whole defence theory without giving sufficient consideration to it.

The Judge should warn the Jury that the statement of the accused not amounting to confession cannot be considered against the co-accused.

A charge to the Jury must be read as a whole and if upon the general view taken, the case has been fairly left within the Jury's province there is no misdirection. 41 Cal. 1023 Foll. ——— **S. 307**—*Reference to High Court—Difference between Judge and jury—Weight due to their opinions—Charge of rape.*

On a reference under S. 307, High Court may exercise any powers which it may exercise on appeal but it is perfectly within its rights in considering that in cases such as these, interference should only be permitted in cases of perversity or clear and manifes terror and that where a jury has arrived at a verdict which is not perverse and not clearly and manifestly wrong, such verdict should not be interfered with although it is perfectly possible to form a not unreasonable opinion contrary to the opinion taken by the Jury. The advantage of adopting this course is that it secures the object of the legislature in creating juries. If the other view be taken and the case is re-opened *ab initio*, it is somewhat difficult to see what useful function is performed by a jury. For in every case in which the Judge does not agree with their verdict, the case can be referred to the High Court which then proceeds to try it *de novo*. The High Court should not interfere unless the verdict is perverse or clearly and manifestly wrong. In no case is it more difficult to arrive at a confident verdict as to whether evidence is false or true than in cases in which women alleged that they have been outraged or that outrage has been attempted upon them. Not only has one to consider the possibility of deliberate falsehood but those who have to arrive at a verdict have to consider the possibility of unintentional mis-statements produced by hysterical conditions which are apt to be found for in cases of this nature. The difficulties are increased when from the nature of the charge there can be no physical trace of outrage such as in a case of attempted rape. Where there is no reason to suppose that the jury did not give an honest and a not unreasonable verdict, the High Court will not interfere with that verdict. S. 307 of the Cr. P. Code requires the High Court to give due weight to the opinion of the Sessions Judge and the jury after considering the entire evidence and then to acquit or convict the accused. In giving due weight to the opinion of the jury,the High Court would always hesitate to reverse a unanimous verdict unless it is perverse or unreasonable. ——S. 307—*Reference to High Court—Verdict of jury—Interference with—When justified.*

Where there is a reference to the High Court by the Sessions Judge disagreeing with a unanimous verdict of "not guilty" by the jury, the High Court will have to consider whether the Jury were entirely unreasonable in giving the benefit of the doubt, as they did, to the accused, and whether it was impossible for the jury to arrive at any other reasonable conclusion than that the guilt of the accused had been brought home to him. ——S. 307—*Reference to the High Court—Powers of the High Court on such reference—Opinion of jury—Weight due to.*

S. 307, Cr. P. Code, lays down that, in dealing with a case submitted thereunder, the High Court "may exercise any of the powers which it may exercise on an appeal" and that "subject thereto, it shall, after considering the entire evidence and after giving due weight to the opinions of the Sessions Judge and the Jury acquit or convict the accused of any offence of which the Jury could have convicted him upon the charge framed and placed before it." The High Court's duty accordingly is to consider the evidence on record as it stands, to weigh the respective opinions of the Sessions Judge and the Jury, and then to form its own conclusion. It still remains that the verdict of the Jury is first in the field and the S. 299 of the Code makes it primarily the function of the Jury "to decide which view of the facts is true and then to return the verdict which under such view ought according to the direction of the Judge to be returned," and 'to decide all questions which according to law are to be deemed to be questions of fact." On general principles therefore it appears that when the process which S. 307 directs has not been carried out, and the opinions of the Judge and the Jury have been measured, in the result the verdict of the Jury should stand unless the evidence and the opinion of the Judge show clearly that it is wrong and that in the interests of justice it ought to be reversed. ——S. 307—*Reference—Duty of Court.*

In acting under S. 307, Cr. P. Code, the High Court must act with great caution, as it has not the advantage which the judge and jury had, *i. e.*, to see the witnesses giving evidence. ——**S. 307**—*Relative weight to be attached to the opinion of Judge and Jury is dependent on the circumstances of each case—Unanimous verdict of jury carries great weight—Extra-judicial reflections on jury are blameable.*

The opinion of the Sessions Judge to be given due weight to under S. 307 is his opinion on the merits of the case and not his speculations as to what external considerations might have affected the judgment of the jury. The opinion of the jury signifies the verdict of the jury. 18 C. L. J. 522, Foll. The measure of the relative weight to be attached to the opinion of the Judge and that of the jury cannot be crystallised into an inflexible formula. It all depends upon the circumstances of each case. But the trend of judicial opinion has been in favour of preference of the unanimous verdict of juries on whom the duty is imposed by S. 299 to decide which view of the facts is true. Want of unanimity would detract from the weight of the jury's opinion. When the Judge accepts the verdict of the jury as to some of the accused and not as to others, his opinion is weakened in a corresponding measure. But the High Court should not interfere with a unanimous verdict of the jury unless it can say decidedly that it thinks that it is clearly wrong. But notwithstanding this, due weight must be given to the opinion of the Judge as required by the statute. 20 W. R. (Cr.) 73, Foll. It is not enough to find that the defence theory is one which cannot be accepted, but it must be found whether on the evidence such as appears on the record it was not possible for the jury to take the view which they have taken. 41 Cal. 621, Foll. ——S. 307—*Judge's opinion in the reference or at the hearing and the verdict of the Jury usually are to be considered by High Court as a trying Court.*

Where a Judge hears a case with a Jury and disagrees with the Jury and disagrees to such an extent that he feels that he cannot accept their verdict, he is entitled to refuse to accept that verdict and then submit the case with his reasons to the High Court and the High Court then has thrown upon it the burden of examining for itself the entire evidence in the case deriving such assistance as it can by giving what is described as due weight to the opinion of the Sessions Judge and the Jury. The opinion of the Sessions Judge is the opinion as expressed in the reference or at the hearing. The opinion of the Jury might possibly be expressed in some other way, but it will usually be found expressed in the verdict. The so-called verdict does not bind him. It becomes for all legal purposes a mere opinion and this is what S. 307 refers to when it speaks of the 'opinion' of the Jury. If the Court comes to the conclusion on that evidence that it should not convict if the case came before it in the capacity of trying Judge, and in arriving at that conclusion it must give due weight to the fact that other persons have taken other views and have seen the witnesses, in such a case it is the duty of the High Court to acquit the prisoner. ——S. 307—*Trial by jury—Inadmissible confession—Evidence given—Omission of Judge to direct jury.*

In a case tried by Jury the Sessions Judge allowed a police witness to give in evidence a confession made by the accused to him. The Judge made a note in the record that the confession was inadmissible but omitted to mention it in his charge to the jury. *Held*, that the conviction was bad inasmuch as the mind of the Jury might have been influenced by the inadmissible confession having been deposed to and recorded in their presence and the omission of the Judge to mention it in the summing up constituted a misdirection. ——S. 307—*Duty of Sessions Judge to record reasons for the opinion of the Jury when making a reference to the HighCourt—Omission to put questions is no reason for High Court to decline to go into entire evidence.*

Before a reference is made to High Court under S. 307 it is necessary for the Sessions Judge to put questions to the jury and record the opinions. The High Court upon such a reference is bound to consider the entire evidence and give weight to the opinions of the Sessions Judge and the Jury. The circumstance that the Sessions Judge failed to ascertain reasons from the Jury does not warrant the High Court to decline to go into evidence. —— S. 307, Cls. 1 and 3—*Disagreement with the verdict—Sessions Judge, duty of—High Court's power to set aside on substantial grounds.*

In making a reference under S. 307 of Cr. P. Code, disagreeing with the verdict of the jury, the Sessions Judge should ask for their reasons for the verdict. It is still more necessary, whenever there is a difference in the opinion of the Jury, to consider not only the opinion of the majority, but also of the minority of the Jury. S. 307. Cl. (3) requires due weight to be given by the High Court to the opinion of the Sessions Judge and of the Jury.

Per *Jwala Prasad, J.*—Although on a reference the High Court is required to consider the entire evidence in the case that does not necessarily mean that the opinion of the Jury on the question of fact will be ignored. There must be something more than a mere estimate of the evidence on facts that should entitle the High Court to upset the verdict of the Jury. Whenever the verdict of a jury is set aside, it must be

When once a reference is made to the High Court the language of the Code does not justify any undue preference being given to the opinion of Jury over that of the Judge. No doubt it is improper on the part of a Magistrate to intentionally ignore circumstances of aggravation which show that an offence beyond his jurisdiction was in fact committed as well as an offence within his jurisdiction, as, for instance, if a second class Magistrate should ignore the violence used in committing theft (S. 379) instead of sending the accused before a first class Magistrate to be tried for robbery (S. 392). ———S. 337—*Interpretation of section—Section is an empowering section.*

S. 337 of the Cr. P. Code empowers certain Courts of Justice, namely, Magistrates exercising certain powers or specially empowered *ad hoc*, by an order of sanction, to pass a judicial order, the effect of which is that a "person supposed to have been directly or indirectly concerned in, or privy to, the offence under enquiry," who chooses to accept the pardon tendered by the said order, can give his evidence "as a witness in the case," with the knowledge and assurance that the order will operate as a bar to his own subsequent prosecution or trial for the offence in respect of which the pardon was tendered, or for any other offence of which he appears to have been guilty in connection with the same matter. Under certain circumstances set forth in S. 339, the order tendering the pardon may cease to have this effect; but this will only be when it has been superseded by a judicial finding that the

CR. P. CODE (V OF 1898), S. 337.

pardon has been forfeited. The points to be noticed are that S. 337 is an empowering section ; that it is addressed to certain Courts of Justice, and has nothing to do with the powers or discretion of an executive authority, such as a Local Government, in the matter of instituting, or refraining from instituting, any prosecution, and that the Legislature has seen fit to limit its operation to "the case of any offence triable exclusively by the Court of Session, or High Court." If the Magistrate after issuing process against all accused thinks fit to try one first, the other accused would not thereby become incompetent witnesses at the trial of their co-accused whether for the prosecution or for the defence. (10 C. L. R. 553 : 20 All. 426 : 7 W. R. Cr. 44 Foll.) There is no law or principle which prevents a person who has been suspected or charged with an offence, but discharged by the Magistrate for want of evidence, being afterwards admitted as a witness for a prosecution. 16 Bom. 661 Foll; 2 A. 260 Dist ; 1 Lah. 102, Not Foll. Legislature in India has provided no method outside the scope of S. 337 or S. 494 of the Cr. P. Code, by which a Local Government can provide an accomplice witness with a judicial order which he can subsequently plead in bar of his own prosecution, should such prosecution be instituted. At the same time, a discretion to refrain from instituting a prosecution in any particular case is inherent in any authority to which the law has entrusted the power to institute a prosecution. Nor can any law prevent a person, or body of persons exercising such authority, from determining beforehand how that discretion should be exercised upon the happening of a certain contingent event. If such determination is communicated beforehand to any person or body of persons whom it may concern, there is no provision in the Indian Statute Law which lays down that the competence of such person or persons to testify as witnesses in a Criminal Court about any matter referred to in such communication is thereby affected. The expression "any Magistrate . . . . offence" in S. 337 (1) ordinarily indicates a Magistrate holding an enquiry under Chap. XVIII of the Code. That is the only enquiry which is necessary under the Code in the case of offences exclusively triable by a Court of Session. The Code does not provide for an enquiry in connection with a tender of pardon. It is entirely a matter of choice of the Magistrate. Any such inquiry as he makes would not be one under S. 4 (k) of the Code. A pardon tendered at a time when no inquiry is being conducted into the case is not a valid pardon and a statement by the approver is not admissible in evidence and cannot be the basis of an alternative charge in respect of an offence under S. 193 of the Penal Code. The local Government prosecutes offenders. There is no law that it must prosecute every offender, and it is well known that offenders do manage to conceal their misdeeds or that evidence is found insufficient. There is nothing to prevent the prosecuting authority from refraining from prosecution. The discretion to refrain from instituting a prosecution in any particular case is inherent in the authority to which the Law has entrusted the power to institute a prosecution. It makes no difference to the competency of the witness if that assurance of non-prosecuting is communicated before the witness makes any statement. The local Government is quite entitled to give such an assurance or amnesty and it is also entitled to ratify what has already been done by the enquiring officer. Such an assurance therefore in no way affects the competency of the witness to whom it is given, though it may affect the credibility of his evidence. On the conclusion of a trial the Magistrate ordered the Police to prosecute a person who had given evidence as an approver, of the original offence for which he had been originally arrested. The Magistrate overlooked the provisions of S. 339 of the Code. The accused went before a Magistrate, who also overlooked those provisions. The Magistrate committed the accused to the Court of Session on charges of murder, etc. On the case coming up for trial, the Sessions Judge notified the absence of the certificate from the Public Prosecutor. The trial was adjourned. On the adjourned date, a certificate was filed and accepted by the Sessions Judge, and the trial proceeded. *Held*, that the Magistrate was duly empowered to commit the case. The proceedings before him were merely an enquiry and what was forbidden by the provisions of S. 339 was the trial of the accused which, in this particular case, had to be a trial by a Court of Session as a Court of original jurisdiction. *Held*, further that it was open to the Sessions Judge to accept the commitment even if it was irregular. 9 Bom. 288 and 22 Bom. 112, Foll : 37 Cal. 467, Dist. 42 Bom. 172 and 17 Mad. 402, Ref. to. When after the commencement of the trial an application is made for an opportunity to engage a pleader the reasonable course to adopt would be for the Magistrate to proceed with the evidence for the prosecution in chief and then, to allow, if it had not already been allowed, a reasonable time for the accused to appoint a pleader. The accused's pleader ought to be given a reasonable opportunity to cross-examine the prosecution witnesses. Construction.

———S. 342—*Construction—Insufficient examination does not necessarily vitiate trial*—(Mukherji, J.) *—Court must ask specific question pointing out the points against accused*—(Newbould, J.) *General questioning is enough.*

A refusal to give the accused an opportunity to make a statement at a stage when the mandatory part of S. 342, Cr. P. Code, is operative, vitiates the trial, but an insufficient examination at that stage does not necessarily invalidate it.

Mukherji, J.—The section is undoubtedly for the benefit of the accused but it cannot be said that it is intended merely for his benefit. It is a part of a system for enabling the Court to discover the truth and it constantly happens that the accused's explanation or his failure to explain, is the most incriminating circumstance against him. The result of the examination may certainly benefit the accused if a satisfactory explanation is offered by him; it may, however, be injurious to him, if no explanation or a false or unsatisfactory explanation is given. It follows from the wording of the section that the Court should not only have the power to point out to the accused the circumstances appearing in the evidence which require explanation, but that it must, out of fairness to the accused, exercise that power in such a way that the accused may know what points in the opinion of the Court require explanation, failure or refusal to give which will entitle the Court to draw an inference against him. The word "generally" in S. 342 does not limit the nature of the questioning to one or more questions of a general nature relating to the case, but it means that the questions should relate to the whole case generally and should not be limited to any particular part or parts of it.

Mukherji, J. (*Newbould, J., Contra*). The law intends that the salient points appearing in the evidence against the accused must be pointed out to him in a succinct form and he should be asked to explain them if he wishes to do so. A mere question, *e.g.*, 'what is your defence' is not enough. (*Newbould and Mukherji, JJ.*) EMPEROR *v.* ALI MUDDIN NASKAR.

——S. 342—*Construction—Accused should explain suspicious circumstances in his own interest.*

Per Mookerjee, J.—Though the proof of the case against the prisoner must depend for its support, not upon the absence of explanation on the part of the prisoner, but upon the positive affirmative evidence of his guilt given by the Crown, yet if he is involved by such evidence in a state of considerable suspicion, he is called upon, for his own sake and for his own safety, to state and elucidate the circumstances, whatever they may be, which might reconcile such suspicious appearances with perfect innocence. ——S. 342—*Construction—Examination of witnesses includes cross-examination as well as re-examination.*

The accused was standing his trial in a warrant case on a charge under S. 500 of the Indian Penal Code. After the prosecution witnesses had been examined in chief the accused was questioned generally on the case by the Magistrate. Thereafter cross-examination of the prosecution witnesses took place, but the accused was not again examined generally.

Held, that the word "examine" in S. 342 is to be taken in the ordinary English sense in which it covers all kinds of examination including cross-examination and re-examination, and that the accused should have been examined again. S. 342 of the Cr. P Code, cannot be invoked in aid of a person who not being an accused person goes to a Court and makes a false charge against other persons. Non-Compliance.

——S.342—*Non-compliance—Omission to examine an accused—Irregularity—Effect on trial.*

The omission of the Magistrate to examine the accused at the end of the trial in accordance with the provisions of S. 342, Cr. P. ——S. 342—*Non-compliance—Questioning the accused whether he has to add to statements is not compliance with the section.*

The proper method of applying S. 342 is to bring to the attention of the accused specific matters which appear in the evidence against them and merely questioning them generally as to whether they have anything to add to what was said before the Committing Magistrate is not a satisfactory method of applying S. 342. In a trial for an attempt to commit murder the Magistrate examined the accused after taking some evidence and then framed a charge against them. After doing so he recalled the witnesses that had already been examined, to enable the accused to cross examine them and then examined the remaining two prosecution witnesses. After taking the evidence of these two witnesses he did not question the accused as he was required to do by S. 342. *Held*, that the omission vitiated the trial, (*Zafar Ali, J.*) MAHOMED SADIQ *v.* EMPEROR, 26 P. But after the witnesses for the prosecution have all been examined and cross-examined and before the accused is called on for his defence it is compulsory for the court to question the accused in such a way as to enable him to explain any circumstances which appear in the evidence against him. The mere asking the accused as to whether they had anything further to say is not a sufficient compliance with the second part of S. 342. Cr. P. Code. ——— S. 342 (2)—*Oath or affirmation — False affidavit to support transfer application by accused—No protection exists.*

The only provision of the law, which confers immunity upon an accused person from criminal liability for making a false statement, is that contained in sub-S. (2) of S. 342, Cr. P. Code. But the protection afforded by that sub-section is expressly confined to the statement made by an accused in answer to questions put to him to explain any circumstances appearing in the evindence against him. These questions can be put only at some stage of an inquiry or trial in the original Court and it is only the answers to such questions for which the privilege can be claimed. Neither in the language of the section nor on principle is there any valid reason for extending the immunity to a statement made otherwise than in an answer to questions put by the trial Court. There is no law which confers upon an accused person immunity from prosecution in respect of a false statement in an affidavit tendered by him in support of his application for transfer; such statement can be the subject-matter of a charge for perjury. Procedure.

——S. 342—*Procedure—Examination of accused—Form of—Compliance with the section.*

Under S. 342, Cr. P. Code, it is incumbent on the court to ask the accused generally whether he wishes to offer an explanation of any of the evidence which has been given against him and if the Court does so, that would be a sufficient compliance with the section. But the section also gives the court power to put specific questions to the accused with regard to any of the evidence adduced for the prosecution. Without S. 342 the Courts would have no such power. But it is left entirely to the discretion of the Magistrates as judges whether they should, after having put the general question, ask specific question on particular point in the evidence. ——S. 342—*Procedure.*

Per *Rankin, J.*—What is necessary is that the accused shall be brought face to face solemnly with an opportunity given to him to make a statement from his place in the dock in order that the Court may have the advantage of hearing his defence if he is willing to make one with his own lips. A discussion with Counsel about the number and nature of the witnesses is not what the section requires. It is also important to have regard to the time at which this examination took place. In the decided cases it has been pointed out that to ask an accused for his defence before he has the whole of the prosecution evidence in front of him, is not a compliance with the section. To ask the accused not at the beginning of his defence but later on when his statements may be subject to heavy discount owing to the evidence given in his hearing by his own witnesses in the meantime, is not to be assumed to be a substantial compliance with the requirements of the section. S. 342 does not make it legally incumbent on the Magistrate to further question the accused with reference to the evidence elicited from the prosecution witnesses, after the framing of the charge when they are re-called by the Magistrate under S. 256, Cr. The accused must be held to be prejudiced in their defence on account of the Court's wrong procedure and must be enabled by means of a further opportunity to cross-examine the prosecution witness in a case where the Court commits a mistake and treats a summons case as a warrant case and frames a charge against the accused who intimate their wish to further cross-examine prosecution witnesses and produce defence and where, when the witnesses are recalled, the Court cancels the charge and declines to allow cross-examination and delivers judgment against the accused. What must be the nature of the questions put by the Court depends upon the circumstances of each case; but it would be a sufficient compliance with the provision of the Code if the Court gives to the accused an opportunity by questioning him generally on the case to explain the circumstances appearing in the case against him. It is neither necessary nor desirable to examine the accused in great detail or to force him to disclose his defence so as to enable the prosecution to take advantage of it when the witnesses for the accused are examined. ——S. 342—*Procedure — Circumstances against accused—Court must ask specific questions—General questioning is not enough.*

Under S. 342 in order to enable the accused to know what are the circumstances appearing in the evidence against him and what the Court considers to be such circumstances, it is necessary for the Court to put those circumstances directly to the accused and to ask him to explain those circumstances if he can. It is not always possible for the accused to know as to what are the circumstances which to the Court may appear to be against him ; and it is possible that the Court may consider one circumstance appearing from the evidence as being against the accused while the accused may not consider that circumstance to be against him. The object of S. 342, Cr. P. Code is to enable the accused to know what in the opinion of the Court are the circumstances which from the evidence appear to be against him. To merely question the accused after the cross-examination of the prosecution witnesses whether they had anything to say then, is not a sufficient compliance with the provisions of the law. A. I. It is not open in revision to the High Court to enquire into the sufficiency of the examination made under S. 342, Cr. P. Code. Where an accused is undefended, the tribunal may well point out to him the elements of the evidence adduced against him which seems in his own interest to demand his explanation ; but where an accused is defended by a legal practitioner, it would not be desirable to contemplate a tribunal entering upon a lengthy examination of an accused person which might easily develop into a recounting of the history of the whole case or into, what would be far worse, some sort of cross-examination. ——**S. 342**—*Time of examination--Fresh examination of accused after examination of—Prosecution witnesses recalled by accused is not necessary.*

The accused was questioned very fully and very fairly by the learned Magistrate after all the witnesses for the prosecution had been examined and cross-examined at considerable length before the charge was framed. After the charge was framed most of the witnesses were recalled for a further lengthy cross-examination at the termination of which the Magistrate proceeded to record the defence evidence without questioning the accused again. *Held*, that S. 256 is the section under which the accused is enabled to recall the prosecution witnesses for further cross-examination after the charge has been framed, and while making it clear that the accused does not enter upon his defence until the termination of such cross-examination, that section says nothing about any second examination of the accused after the further cross-examination. It is often desirable that the accused should be asked at this stage whether he wishes the Court to record any additional explanation, but S. 312 cannot be interpreted as conveying a peremptory direction to that effect, if the Court has already questioned him before the charge when the case for the prosecution has been closed and the prosecution witnesses have been cross-examined. 6 P. L. J. 644 Dist. The reason for questioning the accused as set forth in S. 342 is to enable him to explain any circumstance in the evidence appearing against him, but an accused person does not recall the prosecution witnesses for the purpose of discovering fresh circumstances against himself. ——**Ss. 342 and 537**—*Time of examination—Questioning the accused after examining the re-called prosecution witnesses—Omission not illegal.*

Cross-examination of re-called prosecution witnesses under S. 256 is not an examination of prosecution witnesses within the meaning of S. 342 and therefore omission to question the accused after this examination of re-called prosecution witnesses is not an illegality. This cross-examination is rather an evidence for the defence than evidence for the prosecution A. I. R. 1922 M. 512; 45 Mad. 820 Overruled. 6 P. L. J. 644 Diss.

Devadoss, J.—The contention that, if an accused person cross-examines any of the prosecution witnesses under S. 256, the Magistrate is bound once more to examine the accused generally on the case, seems untenable. S. 342 means only that the examination of the accused should take place after the prosecution has placed its whole case before the Court. The accused in a warrant-case has three opportunities of cross-examining the prosecution witnesses; once before the charge is framed, secondly under S. 256 and thirdly after he has entered on his defence. The words in S. 342 " after the witnesses for the prosecution have been examined" cannot reasonably be interpreted to mean "after the accused has chosen to exercise his right of cross-examination at the very end of his defence."

——**Ss. 342, 253 and 537**—*Time of examination—Examination of accused after cross-examination of prosecution witnesses is obligatory.*

The procedure of examining the accused in a warrant-case only before charge is framed and not also after the prosecution witnesses have been recalled for further cross-examination under S. 256 (1), Cr. ——— S. 342—*Time of examination—Failure to comply with provisions of S. 342—Whether mere irregularity or illegality.*

The word "examined" in S. 342 includes cross-examination and re-examination. The purpose of the examination of an accused under S. 342 is to enable him to explain any circumstances appearing in the evidence against him ; it is a provision for the benefit of the accused ; and, to enable him to obtain the full benefit of the section, it is clear that he must be examined after the cross-examination of the prosecution witnesses is over. Until the witnesses have been cross-examined and re-examined, it cannot be said what the exact case that the accused will have to meet is, and, if he is forced to disclose his defence before cross-examination, it might very well be that the prosecution witnesses would be on their guard and the value of the cross-examination to a great extent destroyed.

The provisions of S. 342 are mandatory and the Magistrate has no option but to examine the accused after cross-examination of all prosecution witnesses. If he does not do so, he omits to do something in regard to which he has no discretion and consequently he commits an illegality. (*Coutts and Adami, JJ.*) MITRAJIT SINGH *v.* EMPEROR. **1922 P. H. The examination of an accused under S. 342 of the Code is for his benefit and it must be done after the cross-examination and re-examination of the prosecution witnesses is over. S. 256 of the Code directs the Court to accept a written statement and it is intended that the Court should read it ; and if an accused states that he will file a written statement, the writing is to be accepted in lieu of his oral statement.

Where after the examination-in-chief of the prosecution witnesses, the accused was examined and afterwards the prosecution witnesses were cross-examined and re-examined and the accused was asked as to whether he had anything to say, and the accused also filed a written statement,

Held, that the fact that the accused was asked whether he had anything more to say, after the cross-examination and re-examination of the prosecution witnesses made it unnecessary to apply the principle of *Mitrajit Singh* v. *Emperor*, (1921) 2 P. L. T. 520,

Held, further that even if the Magistrate had not taken the precaution to examine the accused orally as said above, the written statement filed by the accused after the cross-examination of the prosecution witnesses would have relieved the Magistrate from the necessity of examining him orally in reference to the matters elicited in the cross-examination and re-examination of the prosecution witnesses. ——S. 342 (1)—*Questions to the accused—Nature of—Insufficient examination of accused.*

Per *Newbould, J.* :—S. 342, Cr. P. Code, is a part of a system for enabling the Court to discover the truth and is not especially intended for the benefit of the accused. A formal question in general terms which gives the accused an opportunity of making a statement of his defence with his own lips is a sufficient compliance with the mandatory provisions of S. 342, Cr. P. Code, since it enables the accused to explain any circumstances appearing in the evidence against him. To what extent the Court when complying with the mandatory provisions of the section should also exercise its discretionary powers under the other provisions of the section is a different question. The exercise of this discretion must vary with and depend on the circumstances of each particular case. It is neither desirable nor necessary in the majority of cases that there should be any detailed questioning of the accused. The point at which the Court is bound to question the accused is after the witnesses for the prosecution have been cross-examined. The examination of the accused should not be of an inquisitional nature.

Per *Mukerji, J.* :—It constantly happens that the accused's explanation or his failure to explain is the most incriminating circumstance against him. The result of the examination may certainly benefit the accused if a satisfactory explanation is offered by him. It may however be injurious to him if no explanation or a false explanation is given. The Court has got only the power to point out to the accused the circumstances appearing in the evidence which require explanation, failure or refusal to give which will entitle the Court to draw any inference against him.

The Subdivisional Magistrate directed the trial of the police case first and then of the private complaint case. The District Magistrate set aside the order and directed the simultaneous trial of the two cases. *Held*, that the District Magistrate had no jurisdiction to pass the order he did and his proper course was to make a reference to the High Court under S. 438, Cr.P.Code. ——S. 347—*Magistrate taking cognizance under Ch. XXI—Accused found not guilty with respect to part but Magistrate finding* prima facie *grounds for commitment with respect to another part—He should acquit in respect of former and commit in respect of latter.*

S. 347 authorises a Magistrate at any stage of the trial of a warrant case to commit the accused for trial instead of completing the trial himself. The new charge which will then have to be drawn up by the Magistrate will have the effect of cancelling any previous charge framed by him, but this can only be with respect to the subject-matter of the new charge. So far as this subject-matter is concerned, the previous proceedings before the Magistrate must be regarded as proceedings in an enquiry preliminary to commitment, but this alteration of character cannot be extended to any matter which is not the subject of the new charge.

Where a Magistrate having taken cognizance of the case has found that the accused is not proved to have committed a part of the offence with which he has been charged, he is bound to pass an order of acquittal in respect of that part; with respect to another part if he has found that there are *prima facie* grounds for believing it to have been committed and that the circumstances are such that it ought to be tried by a Court of Sessions, he should commit it to that Court. But the power conferred by that section to commit the case in respect of that portion of the offence should not affect the obligation imposed on the Magistrate to acquit in respect of the other portion of the offence. S. 347 does not empower a Magistrate to discharge an accused against whom a charge has been framed. It is only in respect of the offence for which the accused is to be committed to the Court of Sessions that the proceedings are taken out of Ch. XXI and the other proceedings of the Magistrate must remain governed by the provisions of that chapter. (*Wazir Hasan and Neave, A.J.Cs.*) BISHAMBHAR NATH *v.* EMPEROR. **26 Cr. L. J. 520 : 83 I. Before the commencement of the enquiry or trial if the Magistrate is of opinion that the case is one which for any reason ought to be tried by the Court of Sessions then he has ample power to inquire into the case with a view to commitment and subsequently to commit, if the evidence justifies the Court. S. 347 is couched in general terms and gives the Magistrate very wide powers. There is no suggestion that the only possible reason for a competent Magistrate to commit a case is that he will not be able to pass a sufficiently severe sentence. The object of the provisions is no doubt, that a man shall not without his consent be convicted on evidence which has not been recorded in the presence of the Magistrate with whom the final decision of the case rests. ———**S. 350**—*Permitting fresh cross-examination is not* de novo *trial.*

De novo trial means a new trial from the very beginning of the case. The object of granting a *de novo* trial is to enable the Magistrate who hears the case to see the way in which the witnesses give evidence before him, to mark their demeanour, and thereby to be in a position to judge of their credibility. P. Code, S. 528.*

The Magistrate who tried the case was transferred when most of the witnesses had been examined. The succeeding Magistrate granted a *de novo* trial. After this, Dt. Magistrate transferred the case to the previous Magistrate who had been transferred, on the ground that the small amount of work that remained to be done could best be done by the same Magistrate who had tried the case so far and that to transfer the case to him was therefore preferable to the whole case being heard again by a new Magistrate.

Held : that even the Magistrate to whom the case was thus transferred could not take up the case from the point at which he had left it and that he must start the case only *de novo* all the previous proceedings being considered to have been wiped out.

Held : further that the Dt. Magistrate's order of transfer took no notice of the hardship and inconvenience of parties and witnesses by such transfer and that it must be set aside. S. 352, Cr. P. Code, gives power to the Court of ordering that any particular person shall not remain in the room used by the Court. It makes no exceptions in the case of a police officer When the accused person objects to the presence of a Police officer or other person, the Magistrate has to decide whether the accused's fear of prejudice to his case is reasonable, considering the intelligence and susceptibilities of the class to which he belongs and not merely whether the presence is convenient or helpful to the Court or the prosecution. It is not advisable that a police officer interested in the case proceeding before the Magistrate should receive exceptional treatment, as a seat on the dais, as it is calculated to breed suspicion in the minds of the accused as to the independence of the Magistrate. ———Ss. 360 and 145—*Evidence of witness must be read over to him—Presence of parties to proceeding is unnecessary.*

Per *majority of the F. B.*—The provisions of S. 360, Cr. P. Code, apply to proceedings under S. 145, Cr. P. Code, to this extent at least, that as the evidence of each witness is completed it must be read over to him. But the parties to the proceedings are not "Accused" and their attendance at the reading over is not necessary.

Per *Cuming, J.*—The expression "accused" in S. 360 cannot and does not include the parties referred to in Chapter XII neither does the section contemplate that in cases coming under Ch. XII so much of the section must be complied with as relates to the reading over of the evidence to the witnesses.

Per *Mukerji and Chakravarti, JJ.*—The word "accused" has been used in S. 360, Cr. P. Code in its wider significance as including not merely persons accused of offences before a Criminal Court but also persons against whom proceedings are instituted under the Cr. P. Code in any such Court. The provisions of the section are therefore applicable to a proceeding held under S. 145, Cr. P. Code and the said provisions should, if practicable, be applied in their entirety to such proceedings. If, however, a party or the parties to the proceedings do not care to attend or appear by pleader at the reading over of the deposition, so much of the provisions as it is possible to apply should be complied with. Under S. 360 the witnesses whose statements have been recorded and the accused who is on trial are to be given an opportunity of knowing what has been recorded and a mere reading over of the evidence by the witnesses themselves cannot convey to the accused what has been recorded as the evidence given by the witnesses. ——SS. 360 and 117—*S. 360 applies to proceedings under S. 117.*

The provisions of S. 360, Cr. P. Code, are applicable to proceedings under S. 117 when a person is called upon to show cause why he should not furnish security for good behaviour and failure to comply with the provisions of that section would vitiate the enquiry or trial which has resulted in an order under S. 118 of the Code.

Per *B. B. Ghose, J.*—There is considerable doubt whether S. 360, Cr. P. Code, applies to proceedings under Chap. VIII of that Code. (*Newbould and B. B. Ghose, JJ.*) SANATAN BHATTACHARYA *v.* EMPEROR. 52 Cal. 632 : 41 C. L. J. 352 : 88 I. C. 856 : 26 Cr. L. J. 1240 : A. I. R. 1925 Cal. 720.

——S. 360 and Ch. XII—*S. 360 applies to enquiries under Ch. XII.*

The word "accused" in S. 360, sub-S. (1) means a person over whom a Criminal Court is exercising jurisdiction. S. 360, Cr. P. Code is applicable to enquiries held under Ch. XII. 28 C. M. N. 968 Foll. ——S. 360—*Provisions of, mandatory—Non-compliance—Effect of.*

The provisions of S. 360, Cr. P. Code are mandatory and an omission to comply with them vitiates the trial. The general object of S. 360 is to ensure the accuracy of the record and also that the accused should know and understand what evidence is given at the trial. The reading over of the evidence to the witnesses is so essential to the framing of an accurate record that the direction in S. 360 that the evidence should de read over to the witness is imperative and not merely directory. The omission to read over their evidence to the witnesses is an illegality which vitiates the trial, and is not cured by S. 537, Cr. P. Code. (*Newbould and Mukerji, JJ.*) HIRA LAL GHOSH *v.* EMPEROR. 28 C. W. N. 968 : 52 Cal. 159 : A. I. R. 1924 Cal. 889.

——S. 360—*Non-compliance with the provisions of the section is fatal.*

The omission to comply with the provisions of the section, is an irregularity which is not curable by the provisions of S. 537. (*Cuming and B. B. Ghose, JJ.*) HARO NATH MALO *v.* ALA BUX.

——S. 360—*Provisions of—Compliance with.*

The evidence of each witness ought to be read over to him as it is completed under S. 360 of the Code. This procedure must be strictly observed. It is not sufficient that each sentence is read out as it is being recorded. (*Martineau, J.*) WADHAWA SINGH *v.* EMPEROR. 63 I. C. 461 : 22 Cr. L. J. 669 : 3 U. P. L. R. 78 (Lah.).

——S. 360—*Reading depositions of witnesses after the examination of all is over—Procedure is illegal and not only irregular.*

S. 360 is mandatory and not directory. It is not proper for the Magistrate to examine a number of witnesses and ask them to be in a room and then have the depositions read over to them. Such a procedure is illegal and not only irregular. It is fair both to the witnesses as well as to the Magistrate who takes down the deposition, as well as to the accused, to have the deposition read over as soon as the examination of the witness is over. (*Devadoss, J.*) KUPPU MUDALIAR, *In re.* 22 L. W. 339 : (1925) M. W. N. 795 : 90 I. C. 659 : 26 Cr. L. J. 1574 : A. I. R. 1925 Mad. 1206. 49 M. L. J. 421.

——S. 360—*Depositions being read by witnesses themselves is not sufficient—They should be read over in accused's presence—Recording of the fact of the deposition having been read over is not imperative but desirable.*

There is nothing in S. 360 to indicate that the Magistrate shall record that the deposition was read over in the presence of the accused though it is much better that he ought to do so in order that there might be no complaint as to his not having done so. The law requires that the deposition of witnesses should be read over in the presence of the accused so that an opportunity may be given to him to challenge the correctness of the record. Therefore, merely reading of the evidence by the witnesses is not sufficient compliance with Cl. 1 of S. 360. (*Jwala Prasad, J.*) RAMESHAR SINGH *v.* EMPEROR. 6 P. L. T. 493 : 26 Cr.L.J. 927 : 86 I.C. 991 : A. I. R. 1925 Pat. 723

——S. 360—*Violation—Accused not prejudiced—Trial is not vitiated.*

When the question arises, whether the violation of S. 360 will vitiate the trial, the test will be whether the accused has been prejudiced. If the accused is not prejudiced, nothing short of an illegal or irregular exercise of jurisdiction would vitiate the trial. (*Mullick and Bucknill, JJ.*) SAIYID MOHIDDIN *v.* EMPEROR.

——S. 360—*Section is mandatory.*

The provisions of S. 360 are mandatory and their intention is to protect the witnesses as also to help the accused. But the absence of a memorandum sub-joined to a deposition and stating the fact of compliance does not itself prove that the provisions of the section have not been observed. ——S. 360—*Evidence not read over—Effect.*

Not reading over the deposition to the witness before his signing it is not such an irregularity as to make the evidence inadmissible entirely. (*Foster, J.*) SONDI SINGH *v.* GOVIND SINGH. 5 Pat. L. T. 237 : 2 Pat. L. R. 108 (Cr.) : 76 I. C. 25 (2) : 25 Cr. L. J. 89 (2) : A. I. R. 1924 Pat. 786.

——S. 360—*Provisions mandatory.*

The section is mandatory. Therefore the evidence given by a witness must be read over to him, in the presence of the accused or his pleader ; if not the witness cannot be prosecuted for perjury in respect of any false statement made by him. (*Sultan*

——S. 360—*Omission to comply with — Effect—Deposition if inadmissible.*

S. 360 is direct and positive and the provisions thereof should be faithfully followed. But the omission to read over the deposition to the witness does not necessarily render it inadmissible in evidence, but only impairs its evidentiary value. The true way of looking at the matter is this. If the statement is properly recorded under S. 360, then under S. 80, Evidence Act, a strong presumption arises in favour of its being what the deponent stated in his evidence. If not, such a presumption does not arise and the person who relies on its accuracy, in spite of the irregular recording, will have to prove it. (*Kennedy, J. C. and Aston, A. J. ——S.360 (1) *and Chap. XII—S.*360 (1) *does not apply to proceedings under Chap. XII* (*Suhrawardy, J. dissenting*)—*Meaning of "accused" discussed.*

The parties to proceedings under Chap. XII of Cr. P. Code, are not persons referred to by the words "the accused" in S. 360 (1) of that Act. S.360 has no application to proceedings under Chap. XII and in such proceedings it is not obligatory on the Court to read over the depositions to the witnesses. (Suhrawardy, J. dissenting).

Per *Suhrawardy, J.*—The term "accused," means any person over whom the Criminal Court exercises jurisdiction. *Case-law discussed.*

Per *Cuming, J.*—"An accused" is a person charged with an infringement of the law for which he is liable, if convicted, to be punished.

Per *Buckland, J.*—The definition of an accused person as a person over whom the criminal Court is exercising jurisdiction cannot be accepted as one of universal application. It may be that in a case or class of cases a party is subject to sanctions or is entitled to rights similar to those to which an accused person is subject or entitled. In such circumstances the phrase that a party "is in the position of an accused person" is to be preferred. But that is a very different thing to holding that such a party is an accused. The principle underlying S. 360, cl. The appellant is entitled to have, from Court of appeal that has to deal with them an explicit opinion on the questions of fact involved in the case and the Court of Appeal should take its own view of the evidence after perusing the record. The judgment of the Court of Appeal should be such that the High Court, as a court of revision might on looking into the judgment be in a position to judge for itself what the case was and how far the Court of Appeal had considered the evidence as bearing on the guilt or innocence of the individual accused before the latter affirmed the judgment of the trial Court. ——**S. 403**—*Competent Courts—Duplicate trial—Cognizance by two Magistrates.*

On three separate police reports, the Deputy Magistrate took action against the petitioners and others in respect ot the conspiracy and required them to give bail to answer the charge. The cases before him remained pending and no evidence was taken up to the 24th June. On the 28th June a formal complaint was laid before the District Magistrate by the Police charging the petitioners and other persons with being members of the conspiracy and on that complaint the District Magistrate took proceedings which ended in the commitment of these petitioners to the Court of Sessions. On the day when the District Magistrate took congnizance of this complaint the Dy. Magistrate passed an order which amounted to a discharge of the persons who were appearing before him in the cases of which he had taken cognizance in connection with this conspiracy.

Held, that there was no illegality on the part of the District Magistrate in taking cognizance of the case and there was no ground for quashing the commitment.

——Ss. 403 and 234—*No presumption as to date of receipt of stolen property where several articles of stolen property are found in possession of accused - Procedure to be adopted for trial is to charge the accused for three offences regarding three parcels on the assumption that each offence is independent.*

Where no evidence, one way or other, exists as to whether receipt of various parcels of stolen property took place at the same or different dates no presumption can be drawn or assumption made as against the accused either that the offence of retention by the receiver constitutes one or more than one connected transaction. The prosecution cannot base its case or justify its procedure upon any presumption or assumption operating against an accused unless such presumption or assumption is grounded upon evidence. If the prosecution frames a charge on the presumption that the retentions constituted a set of independent offences it must include only three parcels in respect of which the charge is made and the prosecution may then be met with the plea that these retentions in fact constituted one transaction and one offence, in which case the charge could be amended accordingly and the whole of the stolen property included in one single charge and the accused tried at one single trial. Similarly, if the prosecution chooses to prosecute on several separate charges in several separate proceedings, directly one case is concluded and the accused is convicted or acquitted, the plea will, of course, at once be put forward, namely, that the accused can take the benefit of the provisions of S. 403 of the Code on the ground that the retentions constituted a single transaction and a single offence and no presumption or assumption to the contrary can be raised as against the accused. It is obvious, therefore, that the only safe course to adopt, in cases of this character where no date of reception is known, or can be proved by the prosecution, is to take advantage of the first course indicated above. This course whilst giving the accused the advantage of not being injured by the inclusion in the count of a very large number of parcels of stolen property (a course which might affect him prejudicially if his case was being tried before assessors or a jury and the avoidance of which is really the object of S. 234 of the Code) prevents the accused from objecting effectively in any way to the trial ; for if he contends that the whole matter is but one transaction and one offence then the charge can at once be amended to include the whole of the property.

Where two accused had already been tried for the offence of the retention of stolen property (carpets) found in their possession at the same time as were the stamps, the subject-matter of the second trial ; and their plea at the second trial was that they had

already been tried at the first trial with the same offence as that with which they were charged in the second trial :

Held, they, in effect, claim the presumption in their favour that their retention of all these goods was one offence and one transaction ; and to the benefit of this presumption they are entitled. The fact that one has been acquitted and the other convicted makes no difference. The contention that as the articles recovered from their possession were of very diverse character, the offences of the dishonest retention of each set of articles were distinct offences is negatived by the definition of what is the same offence as defined in sub-Sec. (2) of S. 234 of the Code. It is there prescribed that offences are of the same kind when they are punishable with the same section of the I. P. C. 1888 15 Cal. 511 : 1893 15 All. 317 ; A. I. The Judge acquitted the accused but observed that he was satisfied that the accused had committed an offence under S.411, I.P.C. The posting for the purpose of hearing under S. 421 must be a special posting after a reasonable time not less than a week. If questions of fact are argued in the appeal, the appeal ought not to be disposed of even under S. 421 without sending for the original records of the Court below containing the depositions. A pleader who has looked into the papers of a case for the purpose of drafting grounds of appeal is not guilty of professional misconduct merely because he is not prepared to argue the appeal at the time of presentation of the appeal papers. CR. P. CODE (V OF 1898), S. 422.

An appellate Court is not required by law to write a judgment when dismissing an appeal summarily. It is no doubt necessary that in dismissing the appeal summarily the appellate Court should give the reasons for dismissing the same. A mere order to the effect that the appeal is summarily dismissed, without giving any reason whatsoever, would be bad in law. (*Kulwant Sahey, J.*) JAGANNATH SINGH *v.* EMPEROR. **25 Cr. L. The powers which are capable of being exercised under S. 421 should be exercised with considerable caution and where there has been a dispute as to facts and where credibility of witnesses for the prosecution has been even though it may be not very successfully impugned, it is proper for the appellate Court to call for the records and look at the evidence. It is also desirable, as has been often pointed out by the High Courts in this country, that in dismissing an appeal summarily although it is not necessary for the appellate tribunal which is thus acting, to compile any elaborate judgment, some indications should be recorded which may be a guide to any Court which may be asked to act in revisional jurisdiction. The trial Court had convicted the accused under S. 376 for rape. On appeal by the accused the Sessions Court held that the charge of rape had no application by reason of the fact that the girl was over twelve and that the act could not be said to have been without her consent or against her will and therefore proceeded to frame a fresh charge under S. 366 against the appellant, of kidnapping a woman that she might be forced or seduced to illicit intercourse. To this charge he called on the appellant to plead, and examined him upon it and allowed him to call one witness in defence. *Held* : that in so trying the case himself, the Sessions Judge exceeded the powers conferred on an Appellate Court by S. 423. A charge under S. 366 is triable by a Court of Sessions only and under S. 193 only on commitment ; therefore the Sessions Judge should, after setting aside the conviction, have ordered the accused to be committed for trial, when he would have been tried before a Court of Sessions with the aid of assessors. An Appellate Court, which writes a judgment which a High Court is unable to follow without reference to the judgment of the Trial Court, obviously fails in the discharge of the duty imposed upon it by the law.

———S. 428—*Order allowing additional evidence will not be interfered with in revision except in case*

of error of law affecting merits of the case.

The Court of Revision will not always interfere with an order of the appellate Court allowing evidence. ——S. 428—*Additional evidence—Admission of by Appellate Court—Circumstances justifying.*

The scope of S. 428 is *prima facie* not limited by any consideration save that the Appellate Court should be of opinion that additional evidence is necessary and should record its reasons. The object of the section is just as much the prevention of the escape of a guilty person through some carelessness or ignorant procedure of the Court, Sub-Inspector or the magistrate as the vindication of the innocence of a person wrongfully accused, where the same carelessness or ignorance has omitted to bring on the record circumstances essential to the elucidation of truth. It is impossible on the plain words of the enactment to differentiate between these two cases. It would not be a sound exercise of discretion to do so in the circumstances of India, where justice when it fails does so by erroneous acquittal at least as much as by erroneous conviction. In India the *onus* is placed on the Court not merely to listen to the evidence, but to inquire to the utmost into the truth of the matter, and so to secure justice. Accordingly if any restriction is to be placed upon the power conferred on the Appellate Court by S. 428, it certainly cannot be that negligence or inadvertence on the part of the prosecution is to be allowed to effect a miscarriage of justice: on the contrary the enactment is, like the other provisions referred to, directed to the attainment of justice even at a late stage in the proceedings, by the introduction of further materials which the Court judges to be essential to a just decision of the case. ——Ss. 428 and 342—*S.* 342 *does not apply to S.* 428 (1)—Per Bucknill, J.—*Fresh opportunity to accused to make statement may be essential in some cases.*

In S. 428 of the Code there is no provision that the accused should be examined after the prosecution evidence is taken and as the examination of witnesses after remand may be made even in the absence of the accused the provisions of S. 342 do not apply to it.

Per *Bucknill, J.*—The Code itself does not contemplate or provide for the examination of the accused after fresh evidence is taken for the prosecution on remand. However, no hard and fast rule can be laid down with regard to when the provisions of S. 342 are and are not properly complied with; in conceivable cases where fresh evidence on a remand has been taken the applicant ought to be given an opportunity of making a statement, *i.e.*, in effect of being examined by the Magistrate: but provided the accused has in fact had a reasonable and substantial opportunity of exercising the privilege accorded to him by the provisions of S. 342, that is of either orally or in writing saying what he wishes to say in explanation of what has been alleged against him, a technical failure or omission in the procedure ought not to be regarded as rendering a trial, wholly nugatory. ——S. 436 (Old S. 437)—*Notice, issue of.*

So far as the question of notice is concerned there can be no doubt whatever that S. 437, Criminal Procedure Code, does not make the issue of notice necessary. All the Courts throughout India have, however, repeatedly pointed out that, though an order passed under S. 437, Criminal Procedure Code, without notice was not illegal, notice should, as a general rule, be issued. Failure to issue notice, however, would not justify interference. A District Magistrate has power to order a further enquiry when he is of opinion that the evidence on the record has not been properly appreciated. At the same time it has been repeatedly held by the High Court that a further enquiry should not, as a general rule, be ordered unless the order of discharge under Ss. 203 or 204 was manifestly perverse or foolish or was based on a record of evidence which was obviously incomplete. 10 P. In the case of a petty riot in which no injuries of any gravity were inflicted and there was no question of any loss of any valuable property, the District Magistrate ordered a further enquiry. His order was based on the criticisms of the reasoning in the order of discharge. *Held*, the District Magistrate failed to consider the essential matter, *viz.*, the prospect of any public advantage from the case being reopened, in view of the period of two years which elapsed since the occurrence, its comparatively insignificant character and the nature of the evidence available. *Held*, the order of the District Magistrate passed without regard to what is really the material consideration in cases of this kind was passed without jurisdiction. Where there is a verdict of a jury from which the Judge differs and refers the case to the High Court, it is not for the High Court to see whether it is necessary for the ends of justice that the opinion of the jury should be reversed. That condition is set down for the Sessions Judge to observe. When once a reference is made to the High Court, the language of the Code does not justify any undue preference being given to the opinion of the jury over that of the Judge. It is settled law that the High Court ought not to interfere in revision with an order of acquittal unless interference is urgently demanded in the interests of public justice. The omission to serve notice of appeal on the complainant or on the officer appointed under S. 422, Cr. P. Code, is not a ground for setting aside the acquittal. 39 M. 505 ; 16 L. W. 413, Foll. ——S. 439—*Acquittal, revision against.*

The High Court has jurisdiction to interfere in revision with an acquittal but it should ordinarily exercise the jurisdiction sparingly and only where it is urgently demanded in the interests of public justice. This view does not leave an aggrieved complainant without remedy ; it would always be open to him to move the Government to appeal under section 417. Where there is an appeal by the Public Prosecutor or the Crown from an acquittal, the Court sets its face against revision ; but, where a private prosecutor having no power of appeal comes to the Court in revision, it is certainly open to the Court to hear him. 42 Cal. 612 at 616, Foll. ; *Guardian of West Ham Union* v. *Church Wardens, etc. of St. Mathew Bethnal Green*, (1896) App. Cas. 477, Ref. ——S. 439—*Acquittal—Revision against—Private prosecutor.*

The High Court has jurisdiction under S. 439, Cr. P. Code to set aside an order of acquittal but the settled practice is not to interfere at the instance of a private prosecutor unless it is urgently demanded in the interests of public justice to prevent gross miscarriage of justice. Where the ground of the petition is that there has been no proper appreciation of evidence, it ought to be thrown out. (*Wadegaonkar, A. J. C.*) DAMODAR *v.* JUJHAR SINGH. **89 I. C. 388 : 26 Cr. L. ——S. 439 — *Acquittal — Compromise between parties—Non-compoundable offence.*

As a rule, an interference is not made in revision with an order of acquittal on the application of a private party except where such interference is imperatively demanded in the interests of public justice or where the procedure adopted is so irregular or illegal as to vitiate the whole trial. Where a Magistrate trying a non-compoundable case heard the evidence of the prosecution and framed a charge but thereafter acquitted the accused on the complainant filing a written compromise without considering the merits of the case, *held*, that the procedure of the Magistrate was manifestly illegal and that the High Court should interfere in revision with the order of acquittal. The High Court can convict an accused under S. 182, I. P. C. even though acquitted by the lower appellate Court. S. 439 (4) does not come in the way, for the meaning of that clause is that, where an accused person has been acquitted on all charges he is not to be convicted. ——S. 439—*Acquittal, can be revised, but only in exceptional cases—Grave error of procedure justifies revision but improper admission of evidence not essential to the result, does not.*

The power of interference in revision with the judgment of acquittal is sparingly exercised and ordinarily, only in cases where it is urgently demanded in the interests of justice. But it is impossible nor would it be expedient to enunciate any general principle The High Court will interfere where circumstances require it.

The final report in the diary of an investigating officer not called as a witness for the prosecution might be used to suggest means of further elucidating a point which needs clearing up, but only for elucidating by legal evidence. But using the final report for the purpose of evidence is a legal error. Such error cannot however, justify interference by the High Court, for setting aside an acquittal. An error of procedure of a grave character would justify interference by the High Court but not a mere error of improper admission of evidence which was not essential to a result which might have been come to independently of it. Expunging Remarks.

——S. 439—*Expunging remarks—Adverse remarks about character of stranger to proceedings without opportunity to be heard—Objectionable passages must be expunged.*

It is an elementary duty of a Judge in a criminal case to exclude evidence which is not legally admissible. A Magistrate should not in his judgment in a criminal case to make observations prejudicial to the character of a person who is neither a party nor a witness in the proceedings on materials which are not legally admissible as evidence. Even if the evidence is legally admissible, the Magistrate has no right to make such observations against a person without giving him an opportunity to be heard. It would be an abuse of judicial privilege for a Magistrate to pass strictures on third persons like this. It would be a denial of justice to allow such reflections upon the character of a person to stand and the High Court should order the expungement of the objectionable passages from the judgment. (*Fforde, J.*) BENARSI DAS *v.* CROWN. **6 Lah. 166 : 89 I.C. 270: 26 Cr. L. J. 1326 : 26 Pnj. L. R. 315 : A. I. R. 1925 Lah. 392 (2).**

——S. 439—*Expunging remarks—High Court will expunge remarks by Appellate Court doubting correctness of trial Court's acquittal of an accused when no appeal was made from such acquittal.*

The High Court in revision will not permit the continuance on record of the expressions of a lower appellate Court tending to show its opinion that an accused though acquitted by trial Court and in spite of the absence of appeal from the trial Court's acquittal was really guilty. The reason is that a person must be deemed to be innocent of the charge made against him once he is acquitted of the offence in regular course of law and there has not been any appeal made to a superior tribunal. Therefore it is not proper for an appellate Court when disposing of an appeal of one of two co-accused who were tried together and one of whom was discharged, to employ expressions which amount to a finding that the acquittal of the accused in question was wrong (*Fforde, J.*) ABDUL AZIZ *v.* EMPEROR. **25 Cr. ——S. 439—*Finding of facts—High Court may interfere on facts.*

The practice of the High Court has long been not to interfere in the criminal revision on facts found by the lower appellate Court, but the rule is not an absolute one. adjudicated upon in previous case.

The only limitation to the exercise of the right to apply for revision is that, under sub-S. (4) to S. 435 applications for revision cannot be made both to the Sessions Judge and to the District Magistrate. Also a petitioner would in practice be required to state all his grounds for revision in a single petition. With these exceptions there is nothing in the Code to make the disposal of one criminal revision case a bar to the disposal of another arising out of the same original trial. It is only when there has been an actual adjudication upon a particular point, such as the jurisdiction of the lower Court to try the accused or the adequacy of the sentence, that the High Court will not review its own decision. Hence where an accused's revision petition from his conviction has been dismissed, the complainant can apply for enhancing sentence.

Per *Wallace, J.*—No Court can reasonably accept the principle that once it has passed any sort of order in criminal revision, it is precluded from entertaining any further revision petition or reference in the same case, or even from proceeding *suo motu*. When a Court has refused to allow as adequate certain reasons put forward by a party for interference in revision, it cannot be said to have thereby endorsed the correctness, legality and propriety of the finding, sentence or order under revision beyond all further possibility of question. The Court would no doubt refuse to listen to a fresh revision petition put in by a party who had already put in a revision petition and obtained orders thereon, on the salutary principle that a party must put forward all his grounds of attack at once. CR. P. CODE (V OF 1898), S. 439—Pending Proceedings.

Pending Proceedings.

———**S. 439**—*Pending proceedings—Complaint not inquired into—Order to show cause why complainant should not be prosecuted can be revised.*

Where, without enquiring into a complaint presented by the complainant, the accused was ordered to show cause why he should not be prosecuted under S. 182 of the Penal Code, *held*, that the High Court had power to revise the order although no final order directing the prosecution of the accused had been passed. (*Gokul Prasad, J.*) SHEO BALAK *v.* EMPEROR. **59 I. C. 369: 22 Cr.L.J. 81 (All.): L R. 2 A. (Cr.) 126.**

———**S. 439**—*Pending proceedings—Order directing enquiry under S. 202—Stay of such order cannot be made.*

A Magistrate cannot dismiss a complaint offhand unless he is satisfied that no *prima facie* case of any kind is made out and if he considers that before issuing process against the person complained against he should make further inquiry, interference by the High Court on the petition by either party for stay of the proceeding would obviously be uncalled for. (*Lumsden, J.*) NARAYAN SINGH *v.* EMPEROR. **A. I. R. 1923 Lah. 663.**

———**S. 439**—*Pending proceedings—Final order not passed—Revision.*

The High Court has power to quash proceedings in a subordinate Court, even at the stage when the accused is merely summoned and no final order is passed against him, when, if the proceedings were allowed to continue, grave injustice would be done to the accused. (*Abdul Quadir, J.*) THAKARIA *v.* PURAN SINGH. **67 I. C. 589: 23 Cr. L. J. 429: A. I. R 1922 Lah. 452 (2.)**

———**S. 439**—*Pending proceedings—High Court declined to interfere with pending proceedings, though the procedure followed was very irregular and extraordinary.*

Where the trial Magistrate consulted his appellate Magistrate as to the course to be followed in a particular case and the latter gave advice on the matter to the former, *held*, that the procedure followed was extremely irregular and extraordinary but did not justify interference by the Court so long as the proceedings had not come to a termination. (*Venkatasubba Rao, J.*) SAMI GOVINDAN, *In re.* **20 L. W. 937 : 85 I.C 37 : 26 Cr. L. J. 421 : A. I. R. 1925 Mad. 315.**

———**S. 439**—*Pending proceedings—High Court would interfere where bare statement of the facts of the case justifies interference.*

The circumstances which will justify the interference of the High Court in a pending case cannot be laid down with precision. But one safe practical test would be that a bare statement of the facts of the case without any elaborate argument should be sufficient to convince the High Court that it is a fit one for its interference at an intermediate stage. 25 Cal. 233 and 47 Mad. 722, Ref. to. ———**S. 439**—*Pending proceedings—Pending cases—Interference is exceptional.*

Although it is unusual to interfere in revision with a pending case the High Court will interfere in exceptional cases, *e.g.*, where a pleader was charged under S. 409 for retaining fees the legal recovery of which was time-barred. (*Batten, J. C.*) KRISHNA RAO *v.* EMPEROR. **6 N. L. J. 119 : 73 I. C. 335 : 24 Cr. L. J. 960 : A. I. R. 1924 Nag. 47.**

CR. P. CODE (V OF 1898), S. 439—Pending Proceedings.

——S. 439—*Pending proceedings—Direction to Subordinate Court not to try a case cannot be made.*

S. 439 of the Cr. P. Code does not authorise the High Court to direct a subordinate Court to refrain from trying an accused against whom process has been issued by such Court. (*Mullick and Bucknill, JJ.*) JHARU LAL *v.* MAHANTH MADAN DAS.

——S. 439—*Pending proceedings—High Court will not generally interfere—Complaint by one partner against another partner—Partnership subsisting—Dispute is of a civil nature—High Court will interfere.*

Although theHigh Court would not interfere much with the discretion of the Magistrates who are vested with ample powers to dispose of a case before it has proceeded to its due termination, it would so interfere on occasions where the circumstances clearly call for its interference. Courts should look with much suspicion on criminal actions which are brought forward by partners of a still subsisting partnership against one another, so as to make a prosecution an extremely oppressive mechanism for compelling a partner to admit or pay up a claim or enter into some compromise in a matter which is really one, more suitable for settlement in a civil suit than a case for a criminal prosecution. ——S. 439—*Powers of High Court—Order of Magistrate under S. 562—Interference.*

Unless the order passed by a Magistrate under S. 562 is clearly mistaken or injudicious or amounts to a failure of justice, the High Court will not interfere in revision. ——S. 439—*Powers of High Court—Interference* suo motu—*Callings for records—Revision.*

A Court should be loath to interfere on behalf of a person convicted in a criminal case if that person is an adult of ordinary intelligence when that person himself in no way contests the propriety of his conviction. Under the very extensive powers conferred by S. 435, Cr. P. C, the High Court can call for and examine the proceedings of inferior Courts if the necessity for doing so is brought to its notice in any manner. But before it does so it would have to be satisfied that there are *apriori* grounds for apprehending a miscarriage of justice. (*Stuart, J.*) NARAIN PRASAD NIGAM *v.* EMPEROR. **71 I. C. 243 : L. ——S. 439 *Powers of High Court—Evidence if can be gone into—Case of non-appealing accused—If can be considered.*

There is no provision of law which debars a Court of revision from going into the evidence, if it thinks it fit to do so in the interests of justice. Where a number of accused are convicted and some only apply in revision to the High Court the court has jurisdiction to consider the case of the non-appealing accused also. ——S. 439—*Power of High Court—High Court can exercise powers not conferred on Appellate Courts besides those conferred on such Courts—High Court can at any stage quash proceedings.*

S. 439 does not say that the High Court shall exercise only those powers that are conferred on a Court of Appeal ; but on the other hand it enacts that among the powers possessed by the High Court are the powers conferred on an Appellate Court. The High Court has power at any stage to quash or set aside proceedings. 22 C. 131 ; 26 C. 786; 39 M. 561 ; 38 C. 168 ; 20 B. 543 and 67 I.C. 589, Foll. concurrent jurisdiction a High Court can be approached as a last resort.

Even though High Court has concurrent jurisdiction with District Magistrate or Sessions Judge in the matter of ordering further enquiry it is a right course to adopt, to insist on the party exhausting all his remedies in an inferior Court before he comes up to High Court. The fact that an order for compensation passed along with an order of discharge is revisable by the High Court only does not alter the procedure. (*Krishnan, J.*) GOPOBONDHU BEHARA *v.* D. —— S. 439—*Powers of High Court—Revision—Magistrate deciding that he has jurisdiction in a case—Interlocutory appeal—Power of a Supreme Court to interfere.*

Ordinarily there is no jurisdiction for a Supreme Court or any other Court to take up in revision what are interlocutory matters in a Criminal Court. There is no provision in the Cr. P. Code for an interlocutory appeal against a Magistrate's decision that he has jurisdiction in a case and the High Court would not interfere with such a decision in the exercise of its revisional powers. ——S. 439—*Power of High Court—Discharge of accused by Magistrate—Order for further enquiry by Sessions Judge—Revision by High Court.*

The Trying Magistrate after recording the evidence of a number of prosecution witnesses was of opinion that no case had been made out against the accused under S. 408, I. P. C., and discharged the accused. The Sessions Judge on going through the evidence was of opinion that the Magistrate had not given proper reasons for discharging the accused and ordered a further enquiry. *Held*, that the order of the Sessions Judge was not illegal or improper and the High Court would not interfere in revision. ——S. 439—*Powers of High Court—Revision against order of acquittal—Principles of interference.*

The power of interference in revision against an order of acquittal should be most sparingly exercised and only in cases where it is urgently demanded in the interests of public justice. But this rule does not apply to cases where there has been no trial. The High Court will not interfere in any case on the ground that the inferences drawn from evidence are erroneous. A Magistrate who convicts an accused person of an offence falling within his jurisdiction though the facts found would also constitute a more serious offence not within his jurisdiction, his proceedings are not void *ab initio* and the High Court will not ordinarily interfere unless the sentence appears inadequate or the accused has been deprived of his right of appeal. In proceedings under S. 110, Cr. P. Code, against a particular individualevidence should be confined to his case alone unless the case is that he has a confederate or partner to whom all the evidence is equally applicable. Where witnesses voluntarily come forward as friends or associates of the accused and give evidence it ought not to be brushed aside unless the witnesses are discredited as regards their good faith and honesty. Evidence of general repute by persons having no personal knowledge of the accused is insufficient. It is open to a District Magistrate to lay down rules for the guidance of his subordinates so as not to allow an unnecessary large number of witnesses to be examined. In revision the High Court would weigh the evidence and see whether the case has been

In many cases where in orders there has been irregularity of form but where it would seem, on such investigation as is possible, that no harm would be done to the parties and that although by a wrong method a right result may perhaps have been reached, it is undesirable that the High Court should exercise its discretionary jurisdiction in revision, but the case is otherwise when there are material errors and not mere irregularity in form. Where Sub-divisional Officer without concluding his investigation under the provisions of S. 144 and at any rate making some order which would indicate what had happened to those proceedings, initiated proceedings under S. 107, Cr. P. either before a Magistrate holding an enquiry or trial in a Presidency town or before the High Court during the trial of the case. It is unreasonable to suppose that the legislature ever intended that when there was no knowing whether there would be a conviction or an acquittal (and both are open to appeal under S. 449, Cr. P. Code), an enquiry might be asked for and the Court required to decide on the question as to whether if tried outside a presidency town the case would have been triable under the provisions of Chapter 33, the only object of such an enquiry being that the result of it may be availed of for the purposes of an appeal by the accused in the case of a conviction and by the Crown in the case of an acquittal. Per *Walmsley, J.*—The omission of the accused person to avail himself of the right to claim the benefit of S. 528-A does not conclude the matter and he is not debarred from urging that the conditions mentioned in cls. (*a*) or (*b*) of S. 443 exist.

Per *Mukerji, J.*—A claim to be tried under the provisions of Chapter 33 of the Code is wholly different from a claim to be tried as a European British subject or an Indian British subject or a European not being a European British subject or an American. It is the latter claim only which is dealt with in Chapter 44 of the Code in which Ss. 528-A and 528-B occur and so far as the former claim is concerned the question of status of the claimant does not always arise as is evident from the provisions of section 443 (1) (*b*) of the Code. Consequently sections 528-A and 528-B can have no application to section 449 under which the right of appeal is claimed in Ch. 33, 51 C. 980, Foll. (*Walmsley and Mukerji, JJ.*) T.C.S. ——**S. 443**—*Accused not claiming before committing Magistrate benefit of Ch. 33—Question cannot be raised after committal to Sessions.*

A claim by the accused and a finding by the Magistrate are necessary ingredients for the application of the provisions of Ch 33. If any such claim is made prior to commitment and there is no finding by the Magistrate, the question cannot be raised in the Court of Session. If such a claim is made and a finding favourable to the accused is recorded by the Magistrate the Sessions Judge would be bound to act under the provisions of Ch. 33 and could not refuse to do so on the ground that those provisions did not apply In the case of acceptance of the claim of the accused person the finding of the Magistrate would be final. When the finding of the Magistrate is adverse to the claim it is final unless the claimant appeals and in the case of an appeal the decision of the Sessions Judge shall be final. If the Court is satisfied that he was not capable of understanding the nature of his act, it has an absolute duty imposed on it to declare the accused to be a criminal lunatic within the meaning of the Act IV of 1912 and direct him to be detained in a Lunatic Asylum, and the fact that the accused is not insane at the time of acquittal or is comparatively well again, is no matter which concerns the Court. It is for the Court directing complaint to be filed to hold such enquiry that its order, when sent to the Magistrate, will amount to a complaint under S. 200 of Cr. P. Code. ——S. 476—*Duty of Court—Proceedings for perjury against a witness should be started after conclusion of the case in which the witness gives evidence.*

Proceedings under S. 476, should not be taken until the case, in which the alleged false evidence was given, has been finally disposed of. Such a hasty proceeding, as placing a witness on a trial as an accused immediately after he has given his evidence, is bad because the obvious result of such a step would be to intimidate subsequent witnesses and defeat the object of the trial. ——— ——S. 476—*Pending Proceedings—Trial begun on basis of sanction under old Code but not completed before the coming into force of amended Code can go on without fresh complaint under amended S.* 476.

When a criminal Court has taken cognizance of an offence for perjury, before the amendment of the Cr. P. Code, on a sanction order to a private individual granted before the Code was amended, but has not completed the trial before the amended Code came into force, the trial can go on without fresh complaint under the amended provisions of S. 476, Cr. P. Code, Cr. Misc. Proceedings No. 606 of 1924 and 1924 Mad. 615 Foll.

Per *Wallace, J.*—In order to decide as to whether a trial founded on a sanction and properly begun on a procedure which has been altered by the amended Cr. P. Code can now go on, it is essential not to confuse 'cognizance' with 'jurisdiction'. Once a Court is properly seized of a case, any amendment of law, except an amendment, which takes away its jurisdiction to try the offence, cannot affect the Court's authority to proceed with the trial. To hold that an amendment of the procedure of trial under the Code automatically brings to an end all trials founded on the original procedure is not a conclusion which is justified either in law or in commonsense. The consequence of an amendment of procedure is not that all matters properly begun under the old procedure collapse and have to be begun again under the new procedure, but that they shall be continued under the new procedure from the time when the new procedure came into force.

Per *Madhavan Nair, J.*—Sanction is required only to enable the Court to take cognizance of certain offences and, when once the case is launched and cognizance has been taken by the Magistrate of any offence, nothing short of an amendment which specifically takes away the jurisdiction of the Court to try the offence can affect the right of the Court to go on with the trial according to law. Preliminary Enquiry.

———S. 476—*Preliminary enquiry is not essential.*

S. 476 does not make it incumbent upon the Court to make a preliminary inquiry in every case before starting prosecution. To justify the Court in initiating prosecution, it is necessary only to hold that it is expedient in the interest of justice that an inquiry should be made into an offence referred to in S. 195. The nature of the preliminary inquiry mentioned in S. 476 (1) is a matter in the discretion of the Court; the law does not compel a detailed inquiry. The grant of a right of appeal has not conferred any new right upon the accused and the extent of the preliminary inquiry is still left to the discretion of the Court. CR. P. CODE (V OF 1898), S. 476—Stay of Proceedings.

——— S. 476—*Preliminary Enquiry—Court making complaint must hold preliminary enquiry and must make a written complaint.*

S. 476 contemplates that after making such inquiry as may be necessary, the Court should make a complaint in writing. It is for the Court acting under S. 476 to make any inquiry that is necessary and then to make a complaint against the person or persons who, he is satisfied, have committed an offence. The section does not contemplate that the Court should send the case to a Magistrate for inquiry whether the offence it suspects has been really committed and for prosecution, if the Magistrate is so satisfied. The Court must be satisfied that there is a *prima facie* case against each person sent to the Magistrate, and then it can lay a complaint under S. 476. ———S. 476—*Stay of proceedings—Pendency of appeal is no bar to trial.*

Where in a civil suit a Judge of experience directs a party or witness to stand his trial under S. 476, Cr. P. Code, the matter should be dealt with promptly. Where criminal proceedings on the face of them raise a question of fact which is still under adjudication in a Civil Court, the Criminal Courts wherever possible, generally stay the proceedings until a final adjudication by the Civil Court but the High Court will not interfere with a proceeding under S. 476 merely on the ground that an appeal on the facts is pending before the High Court. S. 488 contemplates application by a wife or a child. Where the widow alleged herself to be a discarded mistress, and the application was made by her for the school fees of her son

Held, that this would require only a formal amendment of the application as one by the woman as guardian of the child and that the amendment might be made by the Court on its own motion. The payment of money to the child's mother by the alleged father could be weighed as evidence of an intimacy between the alleged father and the woman, but in no sense could it be regarded as a binding composition of the claims of the child. The object of proceedings for maintenance is to prevent vagrancy and that object is attained by the provision of lodging, food and clothing. A husband is bound to maintain his wife but he is not bound to do more than supply her with lodging, food and clothing ; he is not bound to maintain her as his wife. 16 Bom. 269 Ref to. 4 I. C. 758, Foll. After the evidence of the complainant had been recorded a charge was framed and after that stage the accused made an application to the District Magistrate requesting that the case be withdrawn on certain terms. The file was sent for. When sending up the file the trying Magistrate addressed a note to the District Magistrate setting forth the facts of the case and winding up with the remark "I therefore would strongly recommend the application for your kind consideration because I do not believe that the accused committed the offence with intent to defraud." On reading the report of the trying Magistrate, and perusing the file the District Magistrate accepted the apology of the accused persons as well as the offer of the sum of Rs. 4,500 for a charitable purpose. He ordered the Prosecuting Inspector to withdraw the case. This order reached the trying Magistrate's Court before whom a further application was presented by the Court Inspector. On that application the trying Magistrate passed this order "The case has been withdrawn by the District Magistrate. The accused should be acquitted accordingly." *Held*, the Prosecuting Inspector had no such authority. Bail is not to be withheld merely as a punishment. To secure the attendance of the accused at the trial is the object of bail,and the test to be applied is whether it is probable the party will appear to take his trial considering the nature of the accusation, the evidence in support of it and the punishment awardable. The power to admit to bail is not arbitrary but judicial. (*Mukerjee and Chatterjee, JJ.*) NAGENDRANATH CHAKRABARTI *v.* EMPEROR. **51 Cal. 402 : 38 C. L. J. 388 : A. I. R. 1924 Cal. 476.**

—Ss. 497 and 498—*Bail—Offence punishable with transportation for life—Discretion—Power of High Court.*

When the provisions of S. 497 are compared with the provisions of S. 498 of the Cr. P. Code and when the principle of interpretation that the two provisions should not be so read as to come into conflict with each other is borne in mind, the High Court or the Court of Sessions will be found to be invested by S. 498 with jurisdiction in the matter of granting or refusing bail as a Court of superior appellate or revisional jurisdiction. The powers of the High Court or the Court of Session given by S. 498, Cr. P. Code, are not controlled by the statutory limitation laid down in S. 497 of refusing to release an accused person on bail if there appear reasonable grounds for believing that he has been guilty of an offence punishable with transportation for life. The powers in S. 498 are not fettered by any rules defining the limits within which they would be exercised as the powers under S. 497 are. Though the exercise of the powers under S. 498 are entirely left to the discretion of the High Court without any fetters being imposed on the exercise of that discretion the High Court would not act arbitrarily and its exercise of the discretion must be based on judicial grounds. Where it was found (1) that the offence was not of kind where there may be danger of repetition thereof while the applicants are on bail as would be the case on a charge involving personal violence ; (2) that the defence counsel would constantly need the help of the accused persons to explain Hindi accounts and intricate Hindi transactions; (3) that the trial would last for several months ; and (4) that the accused are willing to furnish substantial security, the accused are entitled to be let on bail. Though a High Court is not limited within the bounds of S. 497 and has absolute discretion in the matter, yet, the legislature has placed the initial stage of dealing with crimes with Magistrates and having, in effect, enacted that persons accused of non-bailable offences shall be detained in custody, except when there are in the opinion of the Magistrate dealing with the case, no reasonable grounds for believing that the accused has committed the offence charged against him, a High Court is bound to follow the general law as a rule, and not to depart from it, except under very special circumstances, especially so in the initial stages of a case. High Court has ample jurisdiction to exercise discretion and order the re-arrest of any person out on bail under its own order if it feels that the circumstances warrant or demand such a course. The principles which govern the granting of bail, are not really doubtful. The Court is not called upon to conduct a preliminary trial of the case and consider the probability of the accused's guilt or innocence. It would be entirely exceeding its function, if it did that in any detail ; but it may incidentally have to look at the weight of the evidence against the accused, as a necessary part of what is its proper function, that is, to enquire whether the giving of the bail as opposed to the arrest of the accused might lead to a real danger of his absconding and not appearing to take his trial, or whether there is any real reason to suppose that he is likely to tamper with the witnesses, who would be called against him. After having hypothecated certain moveable property to the complainant as security for a loan, K removed it from his possession and sold it to the petitioner. K was convicted of theft. The Magistrate however directed the property to be returned to the complainant. *Held*, that the Magistrate was right in turning the property to the complainant. As a general rule the Magistrate acting under S. 517, Cr. P. application under S. 520, when such an application is made to itself. But where on hearing an appeal against a conviction, the Sub-Divisional Magistrate is asked to set aside an order under S. 517, he can, treating it as part of the proceedings in the appeal itself, make an order under S. 520, for the disposal of the property concerned in the case. When a District Magistrate has directed a case or a certain class of cases to be heard by a Sub-Divisional Magistrate, and under S. 407 he hears the appeal, his Court comes within the words "Court of Appeal" as used in S. 520 for that particular case or class of cases. Moreover S. 423 (*d*) authorises appellate Magistrates to pass consequential orders, and orders under S. 520 are usually consequential orders based on the findings in the appeal. When an appeal is confined entirely to a question of disposal of property, the District Magistrate should hear the petition. Ordinarily in such cases it is desirable that notice should be given, especially if the order is not passed on the day the appeal is disposed of; but there is no rule of law that requires that such notice is absolutely necessary. The words 'and make any further orders that may be just' are quite wide enough to empower the Court to direct the return of property. (*Krishnan, J.*) ARUNACHALA THEVAN *v.* VELLACHAMI THEVAN.

—— S. 526—*Applicability—Applies to enquiries under Workman's Breach of Contract Act (XIII of 1859.)*

An enquiry under the Act XIII of 1859 is an enquiry by a Magistrate or a Criminal Court within S. 6, Cr. P. Code, and although the object of the enquiry is merely to issue coercive orders and if necessary to enforce the same by a sentence of imprisonment, there is nothing to show that such an enquiry is excluded from the operation of S. 526, Cr.P. Code. The definition of "enquiry" given in S. 4, clause (*k*), which includes every enquiry other than a trial conducted under the Code of Criminal Procedure by a Magistrate or a Court, is not exhaustive so as to exclude an enquiry under the Workman's Breach of Contract Act of the nature above referred to. Duty of Magistrate.

——S. 526—*Duty of Magistrate—Transfer—Reasonable apprehension—Prejudice against police sub-inspector.*

Under the new Code, when an application for adjournment is made with a view to apply for a tansfer it is the duty of the Criminal Court to postpone the case at once. S. 526, sub clause 8, is imperative and it omits the former expression " before the accused is called on for his defence." When the District Magistrate has already formed a very strong opinion on the conduct of the Sub-Inspector as disclosed by a prior judgment, it would be unfair and unjust to the accused that the case against him should be tried by the same District Magistrate. A natural suspicion can arise in the minds of parties and the case should be transferred on the application of one of the parties, where the magistrate has made an attempt to have the case compromised because what the Court has to consider in a question of transfer is not alone the question whether the Presiding Magistrate has really any bias in his mind against the applicant for transfer but also whether the applicant for transfer may reasonably have entertained an apprehension of partiality on the part of the Magistrate in view of any incidents which may have happened, though such incidents are capable of explanation and may be altogether independent in their origin of any actual bias in the Magistrate's mind. 35 All. 5 Foll. ——Ss. 526 to 528—*Grounds—Faith in Tribunal—Strong language used by Magistrate—Apprehension of unfairness may be justified—Criminal trial.*

Use of strong language by Court is never calculated to satisfy the litigant public before it. An officer is some times bound to feel strongly on particular occasions, but as soon as he expresses himself strongly, he gives himself away and if he raises, by his language, an apprehension in the mind of a party that the Officer is prejudiced the officer has only himself to thank. Where a criminal appeal is pending against a con-

Auy motion that has to be made before the Sessions Judge should be through the Government Pleader and not by an official or demi-official letter from the District Magistrate as representing the Crown. ——S. 526—*Grounds—Faith in Tribunal—Reasonable apprehension.*

Where an application is made for the transfer of a criminal case from the file of a Magistrate on the ground that he is biassed in favour of the complainant, the Court has to consider whether the apprehension of the accused is reasonable and in so doing the Court will try and place itself in the position of the accused person and look at the matter from his point of view. The matter does not depend on the way in which the Judge would regard it himself. (*Sanderson, C. J and Cuming, J.*) PULIN BEHARY DEY *v.* ASHUTOSH GHOSE. **39 C. L. J. 330 : 25 Cr. L. J. 944 · 81 I. ——S 526—*Grounds—Faith in Tribunal—Mere allegation of apprehension of partiality is not enough—Facts in support of allegation are essential—Real bias in judge is unnecessary—Circumstances justifying applicant in entertaining apprehension are enough.*

It is not sufficient for the applicant for transfer merely to allege that he would not get an impartial trial, but he must place before the Court the facts which gave rise to this belief in his mind. The Court should not make an order for transfer unless it is satisfied that on the facts disclosed in the application and affidavit there arises a reasonable apprehension that the applicant may not have a fair and impartial trial. But at the same time, what the Court has to consider is not merely the question whether there has been any real bias in the mind of the presiding Judge against the applicant, but also the further question whether incidents may not have happened which, though they may be susceptible of explanation and may have happened without there being any real bias in the mind of the judge, are nevertheless such as are calculated to create in the mind of the applicant a justifiable apprehension that he would not have an impartial trial The law has regard not so much to the motive which might be supposed to bias the Judge,as to the susceptibilities of the litigant parties. One important object is to clear away everything which might engender suspicion and distrust of the tribunal, and so to promote the feeling of confidence in the administration of justice which is essential to social order and security. *Surgent* v. *Dale* (1877) 2 Q. ——S. 526—*Grounds—Faith in Tribunal—Accused's confidence in Court's impartiality is important—Act of judge likely to cause accused to doubt impartiality—Case should be transferred though the acts can be traced to judge's superior sense of duty, for accused's degree of intelligence must be regarded in deciding what is reasonable cause for accused to suspect partiality.*

It is of the utmost importance that persons arranged before the Court should have confidence in the impartiality of theCourt and if a person has a reasonable cause to apprehend that the Court before whom he is being tried is not completely free from bias, a transfer should be directed. In deciding what is reasonable cause, regard must be had not so much to the motives which might be supposed to bias the Judge as to susceptibility of the parties. Hence the degree of intelligence possessed by an accused who applies for transfer must be taken into consideration while deciding his application. If the actions of the Judge though capable of being explained and though traceable to a superior sense of duty are calculated to create in the mind of the accused an apprehension that he may not have an impartial trial the case should be transferred to some other Judge for trial. A Magistrate in the discharge of the multifarious duties of his office has to perform a very large number of extra-judicial functions and it may so happen that in the discharge of his executive duties he may be compelled to act in a way which would raise a suspicion in the mind of an accused person that he was not likely to get justice when the Magistrate came to inquire into a particular matter judicially. An Indian British subject claiming to be dealt with as such must put in his claim before the Magistrate before whom he is brought for the purpose of enquiry or trial. This applies to Presidency Magistrates as well as Magistrates in the mofussil. If the Magistrate rejects the claim and tries him, the decision shall form a ground of appeal from the sentence or order passed in such appeal. This applies to Presidency Magistrates as well as Magistrates in the mofussil. If the Magistrate rejects the claim and commits him to the Court of Session, he may repeat the claim before the said Court. Such repetition may only be made in a Court of Session and not in the High Court exercising original criminal jurisdiction. If the Court of Session rejects the claim and tries him, the decision shall form a ground of appeal from the sentence or order passed in such a trial. It necessarily follows that if a claim is made before a Presidency Magistrate

——Ss. 537 and 342—*Irregular procedure—Non-compliance with provisions of the Code—Effect of the irregularity.*

The test to be applied in considering whether a particular infringement of the provisions of the Cr. P. Code is one which does or does not come within the purview of S. 537, Cr. P. Code, appears to be this. "Does the error go to the whole root of the trial? Does it in effect vitiate the proceedings? Has the Court assumed an authority which it does not possess? Has it broken the vital rules of procedure?" If the error is of such a nature that the proceedings are vitiated in their very inception S. 537, Cr. P. C., has no application. But the mere fact that a certain provision of the Code is imperative does not in itself indicate that a breach of the provision vitiates the whole proceedings. —— Ss. 537 and 234—*Defective charge—Real charge understood—No prejudice.*

Where it was intended to allege one geueral conspiracy to commit an offence or offences under S. 420 of the Indian Penal Code by cheating the Government of India of large sums of money and the transactions in linseed oil, turpentine and water soluble oil were overt acts from which the conspiracy might be inferred and this was explained to the Counsel who appeared for the accused at different periods of the trial and the accused fully understood the charge. *Held*, that although the allegations amounted to charges of three different conspiracies, it was not a bad charge as the accused knew what the charge was. The mere fact of there being three letters in respect of the three articles is not inconsistent with the existence of one general conspiracy. The fact that there were many transactions intervening between the dates of the three matters alleged as overt acts by the prosecution, and that it was proved that such transactions were fraudulent or dishonest is not inconsistent with the existence of one general conspiracy. Although the charge should have contained an allegation of the person or persons who were alleged to have been deceived and induced to issue the cheque the omission should not be regarded as a fatal defect in the charge, where the accused were not misled and there was no failure of justice by reason of the omission of the above-named particulars from the charge. Where objection was taken to the charge of cheating the Government of India by inducing them to deliver a cheque for Rs. 59,265 in payment of five bills that the five bills therein referred to, were presented at different dates, and that if any offence was committed by the appellants in respect of the bills, there were five separate offences of cheating and five separate offences could not be included in one charge. *Held* : the offence charged under S. 420, Indian Penal Code, would not be complete until the Government of India, being induced thereto by the alleged fraudulent bills, delivered the cheque for Rs. 59,265. Until the last of the five bills was delivered the inducement was not complete, and until the cheque was issued the offence under S. 420, Indian Penal Code, was not complete. After seven witnesses for the prosecution had been examined the Public Prosecutor closed the case for the Crown, the cross-examination of these witnesses having been reserved. The case was then adjourned to the 14th when the prisoner claimed as a European British subject to be tried by a jury under the provisions of S. 451 of the Cr. P. Code and the proceedings were accordingly stayed to enable proper steps to be taken in compliance with the section. On the 22nd the witnesses were duly examined by the prosecution and cross-examined by counsel for the defence. As regards the remaining *i. e.* previous seven witnesses for the Crown, the course adopted was as follows. When each witness came into the box the recorded statement of the evidence given by him at the first hearing was read out to him. A few further questions were then put to the witness and he was tendered for cross-examination; some witnesses were not even sworn. *Held*, that this method of presenting the evidence for the prosecution is irregular, and not only irregular but entirely illegal, and the defect is not curable by S. 537. ——S. 537—*Defects in procedure even in contravention of positive enactments are curable.*

A positive enactment by the Code that a certain trial shall not take place is obviously a very different thing from a positive enactment that in the course of such a trial certain detailed procedure shall be followed. In the one case an infringement of the enactment amounts to an assumption of jurisdiction and vitiates the trial from the very beginning. In the other case an infringement merely amounts to an error, omission or irregularity in the procedure adopted in the course of the trial. S. 537 of the Code aims at curing infringements of the latter type. 25 Mad. 61 (P. C.) Expl. If the error is of the former nature, the proceedings are vitiated in their very inception, and S. 537 has no application. But the mere fact that a certain provision of the Code is imperative does not in itself indicate that a breach of that provision vitiates the whole proceedings. ——S. 556—*The magistrate giving formal sanction as President of Committee but not directing prosecution is not disqualified.*

The mere fact that the trying Magistrate was the President of the Town Committee would clearly give him no personal interest in the proceedings under S. 162 of Burma Municipal Act, the more so, that the offence though punishable under the Municipal Act is not of a peculiarly municipal nature but one against the common safety. Where it was not alleged that the Magistrate as the president of the committee made any enquiries before sanctioning the prosecution or that he attended any meeting of the committee in which the subject of the prosecution of the accused was debated, but as the proceedings could not be initiated without formal sanction being obtained.

Held, this sanction which was merely an authorisation for prosecution and not an order to prosecute gave the Magistrate no personal interest in the proceedings. It was not necessary for him to form any opinion on the merits of the case before according formal sanction to the prosecution as President of the Town Committee. ——S. 561 A—*Scope.*

Under S. 561-A the High Court is at liberty to interfere with an order granting bail passed by a Sessions Judge. (*Kinkhede, A.J.C.*) LOCAL GOVERNMENT *v.* GULAM JILANI. **82 I. C. 755 : 25 Cr L. J. 1363 : A. I. R. 1925 Nag. 228.**

——S. 561-A—*High Court can order expunging of passages in Sessions Judge's order granting bail if such passages are likely to prejudice Magistrate in the trial of case.*

Under S. 561-A the High Court has inherent power to order the expungement of passages in the order of a Sessions Judge granting bail if such passages are likely to prejudice the Magistrate in the impartial trial of the case. ——S. 562—*Changes.*

(1) List of offences for which on conviction a person may be released is extended.

(2) Section applies not only to youthful offenders but to a wider class of persons.

(3) The period for which offender may be released has been extended to 3 years.

(4) High Court can, in appeal or revision inflict imprisonment in lieu of order under this section.

(5) The offence need not be a trivial one.

(6) Appellate or High Court can make an order under this section.

——S. 562—*Section applies even where imprisonment is obligatory.* (*But see S. 562 as amended.*)

On a proper construction of S. 562, a first offender, provided the other provisions of the section apply, is entitled to the benefit of the section, even when without such provisions the Magistrate would be obliged to pass a sentence of imprisonment. (In this case the accused was found guilty under S. 381, I. P. C., and his release was held proper. See amended S. 562.—Ed.) (*Macleod, C. J. and Crump, J.*) EMPEROR *v.* JINGA GAMAJI. **27 B. L. R. 111 : A. I. R. 1925 Bom. 192.**

——S. 562—*Juvenile offender—Sentence.*

While passing a sentence the offence committed should be taken into account. Thus a juvenile offender should not be subjected to a severe sentence than what would ordinarily be passed merely because the magistrate considers it to be for his benefit to be detained in a juvenile prison for longer term. An appeal does lie from an order passed under S. 562, Cr. P. Code. 1 Cr. L. J. 543 : 24 P. R. 1904, Cr. : 18 Cr. L. J. 401 : 37 All. 31, *Ref. to.* (*Suhrawardy and Mukerji, JJ.*) BAHADUR MOLLA *v.* ISMAIL. **41 C. L. J. 45 : 29 C. W. N. 151 : 52 Cal. 463 : A. I. R. 1925 Cal. 329.**

——S. 562—*Orders under—Second Class Magistrate if can pass.*

It is incompetent to a Second Class Magistrate to pass orders under S. 562, Cr. P. Code himself. He should submit the case to a First Class Magistrate or Sub-divisional Magistrate for orders with his report if he is of opinion that the case is a fit one for the exercise of powers under that section. ——S. 562—*Applicability—'Cheating' does not include aggravated forms.*

S. 562 of the Code applies only to a case of simple cheating falling under S. 417 of the Penal Code and not to aggravated forms of cheating under Ss. 418 to 420, Penal Code. (*Martineau, J.*) EMPEROR *v.* RAB NAWAZ. **59 I. C 854 : 22 Cr. L. J. 150 : 1 Lah. 612.**

——S. 562—*Failure to furnish security—Accused is liable to punishment.*

The effect of the order under S. 562 of the High Court in appeal is to set aside the sentence passed on the accused by the lower Court. But if he fails to furnish the security, his position is that of an accused, who was convicted, but not sentenced to punishment and is again produced before the Court for the purpose of suitable punishment being awarded. ——S. 562—*Character and antecedents of accused can be considered.*

——S. 562—*Order under S. 562 is not a punishment.*

An order under S. 562, Cr. P. Code directing release upon probation of good conduct cannot be said to be punishment. It is not one of the various kinds of puuishments described in S. 53, Penal Code. Under S. 562 the sentence of punishment is postponed and something which is not a punishment is substituted therefor. (*Kotwal, A.J.C.*) BABA *v.* EMPEROR. **74 I.C. 66 : 24 Cr. L. J. 738 : A. I. ——S. 562—*'Cheating'—Meaning and scope.*

As section 562 mentioned only two of the four forms of theft with which the Indian Penal Code deals, it must be interpreted as excluding the other two from its scope. But the same reasoning does not apply, nor was it meant to apply to the words "misappropriation" and "cheating" which appear in the same section. In S 562 of the Code of Criminal Procedure the word "misappropriation" covers sections 404 and 405 of the Penal Code as well as section 403 and the word "cheating" covers sections 418, 419 and 420 as well as section 417. (*Hallifax, A. J. C.*) EMPEROR *v.* JAILALBHOI. **71 I. C. 795 : 24 Cr. L. J. 251: A. I. R. 1923 Nag. 158 (2).**
(But see section as amended.)

——S. 562—*No previous conviction proved at the trial—Accused released after due admonition—Subsequent discovery of an old previous conviction against the accused does not justify interference on revision.*

Section 562 is intended primarily for first offenders, but the words used "and previous conviction is proved against him" seem to preclude the idea of an inquisition into the past of the accused. If a previous conviction against the accused is proved at the trial it no doubt is a technical bar to an order under S. 562. But if no such conviction is proved, and an order under S. 562 is passed, a subsequent discovery of a conviction of this type isno ground for interference in revision. (*Simpson, A. J. Accused when pointed out in bazar by his co accused was not searched. This was a piece of gross negligence. He was driven on the Ekka to the Deputy Superintendent's where he was searched, and nothing incriminating was found. When the party came away from the Deputy Superintendent it was decided to leave the ekka. Two coats belonging to the two constables had been spread on the ekka, and the four men had sat on them, the two prisoners unhandcuffed, sitting between the constables. When the coats were removed from the ekka, three ornaments, two being basi-bunds and therefore of some size were found concealed beneath. The evidence of finding was hopelessly contradictory. *Held* : accused's costume was such that concealment of these articles must have been difficult. On the night of the 11th September 1922 at about 11-30 p.m. one Bhagwana was found by the police on duty wandering about in a peculiar condition at the Jahazgarh fair ; he was examined cursorily by the Sub-Assistant Surgeon in charge and thence he was taken to the thana where he spent the night. At 6 a.m. he is recorded as having made a statement to the police and then to have pointed out the place where he and his companions had camped. At this place were found Chajju and Chunna and Ram Gopal, his companions. The police were informed that of two *neolis* or money bags placed beneath the bedding on which Bhagwana had been seen sitting when his companions went to sleep the night before, one containing Rs. 190 was missing. The whole party was taken to the thana. They were searched and Rs. 209 were found on Ram Gopal, appellant. Bhagwana was sent back to the dispensary and exhibited symptoms of dhatura poisoning. On the 13th September, the Sub-Assistant Surgeon gave him a purgative and the resultant stools were found to contain dhatura. Some *laddus* and *mathris* which had been found on the person of Ram Gopal, the appellant, were also sent and were reported to have shown no traces of dhatura. There was nothing wrong with Chunna and Chhajju. Ram Gopal was sent up for trial and was convicted of an offence under section 328, Penal Code, and sentenced to five years' rigorous imprisonment : *Held* that the circumstantial evidence is not sufficient to justify the conviction. ———*Conspiracy—Acquittal of some of the accused—Effect on others.*

So far as the acquittal of a conspirator in a subsequent trial is concerned, it is now settled that it forms the ground of a reversal of conviction of one tried before ; on the other hand, the conviction of the latter is a perfectly good one at the time that the judgment is pronounced against him, and all the legal consequences of a valid conviction follow from it. As for the principle relating to the acquittal of a conspirator following from the acquittal of the other when the conspiracy is alleged only amongst the two, and in a joint trial held in respect of both, it is based upon rule of practice and procedure which under the English law appears to be well-settled, that repugnancy or contradiction on the face of the record is a ground for arresting judgment or annulling a conviction and is a ground on which the accused can claim an acquittal. In an ordinary appeal from an order based on the verdict of the Jury, the High Court is bound by the provisions of S. 423 (2) and the provisions of S. 449, Cr. P. Code. Repugancy in the verdict of the Jury is not by itself a sufficient ground for quashing a conviction, and there is no provision in the Code justifying interference with a conviction on the ground of repugnancy in the record. Consequently the acquittal of one conspirator has no legal effect so far as the other conspirator convicted at the earlier trial is concerned beyond suggesting that the evidence was found unworthy of credit. The trial is vitiated by the admission of the evidence of previous conviction prior to the accused's entering upon his defence, where it was clear that the Magistrate was influenced by his knowledge of bad character of the petitioner.

Held (Per *May Oung, J.*) It is not perhaps easy to keep the mind entirely free from prejudice when the record and the police papers show that the prisoner in the dock is an ex-convict. But the provisions of S. 310 of the Code of Criminal Procedure, whereby in sessions trials, all knowledge of previous conviction is rightly withheld from jurors and assessors until after the accused has either pleaded, or been found guilty, indicate the importance of the complete exclusion of such knowledge when weighing the evidence as to the truth or otherwise of the main charge. The principle underlying the legal provision may also be seen in S. 54 of the Indian Evidence Act under which a previous conviction is declared inadmissible against an accused person, except where evidence of bad character is relevant. CRIMINAL TRIAL—Evidence—Identification.

Evidence—Identification.

———*Evidence — Identification must be immediate otherwise loss in value.*

In no dacoity case a Court would convict a person who was not identified in the jail or before a proper authority, immediately after the arrest, simply on the strength of identification conducted in the Court of the Committing Magistrate or the Sessions Judge. Where the safeguard of an *earlier identification* is non-existent the Court is bound to insist on something being said by a prosecution witness to indicate why and how he happens to remember the faces long after the event. ———*Evidence— Identification by co-accused—Secondary evidence is not admissible—Highly contradictory—Finding of articles after search — Witness's failure to identify is no ground for rejecting.*

An accused cannot give evidence while on his trial ; secondary evidence of identification by him is clearly inadmissible. Evidence by an official witness of an identification is only admissible, if the identifying witness is called to support his identification on oath. Accused when pointed out in bazaar by his co-accused was not searched. This was a piece of gross negligence. He was driven on the ekka to the Deputy Superintendent's, where he was searched, and nothing incriminating was found. When the party came away from the Deputy Superintendent it was decided to leave the ekka. Two coats belonging to the two constables had been spread on the ekka, and the four men had sat on them, the two prisoners, unhandcuffed sitting between the constables. When the coats were removed from the ekka, three ornaments, two being *basibunds*, and therefore of some size, were found concealed beneath. The evidence of finding was hopelessly contradictory. *Held*, accused's costume was such that concealment of these articles must have been difficult. It must also have been difficult to put them under the coats upon which the four men were sitting. The fact that a witness makes mistakes in identification is no reason for discrediting his evidence in other matters. It is, indeed, strong evidence, that he has not been coached by the police, but is merely an enthusiast who is not to be trusted in recognising faces seen under such circumstances as a raid of dacoits. ———*Evidence—Identification evidence—Mere picking out an accused person from the crowd is not enough—Evidence as to how and under what circumstances the witness came to pick out a particular person and the details of the part that the accused took in the crime are necessary.*

The mere fact that a witness is able to pick out an accused person from amongst a crowd does not prove that he has identified that accused person as having taken part in the crime which is being investigated. It might merely mean that the witness happens to know that accused person. The principal evidence of identification is the evidence of a witness given in Court as to how and under what circumstance he came to pick out a particular accused person and the details of the part which that accused took in the crime in question. The statement made by such a witness at an identification parade might be used to corroborate his evidence given in Court ; but otherwise, the evidence of identification furnished by an identification parade can only be hearsay except as to the simple fact that a witness was in a position to show that he knew a certain accused person by sight. ——*Evidence—Retracted confession can legally be basis of conviction but that depends on circumstances.*

It cannot be laid down as an absolute rule of law that a confession made and subsequently retracted by an accused cannot be accepted as evidence of his guilt without independent corroborative evidence; but the weight to be given to such a confession must depend upon the circumstances in which the confession was originally made and the circumstances in which it was afterwards withdrawn. ——*Evidence—Retracted confession—Confession how tested.*

It is the universal practice of the Patna High Court not to rely or act on a confession which has been retracted, unless after consideration of the whole evidence in the case the Court is in the position to come to the unhesitating conclusion that the confession is true. This procedure will practically effect the same result as a rule requiring proof of the voluntary character of a confession, inasmuch as though these decisions require evidence of the truth of the confession and not of its voluntary character, the truth of voluntariness may not unreasonably, though not necessarily, be inferred where the truth of the confession is established. There is no rule or law which compels the Court to raise an inference of improper inducement from the mere fact that a confession is retracted; but as a rule of prudence, the Courts in this country have consistently declined to act on a retracted confession, unless the confession is corroborated by credible independent evidence. In the case of admission or confession, Courts cannot ignore a portion of such admission or confession and act upon what remains of that admission or confession. It is settled law that an admission or confession must be taken and considered as a whole. (*Das and Adami, JJ.*) EMPEROR *v.* DEWAN KHAR. **4 Pat L. T. 186 : 24 Cr. L. J. 497 : 72 I. C. 961 : A. I. ——*—Evidence, if weak, no ground for finding accused guilty—Weakness of defence.*

Because the defence evidence is all untrue, it cannot be assumed that the accused is a dishonest person, and therefore he had dishonest intention in receiving stolen property. It is the duty of the prosecution to establish by its own evidence that the accused is guilty. The weakness of the defence evidence is no ground for finding the accused guilty. Where the reason for the acquittal of the accused by the learned Sessions Judge was certain inconsistencies and improbabilities in the evidence of the prosecution story and the difficulty of finding any explanation justifying the rejection of the *alibi*. *Held*, that if the prosecution is to be rejected in substance there must be some other explanation of the facts that actually occurred. Failing any such explanation it is not permissible to reject the prosecution evidence owing to immaterial discrepancies or improbabilities. (*Lyle and Ashworth, A. J. Cs.*) EMPEROR v. First information.

——*—First information—Conviction based on first information report alone, illegal — Evidence Act, S.* 155—*Cr. P. Code. S.* 161.

First information report is not substantive evidence of the facts recorded in them and a conviction cannot be based on such reports. They can be used to corroborate the witnesses who made them and are of value as showing that they told the same story at the first possible occasion. If they tell a different story in Court, the report can be used to contradict them or discredit their testimony. But it is not legitimate for a Court, when witnesses tell a different story in the witness-box and contradict the report made by them to discard the evidence given on oath and to rely on the report. P. C., adding some more persons in the complaint, who were not implicated in the first information report. The issue to be tried in the case was whether the accused persons had forcibly taken away the girls committing an offence under S.363, I. P. C., or whether the girls had gone away willingly of their own accord and the complainant finding that the girls had disappeared, had falsely brought the charge

In a trial for murder, the evidence disclosed that prior to what was recorded as first information, a report had been made to the police about the murder, but a record was not made of this nor the informant examined as a witness in the case. *Held*, the failure to record the earlier report entailed the discarding of the so-called first information, and the non-production of the person who gave the first report to the police deprived the accused of the valuable right of cross-examining a material witness. As a general rule conviction under a section which provides a penalty for a variety of acts done in contravention of the statute is bad for duplicity where the section contains a variety of inconsistent alternatives. CRIMINAL TRIAL—Irregular Procedure.

If the prosecution wants to call the counsel for the defence as a witness on its side sufficient notice ought to be given to the accused to engage a competent counsel. It is very reprehensible to call a counsel who is actually defending an accused person as a prosecution witness, in the course of the proceeding. Such a course not only affects the proper conduct of the defence, but it gives a handle to the prosecution to prevent a counsel who is well acquainted with the facts of the case from conducting the defence. Even if such persons are committed there is no necessity for the Sessions Judge to inflict a vindictive sentence. ——— *Sentence — At separate trials by separate Judges and juries, uniformity of conviction and sentence cannot be maintained.*

The principle of uniformity in convictions and punishments cannot be maintained in all cases where there are two trials—one original and the other supplementary—one batch of prisoners being tried by one Judge and one jury and the other batch by a different Judge and different jury. ——— *Sentence—Court's duty—Delay to be avoided.*

However guilty an accused person may be, it is most undesirable that he should be subjected to the strain and anxiety of prolonged proceedings unless it is absolutely unavoidable. The length of the proceedings is material on the question of sentence The strain, anxiety and mental suffering to which the accused must have been subject during a long time, is a matter which may legitimately be taken into consideration in passing sentence. ——— *Sentence—Fine—Extent of.*

A sentence of fine should not be imposed which it is wholly impossible for the accused person to pay without ruining himself and without inflicting great hardship upon his family. The maximum fine to be imposed upon any individual should depend in every case upon his position in life: If the offence is of an aggravated type a sentence of imprisonment is obviously more suitable than fine. ——— *Sentence—Reduction—Plea of repentance.*

There is no particular merit in confessing a crime committed openly in broad daylight, of which there was at least one eye-witness, confession may indicate repentance, but that can only effect reduction of that part of the sentence that is purely reformative, and that factor has disappeared from the capital sentence, leaving only the exemplary factor.

——— *Sentence—Punishments—Deterrent— Principles.*

It is of some importance that the theory of deterrent punishment should not be loosely put into prac-

CRIMINAL TRIAL—Sentence.

tice and that the principles upon which alone a deterrent penalty should as a rule be inflicted clearly comprehended. Deterrent punishments are now regarded only as of utility under exceptional circumstances. When waves of imitative crime such as, for example, garoting, gang-robbery, (or dacoity as it is called, here, and forgery of counterfeit coin or notes commence to sweep over a state, judicious and increasing severity may properly be utilised to check and deter such an inundation again in times of public tumult when there is a danger of wide breach of the public peace or security : or where a highly organised or what one may call semi-professional association of persons engineer series of offences such as swindling or burglary deterrent punishments may be with caution advantageously inflicted. Such a category is naturally not exhaustive but illustrative only ; and sound knowledge, experience and a proper sense of perspective are alone the guides which can safely be followed in concluding whether the use of such an aid to the maintenance of the order and tranquillity of a locality is properly permissible and desirable. To adjust the punishments so as to make it appropriate and to balance it, so that it justly fits the gravity of the offence but does not shock the public conscience and thus wrap and dull the public's social sense and appreciation of crime as evil, should be the aim. Essentials of Validity.

——*Essentials of validity—Rights of passage by boat—Legality of custom.*

The essential characteristics of custom are that it must be of immemorial existence, it must be reasonable, it must be certain and it must be continuous. Every custom must have been in existence preceding the memory of man and if the proof was carried back as far as living memory would go it should be presumed that the right claimed had existed from time of legal memory. Want of continuity or interruption or disturbance raises a strong presumption as to its non-existence. The reasonableness of custom is so very necessary that if it be against reason, it has no force in law. The commencement must be based on a reasonable cause for if an alleged custom is unreasonable in its origin, no usage or continuance can make it good; but by this, all that is meant is that it is sufficient if no good legal reason can be assigned against it. As to the element of certainty not only should its nature be certain, but there should be certainty in respect of the locality where it exists and also in respect of the persons affected by it. A customary right of boat passage may exist over the water of another by virtue of a custom. Such rights existing by custom are to be distinguished from public rights of boat passage which arise from dedication or grant and from private rights of boat passage which are easements properly so-called. A customary right of boat passage is one which may be enjoyed by any member of a body or class of persons, or may exist only for the benefit of a limited section of the public and it cannot be used under a claim of right by any person who is not a member of that body or class in whose favour it exists. Such customary rights may exist in favour of the inhabitants of one particular village or more villages than one sufficiently well-defined.(*Mukerjee, J.*) KRISHNA KUMAR DEB *v.* ATUL CHANDRA GHOSE. **39 C. Evidence of.

——*Evidence of*—Wajib-ul-arz—*Ambiguous statement—Evidentiary value.*

CUSTOM (GENERAL)—Evidence o .

A custom is not established by an ambiguous statement of it in a *Wajib-ul-arz*. But when it is not shown by reliable evidence that the Settlement Officer neglected to perform his duty or was misled in recording a custom, and it does not appear that the statement of the custom is ambiguous, the record in a *Wazib-ul-arz* of a custom is most valuable evidence of the custom, much more reliable evidence than subsequent oral evidence given after a dispute as to the custom has arisen. ——*Evidence of—Entries in* Wajib-ul-arz—*Evidentiary value of.*

Wajib-ul-arz is a record of custom. The evidentiary value of the entries made in a *wajib-ul-arz* is not in any manner minimised by the fact that the person relying upon the custom has not supported the entries by proof of instances of succession in accordance with the entries. It has never been the rule of evidence in cases of a similar nature decided by the Court that the occurrence of instances in accordance with an alleged custom was a necessary part of the proof of the custom and that in the absence of such instances the plea of a custom must fail in spite of over-whelming evidence of a different nature. (*Dalal, and Wazir Hasan, A. J. Cs.*) BAIJ NATH SINGH v. RAJJU SINGH. **12 O. L. J. 571 : L. R. 6 Oudh 101 (Rev.) : 2 O. W. N. 872.**

——*Evidence of—Custom set up to be precisely proved—Proof of different custom.*

Evidence to prove a custom must not only be consistent with the custom which is alleged but must also prove a custom which is not wider than that alleged. If the evidence tends to prove a custom wider than that which is alleged, the party seeking to establish the custom is not at liberty to adopt part only of the evidence and to reject the rest. But this does not necessarily establish the converse, namely, that if a broad custom is pleaded the existence of a lesser custom could not if proved be found. The defendants alleged a custom which they failed to prove; but from evidence given on behalf of the plaintiff to rebut the evidence given on behalf of the defendants, the Courts considered that it was apparent that a custom had been proved, of the same type as that which the defendants had alleged but of a narrower compass. *Held*, that in modern times a Court could have little hesitation in finding that although the entire custom alleged by the defendant did not exist but a material part of it did. ———*Local custom—Proof of—Right of way—Antiquity—Open user.*

A Court should not find a local custom unless it is satisfied of its reasonableness and its certainty as to extent and application and is further satisfied by the evidence that the enjoyment of the right was not by leave granted or by stealth or force and that it had been openly enjoyed for such a length of time as suggests that originally by agreement or otherwise, the usage had become a customary law of the place in respect of the persons and things with which it is concerned. The evidence must be sufficient to show that the right has been openly enjoyed for such a length of time as suggests that originally by agreement or otherwise the usage had become customary law of the locality. The doctrine of lost grant is applicable to private rights claimed by prescription. It is inapplicable to a right claimed on the basis of immemorial custom. The question of legal origin is only of importance where it is suggested that the right claimed might have originated within the time of memory, whatever that time may be. In the case of a custom its legality depends

on such considerations as its reasonableness and its certainty. As to the length of user or enjoyment which must be proved before a local custom may justifiably be inferred no definite rule can be laid down. But if the existence of the custom depends on oral evidence, and the user of enjoyment is taken back as far as living memory can be expected to go, then in the absence of rebutting evidence it is not unreasonable to say, *presumintur retro* or to infer an immemorial enjoyment of the right, or say, in Bengal, an enjoyment from the time of the Permanent Settlement. ———*Proof—Custom cannot override law unless immemorial, reasonable, continuous, certain and proved by clear evidence. Mere opinion of leading members of caste is not enough—Particular instances are necessary —Instances of non-taking will not prove custom of exclusion of women from inheritance but it can be proved only by absence of instances of taking and instances of being disallowed to take.*

Custom which is put forward as superseding the ordinary law must be proved by clear and unambiguous evidence. In order to be valid it must be immemorial, reasonable, continuous, uninterrupted and certain. The oral evidence emanating from persons

who are highly interested in the proceedings isof very, very little value. Merely the opinion of leading members of the community or the caste as the case may be is not enough to prop an assertion of special custom. But instances must be established in which the custom in question has been proved fully. Per *Kennedy, J. C.* Any number of instances of women not inheriting will not be enough to prove that there is a custom requiring that they must be excluded from inheritance. In such a case it is necessary to prove that the women desired to take their share of inheritance and were refused because of custom. It must also be shown that there were no instances in which women did take the inheritance. The exclusion of females from inheritance cannot be established unless it is proved that some of the females asserted their rights as heirs and were denied their rights. To prove merely their passive acceptance of their position in cases where their male relations give them all that is necessary for their every day life and their not actively asserting their rights to any share in property is not enough. In order to establish the exclusion of females who are dependent on their male relations and subservient to their control from inheritance, it must be proved beyond a shadow of doubt that their exclusion by reason of custom having the force of law was known to them. ———*Succession —Wajib-ul-arz —Interpretation — Widow specifically made successor to husband—Restraint imposed on alienation—Widow was held to be owner of property and not merely entitled to usufruct.*

The material portion of the wajib-ul-arz ran as follows : "The widow is entitled to share of her husband." Then it narrated that she would be entitled to this share whether the husband was separate from his brother or joint. Then the wajib-ul-arz went on to state that the widow shall not have any right of transfer. Rules were then laid down as to the right of an owner of the property to adopt a son which right was not given to the widow. There was then the clause : "The share of the deceased will be obtained by that person who will be nearer in degree." In the presence of male issue the female was debarred from succession and finally a right of maintenance was given to wives not duly married and their children. *Held* : that as the widow was specially made a successor to her husband and it was not stated that she would only have the usufruct, the proper interpretation ought to be that she was made full owner and then certain restraints were put on her rights of ownership. While she was in possession and as owner nothing remained over to be vested in any other person. Succession to the husband's estate opened only after the widow's death and the relation of the husband who at the death of the widow was nearest in degree excluded others. (*Dalal, J. effect also that on the death of a childless widow her and her husband's properties are inherited according to their respective stocks by the persons descending from the same ancestor as her husband, but without any regard to the nearness and remoteness of the persons taking the properties. The latter custom is a different custom and is strictly to be proved. If a party relies upon the special custom of a family to take the succession out of the ordinary Hindu Law, such custom must be proved to be ancient, continuous certain and reasonable and being in derogation of the general rule of law must be construed strictly. A custom must be satisfactorily proved by evidence of particular instances so numerous as to justify the Court in finding in favour of the custom. One instance or even four modern instances are not sufficient to prove a custom. (1905) 8 O. C. 94 (100) referred to.

Per *Ashworth, J.*—Since the *stridhan* of an issueless woman devolves first on her husband and then on his *sapindas* a custom regulating succession by *sapindas* to a male's property must also be held to regulate succession by the *sapindas* of the husband to the *stridhan* property of his widow. (1908) 11 O. C. 1 and (1913) 17 O. C. 1 distinguished. A custom must be unequivocally stated and proved but it does not follow that it cannot be proved by inference. ———*Usage—Difference.*

Usage should never be used as synonym for custom. It has two distinct legitimate meanings but neither of them should be confused with custom. It is used to denote what is done by people uniformly and consistently. Used in this sense usage has not the force of law. It would only obtain the force of law when it is proved to be reasonable, invariable, ancient, etc., in which case it becomes what is known as custom. It is also used to denote what is done uniformly and has been so done in a certain locality or by a certain trade or profession, etc., for a period sufficient to make it probable that people in their contract and in their contractual relationships adopt it as an implied term or condition. Where this is the case, a court which has to put a construction upon a contract, the trade or local usage, (here again usage has not the force of law nor will it be sanctioned by the courts if it is contrary to positive law, where a well established recent usage is proved and the proof is carried back for a period which may be regarded as covering the period of living memory), a presumption is thereby raised that this usage is in reality the exercise of an ancient and valid custom. If there is no rebutting evidence a decision in favour of the custom may be based on this evidence alone. If the presumption raised by recent usage is rebutted by proof that an ancient custom could not have come into existence then the usage fails to possess any legal effect. A family custom is not likely to be as the Hindu or Mahomedan Law it supersedes. There is no sound authority for holding that custom in India need not be proved to be ancient. Special usages modifying the ordinary law of succession should be established by clear and unambiguous evidence to be ancient and invariable. (*Ashworth and Simpson, A. J. In this part of the Punjab, which adjoins the United Provinces the nomination of an heir on lines resembling the Kritrima Hindu adoption is unknown ; that is to say even amongst people governed by agricultural custom the adoption that takes place is the full Hindu adoption by which a man is transplanted from his natural family to his new family and is entirely cut off from his past. Adoption Evidence of.

———*Adoption—Evidence of.*

In a case where the power of customary adoption by a sonless proprietor is not disputed all that is necessary to constitute an adoption is the clear expression of an intention on the part of the adoptive father to adopt the boy concerned as his son, and a sufficient manifestation of that intention is the execution and registration of a deed of adoption coupled with a clear declaration in court and subsequent treatment as adopted son. The proof of such subsequent treatment cannot, however, be reasonably demanded in a case where very soon after the execution of the deed of adoption the reversioners of the adoptive father sue for a declaration that the adoption did not in fact take place. CUSTOM (PUNJAB)—Adoption—Right to adopt

Adoption—Right to adopt.

*——Adoption—Right to adopt—Recognised by custom in Punjab—*Onus *of proving exception in particular communities is on party alleging the exception.*

The primary *onus* of proving that no custom of adoption exists amongst the Hindu Rajputs of the Saloharghot or Mauza Saloh in the Una Tahsil of the Hoshiarpur District is on the party setting up the custom. This is because the adoption of an agnate is allowed by Hindu Law as well as by the custom that obtains generally among the Hindus of the Punjab. A statement made in the *Riwaj-i-am*, unsupported by instances, contrary to general custom, inconsistent with previous *Riwaj-i-am*, and inconsistent with another answer in the same *Riwaj-i-am* in which the statement was made, was held to be of no value and to have no effect in shifting the *onus* of proof to the other party. 84 P. Alienation—Ancestral Property.

——Alienation— Ancestral property — Property allotted to a family by Settlement Officer settling a dispute does not become "ancestral" in the family.

The plaintiffs had the original title by long occupation ; the defendants had ousted them to a considerable extent and had undertaken some liabilities in respect of the payment of revenue, etc. The Settlement Officer, therefore, came to the conclusion that it would be equitable to settle half the lands with the

——Alienation—Ancestral property—Land is not ancestral unless got by descent only.

If a person purchases land from a collateral, notwithstanding that the land is ancestral in the hands of the collateral vendor, it ceases to be such in the hands of the vendee. The reason for this is that land to be ancestral must come into the hands of the owner by descent or merely by reason of his connection with the common ancestor. ——Alienation—Ancestral property—Property inherited from maternal grandfather.

Land inherited through a daughter is regarded by custom, as ancestral property in the hands of the daughter's son so that his sons may control his disposition of that property. 32 P. R. 1895, Foll. *Rossignol, J.*—The principle underlying the Punjab custom of agnatic succession is the retention of the land first in the family and then in the tribe. In the case of endogamous tribes, the postulates are satisfied whether the succession is through a male or female for in either case the land remains if not in the family at any rate, within the tribe, and it is especially among such tribes that a daughter is allowed to succeed as an heir even in the presence of agnates. In such cases a daughter and her heirs cannot be conceded wider powers of disposal than lineal heirs in the male line. (*Shadi Lal, C. ———*Alienation — Law Governing — Residential houses, transfer of.*

The custom as to transfer of tenancy without the consent of landlord was held to be not proved in this case with the following observation. There is a tendency in this province to set up in villages, customs which are subversive of the rights of property, as, for

example, in the present case a custom which, in fact takes from the zamindar the right to the site of a tenant's holding on the determination of the tenancy. The claim of a tenant to transfer a right of residence really amounts to this, for it means that the tenant, may, by assignment, transfer to a stranger a right of residence without the consent of the zamindar to force upon the latter a tenant who may be distasteful to him. It prevents the landlord from resuming the occupation of his land when a tenant selected and approved of by him, chooses to give it up. Where the deceased belonged to a mercantile community and was a resident of a town he would be presumed to be governed by his personal law in the matter of alienation and the persons who claim to the contrary must establish the existence of custom overriding the personal Law. The *Riwaj-i-am* contains merely an expression of opinion. It cannot be raised to the dignity of a custom unless followed in practice for a sufficiently long period and recognised as binding by the members of the particular community. A provision in the *Riwaj-i-am* that a gift cannot be made in favour of a daughter in the presence of near collaterals is too sweeping to govern all Hindus residing in towns. ———*Alienation—Necessity—Alienation by father of ancestral land—Payment of just debt is necessity—Where alienor is male, alienee need not show that alienor's income was sufficient to pay off such debt.*

The payment of a just debt by a male proprietor is a necessity for which he can validly as against the reversioners, alienate ancestral land. It is only in the case

of an alienation by a woman that the alienee is required to show that the alienor's income was insufficient to provide the money required for the purpose for which the sale was made. It is a well-recognized custom that a daughter should be given some jewellery on the occasion of her marriage, and it is also necessary that the guests who come to the bride's house on that occasion should be properly feasted and entertained. As to what would be a reasonable expenditure by a widow, one test is to consider what would be reasonable for a marriage if the husband were living. It is not the duty of the alienee to see to the application of the money or to find out if the whole of the money due to the antecedent creditor was actually paid; if a decree was in existence the payment of that decree constitutes a valid necessity. The fact that the decree-holder subsequently accepted only a portion of the amount due and gave up the rest of his claim is of no consequence and does not in any way affect the validity of the debtor of the alienation. Where it is necessary to purchase food and clothing and pay for it subsequently and such payment becomes technically necessity, it is equally regular to borrow the sum necessary to purchase such supplies and it is not absolutely essential that a man should first come into debt and then borrow to pay his debts. Considering the smallness of the sum taken, the fact that it was recited that it was taken on account of scarcity, that it was not shown that the vendor had any land beyond the small area which he sold and the long interval that had elapsed after the alienation without any objection being taken by the other collaterals, the Court held that the alienation was supported by necessity. ———*Alienation — Right to contest—Rights of grazing.*

According to the *Wajib-ul-arz* the area in question was specially set apart for the sole use of the Labanas it being clearly laid down that they and they alone could exercise these rights. The proprietors even appear to have been excluded from using this land for grazing purposes, *Held*, this amounted to an easement and speaking broadly, easements are generally inalienable apart from the property to which they are appurtenant. As the right to graze, etc., in these lands was specifically given to a definite set of persons every member of that set has a right to defend his rights against any infringements of them. The plaintiffs are vitally interested in maintaining the exclusive right of Labanas to exercise these rights and have therefore a *locus standi* to sue in respect of such infringement. The right to use the land for grazing purposes cannot be alienated by one of the owners of the right, for by doing so he introduces (as in the present case) a foreign element in the class of persons to whom the right was specifically restricted. ———*Alienation—Right to contest.*

Persons who are heirs to an estate are entitled to challenge alienations effected by females who are holding on life tenure under custom. Para. 23 of Rattigan's Digest of Customary Law runs counter to the principle of Hindu Law and custom does not exclude a daughter's son from inheritance on the ground of his mother having pre-deceased her father or grandmother. Under the Hindu Law a female takes only a life interest in the property inherited by her from a male and the nature of her interest does not depend upon the existence or otherwise of persons having a right to succeed to the property after her death. An estate of a widow under the customary law is subject to the same restriction as that of a widow under Hindu Law. Where the persons contesting the alienations are males whose right to inherit the estate is beyond dispute there is no custom which prevents them from impugning such alienations, they are entitled to contest. C. A. No. 128 or 1917, Ref. Where there is no custom applicable to a case the plaintiffs can fall back on their personal law. (*Shadi Lal, C. J. and Martineau, J.*) GOBINDA *v.* NANDU. **3 Lah. L. CUSTOM (PUNJAB)—Alienation—Widow.

———*Alienation—Right to contest—Daughter's son, if can control alienation by females—Onus of proof.*

Among Ghirths of Kangra District, a daughter's son has no *locus standi* to control alienations by the female heirs of the last male holder. As a rule the right to such control only extends to agnatic heirs of the last male holder and the burden of proving any extension of this right beyond the agnatic heirs lies on the person asserting it. ———*Alienation — Right to contest—Religious endowment—Dohli tenure.*

The dohli tenure is a peculiar kind of tenure to be found in the south-eastern districts of the Punjab. It is a rent-free grant of a small plot of land by the village community for the benefit of a temple, mosque or shrine or to a person for religious purposes. In the Revenue records the proprietary body are recorded as the owners of the property and the grantee is recorded as a tenant in the column of cultivation. So long as the purpose for which the grant is made is carried out, it cannot be resumed, but should the holder fail to carry out the duties of his office, the proprietors can eject him and put in some one else under a like tenure. Such a tenure cannot be sold or mortgaged and there can be little doubt such an alienation made by the dohlidar is absolutely void and can be challenged by his successor. Among Mair Minhas, Chakwal Tahsil, Jhelum District, a sonless proprietor can bequeath his properties by Will absolutely in favour of the daughter. The daughter can in her return will sway the property. A proprietor bequeathed his lands and house to his daughter and she in her turn made a Will in 1886 leaving the property to the defendant, her sister's son, and son-in-law. The daughter died and the plaintiff, collateral of the deceased male owner, sued for possession of his property contending that it reverted to them and that the daughter had no power to make a Will in favour of the defendant. It was found that in a prior suit to contest the Will instituted by the brother of the last male owner, the Will was found to be valid and that the daughter had full powers of alienation. There was no appeal against that decision which became final. *Held*, in the present suit that though the prior decision did not operate as *res judicata* it was very strong evidence in favour of the Will and that the daughter took an absolute estate under its terms. ——Gift—Sials of Muzaffargarh — Doctrine of Mushaa—Delivery of possession—Gift over—Validity.

Sials of Muzaffargarh have, by custom, unlimited powers of alienation by gift in respect of ancestral property. Females are not competent to object to an alienation by a male proprietor. Where a Tribal Custom says that the consent of heirs is required it can only refer to those heirs, who according to custom are entitled to grant or withhold consent. The doctrine of Mushaa has no application to gifts in the Muzaffargarh District. CUSTOM (PUNJAB)—Succession—Ancestral Property.

———*Succession—Ancestral property—Proof of.*

Where it was clearly established by the production of the complete pedigree-table that the common ancestor of the parties had founded the village, that the land in dispute was held at one time by the grandfather of the alienor. *Held*, that unless it could be shown that the land had, at any time, gone out of the hands of the family and had been re-acquired by the alienor himself or some of his ancestors, the presumption is irresistible that the property must have come to them as descendants and therefore must be taken to be ancestral. Succession—Chandawand or Pagwand.

———*Succession— Chandawand and Pagwand — Partitioned estate follows its own system of law.*

When a separate entity created by division or partition, comes into being, the full range of the succession to that entity is determined by whatever system is in fact proved to be in operation in that simple family. But where partition was a definite, an accomplished and a long recognised fact, it cannot be ignored. And accordingly the ambit of that system is confined to searching for the full-blood and half-blood within the divided and separated area. In that search it is not permissible to undo the distribution and search for the collaterals as if under the succession to the owner of the undivided property That the portion allotted to a group should belong as an entirety to the members who, for the time being, form or represent the group until the group is extinct, is no departure from the ordinary rule as to the devolution of shares. As to the re-distribution of the portion, and devolution of the shares intowhich the portion is re-distributed among the members of a group, that is a matter which concerns them alone, until the group is extinct, exactly as in the case of the share of an individual and his descendants *qua* other sharers and their descendants. On this view there is not really, at any time, a competition between half-blood and whole-blood, for the sons have been separated once for all, at the original distribution, into several groups, such that all members of each are related *inter se* by the whole-blood, and so far, each group resembles a single family. It is quite intelligible that when by reason of matters subsequent to a pagwand distribution the sons of several wives have arrived at a condition not distinguishable from the result of a chandawand distribution among groups of sons, the same customary rule should apply in cases of collateral succession, as applies when there has been a chandawand distribution. But the basis of the preference of the whole-blood, when it exists in such a case, clearly is the association of the uterine brothers into distinct groups, the pagwand distribution notwithstanding. ———*Succession — Chandawand and Pagwand — Whole-blood and half-blood.*

In cases of collateral succession arising under the customary law of the Punjab, where the dispute is as regards the property of a common ancestor of the deceased and of the claimants,if the *Chandawand* rule of distribution prevails the whole-blood excludes the half-blood ; if the *Pagwand* rule prevails both succeed together. ———*Succession—Chandawand and Pagwand*—Per capita *or* per stirpes—*Jats of Mauza Gurdaspur.*

The normal custom in the Punjab undoubtedly prescribes a division according to the *Pagwand* rule, and the *onus* lies heavily upon the person who relies upon the *Chandawand* rule, *i.e.*, division *per stirpes*. Not only is there a general presumption in favour of the division of property *per capita* but there are judgments relating to the Jats of Gurdaspur Tahsil in which the rule *Chandawand* was held not to be proved and the rule of *Pagwand* was followed in the matter of inheritance. *Held* also defendent failed to prove a family custom or to discharge the *onus*. Succession—Collaterals.

———*Succession—Collaterals—Succession to adopted son—Adoption deed should be construed according to circumstances of each case—Sometimes the executant's intention may only be the appointment of an heir—On appointed heir's death, daughter does not succeed in preference to collaterals when property is ancestral and the appointer as restricted power of alienation.*

In each case a deed of adoption must be construed according to its language and in the light of attendant circumstances and no hard and fast rule can be laid down on the subject. In some cases a deed of adoption may well be construed as a deed of gift while in others a gift *inter vivos* may not be contemplated, and the adoptive father's intention may simply be confined to the appointment of the adopted son as his heir, who would, as such heir, succeed to his property after his death,

On the death of an appointed heir his male issue succeeds, and in default of such issue his widow takes his estate on the usual life-interest, and if he leaves no widow the property goes to the male collaterals of the appointer if the estate consists of property over which the latter had only a restricted power. ———*Succession—Law governing—Murderer and his son if excluded—Public policy.*

Where a person has been murdered with the sole object of securing his property, the murderer along with his son is excluded from inheriting the property of the deceased, in spite of the fact that the property is ancestral property, as their succession would be opposed to public policy. The murderer's right in such a case is swept away and with it is carried away the right of every one who claims through and not merely from him. In such a case the vesting of the succession is not prevented but what was vested in accordance with the law is wrested away on the grounds of justice and equity. 41 P. On a question of custom as regards succession among Gujars of the Jeelam District the entry in the *Riwaj-i-am* was to the effect that a step mother would succeed equally with a son. *Held*, that the burden lay upon the son to prove that this was not the custom and that he had not discharged the *onus*. ———*Succession—Mother—Aroras of Montgomery District—Presumption.*

There is no agricultural custom among the Aroras of Montgomery District by which a step mother succeeds to her step-son. The fact that the tribe to which the parties belong have in many matters adopted agricultural custom is no doubt a fact to be considered in deciding whether or not the said tribe have adopted the particular custom set up by the plaintiff. But the fact by itself does not afford basis for the deduction that in the said tribe a custom exists by which a step mother succeeds to her step son (*Broadway and Zafar Ali, JJ.*) MT. CUSTOM (PUNJAB)—Succession—Sister.

——— *Succession—Sister—Khattars of Attock District.*

The sister of a childless male owner among the Khattars of Attock District is entitled to succeed to his non-ancestral property in preference to the collaterals of her father. (*Abdul Raoof and Abdul Qadir, JJ.*) MT. CHANDI BIBI *v.* AHMAD KHAN.
A. I. R. 1924 Lah. 265.

——— *Succession—Sisters—Collaterals.*

The position of females generally, as has been established in many decisions, is very much stronger in the Western Punjab than elsewhere. According to the Customary Law of the Muzaffargarh District a sister or sister's son of a deceased Jat excludes his collaterals of the third degree in the matter of succession to the estate. ——— *Succession—Sister—Makwal Jats of Isanmahar, Muzaffargarh District.*

All the tribes of the Muzaffargarh District recognise that on a man dying without male lineal descendant and leaving neither widow nor daughters nor daughter's sons the property passes to his (1) father, (2) brothers or their descendants, and (3) sisters, or their descendants. The position of a sister, therefore, in this District in matters of succession is a strong one. (*Broadway, J.*) HAYAT *v.* ALI MAHOMED.

——— *Succession—Special custom—Sonless proprietor—Appointment of heir.*

According to the customary law, a sonless proprietor has the power to appoint one of his kinsmen to succeed him as his heir. The appointment in order to be valid must be made in some unequivocaland customary manner and the execution of a deed coupled with a long course of treatment has always been recognised as one of the modes of manifesting such an appointment. 9 P. ——— *Succession—Widow—Widow by remarriage in the same family does not forfeit her rights in deceased husband's estate — Hindu Widows Remarriage Act applies to Sikh Jats in the Punjab.*

Among the Sikh Jats in the Punjab a widow does not forfeit her life estate in her deceased husband's property by reason of her remarriage in Rarewa form with her husband's brother whether he be the sole

CUSTOM (PUNJAB)—Village Community.

surviving brother or there are other brothers, as well of the deceased. The custom would appear to be founded on the just and equitable notion that by the marriage with the deceased husband's brother a widow still continues to be a member of the same family. She is considered to have done the right and proper thing in a community where the notion of polyandry prevails and the widow is theoretically recognised not only as the wife of her deceased husband but as the wife of all his brothers (86 P. R. 1901. Ref.) Widow marriage was recognised by custom in the Jat community before Act XV of 1856 (Hindu Widows Remarriage Act, and the custom was also prevalent in this community before this Act that the widow by marrying the brother of her deceased husband did not forfeit her right to the estate she inherited from the latter and provisions of Act XV of 1856 could not be taken to override this custom by virtue of S.7 of the Act IV of 1872 (Punjab Laws Act,) (*Kennedy, J. ——*Village community—Applicability of agricultural custom.*

One of the most important tests to be applied in determining whether a particular caste is oris not governed by agricultural custom is to ascertain whether or not they form a compact village community or, at least a compact section of the village community. If they do so, the presumption is strongly in favour of the applicability of custom. This presumption in favour of custom has been applied even in cases of Brahmins, and must be still stronger when applied to a tribe whose religious and social status is much inferior. Where the caste concerned forms a compact section of the village community there is a strong presumption in favour of custom. (*Scott-Smith and Fforde, JJ,*) PREM SINGH *v.* DARBARA SINGH. **A. I. Widow.

——*Widow of co-sharer can claim partition—Party denying the right should prove special custom.*

A widow of a deceased co-sharer in a joint holding hasa statutory right to demand partition and, although a suit for a declaration that she is not so entitled is competent in a Civil Court, the plaintiff can only succeed by proving a custom by which widows are restrained from claiming partition, and no consideration of desirability or undesirability should have any weight with the Court. 70 P.
